WEE GEE SAYS

I like to go a-swimmin' When the weather's warm and fair;

I sure enjoy the water And the ladies that are there.

New Orleans, yes, we've heard of her. They say 'tis quite a town—

Well, she's tired of oyster stuff, And wants a heavy crown.

There grew a lad, young Marty Burke, Freckled like Ruby Bob;

Likewise his punch compared the same. So he's picked for the job.

Now Burke is young and full of pep, Though he's a skinny boy.

He hits just like a kicking mule, Which fills the fans with joy.

He's coming east with all he's got, His red top and his smile.

Hope to make New Orleans' dream Come true some after while.

The Crescent City craves a heavyweight title.

Martin Burke, he of the stringbean appearance, the freckled face, and the smile of confidence, is an entry among prospective Jack Dempsey one-rounders.

Burke is just a kid of 22. He's a good prospect. His recent victory over Willie Meachan made the eastern ring firms start bidding for some of his stuff.

Gene Tunney, another of the heavyweights, is to be the New Orleans boy's next opponent. It ought to make a whale of a scrap.

New Orleans has turned out such men as Andy Bowen, Jack Everhard, "French" Fay, "Freckles" O'Brien, Joe Mandel, and Pete Herman, but

BECKETT STOPS TOMMY BURNS IN SEVENTH

LONDON, July 16.—Tommy Burns, one-time heavyweight champion pugilist of the world, was stopped in the seventh round of what was to have been a 20-round bout in Albert Hall tonight by Joe Beckett, heavyweight champion of England.

The seconds of the French Canadian fighter threw up the sponge after Burns had taken counts of seven and nine. Burns protested and desired to continue the unequal fight.

It was clearly a fight in which brute strength was pitted against art. Burns is nearly 13 years older than Beckett, and he had not engaged in a big boxing match for many years.

Three months of hard training had not reduced his waistline.

Nevertheless the ex-champion out-boxed and out-manuevered Beckett in the third round. His blows however, lacked the old time sizzle.

WHAT THEY SAY

JOHNNY KILBANE. The "ever-getting" Johnny Kilbane wants to teach Jack Wolfe, the Cleveland boy whom he expects to bequeath his title to some day, a few lessons in punching, before the untimely he says.

"I want Wolfe to hit with a snap. It's the principle of the rubber band, for you can shove him and account him no result. With a snap you can drop heavy objects. A weak wallop has been the kid's drawback for years, and he has everything else except the drop punch. I think before I'm through training him he'll get the idea, for I'll show him how it works."

BILLY GIBSON. It remained for the scales at Benton Harbor to reveal the weight of the scale-shop Benny Leonard. Billy Gibson says:

"Benny weighed 137½ at Benton Harbor, and if some of the fellows are worried about him making the required weight—135 pounds at 2 o'clock—let them step up with a suitable forcible. Leonard won his title at that weight, this mark being in- stead upon by Freddie Welsh. It was the same weight Ritchie required for Welen, and what was fair for the victor should be fair for the present challenger. We particularly want Lew Tendler. Tendler has a lot of friends who seem to think the Philadelphia can take the championship."

ONE RAILWAY EXPRESS COMPANY IS FAVORED

NEW YORK, July 17.—The association of railway executives, meeting here today, decided to recommend to all railroads that the nation's express business continue to be handled under federal control, as it was during the war, by one agency—the American Railway Express company.

The reason given for the recommendation is that the four original express companies virtually have ceased to exist and no longer are able to function individually, leaving the American Railway Express the only agency through which the service can be operated.

A standard form of contract to be made between individual railroad companies and the American Railway Express company will be submitted to the interstate commerce commission for its approval.

The association today unanimously adopted a resolution calling upon member railroads and common carriers to devote forthwith their energies to the more intensive use of existing equipment.
