## LIEUT. MARONEY GIVES DARE-DEVIL FLIGHT

In Logan Yesterday He Demonstrated His Ability to Successfully Manage Flying Machine

Lieut. Terah T. Maroney, first officer in flying corps of the Washington State Militia, came to Logan according to previous announcement and yesterday demonstrated to the Cache Valley people that he has no fear of high altitude and there is no doubt in the mind of any of the many thousands who saw his spectacular flight, but this dare devil aviator is able to scale the highest peaks with his Curtis biplane.

Promptly at 2:30 o'clock yesterday afternoon Aviator Maroney climbed into his aeroplane with apparently no more concern than a chauffeur has when he climbs into his automobile and started off into the air in a bird like fashion. After circling over the crowd a time or two, he gave an exhibition in altitude flying and while there is nothing definite as to how high he went, it is the opinion of most of those who were at the starting grounds that he must have been at least 4000 feet in the air. When he started down it looked as if he dropped headlong for several hundred feet at a time. He circled over the crowd several times before alighting and at one time shot down into the crowd in such a way that he was but a few feet over the heads of the spectators and then he would sail off again in a manner that was almost inconceivable.

Lieut. Maroney is a graduate of the Curtis Aviation School and has been in the flying game since 1905. He is a licensed aviator and a member of the Aero Club of America. He also holds a certificate from the Montana State Legislature which shows he is official aviator of Montana.

The machine in which he gave his flight yesterday was equipped with a 100 horse power Curtis engine, and when it was turned on at full speed it traveled about 60 miles per hour.

Lieut. Maroney has achieved an enviable reputation in aeronautical circles during the last four years. He is at the present time considering a proposition from the Logan Commercial Club and the officers of the County Fair Association to return to Logan again in September and give a flight during fair week in this city.

## PARKINSON A CANDIDATE FOR COMMISSIONERS

We are informed by friends of Hon. S. C. Parkinson of Franklin, that he will be a candidate this fall for commissioner of Franklin county on the Republican ticket, and while Mr. Parkinson has never been a partisan candidate before for public office, he has always been a good consistent worker for the cause of republicanism and is a man whose word has weight and influence. With his qualifications we are sure that he will make a good strong candidate and the citizens of Franklin county could not make a wiser choice than this man who has made a success of his own affairs and who is careful and painstaking in all that he undertakes.

The citizens of Cache county are always interested in seeing good men handling the destinies of their neighboring county and they would know that Franklin county has a real man to look after their public affairs should Mr. Parkinson be elected to the office of commissioner.

## B. Y. RECEIVES VALUABLE GIFT FROM GRADUATES

The Fourth year graduating class certainly left a very beautiful and valuable addition to the Brigham Young College in the gift presented on Tuesday evening. The structure is a mahogany partition running the full length of the library separating the books from the study room of the library.

The woodwork of the structure is simple and beautiful, and the steel, glass and fixtures of the very best. This partition was all complete and in place at the presentation proper. The class met the students, faculty and representatives of the board in a short preliminary program in Nibley Hall. President Dunn of the fourth year class made the presentation speech, President Ballif in behalf of the Board of Trustees, accepted the gift with appreciation.

**EVILS OF WORRY.**  
Most worries are by anticipation. It is a sin because it means a waste of life. It is just as controllable as the drink and drug habit. It has the same effect on life and character that dissipation has. It is no more sinful to drink yourself into the gutter than to worry yourself into the grave. You won't be asked how you wasted your life, but why you wasted your life.—Bishop Woodcock.

Decoration Day in Logan was fittingly observed. As is the usual custom, the I. O. O. F. members of the local lodge met at 9:30 a. m. and headed by the Hyde Park military band, marched to the Logan cemetery where the graves of departed members were decorated with beautiful flowers.

Citizens of the city in great numbers also went to the resting place of their departed loved ones and planted flowers and grass.

In the morning Aviator Maroney gave a beautiful flight over the city. He did the same thing during the progress of the baseball game, encircling the ball park where he was wildly cheered as he came closer and closer to the ground in the short circles over the ball park.

The day's festivities were concluded with a grand ball in the evening at the Logan Auditorium.

**Close and Dear.**

## THE HEART OF PAULA

An American is about to die. Marching with firm step, shoulders squared and eyes unafraid Bruce McLean an innocent man is to be shot because he had won the hatred of an insurrecto leader.

The American consul was powerless. His lack of prestige bound him hand and foot. The Mexican always returned evasive answers to his repeated protests.

The firing squad lined the far side of the newly dug grave and scorning the eye bandage the American faced his death.

Thus he would have died but for the great love that he had awakened in The Heart of Paula. Paula weak with the fatigue of her desperate striving, sprang to Bruce and shielded him from the leveled rifles.

The price that she paid for his life is the strong theme of this dramatic and strangely told screen romance.

**Washed Into the Sea.**  
An average of ninety-five tons of soil and loose rock is washed into the ocean every year from every square mile of the United States, according to the geological survey. This estimate does not include the great basin.

**He Was Covered.**  
As he crawled out of the wreck of his auto a solicitous friend asked: "Are you covered?" "Yes," he said sadly, "with mud, blood, chagrin and insurance. Is that enough?"—Detroit Free Press.

## E. E. CALVIN IS ELECTED PRESIDENT

Succeeded A. L. Mohler Who Resigned As President of the Union Pacific System

E. E. Calvin, general manager of the Oregon Short Line was elected president of the Union Pacific system yesterday.

Directors of the Union Pacific met and named the successor of President A. L. Mohler, who tendered his resignation and retired the first of July.

Since President Mohler announced his resignation a short time ago, Mr. Calvin's name has been most prominently mentioned as his probable successor. One rumor had it, tho, that Mr. Calvin would not succeed to the full title of president, but would be named as vice president and general manager of the Union Pacific.

Mr. Calvin has been vice president and general manager of the Oregon Short Line for the past two years, succeeding the late W. H. Bancroft who retired from office shortly before his death. This was his second association with the Oregon Short Line. He was named assistant general manager of the line in 1903, leaving the following year to become vice president and general manager of the Oregon Railroad & Navigation Company.

In 1905 he was elected vice president and general manager of the Southern Pacific in which position he remained until 1912. In that year he became vice president of the Southern Pacific, in charge of construction and operation. From that position he returned two years ago to the Oregon Short Line.

Mr. Calvin was born in Indianapolis in 1858 and began his railroad career there as a telegraph operator for the Indianapolis, Cincinnati & Lafayette road. This was in 1875. He entered the employ of the Union Pacific in 1882 and was successively telegraph operator, station agent, train dispatcher, conductor and train master. In 1887 he became a division superintendent of the Missouri Pacific. He returned to the Union Pacific in 1891 as a division superintendent and remained until 1895, when he left to take the position of general superintendent of the International & Great Northern. From that road he first came to the Oregon Short Line.

Mr. Calvin has made his home in Salt Lake as general manager of the Short Line. His promotion will take him to Omaha.

**Antiquity of Cricket.**  
By the middle of the seventeenth century cricket, whose age seems cast in the shade of the unknown, had achieved for itself a recognized place. It was one of the sports which a writer of the times indignantly declared he had witnessed "openly and publicly on the Lord's day." However, the real rise of cricket did not begin until the eighteenth century. Then men of quality began to favor the game. They organized teams and matches, and even royalty took note of it and became its patrons. The Marylebone club, which was formed in 1787, remains to this day the final court of appeal on all matters relating to cricket.—London Spectator.
