FREEDOM FROM RELIGIOUS TYR- SERMON OF THE REV. H. E. HAYS ANNY PROMISED IN THE END.

"When and What Is the Millennium" was the subject of the sermon preached at | Louis S. Bowerman last night.

In part he said: and a dream of the visionist. One of the ern life, Mr. Hays said, in part: surprising things to the average man is as to how much the Bible has to say great temptations which our Lord un-

"In our studies thus far we have come to the time of the restoration of the Jews to their own land; the beautifying of Jerusalem. Then the pouring out of the seventh bowl upon the air; the revealing of Antichrist on that lawless one whom Jesus is to overcome with the brightness of His appearing; the incarnate Satan as a faise Messiah coming and the Jews receiving power from the beast and the false prophet is one of the signs which the sons of the kingdom' will watch for.

The first temptation. Jesus had been in the desert fasting for forty days. He who a few weeks before had been proclaimed the Son of God, now appeared simply as a famished man. About him lay the round stones, looking for all the world like loaves of bread, and the tradition that they were loaves from the

The Era of Peace.

"Two things stand out as we read the New Testaument writings upon this subject. First, the binding of Satan, casting him with the beast and false prophet into the abyss and restraining for a thousand years; second, the ruling over the earth by the saints. Many erroneous views have come to the world just at these points. The New Testament speaks of the end of an age; the millennium is the beginning of another. In this connection we notice four 'comings' of the Lord are suggested. His first advent or birth; second, at the destruction of Jerusalem; third, the so-called second advent or overcoming of Antichrist; fourth, the coming for final judgment at the so-called end of the world.

"No interpretation will ever help us, unless we remember God's purpose of grace and that in the 'Let us make man in our own image,' man is still in the making.

A Prenaration.

A Preparation.

"This will prepare us for seeing the significance of the casting of the beast and false prophet into the abyss with Sa-

The greatest enemies of man have "The greatest enemies of man have been false religious systems. The curso of the world has been the so-called faiths that lived first for themselves and not for man. The greatest foe to liberty has been so-called religion, the bulwark of despotlsm, has always been a priesthood. The greatest revolutions have been those in which man was seeking deliverance from religious tyranny.

"True religion is man's helper and not man's master. 'Where the spirit of the Lord is, there is liberty. The millennium means the elimination of all ecclesiasti-

Another Phase.

"The other phase of our subject, the reigning by the saints with the Christ, is also suggestive. The careful study of the scene at the Mount of Transfiguration and of the 40 days after the resurrection of Jesus will be helpful; also the remembrance that the 'sons of the kingdom are as the angels.'

"In these you begin to realize how communication will be established between this world and the other one. The first resurrection 'has made alive all the witnesses for Jesus.' They are as the angels of God.' Moses and Elijah on the mount are types.

"These touch men below, these touch "These touch men below, these touch the mysterious world above. The church above and the church below work together for man's highest good. They rule in righteousness and Christ is thus reigning over both and ruling the nations of the world. God's purpose in grace is not to wipe out a world, but to wipe out sin. It is not to destroy a material world; but to overcome the world-liness of mankind. Out of the groanings of this creation he is working the regenisis of the new heaven and the new earth. of the new heaven and the new earth. The millennium is one of the steps to-ward that. "It is comforting to know that Immanuel as king shall reign in righteousness and of the increase of His kingdom and of righteousness there shall be no end. As He died for man, so shall He live for man, and His kingdom shall be pre-eminently the kingdom for man. With this vision no wonder the poet sang:

"Then let us pray that come it may, As come it will, for a' that:
That sense and worth, o'er a' the earth, May bear the gree, an' a' that;
For a' that an' a' that,
Its coming yet, for a' that;
That man to man, the world o'er,
Shall brithers be for a' that."

How would you like to be put to such sensational tests that your friends might find whether you cared for them. 'Thou shall not make trial of the Lord thy God.' But many are caught by such religious theatricals that are not in-

Most of Palestine and the borders of several other nations could be seen and the rest could be easily imagined. 'I will give you them all,' declared the devil, 'if you will this once fall down and worship me.' Jesus had nothing. He was here offered everything, not only wealth, but power. Why not take it? He had been promised the kingdoms of the world. Perhaps this was his chance. But Satan The millennium is one or the ward that. In this new era 'this restitution of all things,' this restoration prophecy indicates that the Jews wili play a very conspicuous part, if not even being the virtual leaders in the age of righteousness.

The Kind You Have Always Bought

Washington, Dec. 12.—Extension of American citizenship to Porto Ricans who desire it and without forcing it upon those who do not is recommended by General Clarence R. Edwards, chief of the bureau of insular affairs, in his annual report, made public today.

In speaking of the recent tariff legislation by congress for the benefit of the Philippines, General Edwards says the price paid to the grower for his leaf tobacco from 10 per cent for the poorer grades to 45 per cent for the best grades. The price received by the producer of sugar has increased 25 per cent.

He says that, up to date, importations into the United States of Philippine cigars since the passage of the tariff act have been at the rate of about 75,000,000 a year, or nearly half the limit for free admission.

"The effect on the American industry of this importation." says General Edwards, "may well be judged by the fact that these cigars may be found only with the greatest difficulty."

General Edwards says that one-half of the regular number of troops would not be able to march overlend from Breytcwn because of the swamps and jungles, and that they would not be able to march overlend from Breytcwn because of the swamps and jungles, and that they would not be able to march overlend from Breytcwn because of the swamps and jungles, and that they would not be able to get the use of river boats. It is said to be well established that the chief cause of the present revolution was the failure of Zelaya to distribute among his seven associates a loan of among his seven associates a loan of \$5,000,000 obtained recently in Europe. The seven were given a share of the money, but not on the basis of apportionment that had governed the distributions in

That is the view of the situation as taken on the isthmus, where, to be sure, there are many Nicaraguans, naturally strongly opposed to the present administration in their country. They are of the opinion that Zelaya sees that the game is up, and is anxious to make his departure in safety. He would ratherstand in the eyes of the world as having been forced out by the United States than by his own people, and this is why he has provoked reprisals by the brutal shooting of Cannon and Groce.
