"CHEVROLET"

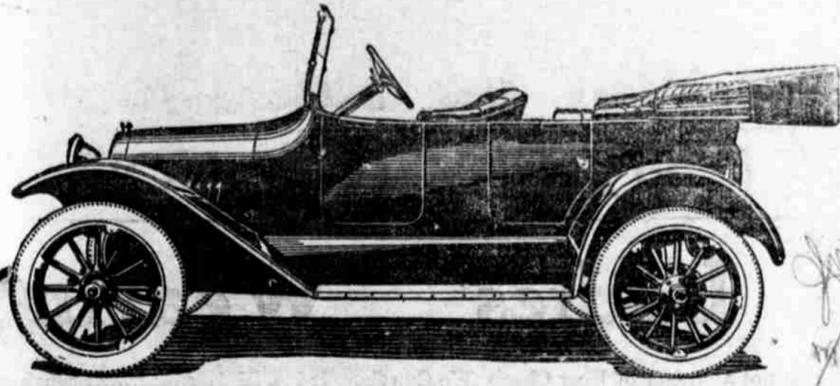

A Veteran Civil of the War Writes

I had occasion to take a trip with my wife and grand-daughters and I made the trip of 551 miles as shown by my speedometer in the elapsed time of eleven hours and forty-nine minutes from Cincinnati to Chicago. I averaged 25 1-10 miles per gallon for the trip and drove the car the entire distance myself.

ber in recent years has had a lower buying power than any of the others. Conditions which hurt the lumber industry automatically hurt hundreds of thousands of persons dependent on it for a living. It is therefore with a feeling of satisfaction that the public has noted improved market conditions during recent months.

Lumber, however, is still one of the cheapest commodities. Using the realizations of January, 1913, and July, 1919, Bradstreet's Commodity Index shows that, as compared with 1913, lumber has a purchasing power of 163 per cent; general commodities 199 per cent. In comparison to other basic commodities, such as steel, cement, brick, farm produce, leather and clothing, lumber is lower now than it was in 1913.

The commodity prices continued to soar during 1918 while price of lumber was not only held down but reduced by the government.

KEEP LOOKING YOUNG

It's Easy - If You Know Dr. Edwards' Olive Tablets

The secret of keeping young is to feed young—to do this you must watch your liver and bowels—there's no need of having a sallow complexion—dark rings under your eyes—pimples—a bilious look in your face—dull eyes with no sparkle. Your doctor will tell you ninety per cent of all sickness comes from inactive bowels and liver.

Dr. Edwards, a well-known physician in Ohio, perfected a vegetable compound mixed with olive oil to act on the liver and bowels, which he gave to his patients for years.

Dr. Edwards' Olive Tablets, the substitute for calomel, are gentle in their action yet always effective. They bring about that natural buoyancy which all should enjoy by toning up the liver and clearing the system of impurities.

Dr. Edwards' Olive Tablets are known by their olive color. 10c and 25c.

WHEAT, HOGS, LUMBER are real prosperity. In the states of Oregon and Washington alone this industry is responsible for the steady employment of some 150,000 men at good wages not to mention the taxes it pays or the millions expended for equipment, etc. Of all the basic commodities, lumber

Before buying they all investigated and their investigation led them to the Caloric pipeless furnace because it gives more heat and nicer heat for less coal and less trouble.

Here is the list of some of those who have recently bought Caloric Furnaces, to be installed this fall.

Won't you investigate, too? Get our free furnace book, it tells all about heating houses. It also shows pictures of a hundred Caloric heated houses in Cache Valley and gives copies of a hundred letters from users of Caloric Furnaces

Here is a sample of these letters:

Smithfield, Utah, March 27, 1919.

The Caloric you installed for us has certainly worked dandy. The house is comfortable everywhere. We would not sell it for any price if we could not get another as good. If you wish to have anybody call, we will be glad to recommend it.

WILLIAM MATHER.

WE GIVE A WRITTEN GUARANTEE THAT THE CALORIC WILL GIVE SATISFACTION. ASK THE PEOPLE WHO USE THE CALORIC. YOU WILL FIND IT HAS REAL MERIT.
