

**WHERE WOMEN SAVED THE DAY.**

**Two Cases in Which Their Services Were of Importance.**

In 1797 Col. Tate, with the Legion Noire, landed near Fishguard, intending to march on and burn Bristol. When the expedition appeared off the coast there was only a handful of volunteers available to oppose them and Lord Cawdor, who was in command, mustered all the Welshwomen he could gather together. Each of these wore a long red cloak, descending petticoat fashion almost to her heels, and thus attired they were made to march and counter-march among the hills, presenting themselves at different points to the view of the enemy in such a way as to give the impression of red-uniformed troops taking up position. The French were so puzzled by their appearance that, although they landed, they could not make up their minds to advance until sufficient time had elapsed to raise the country and bring forward a real force strong enough to beat them back. Another case in point was furnished by the milkmaids of Dort, in Holland, who gave timely warning of the approach of a band of invading Spaniards and thus saved their city.

**A Physician's Statement.**

Yorktown, Ark., Jan. 11.—Leland Williamson, M. D., one of our cleverest physicians, has made a statement, endorsing Dodd's Kidney Pills and saying that he uses them in his daily practice in preference to any other kidney medicine. His statement has created a profound sensation, as it is somewhat unusual for a physician to publicly endorse anything in the shape of a patent medicine. Dr. Williamson says:

"After twenty years' practice in a sickly and malarious country I have come to the conclusion that it is always best to use the remedy that will relieve and cure my patients, whether ethical or not.

"I have used Dodd's Kidney Pills with uniform success in the various forms of Kidney Disease, Pain in the Back, Gout, Rheumatism, Inflammation and Congestion of the Kidneys and all kindred diseases; I always prescribe Dodd's Kidney Pills in such cases and can testify that they invariably restore the Kidneys to their normal state and thereby relieve the blood of accumulated poisons, producing prompt and effective cures."

**Make Cardinals' Robes.**

The brilliant crimson cloth of which the cardinals' robes at the Vatican are made has been supplied for generations past by the same family of cloth merchants at Burtseid, near Aix-la-Chapelle, the secret process by which the dye is distilled having been handed down from father to son. The family, curiously enough, is of Huguenot descent, and its members are to this day staunch Protestants.

**Feet Comfortable Ever Since.**

"I suffered for years with my feet. A friend recommended ALLEN'S FOOT-EASE. I used two boxes of the powder, and my feet have been entirely comfortable ever since. ALLEN'S FOOT-EASE is certainly a god-send to me. Wm. L. Swormstedt, Washington, D. C." Sold by all Druggists, 25c.

**Ex Uno Multi.**

The longevity and elasticity of the ever increasing list of the descendants of William the Conqueror would point to the conclusion that the victorious William was not only a Norman but also a Mormon.—Princeton Tiger.

**How's This?**

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHERNEY & CO., Toledo, O. We, the undersigned, have known F. J. Cherney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligation made by his firm.

WALBURY, KINGS & MARTIN, Wholesale Druggists, Toledo, O. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 25 cents per bottle. Sold by all Druggists.

**Right Temperature for Work.**

Dr. Benjamin Ward Richardson found after long experiments and practice, that 64 deg. Fahr. is the best temperature in which to conduct mental labor. If the temperature falls below this the mind becomes drowsy and inactive; and if it rises much above there is a relaxed state of the body and mind which soon leads to fatigue and exhaustion. It is important that the temperature be the same in all parts of the room, and that it is steadily maintained.

Piso's Cure for Consumption is an infallible medicine for coughs and colds.—N. W. SANUEL, Ocean Grove, N. J., Feb. 17, 1903.

**Insect Foes of Mankind.**

When it comes to actual facts and figures of the financial losses caused by insect pests the published papers and reports of expert investigators connected with our agricultural department at Washington and our agricultural stations elsewhere furnish the chief and largest resource. The figures given here are truly staggering in their immensity. Thus we have it on the authority of Dr. Howard that the actual money loss occasioned by insect pests in this country every year is not less than \$25,000,000. According to Dr. Howard the grasshopper pest which visited large areas of the West in 1874-76 destroyed farm crops to the value of \$100,000,000 in a single season.

**Floating Exposition.**

According to the leading paper of Vienna, Austrian exporting circles are contemplating the fitting out of a steamship for a floating industrial exhibition to visit the ports of the East Indies and eastern Asia. A similar enterprise, undertaken in 1901, had given profitable results to Austrian manufacturers and exporting houses which participated therein.

**Earliest Green Onions.**

The John A. Salzer Seed Co., La Crosse, Wis., always have something new, something valuable. This year they offer among their new money making vegetables, an Earliest Green Eating Onion. It is a winner, Mr. Farmer and Gardener!

JUST SEND THIS NOTICE AND 10c, and they will send you their big plant and seed catalog, together with enough seed to grow:  
1,000 fine, solid Cabbages.  
2,000 delicious Carrots.  
2,000 blanching, nutty Celery.  
2,000 rich, buttery Lettuce.  
1,000 splendid Onions.  
1,000 rare, luscious Radishes.  
1,000 gloriously brilliant Flowers.  
In all over 10,000 plants—this great offer is made to get you to test their warranted vegetable seeds and ALL FOR BUT 10c POSTAGE, providing you will return this notice, and if you will send them 20c in postage, they will add to the above a package of the famous Berliner Cauliflower. (W. N. U.)

**Valuable Cosmetic.**

The cashew nut serves a unique purpose as a cosmetic in the West Indies, where women, desiring to remove the excessive tan, anoint the skin with an oil from the outer surface of the raw nut. For two weeks the patient must retire from society, for the face and hands so treated turn black. At the end of a fortnight's seclusion, however, the woman who has undergone the cashew treatment emerges, observes state, "with skin and complexion as fair as a babe's."

**Heat From Acetylene.**

A comparison between the heating properties of acetylene and coal gas shows that the heat units developed per cubic foot are 1,850 and 630, respectively, the temperature of the acetylene flame being about 2,000 degrees Fahrenheit. With an acetylene burner consuming two cubic feet of gas an hour a quart of water was brought from a temperature of about 59 degrees to the boiling point in about 8 1/4 minutes. Under similar conditions it required 10 1/4 minutes for the illuminating gas to accomplish the same results, though the burner used sixteen cubic feet of gas per hour.

**Nerves and the Piano.**

An eminent Berlin nerve specialist, who had his attention attracted to the chronic nervousness of many pianists, has been studying the piano from the pathological point of view. Out of 1,000 young girls whom he examined, each of whom had begun to study the piano under 14 years of age, no less than 600 had some nervous malady, while out of 1,000 who had never studied the instrument only 100 were afflicted. The specialist, therefore, has promulgated the theory that no child should be allowed to learn the piano before the age of 16.

**Woman and Little Things.**

A man may look at life as through field glasses. He gives himself a wide horizon, and does not always heed the things which lie nearest him. A woman has more of the microscopic instinct. She sees the importance of little things, and that is how so many have genius enough to make \$10, or even less, provide the necessities of a household.

**GIVES "GO"**

**Food That Carries One Along.**

It's nice to know of food that not only tastes delicious but that puts the snap and go into one and supplies staying power for the day.

A woman says: "I have taken enough medicine in my time to furnish a drug store, but in later and wiser years I have taken none but have depended for the health I now enjoy, on suitable and sustaining food of which I keep on hand a tested variety, plain but nourishing."

"Of these my main dependence is Grape-Nuts, especially if I have before me a day of unusual effort either mental or physical. In this case I fortify myself the first thing in the morning with about 4 teaspoonfuls of Grape-Nuts moistened with cream and not much else for breakfast and the amount of work I can then carry through successfully without fatigue or exhaustion is a wonder to those about me and even to myself."

"Grape-Nuts food is certainly a wonderful strengthener and is not a stimulant, for there is no reaction afterwards, but it is sustaining and strengthening, as I have proved by long experience." Name given by Postum Co., Battle Creek, Mich.

"Here's a reason four teaspoonfuls of Grape-Nuts and cream will add more strength and carry one further than a plateful of coarse heavy food that is nearly all waste. Grape-Nuts food is condensed, pre-digested and delicious. It contains the parts of the Wheat and Barley grains that supply the rebuilding parts for Brain and Nerve Centers."

Look in each package for a copy of the famous little book, "The Road to Wellville."

**Popular Foulards.**

Large figuring and ombre stripes will characterize the foulards for the coming season, and a model recently shown, which is an imported one, shows a scarlet silk with large white flowers and gold braids, effectively used for trimming. The shaped piece of plain scarlet silk which outlines the white yoke is heavily embroidered with gold threads, and tressed gold cords are draped beneath this and used to form a lattice over the under-blosure of plisse chiffon. The skirt has a tunic effect deeply scalloped over the two scant volants, this being outlined with the gold lace braid and a deep pointed belt of gold lace, with sash loops and ends in the back, make a girlish finish.

The hat worn with this gown is in white Irish crotchet, with a binding of white panne velvet embroidered in gold and a shaded plume in white pink and a little red dropping over the side.

**Fashion's Latest Monstrosities.**

Some of the new leather, suede, morocco and silk belts are perfect monstrosities, and it is to be hoped that all dainty women will put their stamp of disapproval on them. They come in all colors and all widths, but the one upon which fashion has set its seal is about four inches wide and undeniably ugly.

One of the prettiest leather belts is the Japanese, which has the dragon embroidered on it in different shades. It has a silver or gold dragon mounting.

The buckles were never handsomer. Chinese ones of jadestone and crystals, set with garnets, are taken from the men's wraps and used for buckles.

**Girl's Apron.**

Dainty aprons always are attractive as well as serviceable and are to be commended from the aesthetic as well as the practical point of view. This one is made of lawn with trimming of embroidery and gives an effect of epaulettes at the front, a berth at the back. As shown it is worn over a frock but it can be used with the gumpe only when desirable. All lawns, dimities and the like are appropriate. Both front and backs are tucked for a short distance below their upper edges, the tucks providing fullness below, and between the groups of tucks at the front pointed bands of trimming are applied. The quantity of material for a girl of 4 years of age is 1 1/2 yards 36 inches wide with

4528 Girl's Apron, 2, 4, 6 years.

3 1/2 yards of insertion and 4 1/2 yards of embroidery. A May Manton pattern, No. 4528, sizes 2 to 6 years, will be mailed to any address on receipt of ten cents.

**Pastel Pink Sicilienne.**

A charming and simple little frock of pastel pink sicilienne is made with emplacements of lace and hand-made tucks. The corsage fastens in the back and the sleeves are really a series of ruffles, composed of the sicilienne and chiffon alternating, these falling into a tight cuff at the wrist. The skirt is tucked in groups to the knee, where it is left to flare. The ostrich boa and muff are in woodland brown, the boa being in three strands and the muff large and of the extreme pocket shape.

**Cheese Souffle.**

Cheese souffle is a dainty dish, and one suitable for the autumn supper table. Put two level teaspoonfuls of butter in a frying pan and stir in a

heaping tablespoonful of flour. Gradually add half a cup of milk and boil one minute. Then add a seasoning of half a teaspoonful of salt and one-tenth of a teaspoonful of cayenne. Stir in one cup of soft grated cheese and the yolks of three eggs, well beaten. Pour the mixture into a bowl and set it away to cool. When thoroughly cold, add the whites of the three eggs, whipped to a very light froth. Turn the mixture into a buttered baking dish, or into individual custard cups. Bake the souffle from ten to twelve minutes, and serve hot, immediately.

**Misses' Waist.**

Young girls always look well in waists that include broad collars giving a sailor effect. This one is pe-

4602 Misses' Waist, 12 to 16 yrs.

cularly desirable and includes, besides that feature, tucks which give tapering lines at the back and a box pleated effect at the center front. As illustrated it is made of white corduroy with a collar of silk and trimming of applique, but can be reproduced in almost any of the season's waist or dress materials with equal success, and the collar can be either of the same or contrasting material.

The waist consists of the fitted lining, which closes at the center front, the smooth back and the full fronts which are arranged over it, the closing of the waist being made invisibly beneath the edge of the box plait. The wide collar is cut with stole ends and arranged over the waist. The neck can be finished either with the stock, as illustrated, or with the collar alone. The sleeves are the favorite ones of the season that are snug above the elbows and form full puffs at the wrists.

The quantity of material required for the medium size is 3 3/4 yards 21, 3 1/2 yards 27 or 2 3/4 yards 44 inches wide, with 5/8 yard for collar, and 2 3/4 yards of applique to trim as illustrated.

The pattern 4602 is cut in sizes for girls of 12, 14 and 16 years of age.

**Cleaning Chamois Trimmings.**

Linings or facings of chamois leather upon garments may be cleaned by rubbing all over with soft, white soap, then sponge the leather with warm soapsuds in which a little soda has been dissolved. Wash this off with lukewarm water, containing a slight percentage of soda, and finally dry the facings between two towels. If the chamois leather is not detachable from the rest of the garment, care should be taken that the latter does not become wet also. Hang the article to dry in the shade and stretch the leather straight and smooth while it is still damp, for it must not be ironed.

**Of Woodland Brown.**

A pretty shade of woodland brown in cloth is effectively renewed with a yoke and vest effect in tangerine velvet decorated with mixed brown and gold braid. The eton jacket is so cut that the shoulder overhangs the sleeve, this latter consisting of a single puff handed into a straight cuff which shows a little of the braid and gilt buttons. The skirt is cut in eleven gores, which flare at the foot, and is finished with stitching.

Readers of this paper can secure any May Manton pattern illustrated above by filling out all blanks in coupon, and mailing, with 10 cents, to E. E. Harrison & Co., 65 Plymouth Place, Chicago. Pattern will be mailed promptly.

**THREE YEARS AFTER.**

Eugene E. Lario, of 751 Twentieth avenue, ticket seller in the Union Station, Denver, Col., says: "You are at liberty to repeat what I first stated through our Denver papers about Doan's Kidney Pills in the summer of 1899, for I have had no reason in the interim to change my opinion of the remedy. I was subject to severe attacks of back-ache, always aggravated if I sat long at a desk. Doan's Kidney Pills absolutely stopped my back-ache. I have never had a pain or twinge since."

Foster-Milburn Co., Buffalo, N. Y. For sale by all druggists, price 50 cents per box.

**How to Win at Poker.**

A gentleman giving the name of McClellan has at last solved the pestered problem of how to win at poker. Entering a "club" at Chicago, he insisted upon taking a hand in each game that was in progress. He was the only man to draw, and all the other players passed. All he held was a pistol. He raked in all the pots and cashed in, omitting the ceremony of feeding the kitty. This was irregular to some extent, but almost any innovation is irregular if it makes good.

**The Wonderful Cream Separator.**

Does its work in thirty minutes and leaves less than 1 per cent butter fat. The price is ridiculously low, according to size, \$2.75 to \$6.00 each, and when you have one you would not part therewith for fifty times its cost.

JUST SEND THIS NOTICE with 5c stamps for postage to the John A. Salzer Seed Co., La Crosse, Wis., and get their big catalogue, fully describing this remarkable Cream Separator, and hundreds of other tools and farm seeds used by the farmer. (W. N. U.)

**Feminine Mind Superior.**

Archeologists have come to the conclusion that the feminine mind is particularly quick at deciphering the ancient hieroglyphics and other inscriptions. A number of women, both in Europe and America, are therefore, being instructed in that art.

**Mother Gray's Sweet Powders for Children.**

Successfully used by Mother Gray, nurse in the Children's Home in New York, cure Constipation, Feverishness, Bad Stomach, Teething Disorders, move and regulate the Bowels and Destroy Worms. Over 30,000 testimonials. At all Druggists, 25c. Sample FREE. Address A. S. Olmsted, LeRoy, N. Y.

**Where She Had Felt.**

"See here," exclaimed Mr. Clubb, upon discovering next morning that all his "change" was gone, "during your talk to me when I came in late last night I believe you remarked among other things that 'woman feels where man thinks.'" "I did," replied his wife. "You have no feeling, and—" "Well, I merely want to say you're mistaken if you suppose I do my thinking in my pockets."—Catholic Standard and Times.

**To Cure a Cold in One Day.** Take Laxative Bromo Quinine Tablets. All druggists refund money if it fails to cure. 25c.

**Revive Sun Dials.**

The sun dial, that old-time favorite in the garden of the past, has been revived, and it is stated on good authority that no garden will be considered complete without it.

**Mrs. Winslow's Soothing Syrup.** For children teething, softens the gums, reduces inflammation, allays pain, cures whooping cough. 25c a bottle.

**Funny Old Signs.**

One of the most notable of old London signs, "The Dog's Head in the Iron Pot," had its beginning in the early years of the reign of that same bluff King Hal, says St. Nicholas. It stands out a lonely figure on Blackfriars road at the corner of Charlotte street, the sign of a wholesale ironmonger's establishment. The dog is in the act of eating out of a three-legged iron pot which it has overturned. There were also "The Black Dog" and "The Dog and Duck." "The White Greyhound" was the sign of John Harrison in St. Paul's churchyard, a bookseller who published some of Shakespeare's early works.

**Teosinto and Billion Dollar Grass.**

The two greatest fodder plants on earth, one good for 14 tons hay and the other 80 tons green fodder per acre. Grows everywhere, so do. Victoria Rape, yielding 60,000 lbs. sheep and swine food per acre.

JUST SEND 10c IN STAMPS TO THE John A. Salzer Seed Co., La Crosse, Wis., and receive in return their big catalog and lots of farm seed samples. (W. N. U.)

**Cost of Gravitation.**

In an address before the British Association for the Advancement of Science, Mr. Charles Hawkins remark that water obtained by gravitation is almost, if not quite, as expensive as water obtained by pumping, may be something of a surprise to a lawman, but is easily explained by the greater cost of gravitation works.

**Economy is the road to wealth.** PUTNAM FADELESS DYE is the road to economy.

**Chivalry.**

The chivalry of Europe is, in great measure, a product of the Saracen chivalry which entered Europe in two streams flowing through Constantinople and through Spain.
