LETTERS FROM CORRESPONDENTS.

Around the County in Seven Days.

The Happenings of the Past Week Told in Detail by Efficient Correspondents.

PROG.

Prog. Utah, June 13, 1900.

Elmore Times:
Miss Eva Marchant returned to Salt Lake on Sunday.

The rain storm of last Saturday did much good to vegetation.
There was a slight frost here yesterday morning but very little damage was done.

Ground squirrels are coming down off the hills and are doing considerable damage.

Quite a large number of our citizens attended the conference at Rockport on Sunday.

Our nimrods are waiting with all the patience imaginable for the fishing season to come in.

Arthur Maxwell and wife and A. G. H. Marshall and wife have gone to Salt Lake to attend the wedding reception of a niece who is to be married this week.

Cut worms are damaging the gardens to some considerable extent and the gardeners have declared war and extermination to the bitter end—of the worms.

The infant child of George W. and Grace A. Milliner died on Monday evening, June 11th, after a short illness. This makes the second child which they have lost in their infancy, and leaving their childless.

Very favorable reports have been received from the big timber country, Wyoming, and it would not be very surprising if some others from here would break in that direction before the year is much farther advanced.

Miss Lucina Paskett, who has been teaching the primary department of our district school, closed up her labors here last week and returned to her home and friends in Haveler. Miss Paskett has given excellent satisfaction as a teacher and has many friends by her kindness and charming manner.

That was a curious session on the part of the County Commissioners in appointing judges to the office of registrar, and they highly appreciate the compliment. It can be stated, without fear of contradiction, that their labors will be well and faithfully done to the entire satisfaction of all. When it is known that these honors were given unthought the appointments become the more pleasing.

We are very apt to forget that a day of reckoning is coming; and yet from the fact that a large number of farm wagons, buggies, spring wagons and farm machinery have been sold in this part of the county during the past few months, one is led to believe that one will be awakened to the fact that a day of payment will surely be at hand, and I am hearing that many of us have been just a little premature in obligating ourselves. A halt should be called on the bondage placed upon us, and that with our own consent. A debt must and should be met, but we should not make ourselves the debtors unless we can see our way clear.

B. H. E. Voss.

It is customary to use Salsair Extracts.

A Life and Death Fight.

Mr. W. A. Hines of Manchester, Ia., writing of his almost marvellous escape from death, says: "Exposure after needless induced serious lung trouble, which ended in consumption. I had frequent hemorrhages and coughed night and day. All my doctors said I must soon die. Then I began to use Dr. King's New Discovery which wholly cured me. Hundreds have used it on my advice and all say it never fails to cure throat, chest and lung troubles." Regular size 50c. and \$1.00. Trial bottles free at John Boyden & Son's.

A Good Cough Medicine.

It speaks well for Chamberlain's Cough Remedy when druggists use it in their own families in preference to any other. NEWS FROM WASHINGTON.

From Our Regular Correspondent.

Washington, June 8, 1900.

There was excitement enough in the closing hour of Congress to please the most excited. The Senate fought, wrangled and Senators engaged in personal and political abuse right up to adjournment, and finally adjourned that will last the life time of some of the participants. Although politics was at the bottom of the squabbling, in several instances Senators took advantage of the opportunity to even up personal scores. The struggle over the armor plate clause of the Naval appropriation bill, which was the last passed, was finally compromised by leaving it to Secretary Long to decide whether he will pay the price asked for armor plate or spend \$1,000,000 in establishing a plant for the government to make its own armor plate. A small appropriation for armor in the same bill delayed adjournment a day.

The House finished its business ahead of the Senate, but it had an all-right session at which there was more excitement than business. A quorum was lost and the Sergeant-at-Arms and his assistants were chasing all over Washington arresting stragglers so as to make a quorum in order that a recess might be taken, a quorum having been made necessary by the raising of a point of order.

For a time there was threat of extending the session indefinitely, but they were not made good. The session was 128 days long, the shortest long session for years.

Congress provided for the promotion of Gen. Miles to lieutenant general and Gen. Corbin to major general, although it was a close fight up to the last minute, owing to opposition in the House to these promotions and to the clause in the same bill increasing the number of cadets at West Point, which also went through. Representative Lantz of Ohio, made a bitter and sensational speech against the increase of cadets, but the House finally agreed to it, although the additional appointments to West Point are to be controlled by the President and Senators entirely.

Gen. Joseph Wheeler is now a full fledged brigadier in the regular army, having been nominated and confirmed by the Senate in full discharge of the promotion of Gen. K. B. Ota to be a major general.

Northern members of Congress have called the attention of the Commissioner of Pensions to the wholesale robbery of ex-slaves by the agents of these so-called ex-slave pension organizations, but the knowledge was not sent to Commissioner Keane, who says that the colored people of the South have been lied to the extent of more than a million by these unscrupulous men, with caution he reached by any law. The only remedy is for intelligent persons to try to improve upon the words of the ex-slaves that there is no possibility of Congressional legislation providing a pension for them, and that money spent for the alleged purpose of pushing such legislation is absolutely thrown away.

The long fight over the nomination of ex-Congressman Hyman, of Ind., a gold democrat, to be General Approver at the port of New York, resulted in the rejection of the nomination by the Senate the vote being 23 to 33.

The Senate refused to consider the anti-trust bill passed by the House with only one dissenting vote and by a vote of 43 to 23 referring it to the Judiciary Committee.

The bill fixing the meaning of the words "conspiracy" and the use of restraining orders in connection with labor troubles in which the labor organizations are deeply interested has been ordered to be favorably reported by the House Judiciary committee with a proviso that the act shall not apply to cases in which threats, intimidation, or coercion, are shown to have been used.
