## PAUL TALKS ON UTAH BIRD LORE

### University Professor Explains Habits and Value of Feathery Inhabitants

About one hundred and twenty boys representing every troop of the boy scout organization in Ogden listened yesterday afternoon at the Central Junior High school to an illustrated lecture by Professor J. H. Paul of the University of Utah on "The Bird Life of the State of Utah." Professor Paul had with him 50 specimens of the most useful birds whose habits and value to the community he simply explained.

"One chickadee is said to save the life of 20 trees in one year by reason of the way in which he gets after the eggs of harmful insects deposited in the trees," said Professor Paul. He also told of the snowy heron, 4000 of whom are living in the mountains of Utah and whose feathers a short time ago were valued at \$14 per ounce and are now worth \$19. This is the only state in the United States where this bird now lives and it is up to the boys and men of Utah to preserve this valuable flock.

Professor Paul has promised to come to Ogden again and speak to the boy scouts on the flowers of Utah. Arrangements are being made for mountain hikes on which the boys will be taught how to distinguish the various flowers of the field and mountain, and shown the nesting places of valuable birds in the interests of promoting the life of the birds.

Professor Paul is busy preparing a manual entitled "A Reading Course for Boy Scouts," which will shortly be published by the University of Utah.

## MORE HATS

We have just received several hundred more summer hats direct from the factory. These are all mid-summer styles. No two of them alike. No others in town like them, either. We have several dozens of the latest shapes.

Miss Craig, our manager and designer, will be glad to show you the many artistic arrangements to be made from these new shapes. Unlike other Ogden milliners, we do not have a lot of early spring hats left to offer at half price.

Every hat left in our shop is an all-summer hat. Visit our shop before buying. Millinery store located first door south of the Golden Rule.

## Governor Refuses to Let Mexicans Cross

AUSTIN, Texas, April 24.—Request of the Mexican government through the state department at Washington for permission for Generals Juan Jose Rios and Manuel Gamboa, and their staffs to cross Texas soil on their way from Sonora to Mexico City, was refused by Governor Hobby of Texas, tonight. The party was to travel unarmed as civilians. The state department saw no objection to granting permission and asked the acquiescence of Texas to the request.

Governor Hobby, replying to a telegram from Secretary of State Colby, said he was "unalterably opposed to the transportation of Mexican troops or any military officials thereof across Texas soil."

Such transportation, he said, "would likely provoke trouble" and put American citizens on the border at the mercy of the bandits.

## Seek U. S. Guns to Equip Armenians

NEW YORK, April 24.—Expressing satisfaction at the action of the San Remo conference of allied premiers in recognizing the independence of the Armenians, James W. Gerard, chairman of the American committee for the independence of Armenia, said today:

"We are asking now for sufficient arms from the United States to equip an army of 50,000 Armenians."

"We do not ask for American troops, only insofar as they may be necessary to guard these arms from the seacoast until they are delivered to the Armenians in the mountains of the interior," said Mr. Gerard.

"Personally, I have not advocated a mandate for the country and feel confident of the ability of the Armenians to maintain their independence if recognized by the allies, and accorded support in the way of arms and munitions."

He is survived by a stepson, Jessie Hartwell, of Texas and two granddaughters, Mrs. Bessie Combe of this city and Mrs. Azula Lill of San Francisco.

The body will be removed to the Kirkendall funeral chapel upon arrival in this city tomorrow evening at 6:30 o'clock.

## PRINCELY ROMANCE

BUKAREST.—A true musical comedy here is Crown Prince Karol, heir to the throne of Rumania. His romance with a daughter of the people, Zizi Lambino, has caused the princely papa to decide that Karol ought to study Japanese. Consequently Karol will leave soon for India and Japan.

In the meantime all the court lawyers will be set to work to invalidate the morganatic marriage which took place upon the borders of the Ukraine under Ukrainian law. Prince Karol has not dimmed his luster in Rumanian eyes by marrying a red-blooded maiden instead of taking a choice of one of his own blood blue and thin.

The republican elements of Rumania wish to make the last act of this musical comedy turn out happily by overthrowing the king villain and setting up Prince Karol and his wife, Zizi as Mr. and Mrs. President of a republican Rumania.

## BABY ONLY ONE TO ESCAPE INJURY IN CRASH

(By International News Service.)  
SPRINGFIELD, Ill., April 21.—When an automobile driven by Louis Stephens crashed into a horse and buggy in which Mr. and Mrs. Charles Jones and their four children were riding, all but the youngest child, an infant in arms, were thrown to the street and seriously injured. The baby, picked from the bottom of the wreckage, cooled incessantly while being lifted out uninjured. The mother, who was holding the child to her breast, was rendered unconscious. The automobile driver was arrested.

## 'GRANDMA' AT 30 SAYS WED EARLY

By GILMAN PARKER  
International News Service Staff Correspondent

CHICAGO, April 24.—Eighteen should be the maximum age at which girls should marry, and fourteen is none too young, it is firmly believed by Mrs. Laura D. Lawson, of Chicago, who was a grandmother when she was thirty years old. She was married when thirteen years old and had a daughter a year later. The daughter married at fifteen and presented her mother with a granddaughter when she was sixteen years of age.

Now Mrs. Lawson is forty-seven, an athlete, and the possessor of a complexion that a sub-deb would envy.

"I suppose they'd try to stone me out of the United States if I advocated the marriage of girls at fourteen," she said. "So all I will say is that mine, a year earlier than that, turned out splendidly."

"I believe that girls should marry very young, eighteen at the very latest. One big trouble with modern young women is that their mothers are too old for them—they simply cannot set the right point of view on their daughter's daily problems."

"I always was more of a companion to my daughters than a mother. One big trouble with modern young women is that their mothers are too old for them—they simply cannot set the right point of view on their daughter's daily problems."

## Famo Stops Seborrhoea and Grows Healthy Hair

We ask you to put FAMO to the most exacting test. Have a member of your family examine your scalp before you start the use of FAMO. Apply FAMO daily for one month. Have your scalp examined again. If they do not report the growth of new hair, return the FAMO bottle to where you purchased it and you will receive your money back.

FAMO DOES grow new hair luxuriantly if you will form the daily habit of applying it.

It makes the hair fluffy and soft. FAMO intensifies a natural tendency to waviness and retards grayness. It contains no harmful alcohol to dry the scalp and produce gray hair. Every woman should use FAMO regularly.

Its use is a daily habit you will enjoy. But not only does FAMO beautify the hair. FAMO kills the deadly seborrhoea microbe which is the cause of dandruff. It stops all itching of the scalp and nourishes and feeds the hair roots. It penetrates the scalp without massage and gives life and sheen to the hair.

FAMO was evolved by scientists in one of the recognized pharmaceutical laboratories of Detroit. Three years were spent in perfecting it before it was offered to the public. The ingredients in FAMO have never before been used on the head. But they have been well known to medical science for many years. They work differently from any other hair preparation. FAMO stands alone. If your hair is thin and lacks lustre and the dandruff scale causes constant irritation of the scalp, you should start the use of FAMO at once. It destroys the dandruff bacilli. FAMO is sold at all toilet goods counters in two sizes—35 cents and \$1. The dollar bottle is extra large and contains four times as much as the smaller size. Applications of FAMO may be had at the better barber shops and hair dressing establishments. Seborrhoea is the medical name for a morbidly increased flow from the sebaceous glands of the scalp. The seborrhoea secretion forms a scale and flakes and is commonly known as dandruff. From the laboratories of F. A. Thompson & Company, Manufacturing Pharmacists, Detroit, Mich.
