FOURTEENTH YEAR

THIS IS HOME COMING WEEK IN LOGAN

CONVENTION OF BENSON STAKE MUTUALS HELD

Lewiston, Sept. 23.—Mutual convention of the Benson stake was held in Lewiston First ward last Sunday. Three sessions were held at 10 a. m., 2 p. m., and 7:30 p. m. for the public. Mrs. Talmage, Mr. Anderson and Mr. B. F. Grant of the general board were in attendance. Instructions were given to stake and local workers regarding the coming season's work. The public were benefited by the able talks which were delivered and especially those of B. F. Grant who held the office of chief of police of Salt Lake for four years.

A business meeting of the Daughters of the Pioneers was held Friday at the meeting house. Nine members were in attendance. Several of the officers were detained home on account of sickness so very little business was transacted, but was postponed until next meeting.

Miss Donna Elwood left for Ogden last Sunday, where she will attend the Ogden High School during the coming season.

Mr. Charles Pond and his mother, Mrs. Etta Pond motored to Idaho Falls last week to visit with Mr. Lewis Pond.

Mr. Brigham and Mrs. Kate Pond are visiting at Gentle Valley.

Mrs. Samuel Wisner and daughter Marjorie are visiting at Shelly, Idaho.

Mrs. Mae Leschere and Mrs. Florence Elwood are visiting at the Rich camp in Logan canyon for several days.

Mr. Fred Elwood motored to Bear Lake, Sunday.

Mr. and Mrs. Elbert Van Orden and Mr. and Mrs. William Jackson of Pocatello, spent several days last week visiting in Salt Lake.

Mr. Peter E. Van Orden has purchased a dry farm at Downey, Idaho.

Mr. Earl Karren was at Oxford, Idaho on business Monday.

Mr. and Mrs. Wallace Allred and Mr. and Mrs. Willard Hendricks spent Saturday and Sunday at Logan visiting with Mrs. Jennie Bench.

Supt. E. Cole, Mr. and Mrs. William Blair, Mr. and Mrs. Fred Elwood and Miss Gladys Baker motored to Logan, Monday evening.

Mr. Lee Pfe of Idaho Falls, Idaho, spent a short time Monday visiting in Lewiston.

Quite a large number of Lewiston young folks left for the colleges in Logan and the high schools of the county this week to commence their season's work.

Miss Effie Wisner is visiting in Shelly, Idaho for a short time.

Mr. Clarence Stocks left Thursday for a trip to Star Valley on business.

Mrs. Sarah Stocks spent Friday in Logan doing work in the Logan temple.

Mr. Brigham Pond has erected a large cement silo at his farm.

Mr. Merle Cunningham has commenced the erection of a fine new bungalow on property next to his father's farm.

Miss Emma Blair of Lewiston was married Wednesday at Logan to Mr. Wren Hendricks of Cove. Miss Blair is one of the popular young ladies of the Lewiston Third ward and the young couple have many friends who offer them hearty congratulations.

Mr. David Hendricks moved his family to Oxford, Idaho, last week where he is engaged to teach during the coming winter.

Mrs. M. O. Bell who has been ill for a couple of weeks is able to be out.

Mr. George Haslam of Wellsville has moved his family to Lewiston. Mr. Haslam recently purchased the place of Amasa Bybee.

Supt. Erastus Cole of the Lewiston sugar factory returned home last Saturday from a trip to the coast. Mr. Cole went to California to visit the Oxford sugar mill for the purpose of getting data on the Steffens process of extracting sugar from the molasses.

The office at the Lewiston sugar factory is almost completed and is one of the finest of its kind in Cache

CITIZENS OF WELLSVILLE VISIT IDAHO

William Murray, Willard Parker, John Perkins, Daniel Stewart, Roy Parker, Frank Redford, Thomas Lindley, John Bailey and Hyrum Green, all of Wellsville have returned from a trip into Idaho where they went to look up ranch property. The party went direct to Wellsville, Idaho where they met Mr. Brockman and Mr. Brown, real estate dealers; and Mr. West Cashier of the First National Bank of Weaser, who they found to be very gentlemanly, kind and courteous. They furnished automobiles and took the Cache Valley party pretty well over the adjacent country, including the farming district and showed pretty largely all the lands they had listed.

The entire party was well impressed with the country and Roy Parker purchased 40 acres of land near Weaser and Mr. Stewart and Mr. Perkins are considering the purchase of two tracts of land. While in Weiser the visitors were royally treated by the leading business men of that thrifty city. A banquet was given in honor of the visiting guests, which was thoroughly appreciated by the Cache Valley boys.

The crops are reported to be good at Weaser this year, especially the alfalfa, corn and potatoes. The land is very productive and the farmers have an exceptionally good yield of hay this season.

After leaving Weaser the party came back to Ontario. There they attended a farmers exhibit which was very interesting. At this exhibit a hog was seen which weighed 980 pounds and an eight year old steer which weighed 3340 pounds. From Ontario a visit was made at Caldwell where automobiles were taken and that section of Idaho was pretty well scanned. A visit was made over the U. S. Reclamation Irrigation Project. The reservoir is three quarters of a mile in length and in depth from 40 to 60 feet of water is impounded and in width the reservoir is about 50 feet. When the irrigation waters is shut off, it will back up about nine miles in extent making a great lake. The government irrigation project is largely responsible for the big increase in values of lands in that section. Drainage is required in all of the lower sections, since irrigation commenced.

From Caldwell the party went to Boise, and were much impressed with the Gem State capital. Another visit was taken to Nampa and a review was made of the real estate in that section where some good tracts of land were visited. No purchases were made at this place, however. While Mr. Murray and Mr. Parker went in quest of a cattle ranch, they did not see just exactly what they wanted.

Mr. Murray was in Logan yesterday and in discussing his trip he says he would like to give the following advice to prospective purchasers of land in the section where they went. They should be careful what they buy, how they buy and where they buy. It is very essential that the title both to land and water is looked into for if the money has been paid and defects in title are discovered after the deal is closed, it is then too late to rectify the mistake. Good land in Idaho, the same as in Cache Valley, brings a good price.

county. It is equipped with every modern convenience.

Mrs. Ruey Bernhisel entertained the Bee Hive girls and the beekeepers of the Lewiston First ward on Thursday last. An enjoyable time was had. Refreshments were served.

Mr. and Mrs. Amasa Bybee and Mr. and Mrs. Joseph Cunningham motored to Logan, Thursday.

Old newspapers, 5c a bundle at The Republican office.

CACHE COUNTY FAIR TO OPEN IN SPLENDOR WEDNESDAY MORNING

Supervisors Are On the Ground Today Placing Exhibits — Many Running Horses Will Be Here With Good Riders—Judges of Departments Are Selected.

The Fifth Annual Cache County Fair will open in splendor tomorrow morning at 10 o'clock. In many ways this promises to be the largest and best fair ever held here. There have been some difficulties to overcome, but the officers feel now that nearly every department is more than up to the usual standard.

As far as possible all the exhibits should be brought in today, as it is the intention to have everything in readiness for the opening Wednesday morning. The supervisors are at the fair grounds today to receive and place the exhibits. Under no consideration will exhibits be received after 10 o'clock Wednesday morning.

A car load of fine pure bred Holstein cattle will arrive today from Richmond. Messrs Fred Whittle, Albert Fisher, Henry Christofferson and Nelson Bros., will be the principal Holstein exhibitors this year. With the number of Jerseys and Durhams coming from the other settlements and the Jerseys from the Ballmoor Farms, will make an excellent showing.

Nearly every town in the county will be represented with a stallion or two besides many fine colts and draft horses. As there are a number of new percheron and Belgian stallions this year, the competition will be exceptionally keen.

Many pens for poultry have been spoken for and Mr. H. C. Maughan, supervisor, reports that he will have difficulty in finding enough room, but arrangements will be made to place a row of pens down the center of the building so that all may be accommodated.

The judging in all the departments will commence Thursday, Judging Day at 10 a. m. The following will act as judges:

- Horses—Prof. W. E. Carroll, U. A. C.
- Cattle—Ben R. Eldredge, Salt Lake City.
- Sheep and Swine—Prof. W. E. Carroll, U. A. C.
- Poultry—E. M. Quay, Indiana.
- Agriculture—Dr. F. S. Harris, U. A. C.
- Floriculture—Frederick Scholes, Logan.
- Women's Work—Mrs. J. E. Hyde, Logan.

Bread Making, special contest—John M. Russell, Logan.

Milk Contest—Prof. W. E. Carroll, U. A. C.

Yesterday Mr. George O. Walton, and others arrived from Evanston with twenty head of the fastest gallopers that have ever been here. Mr. Earl Simpson has wired from Idaho that he and a cowgirl will be here with a fast string of relay and running horses. These in connection with the two runners from Gentle Valley will make twenty-six head of gallopers.

The harness horses from the Mant Fair and other places in the state and Idaho will arrive today. The recent rain has put the race track in excellent condition and the horsemen predict fast records. The track gets better every year and we can boast of one of the best. The races will be made up this evening and come out with the regular program. Full details will be given and numbers used so that the public may easily become acquainted with the horses and drivers.

The public would do the management a favor if they would come

during the morning so as to prevent the congestion at the gate. As tomorrow is Merchants' Day, it is thought that many will close for a short time to attend the fair. It is the aim to have a good program each day.

Some novel and entertaining attractions are coming with the concessions. Many applications for space have been made.

The Extension Workers of the Cache Stake Relief Society will operate a lunch stand during the fair. Last year the stand was much appreciated especially by the women, because of the conveniences and the good food served. The best of food will be served at moderate prices. The funds from this source go to assist the poor.

AN ENVIABLE APPOINTMENT IS RECEIVED

Dr. E. D. Ball Goes To Wisconsin As State Entomologist

Dr. E. D. Ball, who resigned as Director of the Experiment Station of the Utah Agricultural College last spring, has just left for Wisconsin where he goes to assume the duties of State Entomologist. Dr. Ball is in a position to render service of a peculiarly valuable nature in his new position. His great practical experience has made him familiar with the entire field of entomology. He will direct his energies in his new position largely toward the legal aspect of the work.

While Director of the Utah Station Dr. Ball contributed much to the development of economic entomology. In particular, his work in connection with the codling moth needs mention. Through Dr. Ball's investigations the life history of this mighty destructive insect has been uncovered, and methods of control have been developed so that now, any orchardist can, by following the simple directions offered by the Utah Experiment Station, keep his trees free from this pest.

Dr. Ball came to the Utah Agricultural College in the fall of 1902 as professor of biology. His undergraduate training he received at the Agricultural College of Iowa, from which school he graduated in 1895. In 1898 he received his master's degree from the same institution, and a little later he secured his doctor's degree from the University of Ohio. In 1907 he was appointed director of the Utah Experiment Station.

CONFERENCE AND STATE FAIR

Go Via Oregon Short Line

The fare is no more than via any other route. Big, comfortable cars; convenient schedules; low rates. See O. S. L. agents.—Adv. 10-7

There will be a special meeting of the Stake Relief Society economics in the Tabernacle today, Tuesday, at 2 o'clock. A lecture and discussion will be given by Mrs. Hazel Lunford. A vocal solo will be rendered by Mr. Lawrence Bailey. The public is cordially invited.

NEW BUILDING FOR GARAGE ON N. MAIN STREET

Messrs. Bacon and Harris to Improve Eccles' Property Opposite the Court House

Citizens of Logan and Cache Valley will be delighted to learn that E. P. Bacon and Charles M. Harris, two of the valley's staunchest supporters and most ardent boosters, have purchased the Eccles corner on North Main street just across the street from the court house property and are developing plans to improve this vacant property with buildings. Within the immediate future the building occupied by the Logan Garage & Supply Company is to be converted into a modern laundry building and will be taken over by the American Steam Laundry which has entirely outgrown the present quarters on Center street.

A new home is to be erected on the corner of Second North and Main street with 95 feet fronting on Main street for a new home for the Logan Garage. A large plate glass front will be placed on the corner which will face both streets and front of the building will be used to display automobiles and as a salesroom. The machinery and equipment in the present garage quarters which is some of the best shop equipment in the state, will be installed in the new building. In the present garage there is no room to store cars, and while it is too small for the garage it will be ideal for a new home for the laundry.

In this place the local laundry will be put on a par with other large laundries of the coast where dyeing shoe repairing and hat repairing and cleaning departments are maintained. When this is done the American Steam Laundry will be prepared to take care of the entire wardrobe.

Messrs Bacon and Harris have not as yet announced what they intend to do with the property which lies between the garage building which is to be occupied by the laundry and the proposed new building, but plans are also well in hand to utilize this property as well. This will be the first big step toward extending the business section of the city northward.

EDISON'S FAVORITE CREATION

Thomas A. Edison says that he has at last succeeded in re-creating the human voice so perfectly upon the new Edison phonograph, that the re-creation cannot be distinguished from the original. He also states that no needle type talking machine dare place the singer in direct comparison with their machines in like manner. He further states that the new Edison is the only machine that gets away from that whiney phonograph tone. In evidence we quote the following from the Boston Herald of November 21, 1915:

Anyone who yesterday heard Miss Miller's voice swelling out through the auditorium and then heard that voice superbly matched in all the delicate variations of tone and color by the instrument cannot fail to be impressed by the almost human qualities of Edison's invention.

Perhaps the artistic merit of Mr. Edison's invention can in no way so well be attested as by the fact that 600 members of the Handel and Haydn Society of Boston were yesterday seated in Symphony Hall.

HARRIS MUSIC COMPANY
 Edison Dealers.

Adv. 9-26

Dr. Snow, specialist, eye, ear, nose and throat will be at the office of Doctors Budge and Hayward on the last Saturday of each month.—Adv. 9-28

B. Y. COLLEGE IS AGAIN IN FULL SWING

The Brigham Young College school work is now in complete running order, in fact the class work has been going on since Tuesday of last week. The registration has been very heavy. The numbers must have reached nearly six hundred exclusive of Training and special students as the registration numbers were well into the five hundreds Friday of last week. Judging from the new students in the registration rooms, there has been a large increase in the enrollment yesterday and today. The increase has not been in the first years. There are no more—probably fewer—of them than there were last year. Probably the greatest percentage of increase is with the college department. When the application for Training in the educational department began to pass the forty mark and approach the fifty the Training School faculty began to fear that they would not be able to provide for all applicants; but happily, arrangements have been made whereby College students desiring training can be provided for in a manner not excelled in any normal institution in the state. Trainers now will be permitted not only to hear the small group recite, but meet as well the real condition of a school room—hearing a recitation and directing the activities of the students in the study period at the same time.

Student Body and social activities have already commenced. In student meeting last Friday, G. Elmer Kingsford was made Crimson editor in place of Percy Smith who is not back. Business manager, Welch is out soliciting advertisements for the Crimson. He is being well received by the business men who are really loyal to the B. Y. and find an advertisement put in the Crimson, good business.

The third year class, after having worn conspicuously class colors to the early classes Friday morning, rallied to the bugle call, stole a march on the school and in automobiles reinforced by "Food '18" left for Logan canyon.

The Fourth year class ended the week, the first week, with a very successful social and dancing party in the B. Y. gym. The class reinforced by the invited faculty made a party of about 150 of the jolliest folks ever.

RESIGNS PULPIT FOR POSITION IN THE EAST

After nearly seven years of mission work in Utah, three of which were spent as the pastor of the Logan Presbyterian Church, Rev. Mr. A. F. Wittenberger on last Sunday morning resigned his pulpit. He will leave October 2 for Duluth, Minn., where he will take charge of the new and promising church in Morgan Park suburb.

While here Rev. and Mrs. Wittenberger have made a host of friends, all of whom will regret to see them leave us, but will extend best wishes for success in their new field of labor.

Keep Utah money in Utah.

REPUBLICAN RALLY

Congressman Miller of Minnesota, one of the ablest men in Congress, will speak on the issues of the day at Nibley Hall, Saturday evening, September 30 at 8 o'clock. Good music will be provided.

Timothy C. Hoyt will also make an address.
