

THE SALESWOMAN

Compelled to Be on Her Feet the Larger Part of the Day Finds a Tonic in Pe-ru-na.

Miss Nellie Curtin, of St. Paul, Gives Her Experience.

Miss Nellie Curtin.

MISS NELLIE CURTAIN, 646 Pearl street, St. Paul, Minn., head saleswoman in a department store writes: "I have charge of a department in a dry goods store, and after standing the larger part of the day, I would go home with a dull ache, generally through my entire body. I used Peruna and feel so much better that I walk to and from the store now. I know Peruna to be the best medicine on the market for the diseases peculiar to women."—Miss Nellie Curtin.

Nothing is so weakening to the human system as the constant loss of mucus. Catarrhal inflammation of the mucus membrane produces an excessive formation of mucus. Whether the mucus mem-

brane be located in the head or pelvic organs, the discharge of mucus is sure to occur. This discharge of mucus constitutes a weakening drain; the system cannot long withstand the loss of mucus, hence it is that women afflicted with catarrhal affections of the pelvic organs feel tired and languid, with weak back and throbbing brain. A course of Peruna is sure to restore health by cutting off the weakening drain of the daily loss of mucus.

An Admirable Tonic.
Congressman Mark H. Dunnell, National Hotel, Washington, D. C., writes: "Your Peruna being used by myself and many of my friends and acquaintances not only as a cure for catarrh but also as an admirable tonic for physical recuperation. I gladly recommend it to all persons requiring such remedies."—Mark H. Dunnell. If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis. Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

WHY HE WOULD BE PAINED.

Very Sufficient Reason for the Father's Indignation.
A kind-hearted lady saw a small boy seated on one of the benches in Fairmount park the other day smoking a cigar, which she afterward told a friend seemed almost as big as himself. The lady is an enthusiastic anti-tobacco worker, and never loses an opportunity to impress, especially upon youthful minds, the evils of heretofore maintained. The strike was ordered in consequence of the refusal of Superintendent Halubridge to employ only union men. "We will complete that tunnel if it takes the United States army to protect the work, and if it is necessary for us to put on our working clothes and do the labor ourselves," said President Samuel Beaumont of the El Paso Mining company, which has the contract for building the tunnel. It is not unlikely that within twenty-four hours rich mine owners and high salaried mine managers will go to the big bore to take the places of the men called out. There are now 4,000 miners idle in the district. The mine owners and managers have announced their determination to reopen the mines as quickly as possible.

Citizen Was "Rattled."

An incident during the royal visit to Edinburgh, which was the cause of a good deal of amusement at the time, occurred on the occasion of the conferring of the accolade by the king on one of the newly made knights. The worthy citizen, when placing himself upon his knees in order to receive the all-important tap on the shoulder from the royal sword, knelt down in the flurry of the moment at such a distance from the king's chair that he was quite out of reach. A sign was made to him by some one in attendance to approach nearer, whereupon the good man, without rising to his feet, shuffled along on his knees until he got within the required distance. His majesty expressed his interest by a genial smile, while his gracious consort held up to her face an enormous bouquet.—Modern Society.

Sea Spectacles.

The new hydroscope invented by Signor Pinos, an Italian, it is said, enables human eyesight to penetrate the sea to an incredible depth and for an enormous distance.

WILL USE PICK AND SHOVEL.

Cripple Creek Mine Owners Will Reopen Mines, Despite Strikers.
Union miners working in the drainage tunnel at Cripple Creek, Colo., were called out Thursday by their executive officers. The tunnel, which will drain most of the big mines of the district, would be completed in another week at the rate of progress heretofore maintained. The strike was ordered in consequence of the refusal of Superintendent Halubridge to employ only union men. "We will complete that tunnel if it takes the United States army to protect the work, and if it is necessary for us to put on our working clothes and do the labor ourselves," said President Samuel Beaumont of the El Paso Mining company, which has the contract for building the tunnel. It is not unlikely that within twenty-four hours rich mine owners and high salaried mine managers will go to the big bore to take the places of the men called out. There are now 4,000 miners idle in the district. The mine owners and managers have announced their determination to reopen the mines as quickly as possible.

GHOUL ADMITS CRIME.

Indiana Thugs Killed People Solely to Sell Their Bodies.
With a boldness unprecedented in criminal annals an organization of murderers and cutthroats has operated in Indianapolis for nearly three years, unknown to the police and unmentioned by the officers of the law. The confession of Rufus Cantrell, "King of the Ghouls," as made public, throws some new light on the operations of the gang. Cantrell's confession has been supplemented by the confession of other murders he and his associates have committed. He declares he was implicated in the murder of Patrolman Watterson several years ago. This was his first murder, he says. No clue has been found. He declares that one of his accomplices was William Harris, colored, now living in Philadelphia. He next tells of the murder of Walter Johnson, and admits numerous other crimes. The gang Cantrell belonged to was known to its members as "The Sign of the Cross." Many of the people were murdered simply for the purpose of selling their bodies.

POISONED AT LUNCH.

Fifty People Stricken Down From Ptomaine Poisoning.
Senator William M. Stewart, of Nevada, recently advertised his dairy farm and appliances, situated at Ashburn, near Leesburg, Va., for sale. Accordingly, an auction was well attended there Thursday, but the sale had to be postponed. In the middle of the day the senator provided a lunch for all comers. Fifty people were immediately taken violently sick from ptomaine poisoning. The crowd became panic stricken. Business was stopped and horsemen were dispatched posthaste for the nearest physicians. At last accounts all the men were recovering. An investigation to ascertain the cause of the poisoning is in progress.

Naked and Starving.

The Morgan line steamer Eldorado, which arrived at New York Thursday from Galveston, had on board a 12-year-old boy who was found adrift in an open boat about 100 miles off the Georgia coast, on August 10. He was naked and was almost dead from exposure. After the lad had been revived somewhat he told Captain Prescott that with two other boys, he was fishing outside the harbor of Havana, when the boat broke adrift. Two of the boys swam ashore. The other boy was unable to swim so far, and remained in the boat without food or water until picked up by the Eldorado.

Girl Dies of Fright.

Cetreda Ryan of Rochester, N. Y., aged 10 years, is dead at West Webster, from fright. The child had been visiting in the country for her health. She saw a team in the yard, and thought it was running away. She started and later died. An autopsy showed inflamed membranes of the brain and pericardium of the heart and stomach filled with nutrients food. This physical combination was such that the fright added to it caused death.

Deed of Inane Kansan.

Wile Camen's band was playing its silly concert on Main street, Winfield, Kansas, Thursday evening, to a crowd of 5,000 people. Gilbert Twigg, a crazy man 30 years of age, opened fire on the crowd with a double barreled shotgun loaded with heavy bullets. As a result four are dead (three are dying and no less than twenty injured, perhaps five or six fatally). Twigg was finally shot and killed by an officer. The boys around town commonly referred to him as "Crazy Twigg" but no one thought he was dangerous.

Lion Not a Brave Animal.

Men who have shot nearly all of the dark continent's animals have, as a rule, nothing but contempt for the so-called "king of beasts," the lion. To the hunter he is a cowardly, skulking, brute, far more dangerous to the horses and oxen at night than to the human part of the expedition, always ready to slink off and escape a fight if given a chance. There is nothing kingly about him, and a single man can usually put half a dozen lions to flight.

FREE TO WOMEN!

To prove the healing and cleansing power of PAXTINE Toilet Soap, we will mail a large trial package with book of instructions absolutely free. This is not a tiny sample, but a large package, enough to convince anyone of its value. Women all over the country are praising PAXTINE for what it has done in local treatment of female ailments, curing all inflammation and discharges, wonderful as a cleansing vaginal douche, for sore throat, nasal catarrh, as a mouth wash and to remove tartar and whitening the teeth. Send today; a postal card will do. Held by druggists or sent postpaid by us, 50 cents, large box, satisfaction guaranteed. THE H. H. HARTON CO., Boston, Mass., 514 Columbus Ave.

MORE HONOR FOR LINCOLN.

How Colored Woman Described the Great Emancipator.
A few evenings ago Secretary Cortelyou was enjoying a stroll in Lincoln park, which happens to be not far from his home on Capitol hill. In front of a bronze statue of Lincoln which adorns this square Mr. Cortelyou noticed two colored women, one of whom, as evidenced by her dress, was from the country and taking in the sights of Washington with a city relative. "And you can't guess who dat is?" the Washington woman was repeating, pointing to the statue of the emancipator. "I don't guess I can," was the response of the visitor. "Who is it?" "Why, chile," said the ebony guide proudly, "dat am de instigator ob our renew."—Saturday Evening Post.

The Great American Jury.

There is a town in Pennsylvania which lately evolved one of the most remarkable juries on record. This jury, trying school directors accused of extortion from teachers, rendered a verdict acquitting the accused and sentencing them to be reprimanded by the court. The only inference is that they are to be reprimanded for being not guilty. This jury should be carefully preserved in alcohol and deposited for the benefit of future admiring ages in the Smithsonian institution.

Real Ship Trimmers.

Sir Thomas Lipton and J. P. Morgan both arrived on the same steamer. By berthing them on opposite sides it was possible to bring the ship across on an even keel, but it was noticed that her Pliimsol marks were pretty well down in the water.

Valuable South Dakota Mines.

The mines of the Black Hills district, South Dakota, for the year just closed produced \$8,363,392, which is nearly \$1,000,000 increase over the previous year. The average value of the ore handled in the district per ton was \$4.44.

BACKACHE.

Backache is a forerunner and one of the most common symptoms of kidney trouble and womb displacement.

READ MISS BOLLMAN'S EXPERIENCE.

"Some time ago I was in a very weak condition, my work made me nervous and my back ached frightfully all the time, and I had terrible headaches."

"My mother got a bottle of Lydia E. Pinkham's Vegetable Compound for me, and it seemed to strengthen my back and help me at once, and I did not get so tired as before. I continued to take it, and it brought health and strength to me, and I want to thank you for the good it has done me."—Miss KATE BOLLMAN, 142nd St. & Wales Ave., New York City.—\$5.00 per bottle (smaller bottles 25c). *(Small bottles of above letter proving genuineness cannot be produced.)*

Lydia E. Pinkham's Vegetable Compound cures because it is the greatest known remedy for kidney and womb troubles.

Every woman who is puzzled about her condition should write to Mrs. Pinkham at Lynn, Mass., and tell her all.

Agricultural College OF UTAH.

THE SCIENTIFIC TECHNICAL COLLEGE OF THE STATE. PROVIDES LIBERAL, THOROUGH AND PRACTICAL EDUCATION.

The Agricultural College of Utah was established in 1888, in pursuance of an Act of Congress approved July 2, 1892, granting public lands for the maintenance of institutions of higher learning. "In order to promote the liberal education of the industrial classes in the several pursuits and professions of life."

THE COLLEGE COMPRISES:

THE SCHOOL OF AGRICULTURE.
THE SCHOOL OF DOMESTIC SCIENCE AND ARTS.
THE SCHOOL OF COMMERCE.

THE SCHOOL OF ENGINEERING AND MECHANIC ARTS.
THE SCHOOL OF GENERAL SCIENCE.
THE AGRICULTURAL EXPERIMENT STATION.

COURSES.

Regular baccalaureate courses are offered in Agriculture, Domestic Science, Commerce, Engineering, and General Science, and high school courses in Agriculture, Domestic Science, and Commerce; also Manual Training courses in Domestic Arts and in Mechanic Arts, and a College Preparatory Course.

EQUIPMENT.

The College grounds occupy 111 acres, comprising campus, athletic field, farms, orchards, and gardens. There are nineteen buildings fully equipped for the various purposes of the institution. Modern barns are stocked with the best types of horses, cattle, sheep, hogs, and poultry. The scientific and engineering laboratories and museums are provided with the most modern equipment. A car load of new machinery has been ordered for the September opening. The shops are thoroughly equipped for work in wood and metals. Extensive and new equipment is provided throughout all departments of the institution. A strong Faculty of fifty-three members, representing the best institutions of America and Europe, are in charge of the work of instruction and agricultural experimentation. All large classes are divided into small sections, that the students may receive careful individual attention, thereby insuring thorough and efficient work throughout all departments.

No tuition is charged. Annual registration fee, \$5. Registration of students, September 15 and 16. Illustrated catalogue giving detailed information regarding courses of study, entrance requirements, etc., will be sent free on application.
