WATER RIGHTS CASE SETTLED

Plaintiff Gets Decree to Quiet Title; Defendant to Pay \$1

Moss, thrust into a pipe to divert irrigation water, resulted in a controversy which was finally settled in the district court this morning before Judge A. W. Agee. In his testimony, Jacob Thomas of Pleasant View charged his neighbor, Amos W. Robinson, with having taken his water from the Bernard slough for a period of more than seven years. Mr. Thomas testified that at times during the seven-year period he was ill and unable to walk to the point where the water was being diverted, but when he did make the visit, he invariably found heavy moss, which, he alleged, was thrust into the pipe to divert the flow of water to land belonging to Robinson. When placed on the stand Mr. Robinson admitted having taken the water, and stated that because he had diverted the flow for seven years he considered that the water belonged to him.

By stipulation between attorneys for both the plaintiff and defendant, the case was settled with the understanding that Mr. Thomas may have a decree to quiet title to the water and Mr. Robinson shall pay the court costs and \$1 as nominal damages.

RECRUIT AUSTRIANS FOR FRENCH FOREIGN LEGION

VIENNA, May 19.—Recruiting for the French Foreign Legion has been in progress in Vienna for some months, and, according to the newspapers, about 1,500 men have been enlisted in the last ten days. A clause in the treaty of St. Germain permits this recruiting in the states of the former empire. The Vienna press has kept up a systematic attack on this recruitment, urging Austrians not to enlist.

ONE OF HOSTESSES AT CHICAGO CONVENTION

MRS. FLETCHER DOBYNS

CHICAGO, May 19.—When the Republican national convention meets in Chicago, June 8, one of the most prominent hostesses who will entertain the delegates will be Mrs. Fletcher Dobyns of Chicago, who heads the Republican women of Illinois. "Soon we shall forget to speak of 'women voters,'" says Mrs. Dobyns. "It will be as obsolete as to speak of 'man voters.'" "It is thoroughly appropriate for a woman to turn her attention to the nation's good housekeeping with the same zest she has exhibited in directing the affairs of her own home."

BROTHER FOILS ROMANCE. AUSTIN, Texas—Being led ten miles with his hands behind him failed to abate the love of Jesus Ortiz for his cousin, Louisa Ortiz. "Louisa and I gonna be wife soon, anyhow," Ortiz told officers at the police station, after the judge had informed the girl's brother that Jesus had violated no law by attempting to elope with twenty-year-old Louisa.

LAST DESCENDANT OF INDIGO KING IS DEAD

NATCHEZ, Miss., May 19.—With the death of James Surget, the last male descendant of one of the famous indigo kings of the south has passed away.

In 1782, Pierre Surget obtained a plantation by Spanish grant and planted indigo. Indigo was being grown extensively in Louisiana at that time and found a ready market. The Surget fortune soon was made, and many years afterwards the little town of Cherry Grove came into existence on a part of the plantation. It was there that James Surget was born and died. He left a daughter.

Although 84 years old, James Surget never rode in an automobile nor used a telephone. A breeder of thoroughbred race horses and a devotee of racing, he boasted that he never bet a dollar. The casket containing his body was, at his request, borne to the family burying ground by old negroes, former slaves to the family.

DAVY JONES' LOCKER MOUTH OF THAMES

Davy Jones' locker is not indicated on any map. However, the spot that is popularly known by that name is the Kentish Knock at the mouth of the Thames River. It is a veritable death trap, so numerous have been the wrecks.

The ships that are caught here are held tightly by sands more dangerous than rocks while the waves beat them to pieces. There is no help for a ship caught in these sands since the nearest land is 20 miles distant and the nearest lifeboat 20 miles away.

JAPS WORKING HARD FOR GERMAN TRADE

BERLIN, May 20.—Japanese commercial firms are making great efforts to resume business with Germany. One Japanese shipping company has opened its offices in Hamburg and a regular steamship service is running to Japanese ports. Copper and silk are the main exports from Japan to Germany while potash is the chief article demanded from Germany by Japan.

According to the Tageblatt, the Japanese government is considering a claim submitted by Germany that the Shantung (Tsingtau-Tsuanfu) railway is private and not state property. In the latter case, the railway would be come forfeited to Japan, in accordance with the same terms of the peace treaty.

Japan proposes to release all German property under her control up to the value of 10,000 yen. Property worth more will be subject to a deduction of a certain percentage to indemnify Japanese who have claims against Germany for war damages. An inquiry into emigration possibilities from Germany to Japan shows, the Tageblatt says, that although public feeling in Japan has become generally favorable toward Germans again, the prospects are not favorable, except for engineers and practical scientists. Foreign manual laborers especially are not wanted in Japan.

Hundreds of acres of land planted with wheat and other grain is now under several inches of water. It is said. Loet Creek is also carrying water its capacity and is augmenting the flow of the Weber river. The bridge which spans the Weber river as it passes through Morgan, is in danger of being washed out. It is stated, water passing over the roadway at the south end of the bridge and threatening to wash away supports on the south side of the bridge. Residents report flood waters higher than have occurred for several years.

SAYS 'BOLSHEVISM' OFTEN MISCONSTRUED

MANILA, May 20.—Bolshevism is a word that is sadly misconstrued in the United States, says Major General William S. Graves, commander-in-chief of the American Expeditionary Force, which recently evacuated Siberia. "At the mention of a Bolsheviki the people instantly conjure a mental picture of a frowzy anarchist with a bomb in one hand and a torch in the other," he said. "But, the Bolsheviki in Russia are working for peace and the good of the country. In my belief they are trying to be eminently fair and just to the people. They have deplored the murder and bloodshed which took place before they first came into power in Siberia—January 31 of this year—and are doing everything possible to stamp this out."
