

ENGLAND CHANGES THE MAP

Helps Herself to a Slice of Alaska.

Important Inlets, Islands and Gold Fields Belonging to the United States Now Claimed by British Columbia—Course of the New Boundary Line—Operations of American Land-Grabbers.

Seattle, Wash., Sept. 22.—The statement published in the Post-Intelligencer some time ago that the official maps prepared by the Provincial Government of British Columbia would show the truth of every charge that has been made in that paper, to the effect that Great Britain intended to do her utmost to grab almost every available site for a seaport, is fully confirmed by the published copies of the map, of which several have been received in this city.

The Canadian map shows the British boundary claim in a clearly defined broken black line. Starting from the south it touches Cape Chacon, the southernmost point of the Behm channel, and runs up Behm channel, turning easterly to a point in Borough bay. Thence it runs northwesterly along the summit of a supposed range of mountains parallel to the coast line of the shore, but which the American surveyors say does not exist.

Opposite the head of Holkham bay it crosses Glacier bay near its mouth, and cuts across Tracy arm, leaving the head of that inlet in British Territory. It makes a similar cut across the head of Speel river estuary. It also cuts across Taku inlet, leaving the head of that inlet in British Territory.

By cutting across Lynn canal this line gives to Great Britain Berner's bay, where valuable gold mines are being developed by American capital, and it leaves the Chilkoot inlet, the Sheep creek mines, which have recently been discovered by Americans, and the Chilkoot Pass, which is the only practicable route to the Yukon mines, in British Territory.

It also gives to Great Britain the valuable attraction for tourists, the Klondike, which it claims for Great Britain.

ALASKA LAND-GRABBERS.

Attempts to Gobble up Town Sites and Water Fronts.

Seattle, Wash., Sept. 22.—Numerous attempts are being made in Alaska to secure valuable land by perversion of the laws of 1891. The law provides that land for trading and manufacturing purposes may be taken up, but the maximum is fixed at 160 acres, and there is a further provision that it is to be nearly square in outline as is practicable. Early in the present year P. Swineford, special agent, was sent to investigate this return.

St. Paul, with a population of about 500, is a case in point. The entire water front of the town is being grabbed up by a single corporation that has made thirty-five locations in Western Alaska, at Cook Inlet, Kodiak and elsewhere. They had taken up in the names of individuals, who were dummies.

Death in the Blizzard.

Rawlins, Wyo., Sept. 22.—Frank Neville, a ranchman, who lives six miles southeast of town, yesterday morning about 9 o'clock sent his two little boys, aged 11 and 13 years, out after the cows, which were supposed to be about a mile away up a gulch. The boys not a mile away up a gulch, the boys not a mile away up a gulch, the boys not a mile away up a gulch.

The Ontario Water Ditch. The big ditch to bring water from Island and Erinhall lakes to the Ontario, Daly and Daly-West mines has been completed, and is now ready for the piling, which will soon begin to arrive. The ditch is fourteen feet deep in places, and is a good piece of work. As soon as the feed pipe is placed and boxed a strong dam will be placed at the lower end of Island lake, which is calculated will raise the entire surface of the lake from twelve to fourteen feet, thus greatly increasing the supply.

"Silver Lining" at Denver. Denver, Sept. 22.—The first presentation of Fitzgerald Murphy's new American social play, "The Silver Lining" on any Western stage, occurred at the Broadway theater last night, immensely pleasing a well-filled house. The free coinage arguments worked out by dialogue and plot were enthusiastically received.

A second company is to be organized here to play "The Silver Lining" in the West, and another at Chicago to go West, while the present company will play the South. The intention is to secure casts of the same superior strength for the new organizations.

Shipped Short-Weight Coin. Rochester, N. Y., Sept. 21.—The Rochester banks which recently shipped \$100,000 in gold to the sub-treasury in New York are out \$1200. The face value of the coin which they sent was correct, but upon the delicate balances of the sub-treasury the \$1000 shortage showed.

JUDGE MAXWELL NOMINATED. Nebraska Populist Candidate on a Non-Partisan Basis.

Premont, Neb., Sept. 22.—Judge Maxwell, who was nominated by the Populist convention for the Supreme court, has accepted. He insists on accepting the nomination, not as a Populist, but on a non-partisan basis. He alludes to the impeachment trial, and apparently will make his position the key-note of his campaign. The impeachment trial referred to occurred two years ago, when several State officials were charged with wholesale corruption. Maxwell was on the Supreme bench before this trial occurred, and rendered a minority verdict of guilty. His friends insist that he was defeated for re-nomination at the State Republican convention by friends of the men on trial.

SIX PER CENT PATRIOTISM. Wall Street's Charges for Saving the Treasury.

Members of the Bond Syndicate Received Their Checks Yesterday and the Syndicate Was Dissolved—Will be no Bond Issue Until After Election—Banks Have Promised to Help Out with Thirty Millions.

New York, Sept. 21.—The Government bond syndicate has taken action which is regarded as a formal dissolution of the syndicate, the Government having longer need of its services. The managers sent out checks, which were received by the members of the syndicate this morning, giving them the profits of the operations of the syndicate, the members having already received the principal which they had placed in the hands of the managers. The exact percentage of profit is not at present obtainable, but it is understood that, after allowing interest on the money during the period of the issue, the profit will be 6 per cent.

BANKS PROMISE TO FURNISH THIRTY MILLIONS IN GOLD.

New York, Sept. 21.—A special to the World from Washington says: The assurance and confidence of the Treasury officials that there will not be another bond issue and that the Treasury gold reserve will not again be seriously depleted has expressed prominent Treasury officials, who says that, through the good offices of the bond syndicate, promises have been secured from bankers in the principal cities of the country that, in case of necessity, they can be called upon to place up to \$300,000,000 of gold in the Treasury in exchange for legal tenders. This important matter has been quietly negotiated by Messrs. Helton and Morgan during the last fifteen days, and the indicated result arrived at subsequent to their last deposit of gold.

THE REASONS WHICH HAVE LED TO THIS ACTION ARE VARIED, BUT ALL TEND TO THE SAME END.

The reasons which have led to this action are varied, but all tend to the same end. On the part of the Administration it is recognized as good policy to avoid another bond issue and throw the responsibility and necessity for remedial action on the incoming Congress. It was determined by the President several months ago that there would be no bond issue until after the elections, as an issue, previous thereto, would have the effect of strengthening the hands of the free-silver men and the Populists. On the side of the syndicate the unpopularity of a bond issue has been evident, but a more deterrent influence has been the desire to avoid any action which would have the effect of checking the steadily increasing wave of business prosperity. The parties to the present voluntary combination for the protection of the Treasury gold-reserve are almost entirely the same as the list of banks that were allowed to participate in the distribution of the last bond issue. It will be remembered that none of the profits of the syndicate have yet been distributed, nor can they be until the rate of exchange has fallen below the gold-standard point. So it becomes essential to the individual interests of the members of the syndicate to make the Treasury situation sure, in order that they may pocket the profits accruing under the enormously profitable contract of last February.

Wind blew so hard from the south one day last week that Link River, Oregon, went dry from the falls up to the upper Balmath lake, a distance of about one mile. The water on the lake frequently blows up toward the northern end, until it outlet becomes dry.

The Ontario Water Ditch. The big ditch to bring water from Island and Erinhall lakes to the Ontario, Daly and Daly-West mines has been completed, and is now ready for the piling, which will soon begin to arrive. The ditch is fourteen feet deep in places, and is a good piece of work. As soon as the feed pipe is placed and boxed a strong dam will be placed at the lower end of Island lake, which is calculated will raise the entire surface of the lake from twelve to fourteen feet, thus greatly increasing the supply.

POLL OF THE SENATE.

Thirty-Nine Senators for Free Coinage.

Claims There is no Possibility of a Free Coinage Bill Passing Either House of Congress—Conference of Silver Democrats at Memphis—Mr. Bryan's Appeal to the People of Idaho.

Washington, D. C., Sept. 23, 1895. The New York World, which is notoriously the most unreliable of Eastern journals, publishes a long screed today, which it states is the result of the canvass recently made by the New York Chamber of Commerce of the position of Senators and Representatives of the next Congress upon the money question. It gives the totals as follows:

Free silver Republicans, 30; free silver Democrats, 51; free silver Populists, 7; a total of 88. Anti-free silver, 216, and doubtful 52.

The amazing gall of the World in commenting upon such a table with the statement that there is no possibility of a free coinage bill passing either the Senate or the House, needs no comment. The World places all the Indiana members of the House, and all but three of the Missouri members opposed to free coinage, and in its table of 216 votes, there is to be found a large number who will vote for bimetalism.

A poll of the Senate shows forty-three votes against free coinage. In addition to this it claims there are six Senators, Bacon, Baker, Caffery, McFrids, Martin and Wilson, whose position is somewhat in doubt, but who are believed to be not unfavorable to sound money. The silver men, it says, can muster only thirty-nine votes, but this number will doubtless be increased by two when Utah comes into full Statehood. According to the report of the Chamber of Commerce committee there will be thirty-nine free silver men in the Senate. Utah will give two more, but against these there will probably be lapses from the ranks of the Mills of Texas, who was supposed to be the Achilles of the silverites, has come out on the sound money side, and other desertions are expected.

Here is a list of the free silver Senators: Allen, Bates, Barry, Blackburn, Blanchard, Butler, Call, Cameron, Carter, Chilton, Clark, Coakrell, Daniel, Dubois, George, Hansbrough, Harris, Irby, Jones (Ark.), Jones (Nev.), Mantle, Mitchell (Or.), Morgan, Peffer, Stigrew, Pritchard, Pugh, Roach, Shour, Stewart, Teller, Tillman, Turple, Vest, Voorhees, Walthall, Warren, Wolcott. Total, 39.

MR. BRYAN'S ADDRESS IN BEHALF OF THE BIMETALLIC UNION.

Boise, Ida., Sept. 23.—G. V. Bryan, member for Idaho of the executive committee of the bimetallic union, has issued an appeal to the people of Idaho to contribute funds to assist the work. After reciting what has been done in other States, he says: "I therefore appeal to the mine-owners, the farmers, the merchants, the bankers, and all citizens of Idaho to contribute to the good cause what they feel able to give, and to help to realize the vast importance of success, which means prosperity to all, or the disastrous results which will come with defeat. Let the mine-owners contribute liberally, let the farmers, the merchants, the bankers, the merchants, the farmers, bankers and all citizens of Idaho to contribute to the good cause what they feel able to give, and to help to realize the vast importance of success, which means prosperity to all, or the disastrous results which will come with defeat.
