

GAINED 34 POUNDS

Persistent Anemia Cured by Dr. Williams' Pink Pills After Other Remedies Had Failed.

"When I began taking Dr. Williams' Pink Pills," says Mrs. Nathaniel Field, of St. Albans, Somerset county, Maine, "I was the palest, most bloodless person you could imagine. My tongue and gums were colorless and my fingers and ears were like wax. I had two doctors and they pronounced my trouble anemia. I had spells of vomiting, could not eat, in fact, did not dare to, I had such distress after eating. My stomach was filled with gas which caused me awful agony. The backache I suffered was at times almost unbearable and the least exertion made my heart beat so fast that I could hardly breathe. But the worst of all was the splitting neuralgia headache which never left me for seven weeks. About this time I had several numb spells. My limbs would be cold and without any feeling and the most deathly sensations would come over me.

"Nothing had helped me until I began taking Dr. Williams' Pink Pills, in fact, I had grown worse every day. After I had taken the pills a short time I could see that they were benefiting me and one morning I awoke entirely free from pain. The distress after eating disappeared and in three weeks I could eat anything I wanted and suffer no inconvenience. I also slept soundly. I have taken several boxes of the pills and have gained in weight from 130 to 164 pounds and am perfectly well now."

Dr. Williams' Pink Pills cure anemia because they actually make new blood. For rheumatism, indigestion, nervous headaches and many forms of weakness they are recommended even if ordinary medicines have failed. They are sold by all druggists, or will be sent postpaid, on receipt of price, 50 cents per box, six boxes for \$2.50, by the Dr. Williams Medicine Company, Schenectady, N. Y.

Natives Steal Many Sheep.

A farmer at Winburg, Orange River Colony, alleges that in his district alone 24,000 sheep are stolen annually by the natives. On this basis he calculates that 300,000 sheep are stolen throughout the colony every year.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness caused by catarrh that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

J. C. HALL & CO., Toledo, O.
Sold by Druggists.
Take Hall's Family Pills for constipation.

Lord Rothschild's Tart Reply.

Lord Rothschild, who is taking a prominent part in the commission which is considering as to the best territory for Jewish colonization, is the wealthiest member of the wealthiest and most famous banking house in the world. His monetary and social influence suggest the monarch rather than the financier. There is a story that Jay Gould once called upon him on business. Lord Rothschild sent out word that he was too busy to see the caller. Mr. Gould, not accustomed to being denied audience by anyone, sent back rather a tart repetition of his request. After an interval the attendant returned with this reply from Lord Rothschild: "Tell Mr. Gould that Europe is not for sale."

Sounded Praises of Soap.

In a guide to etiquette published early in the last century the writer says that "soap does not irritate the complexion; some of the finest complexioners we have known have been regularly washed with soap every day." The same authority remarks that "the daily bath is now the rule rather than the exception, and common sense has triumphed over the decision that washing was injurious." And then the writer has a dig at her great-grandmother, "whose only ablutions consisted in wetting her cheeks with a cambric handkerchief dipped in rosewater." "In all our directions with regard to the bath," adds this early Victorian dictator, "it must be borne in mind that we only refer to those in sound state of health."

NEW YEAR'S CALLS.

A New Drink to Replace the Old-Time "Apple-Jack."

Twenty-five years ago the custom of making New Year's calls was a delightful one for all concerned, until some of the boys got more "egg-nog" or "apple-jack" than they could successfully carry.

Then the ladies tried to be charitable and the gentlemen tried to be as chivalrous as ever and stand up at the same time.

If anyone thinks there has not been considerable improvement made in the last quarter of a century in the use of alcoholic beverages, let him stop to consider, among other things, the fact that the old custom of New Year's calls and the genteel tipping is nearly obsolete.

The custom of calling on one's friends, however, at the beginning of the new year, is a good habit, and another good habit to start at that time is the use of well-made Postum instead of coffee or spirits.

A Staten Island doctor has a sensible daughter who has set Postum before her guests as a good thing to drink at Yule Tide, and a good way to begin the New Year. Her father writes:

"My daughter and I have used Postum for some time past, and we feel sure it contains wholesome food material.

"I shall not only recommend it to my patients, but my daughter will be most pleased to give a demonstration of Postum to our Christmas and New Year's callers." Read "The Road to Wellville" in pkgs. "There's a reason."

PRESIDENT HAD A GOOD TIME ON THE ISTHMUS

Was Deeply Impressed With the United States Navy, With Panama and With Porto Rico.

Washington.—Completing a remarkable trip to Panama, during which he traveled several thousand miles by sea and visited not only the Isthmus but Porto Rico as well, and enjoying his thorough enjoyment of the entire voyage, President Roosevelt returned to Washington at 10:42 o'clock Monday night.

Speaking of the trip, the president said: "We had a very pleasant, very enjoyable time, and I am deeply impressed with the United States navy, with Panama and with Porto Rico." The Panama canal, it was stated by the president, will be the subject of a special message, and consequently on that subject the president will say nothing at this time.

EXPERIMENT PROVED FATAL.

Ten Prisoners Inoculated With Cholera Virus are Dead.

Manila.—As a result of experiments with cholera virus at Bilibid prison, ten prisoners out of twenty-four who were inoculated have died. The experiments were conducted by Dr. R. P. Strong of the bureau of science. The death of the prisoners took place a few days after they were inoculated. It is claimed by the investigators that the fatalities resulted from a contamination of the virus with bubonic plague virus. Cholera virus is in constant use here and it has proved beneficial previously. It has been used in Spain in thousands of cases with excellent results. Governor General Smith, in a statement to the public, exonerated Dr. Strong and declared that the commission would take care of the families of the dead prisoners.

TRAIN ROBBER IS REPENTANT.

Wants to Plead Guilty to Burglary in Order to Get Light Sentence.

Marshall, Mo.—The bandit who held up the Chicago & Alton train between Glasgow and Slater, Mo., was brought to the county jail Monday afternoon and immediately opened negotiations with the prosecuting attorney, offering to make a full confession if the charge against him was made burglary. In Missouri the extreme penalty for train robbery is death, the minimum ten years' imprisonment. The prosecutor refused any concession. The man gave his name as Claude Randall, aged 21, and it believed he is an ex-convict.

ASKS WITTE'S EXPULSION.

Russian Reactionists Fear Power of Former Premier.

St. Petersburg.—The monarchists and reactionists, finding that their threats have not driven Count Witte out of Russia, held a meeting at Moscow Monday and telegraphed later to the emperor, asking for his expulsion from the empire. Count Witte's revival of the publication of the Slovo is said to indicate that he intends to become a potential factor in the situation. According to a dispatch from Sochi, in the Caucasus, where Count Witte has estates, the report that he will become a candidate for election to parliament was received with great enthusiasm.

BIG INCREASE IN DESERTIONS.

Over 6,000 Soldiers Took Leave Last Year.

Washington.—Desertion is on the increase in the army. The annual report of the military secretary shows that in the year ended June 30, there were 6,258 desertions, or 7.4 for every 100 soldiers in the army. In 1905 the rate of desertion was only 6.8 and for the three years previous to that time the rate of desertion was only 6.1. From 1895 to 1904 the average of desertion was only 4.5 per cent. The rate of desertion in 1906 was highest in the field artillery, 9.2 per cent. The cavalry was next with 7.8 per cent.

Woman to be Tried for Murder of Her Servant.

Sioux Falls, S. D.—A plea of not guilty was entered by Mrs. Emma Kaufmann, wife of the wealthy brewer, Moses Kaufmann, when she was arraigned by Judge Jones in the state circuit court, on a charge of murdering Miss Agnes Polteish, a sixteen-year-old domestic, who was in Mrs. Kaufmann's employ. Notice was given that arguments would be made for a continuance to a future term of court. The proceedings were devoid of sensational features.

Senator Platt is not Afraid of the Result.

Denver.—"I am not afraid of the result of the effort to oust me as a member of the New York state Democratic central committee," said Senator Patrick H. McCarrren, of Brooklyn, N. Y., who is visiting in this city on Monday. "The charge that I scratched Hearst is untrue. I will be duly represented at the hearing. Our law committee will look after my interests, but I question the right of the organization to act in the matter at all under the circumstances."

WOMAN ACCUSED OF AWFUL CRIME

Wholesale Poisoning of Persons to Secure Small Sums of Money

Philadelphia Woman is Accused of Murdering Five Persons in Past Eleven Months for Paitry Sum, Not Sparing Her Own Children.

Philadelphia.—The most remarkable case of wholesale poisoning of persons to secure insurance money that has ever been unearthed in this city, is charged against Bridget Carey, who was arrested Thursday night. The woman, who is 32 years old, is charged with having poisoned her husband, Patrick, her two children Mary, aged 8 years, and Annie, aged 6, who died a week ago, and Patrick and Cecelia Cook, tenants in the Carey house, at 1942 Hamilton street.

All of the alleged victims died within eleven months and the police allege that Mrs. Carey benefited by their deaths to the extent of \$1,000, through the collection of insurance. The woman's arrest followed an investigation made into the deaths of her two children, which occurred last week. It was said at the time that their deaths were caused by eating poisoned candy or candy that contained deleterious substances.

TILLMAN ON RACE QUESTION.

Says White Race is Dominant, and Others are Inferior Clay.

Chicago.—The efforts of the colored citizens of Chicago to prevent United States Senator Benjamin R. Tillman from delivering an address here Tuesday night in Orchestra hall, because of the position he has assumed toward the negro race, was unsuccessful. During his stay in Chicago, Senator Tillman was guarded by police and private officers, and forty policemen were at the hall when he made his address. In speaking on the race question, Senator Tillman said: "God Almighty made the Caucasian of better clay than the Mongolian or the African or any other race. The Ethiopian is a burden carrier. He has done absolutely nothing for history, nor has he ever achieved anything of great importance. There are no great men among the race."

KILLED HER HUSBAND.

Kansas Woman Defended Herself From Attack With Fatal Result.

Burlington, Kas.—Captain Horatio N. Reed was shot and instantly killed by his wife at their home four miles southeast of Burlington on Tuesday. There were no witnesses to the shooting, but Mrs. Reed alleges that her husband threatened to kill her with a corn knife and that she shot in self-defense. She shot her husband five times, four of the bullets entering his body and the other passing through his head. After the shooting Mrs. Reed and her son dragged the body to a chicken house some distance away, where they placed a pillow under his head. They then drove to a neighbor's house and sent for an officer, who arrested Mrs. Reed. She will be held until after the inquest.

TWENTY-SIX PERISH.

Went Down to Their Death When Coasting Vessel Foundered.

Wiarnton, Ont.—The coasting steamer J. H. Jones, owned by the Crawford Tug company, a local concern, foundered, off Cape Cocker, and all hands were probably lost. The crew consisted of twelve, all of Wiarnton, and the number of passengers is estimated at sixteen.

Part of the cabin, a lifeboat and two unidentified bodies have been found by Indians on the north shore of the Christian islands. Boats are now out looking for survivors and wreckage.

Tribesmen Attack Foreigner.

Tangier.—A number of Angora tribesmen on Tuesday made an attack on the house outside this city formerly occupied by Walter B. Harries, the newspaper correspondent. A force of government troops engaged in the defense of the building and it is reported that some men have been killed and others wounded. Mr. Harries has not lived in the house for two years, in consequence of frequent attacks made upon it. The troops defending Mr. Harries' house were furnished by Raisuli.

Appeal Made to President.

Washington.—The case of the soldiers of three companies of the Twenty-fifth infantry who were discharged without honor because of the trouble at Brownsville, Texas, came before President Roosevelt Tuesday, when Charles W. Anderson, collector of internal revenue at New York, and Emmet J. Scott, secretary to Booker T. Washington, called on him in behalf of the discharged men. They made an earnest argument in behalf of the innocent men of the companies who want to be reinstated.

VAST INCREASE IN THE PRODUCTS OF THE FARM

Annual Report of the Secretary of Agriculture Shows Great Strides Made by the American Farmer.

Washington.—Secretary of Agriculture James Wilson, in his annual report, just presented to the president deals with a very wide variety of subjects of general interest to the farmer and all who follow the growth and progress of the nation along agricultural lines.

The secretary points out that the farmer is making progress in the arts and sciences of agriculture and calls attention to the enforcement of the meat inspection laws passed by the last session of congress.

The economic revolution in the art and science of agriculture continued during 1906, with tremendous results on the national prosperity. The value of crops continues to rush forward beyond comprehension; crops are straining the freight-carrying ability of the railroads; and the farmer, alive to the importance of the place that he occupies in the nation, offers this yearly account of himself to the people.

The farm products of the year have a farm value of very nearly six thousand eight hundred million dollars, nearly half a billion above the value of 1905 and exceeding by over two billion dollars the figures for the last census.

Corn remains by far the most valuable crop, estimated at eleven hundred million dollars. Next comes the cotton crop, which, including seed, should be worth to the growers nearly six hundred and forty million dollars. The value of hay, which is third in order, approaches six hundred millions.

Wheat, the fourth crop, may be worth four hundred and fifty millions; oats, three hundred millions; potatoes, one hundred and fifty millions. Barley, with a value of sixty-five million dollars, shows a gain of 21 per cent in production in the past seven years. The tobacco crop will be worth about fifty-five millions. A remarkable development is that of the sugar beet, now in the ninth place in value. The production in 1906 is placed at three hundred and forty-five thousand long tons, valued at thirty-four million dollars. Seven years ago the value of this crop was seven million dollars. The value of all kinds of sugar, syrup, and molasses aggregates seventy-five million dollars.

The farm still overshadows the mill, the factory, and the workshop in providing exports, and with his surplus beyond the nation's need the farmer has loaded the fleets of the oceans. For the fiscal year ended June 30, 1906, this surplus has been exported to the value of nine hundred and seventy-six millions, the largest amount ever reached by agricultural exports for this or any other country and exceeding the export value of 1901, previously the record year. Among chief exports cotton maintains a big lead, with a value of four hundred millions. The packing-house products exported amounted to a value of two hundred and seven millions.

Great progress has been made in the practical application of a national forest-reserve policy. In area, the reserves were increased during the year from \$5,693,522 to 106,999,138 acres. In revenue the reserves brought in \$767,219.96, as against \$69,142.62 for the preceding year.

Through the office of experiment stations, irrigation experts have been detailed to work out and introduce the right methods of irrigation, and to give practical advice to beginners in irrigation in sections where it has been introduced. Wherever this educational work was begun there has been marked appreciation of its value.

Much work has been done in the investigation of seed adulteration, and in carrying on the campaign of education on behalf of good seed.

Close surveillance of the interstate traffic in game has brought the situation in the middle west under partial control, and during the coming year attention will be centered on the southwest, where a systematic violation of the law is frequent.

INSANE WOMAN AFTER ROCKEFELLER.

Declared She Would Kill Him Unless He Paid Her a Million Dollars.

New York.—Charged with threatening to kill John D. Rockefeller unless he paid her a million dollars, Mrs. Rose Delina Beauvois Handfield, 40 years old, was arrested Wednesday in front of the offices of the Guardian Trust company in lower Broadway. The arrest was made on a warrant issued by a police magistrate.

Herman Handfield, foreman of a trunk factory, the woman's husband, said his wife had been acting in a peculiar manner for some time. She will probably be sent to the asylum.

Factory Blown to Atoms.

Berlin.—A robust factory near Witten, Westphalia, exploded Wednesday evening and was wiped from the face of the earth. Many persons were killed, but the exact number cannot be ascertained. People say it is far above fifty. About 100 persons were wounded and already have been conveyed to hospitals. The explosion was heard throughout the surrounding country, which is thickly settled. All the windows in the adjacent town of Annen were destroyed.

Adjustable Definitions. In the political lexicon "unmasked" is the term applied to a member of the opposing party who has been slandered, and the term "slandered" is applied to one of the faithful who has been unmasked.—Louisville Courier-Journal.

Philosophy of Riches. Getting rich is a matter of denying yourself the things you want so as to be able to have them when they no longer exist.—St. Louis Globe-Democrat.

Need of Information.

The learned traveler had delivered his great lecture on the manners and customs of Japan. "And now," he said, in conclusion "I shall be pleased to answer questions pertaining to any peculiarities of this interesting people upon which I may not have touched in my discourse."

"Professor," eagerly asked a young married woman in the audience, "what do the Japanese do to plum juice to make it fell?"

UTAH IMPLEMENT CO.

Makes Statement Through Its President.

Since there has been a great deal of publicity given the Utah Implement Company, of Salt Lake, recently, owing to an action brought against the management by five of the stockholders who had been maliciously misled into a belief that their interests were not being properly handled, I deem it advisable to let the public know that investigation proved the charges to be without foundation, and that the complaint was withdrawn, and the officers of the company exonerated from the charges brought against them, and the case dismissed. The company is solvent and the business of the company is progressing as usual, and we thank our many friends for their expressions of confidence and support, which we will endeavor to merit in the future as we have in the past.

UTAH IMPLEMENT CO.

By M. B. Whitney, President.

Deadly Southern Punch.

"If you think they drink liquor here in New York," said the southern man, as they began to mix the punch the ambulance goes with. "take a little trip to Atlanta and try the artillery punch they make there. It looks like lemonade, but, well, I waked up four days after."—N. Y. Press.

Different Kinds.

"Most actors admire Shakespeare." "Some do," answered Mr. Storming-ton Barnes. "Others are too busy thinking of how Shakespeare would admire them if he could only see them do his plays."

Man's Whole Duty. He who is truthful, just, merciful and kindly, does his duty to his race, and fulfills his great end in creation, no matter whether the rays of his life are not visible beyond the walls of his household or whether they strike the ends of the earth.—Lord Lytton.

Imitating Life. News comes that Wizard Burbank has succeeded in producing an apple that is sweet on one side and sour on the other. That's just like life, the sweet with the gall.

The Middle Class Novels.

Is it true that the modern English novel reader insists upon hearing about the rich or the great? I can hardly think so, when I remember the many successful works of fiction dealing with coasters and Scottish ministers, journalists and typists, actresses and novelists. The Disraeli type of novel seems almost extinct, and the great bulk of works of fiction deals with the middle classes.—London Lady.
