

HAIR REMOVERS ARE DANGEROUS

Physicians Say: "Don't Use Poisonous Depilatories."

The extravagant claims recently made by unscrupulous manufacturers of hair removers in sensational advertisements unquestionably justify physicians in cautioning the public against the use of this class of depilatories. How many people have been enticed into using these dangerous preparations with consequent injury to themselves cannot be estimated, but only guessed at.

The preparations above referred to are invariably in the form of creamy pastes, which are to be spread upon the skin to remain until they dry. These contain sulphide of barium, an insoluble chemical, which cannot be dissolved, therefore cannot be absorbed by the skin. The very fact that you are told to leave these pasty compounds on the skin until they dry and cake and then lift off with a knife is positive proof that they are not absorbed. If they are, why do they still remain on the skin? The most they can possibly do is to remove the surface hair, which in consequence will reappear stronger and thicker after each removal.

There is only one logical and scientific way to remove hair, and that is by means of a liquid containing soluble ingredients which can be absorbed by the skin. De Miraculo, known all the world over as the only real superfluous hair remover, is just such a preparation. It is easily and quickly absorbed, and after you have used it you will note there is nothing left on the skin. It leaves the skin free from irritation, and what is more to the point, it is absolutely non-poisonous, therefore it will not produce eczema or blood poisoning. Remember, no matter what claims made to the contrary, no poisonous, pasty compound or other worthless concoction can reach the hair root, and we can prove it.

Beware of the fake free advertisers and others. Don't be deceived by them. Better take a doctor's advice. We will send you a 52-page booklet containing full information concerning this remarkable treatment, as well as testimonials of prominent physicians, surgeons, dermatologists, medical journals and the principal magazines. You should read this booklet before you try anything. Write to the De Miraculo Chemical Co., deak 88 1695 Park ave., New York, simply saying you want this booklet, and it will be mailed, sealed, at once.

Funeral of Henry Rudy

HENRY RUDY. Whose Funeral Will Be Held in Fifteenth Ward Today.

In the death of Henry Rudy last Friday, Salt Lake lost a man whose usefulness in the community has extended over a period of forty-eight years. During his long residence in the state he was prominent in the affairs of the Mormon church. About ten years ago he retired from activities of business life. Friends will view the remains at the family residence, 214 South Fourth West street. The funeral will be held from the Fifteenth ward assembly hall at 1 o'clock this afternoon. Interment will be at the City cemetery.

A Word With You

About our "guarantee of satisfaction," and what it really means. To you it means that whatever you buy here must satisfy you, as long as you have it, there's no limit to the guarantee except the limits of your satisfaction. You know better than anyone else what satisfies you, whatever you mean by satisfaction, we mean. We judge by your idea of it, not ours; we guarantee satisfaction; not some special meaning of the word.

To us this guarantee means that we must do anything necessary to make it good. If the furniture is wrong we want to know it as much as you do. Complaints are welcome; it's the unuttered opinions that do the harm. The furniture that comes back does not do us one-tenth the injury as the mistakes we never hear about. Naturally with such an obligation upon us we have to be extremely diligent to see that our furniture is right; to see that no customer is persuaded to buy what isn't best for him, that doesn't suit him. Our idea is one of service, rather than selling! Real service takes care of the selling.

YOU'LL FIND BY COMING HERE, or by asking those who do, that we have won distinction and success by selling medium priced, high quality furniture; a distinction we're proud of. Anybody can sell a lot of cheap stuff. Our success is different because the values are high.

SPECIAL INDUCEMENTS

The pride we feel in our store is fully justified and we are particularly anxious to have every one see what we have to offer. As a special inducement we are quoting some very low prices the coming week on staple articles. While special prices are for cash, still we are always willing to extend to any reliable person LIBERAL CREDIT.

Let Your Own Judgment Rule

Do not let your enthusiasm for our Brass Beds influence your decision. Use your own judgment and purchase here only when you are satisfied that we can give you a bed fully worth the price we ask for it. This splendid full sized bed, two-inch posts, heavy brass fillers—regular \$27.50 value, fully guaranteed, only **\$18.00**

The Quality of Finish

Or Lacquer is of vital consequence as no Brass Bed can give service unless properly finished. Every bed in our line is guaranteed, finished with the famous DE LOSS English Lacquer by the hot process. This splendid two-inch post bed, either satin or bright finish, regular \$38.00 value, for only **\$24.50**

33 1/3 % OFF ON ALL PORCH GOODS

GRAFTING IN CLEVELAND. County Commissioner W. F. Eirick met E. A. Binyon, secretary of the Municipal association, the other morning in the court house. "Binyon," says Eirick, "what do you think! I've just caught on to a bit of petty graft in this county. Not only in this county, but right in my own household! Can you beat that? It's a house!" Eirick bit off the end of cigar morosely before he continued. "You see," he went on, "my wife has been allowing the washwoman 10 cents car fare every time she comes. And I've just found out that the washwoman lives on a 3-cent car line and has been 4 cents to the good on every one of the transactions for the last couple of years. Ever hear the like of it?"—Cleveland Plain Dealer.

PIPE THAT SMOKES ITSELF. After filling a decanter about two-thirds full of water close it by means of a cork

provided with two apertures. Through one of these pass a short pipistem and through the other a longer stem that enters the liquid. To the smaller tube affix a cork provided with two apertures. The apertures may be easily formed by means of a red-hot poker. The lateral aperture serves to fix the pipe. Finally, with the other cork and a bent tube form a siphon. After the latter has been primed and is once in operation it will tend to empty the decanter, and the vacuum formed will be immediately filled by the external air flowing in through the pipe. It is then only necessary to light the latter in order to see it "smoke itself" tranquilly as long as any water remains in the decanter. This experiment is a very interesting one, and may easily be performed.—Scientific American.
