It is not the rule for blacksmiths to put out fancy advertising, but the progressive disposition of Roza & Pickett has led them to distribute some very pretty calendars this year. An English tavern scene in a border of riding whips, with bit and horseshoe ornaments, makes a very suggestive design and a very attractive one as well. This popular firm believes in keeping up with the times—not only believes in it, but actually does it.

In a letter from Thomas H. Woolford, of Cardston, Alberta, we gather that he has been gloriously prosperous this year, more so than last. In 1905 a heavy hailstorm did not less than \$8,000 worth of damage to his crops, but this year Mr. Woolford's crop brought him sufficient money to square off all his indebtedness and he has about 15,000 bushels of grain yet in his bins. It was encircling the jugular vein, growing down on the breast and was beginning to press on the windpipe and was becoming very painful. The doctors told Mr. Jones the only thing that would save his life was to have it cut out. He was operated upon at the Holy Cross hospital on the 8th inst. and has now fully recovered, a fact many friends in this valley will be glad to note.

One of the Bakers at Mendon came to Logan Thursday, got on the outside of too much fighting whiskey and attempted to clean out various and sundry establishments. He met with considerable opposition and along about 8 o'clock the poor fellow's face looked like it had been pounded for an hour by a steam battering ram. The last round took place on Main street and lasted for a half hour. Every effort to get hold of a policeman was unavailing—all were conspicuous for their absence. Some of the cantankerous man's relatives tried to take care of him, and not a little sympathy for them was expressed.
