

Cedar City Happenings

Moroni W. Smith was in Cedar the fore part of the week receiving medical attention from Dr. A. N. Leonard.

A nice baby girl was added to the family group of Mr. and Mrs. William Grimshaw last Monday night. Everything going "nicely."

A girl was born to Mr. and Mrs. Whitney McDonald Wednesday night. The mother, who is staying temporarily with her parents in this place, is doing nicely.

R. J. Williams, Jr., the new county assessor, is in Parowan receiving the plat books, etc., preparatory to commencing his work of assessing for the current year.

Miss Ruby Leigh, instructor in physiology at the B. A. C., has been suffering from erythema the past week, which has incapacitated her for duty, and her place at the school has been filled by Dr. A. N. Leonard, who also has charge of the young lady's case and reports that she is making a satisfactory recovery.

Thursday, Friday and Saturday of this week were designated by the Mayor and Council as gravel days and it was planned for every citizen having a team and wagon to turn out and haul gravel or shale onto our streets, unpaved sidewalks and street crossings. The sudden change in the weather has doubtless upset all the calculations and dates will have to be fixed a little later when the weather is more propitious.

We have a communication from Dr. G. W. Middleton in which a slight explanation is made concerning the publication of his book, "Twenty Years After," for which on account of our reduced size we are unable to make room for this issue, but which will appear next week. Of course, in our opinion, the Doctor's book requires no explanations or apologies. But usually an author is more sensitive about his work than anyone else.

Dr. Macfarlane returned last night about 12 o'clock from a trip to Pinto and Newcastle. At the former place he was called to attend Benjamin Knell, Sr., whose health of recent years has been failing quite rapidly; The doctor left Newcastle last night dance upon a child of Mr. Knell's that is very ill with broncho-pneumonia. The doctor left Newcastle last night at 6 o'clock, when the heavy snow-storm was raging, and made it thru all right in his Ford roadster, with the axle in places dragging the snow, until he ran out of gasoline near the State Well.

The Record has a treat in store for its readers next issue in the form of a timely poem on "War" from the pen of Poet Laureate Cox, which we were unable to publish this issue. The name of the author is sufficient warrant for our readers looking forward to something worth while.

H. C. Taggart, one of the guards from the state penitentiary, was in Cedar City this morning, having come down to meet six of the prisoners from the road camp in Washington county whose sentences will expire in a few days, and who are being taken back to Salt Lake City. He was met here with the prisoners by Ed. Janney a guard from the camp.
