In a conversation with Manager Steyner of the Bell Telephone company we learned that gentleman expects to in the near future commence a night service. The only drawback is that they have hardly got enough resident phones in Spanish Fork. We sincerely hope that they will be able to put in enough phones to give us an all night service.

The Payson Dramatic Company played at the Spanish Fork Opera House last Friday night the beautiful comedy drama in four acts, "Jefferson Farm." The turn out was rather slim, we think, owing to the fact that it was not thoroughly advertised. The play was a good one and kept the audience in an appreciative mood throughout the whole performance. From the small audience our Payson friends received many hearty congratulations, and were made to promise that in the near future they would again appear at the Spanish Fork opera house.

The city council met last Saturday night in regular session and transacted the following business: A number of bills were allowed and appropriated; the bonds of the various appointed officers were received and placed on file; a Mr. Wilson petitioned the council for a license to run a bowling alley, which was granted; the matter of beautifying the city square was discussed and it was decided to cover the lawn with sand, and make all other necessary improvements. It was left in the hands of the committee on public grounds and city property with power to act.

### THISTLE NOTES.

We are having fine weather up here these days. On the sunny side, the roads are bare and muddy.

Some of the farmers up here have turned their cattle out on the mountains to shift for themselves.

There is a vast amount of freight and travel going over the Rio Grande Western Railway at the present.

The health of the people is generally good, but there is a case or two of scarlet fever in Clinton.

The mountain lions are killing more stock up above here, in the canyon, at the present than they have done for years.

John Thorgeison.

Physicians who have gained a national reputation as analysts of the cause of various diseases, claim that if catching cold could be avoided a long list of dangerous ailments would never be heard of. He was born at Witley, England, Feb. 2, 1851, and had lived in Spanish Fork about forty years.

During the past month we have received several lengthy communications, two from our old friend and fellow townsman, David E. Robertson, who is laboring as a missionary in the South Texas conference, and, judging from the tone of his communication is enjoying his work very much. We have another from J. Milton Beck at the Logan Agricultural College; and also one from Donaldson W. Lee at Winona Lake, Indiana. These two young men are wisely spending their time in getting an education, and setting a good example to other young men. Gentlemen, in your vocations, we wish you success, and regret to say that we are unable to publish the letters as they make nearly 700 words each, and we can handle only about 100 words to each article.
