GARLAND

Its Resources To-day and

Prominent Possibilities of To-morrow.

GARLAND, the bustling, growing city of Northwestern Box, is fortunately situated in the Great Bear River Valley to-day of an enterprising population exceeding 650. The daily influx of seekers, capitalists and realtors anxious to locate here foretells a future for this city and insures a score than is at present calculated or imagined.

The city, built on a substantial foundation, is beautifully laid out covering a level surfaced area of 420 acres including a portion of sections 26, 27, 28, 29, 30, 31, 32, N. R. 3 W.

The city proper centers at the roads of Factory and Main streets, being County roads. Factory street is the county road east and west—the city extending from the depot on the east to the Utah Sugar Factory on the west, a distance of but one mile. Main street is the county road north and south and centrally divides the city east and west. Many pretty and substantial dwellings constitute the townsite proper and the suburbs are thickly dotted with the homes and pleasant surroundings of an industrious, contented community.

The commercial center, the business blocks, erected and in course of construction, the business activity existing and the amount of bustle and stir daily in evidence predict a future replete with progress and prosperity.

Garland, yet in her infancy, rivals many cities of the state whose foundation stones were laid ere the migration of the red man from this ideal spot. She has broad thoroughfares, excellent water and electric light systems that any city would be proud to own, and last, but not least, The Sugar Factory owned and operated by the Utah Sugar Co., with its extensive interests and heavy pay rolls that furnishes employment to hosts of hands and is thus the financial maintenance of this thriving town. The surrounding towns and in fact many cities of the state are to-day clamoring for "pay rolls" and they fully realize that the city of Garland is fortunate to be one of the blessed.

The amount of money disbursed monthly by factory and employes cannot and will not fail to make Garland's future bright and prosperous. There is more money per capita in circulation here than in any other town of its size in the state, the only exception probably being some small, rich mining towns. A glance at the following mentioned firms and the prospective enterprises coming with the advent of spring will verify our statements above and present the city to all interested in its true condition.

OUR SCHOOLS.

The school privileges of Garland are as good if not better than can be found in any city of its size. The city school building is a credit to the city and is centrally located. Berdit Smith is the principal teaching the higher grades. Mrs. Letta Jensen has charge of the intermediate department and Miss Bush the primary department. Garland school north is well attended. A. Vance is the principal and Mrs. Tillie Porter, assistant.

WALL'S LIVERY STABLE.

H. D. Wall's Livery Stable on Factory street next to the Amusement Hall, has the reputation of being a reliable establishment and is well supplied with horses, rigs and apparatuses for the use of the public. Mr. Wall has only here for a few months but has a host of friends and acquaintances. He came to this city from Pt. Lookout. The hauling of coal, hauling of goods and anything in the drayage line is one of their specialties.

THE POSTOFFICE.

Our Postoffice is one of the best in the county outside of the county seat and is centrally located being just north of Grover, Rose & Co's establishment. O. L. Wilcox has filled the position of postmaster since May 15, 1901, when he was first established at North Garland. April 1, 1904, the office was moved to Garland proper and made an up-to-date office in every respect. Besides his large and roomy it has more than a dozen lock boxes for the accommodation of the public. Recently Mr. Wilcox resigned in favor of Mrs. Eva C. Wilcox and she received her appointment.

THE GARLAND CAFE AND BAKERY.
D. C. Zitsmann, formerly of Ogden, an experienced baker and restaurant man, came to this city about six months ago and last September opened a bakery and restaurant here known as The Garland Cafe. The Cafe is next to the Garland Club and Mr. Zitsmann enjoys the distinction of being the only baker in the city and furnishes our citizens with "staff at life."
Regular meals and short orders are served.

RITER BROS.' BLOCK.
One of the handsomest and most substantial edifices of the city is the Riter Bros.' Block, corner Main and Factory streets, a 2-story brick 45000 feet.

This building was completed last June and is occupied by a number of business and professional men who will mention in their respective order. The Riter Bros. Drug Co., Mr. Miller the barber and The Bank of Garland occupy the lower floors. There are three rooms in the second story where will be found the K. M. Bell Telephone office, the firm of Drs. Frank and Green, Judge Vanausden's office (where the Garland Commercial Club meets Monday night), a dentist's office and several other rooms which are all occupied. H. C. Vanausden is our local real estate and insurance man.

GROVER, ROSE & CO.
The firm of Grover, Rose & Co., is one of the pioneer business houses of this city. Mr. Grover, the senior member, conducted a business in North Garland history. This city was laid out four years ago and moved here about two years later. One year later Mr. Rose became connected with the firm and since then they have been one of the leading houses of the city. Both members of the firm were boys together and came here from Farmington fifteen years ago. They carry a general merchandise stock also staple and fancy groceries, shoes, etc. They employ a number of hands and are meeting with great success in their business venture.

THE GARLAND LIVERY.
Rife Bros., (W. J. and A. J. Rife), are the proprietors of The Garland Livery and conduct a livery, feed and sale stable that is metropolitan in every respect.
Their rigs are all up-to-date and can be secured at a moments notice.
They are equipped to do all kinds of drayage and pay special attention to all customers. The Garland Hack meets all trains at Deweyville and is an up-to-date contrivance, warm and comfortable to ride in.
Horses and mules are bought and sold by them and they are enjoying their share of patronage.

OUR NEW JAIL.
Among the recent improvements that is a credit to the city is the new jail in course of construction. It is a cement structure situated in the eastern portion of the city and the cost of its erection is estimated at \$2,400. The building is also to be used for council chambers and offices for the various city officials. What the town board undertakes is well planned and this building is an example of their progressive spirit.

THE PEARL SALOON.
The Pearl Saloon, next door west of The Garland Livery, is under the management of Stephens Bros., who have for the past eighteen months successfully carried on a wholesale and retail liquor business. Ogden was their former home. The building they occupy was built by them and they have made many friends here by their systematic methods.

In connection with their large and handsome bar-room they also have a pool and billiard hall for the accommodation of their many customers.
All brands of wines, liquors, beer and cigars can be found at their place of business.
The electric piano is a drawing card and never fails to please all who enter.

THE GARLAND CLUB.

Eph Coombs, manager of The Garland Club, is successfully conducting a billiard establishment opposite Boothe's on Factory street. The Garland Club was formerly owned by Ball & Co. Coombs became the manager of the club some five months ago and has since that time won for himself and his club many friends. He came here from Ogden, Utah.
The club has an excellent bar room, pool and billiard hall and all the modern conveniences. Beer and cigars are kept on hand and are served at all times.

BLACKSMITHING.

John Bone who moved here from Lehi, Utah, has recently moved into the blacksmithing business. He is receiving a considerable amount of patronage from the public. His shop is situated in the rear of the office of Horace and Green's blacksmithing and repairs shops his

fire glowing and the anvil ringing.

SNYDER'S BLACKSMITH SHOP.
E. V. Snyder, formerly a resident of Farmington, Utah, located here as a general blacksmith about two years ago and has been kept busy at the anvil ever since. He assisted in building the place he now occupies. His place of business is just north of the Garland Clothing House. He is an expert horse-shoer and general blacksmith.

RITER BROS.' DRUG CO.
The Riter Bros.' Drug Store in this city is the best in Box Elder county and second to none in Logan or Ogden. A complete stock of everything in the drug druggists' sundries and stationery line is found there and the fixtures, all of quarter-sawn oak, are the finest. The large prescription case with its beautiful mirror front equals anything we have had the pleasure of scrutinizing. The drug store was opened to the public June, 1905, and is at present under the management of J. A. Rostan, who has been with the company for the past thirteen years. Logan is Riter Bros.' headquarters and they also have stores at Franklin, Preston and Montpelier, Idaho. This one at Garland is the last branch established and reflects credit to this company of long standing as well as to the progressive city of Garland.

THE R. M. B. TELEPHONE CO.
Six months ago this company established a central office in this city and opened an exchange. It is surprising to note the rapid growth that has followed this move. The Bell company has almost the entire service of the city and the number of phones installed makes the service very satisfactory. They occupy two rooms on the second floor of Riter Bros.' Block. R. N. Davidson was the manager up to the 16th of Jan., 1906, when he was transferred and Delois Bacon made the local manager. Miss Sarah Fowler is chief operator, Miss Julia Rhodes, night operator and Miss Eva Rice, relief operator.

W. A. RAY.
The general merchandise establishment of W. A. Ray, on the corner of Factory and Main Street, claims the honor of being the first business firm to venture into this locality, being established Oct. 1, 1903. W. A. Ray, the proprietor, is a successful business man having spent most of his life in the mercantile business. He conducted a successful business at Deseret, Utah, then in Salt Lake City for a number of years. He next moved to Deweyville and there met with much success. Then seeing a good opening he came to Garland and here he conducts an up-to-date merchandise store and carries a good stock of dry goods, notions and gent's furnishings. He is kind-hearted and enjoys the friendship of all who know him.

THE O.S.L. DEPOT.

Malad Valley Branch.
The O.S.L. depot at Garland on the Malad Valley Branch is one of the best along the line and is in charge of N. W. Parker, the local agent, who transacts the business for the railroad in a business-like manner. Mr. Parker came to this city about eighteen months ago from Colorado and is an experienced railroad man. He is also the operator as well as the agent.

The building is large and has a neat office, roomy warehouse and other accommodations. Tank, pump-house, side-tracks and the branch line to the Factory are noted features of the surroundings.

GAY HUFF.
Mr. Gay Huff has an office in W. A. Ray's store and is kept busy repairing jewelry and watches. He is an expert in his line of repairing all kinds of locks, clocks, watches, jewelry, etc. He is the only engraver in this section of the county.

THE SASSER RESTAURANT.

The Sasser Restaurant, occupying a building next to Mathias & Parry's Butcher shop, is in charge of Mrs. Ava Sasser, a native of North Carolina. The building she occupies was used at one time as a Dayton Hotel. She has had considerable experience in the restaurant business and serves regular meals and luncheon.

BARBER SHOP.

Edouard, barber of Riter Bros.' Block, is a successful barber and hair dresser. He is located in the rear of The Bank of Garland and is up-to-date in every respect. In connection with his shop he has a good bath for the accommodation of his customers. Mr. Miller hails from St. Louis and has been in this city for about one year.

DRS. FRANCKE & GREEN.

Dr. Francke and Dr. Green, physicians and surgeons, occupy the front room on the second floor of the Riter Bros.' Block. Both of these gentlemen are from Kansas City, Missouri, and have a host of friends in this vicinity.

SHOE SHOP AND HARNES REPAIRER.

C. A. Johnson, who emigrated to this section from Sweden, is situated in a cozy little building on North Main Street and finds pleasure in his occupation as a repairer of shoes and harness. He has been in business but a few months and has been quite successful.

MATHIAS & PARRY
Garland has one up-to-date butcher shop and one only. Mathias and Parry, both of Brigham City, built and moved into a new building November last and have been very successful in this line of business. Besides the large shop, they own a slaughter-house, ice-house, barn, rigs, and other necessary equipment and successfully carry on a business that is giving general satisfaction. 120 tons of ice is stored in their ice-house for summer use. Their business is on Factory Street next to the Cement Factory.

North Main St., Brigham City, Utah.

OUR OFFICERS.
The town board and appointed officers, who have faithfully guarded the city's interests for the past year, met at the office of The Utah Sugar company Wednesday evening, Jan. 28th, and gave an account of matters pertaining to the city and turned the business over to the newly elected board who qualified and are now in charge of the city's affairs. The new board made one change in the council, Mr. Capener who was elected resigned and T. H. Edwards is again a member of the board. Two members of the outgoing board, T. E. Seerist and T. H. Edwards retain their seats in the new board. We publish herewith a list of the officers of the outgoing and newly elected boards.

OUTGOING OFFICERS:—Mosiah Evans, president; W. D. Lewis, T. E. Seerist, Chas. Edwards and Ursel Rose, members of the board. W. R. Vanfleet, city marshal, H. C. Vanausden, justice of the peace, W. P. Eaton, clerk and James Jensen, treasurer.

Present officers, elected at the Nov. election, 1905:—W. H. Rowe, president; T. E. Seerist, H. C. Vanausden, John Lent and A. R. Capener, members of the board. [Mr. Capener resigned and the board filled the vacancy in adding the name of T. H. Edwards.] The appointed officers have not yet been named.

We have confidence in the new officers and feel that they will wisely and judiciously guard the city's interests during their term of office.

Many improvements are expected and we offer one suggestion to the new board the creation of a side-walk ordinance two blocks each way from the center of town.

CEMENT BLOCK FACTORY.
On Factory street, next to Parry's Butcher-shop, will be found the Cement Block Factory, owned and operated by A. B. Manassa. Our city jail, Boothe's store and a number of other buildings are structures made of the blocks of this factory and are substantial proofs to all that cement buildings will be Garland's future business blocks. Mr. Manassa was formerly a resident of Collinston.

SEWING MACHINE AGENCY.
I. A. Clayton is the local agent for the White Sewing Machine and has his office at his residence. He is an expert at repairing machines and furnishes extras, needles, oil, etc., for any machine.
