Well-informed circles state now that efforts will be made to send a delegation to San Francisco without instructions for any of the presidential candidates of the party.

## This Tells You How to Get Benefit of the Best Senna

Finest Grade of Egyptian Senna Leaves used in compounding Dr. Caldwell's Syrup Pepsin.

PROMINENT importers and wholesale dealers in crude drugs and medicinal herbs gathered from all parts of the world do not hesitate to say that the market for the better grades of medicinal herbs, roots, oils, etc., is practically confined to the leading manufacturers of the so-called package medicines, who buy only the very best and that the manufacturers of Dr. Caldwell's Syrup Pepsin are the largest users of the best grade of Egyptian senna leaves in the world.

The potency of a tea brewed from senna leaves to relieve constipation has long been recognized, not only by the medical profession, but by the public generally; in fact, senna has been known and used in medicine for more than five centuries. The cheaper grades of senna, such as are usually sold at retail, have, however, a tendency to gripe and cramp

which makes their use unpopular with most people.

In Dr. Caldwell's Syrup Pepsin the finest Egyptian senna is combined with pepsin and other valuable agents, essential oils and pure cane sugar syrup to make an exceptionally valuable tonic-laxative for the relief of constipation and resulting disturbances of the stomach and bowels. The complete formula is plainly printed in English, French, and Spanish on every package. Thousands who formerly bought an inferior grade of senna leaves now use Dr. Caldwell's Syrup Pepsin instead. It is sold in drug stores everywhere.

In spite of the fact that Dr. Caldwell's Syrup Pepsin is the largest selling liquid laxative in the world, there being over 6 million bottles sold each year, many who need its benefits have not yet used it. If you have not, send your name and address for a free trial bottle to Dr. W. B. Caldwell, 211 Washington St., Monticello, Illinois.
