FIRE DAY TO BE OBSERVED HERE

Gov. Bamberger Issues Proclamation for Preventive Measures

SALT LAKE, Sept. 24.—Urging that special attention be given in the schools and all fire departments of the state, Governor Bamberger yesterday issued a proclamation naming Saturday, October 9, as fire prevention day in Utah. The proclamation follows a similar one by President Wilson.

President Woodrow Wilson has by proclamation designated Saturday, October 9, 1920, as Fire Prevention day and urged that the governors of the various states request a general observance of that day by their citizens, suggesting that they plan such instructive and educational exercises as shall bring before the people the serious and unhappy effects of the present unnecessary fire waste and the need of their individual and collective efforts in conserving the natural and created resources of America.

"Never before has the cause of fire prevention been recognized by a presidential proclamation, and never before has there been such urgent need for awakening the public interest in the wanton waste by fire which is now assuming the gigantic proportions of a national calamity."

"Fifteen thousand of our men, women and children perish by fire and over \$250,000,000 in buildings, food-stuffs and other created resources are destroyed by flames in a single year."

"Now, therefore, I, Simon Bamberger, governor of the state of Utah, also designate Saturday, October 9, 1920, as Fire Prevention day, and urgently request its general observance in accordance with the thoughtful suggestions of the president."

The special attention of the public schools and fire departments of the state is earnestly invited. Local agents and insurance companies can perform a splendid and patriotic service by assuming a leadership in fire prevention and by cooperating in the enforcement of fire prevention regulations. I would respectfully suggest that business men display in their show windows appropriate cards or banners, emphasizing the importance of public cooperation to the end that every day be a Fire Prevention day. Let all loyal citizens unite in a determined effort to eliminate the needless and careless destruction of both life and property by fire."

IDAHO SEED MAN IS FOUND DEAD

B. M. Holt of Caldwell Thought to Have Killed Himself in Colorado

CALDWELL, Ida., Sept. 24.—With a bullet through the head, and a revolver lying at its side, the body of B. M. Holt, a business man of Caldwell, was found yesterday near Longmont, Colorado.

Information was telegraphed to Caldwell. Mrs. Holt and her two children have been notified of the affair. Details regarding the tragedy are meager. Holt was visiting his father at Longmont.

Mr. Holt was president of the Holt Seed company of Caldwell, Ida., and was widely known over southern Utah and eastern Oregon. During the war he was in the service with the Red Cross.

EXTEND ENROLLMENT DATES AT UTAH A. C.

LOGAN, Sept. 24.—A still further extension of registration dates at the Utah Agricultural college to include September 27 and 28 has been made necessary by the many requests for late registration received at the institution, according to President E. G. Peterson. President Peterson granted an extension to include the week of September 20 as soon as it became evident that many students could not leave their summer's work in time to enroll during the opening week. This further extension in the registration period should make it possible for the great majority to enroll for the fall quarter's work under regular conditions.

PLAN ROAD FOR USE OF DUCK HUNTERS

BIGHAM, Sept. 24.—Cache county sportsmen, together with members of the Boxelder Fish and Game Protective association, have taken no little interest in the matter of good roads leading from the city to duck shooting grounds near the mouth of Bear river. County commissioners of Boxelder county have been asked to open a new road from the city to Bear river.

It was pointed out that the road would lead to land which the sportsmen are endeavoring to have set aside as a public shooting ground.

SOUTHERN UTAH CROP FAILS, SAYS ENGINEER

SALT LAKE, Sept. 24.—The cold winter of 1920 has made a failure of the nut, peach and apricot crop in southern Utah, according to reports brought here by A. R. Purton, district engineer of the western measurement branch of the geological survey. The melon crop is the best in years, he said.

R. R. MEN AND MINE MAGNATE IN IDAHO

POCATELLO, Ida., Sept. 24.—Vice President E. E. Calvin of the Union Pacific system and W. J. Tollerton, general superintendent of motive power for the Rock Island, accompanied by S. R. Guggenheim, left Pocatello yesterday on an extended trip through Yellowstone park.

It is expected that Mr. Guggenheim will visit some of his holdings in central Idaho while in the west. Numbered among them are the famous Dixie, Buffalo Hump and Elk City mines in the Thunder Mountain region, which were the centers of attraction during the gold rushes in the early pioneer days. These mines have been practically idle for many years, and Idahoans are wondering if Mr. Guggenheim intends to reopen them immediately. The only drawback to them is the transportation facilities. They are about sixty miles from the nearest railroad center, which is Grangeville, terminus of the Camas Prairie branch road. Should a railroad ever be built up between these mines would be trebled in value, as the route would necessarily pass directly through the heart of them.

Due to their long activity, the Elk City mines have long been attractive to tourists traveling through central Idaho, who have flocked to them by the hundreds in order to view the ruins of mining towns.

Their story is all about the same as Buffalo Hump's. This town practically grew up overnight to a town of 500 and shortly wilted down again when the rush was over. These old buildings and mills are still standing.

The Hostess Who Excels

YOUR grocer has a fresh supply

Crisp, salt-flecked, golden M & G Potato Flakes stimulate appetite. Served buffet style they "help out" on the sandwiches. Arranged daintily with salad, or accompanying cups of bouillon, they are tantalizingly delicious.

RECORD PRICE GIVEN FOR IDAHO FARM LAND

POCATELLO, Ida., Sept. 24.—A record price for farm land was established here when Mrs. Barbara Neideckern sold her 14 acre farm to W. M. Crafton of Idaho Falls for \$12,500. Approximately 1000 acres of land in the land lies west of Idaho Falls and is in good condition. In 1920 the farm was covered with sage brush. Best land in this vicinity was then available for \$12 per acre.

In 1908 a 40-acre tract was purchased for \$50 per acre and immediately put under cultivation. A system of canals to irrigate the land was installed and within a few years the land was supporting a bearing orchard. In 1914 the owner sold twenty-six acres for \$150 per acre and then turned over the remainder of the land which yearly brought in an abundant return of fruit, potatoes and grain.

Mrs. Neideckern's husband has been an invalid for a number of years and during this time, she had sole charge of the development work on her farm.

OFFICERS ELECTED BY IDAHO IRRIGATION CO.

POCATELLO, Ida., Sept. 24.—Stockholders of the Maryvale Irrigation company, with headquarters at Ashton, met yesterday for the first time since the company was purchased from the James H. Brady investment company, to elect officers and directors of their organization.

The officers were chosen as follows:

E. M. Harris, president; George Harrigill, vice president; C. Ray Isenbury, secretary-treasurer; George Harrigill, R. D. Merrill, E. M. Harris, E. C. Stinemate, H. G. Fuller, R. D. McArthur and Abe Hillman, directors.

The project was organized in 1887 by old settlers and has been kept active ever since.

BRIGHAM LEGION POST HOLDS FIRST MEETING

BRIGHAM CITY, Sept. 24.—Marking the first meeting of the season the American Legion post at Brigham City convened last night at the Commercial club rooms.

An interesting program had been arranged for the affair and there were a number of musical offerings.

Dr. Ezra Waddoups delivered a short address, "The Flag." A luncheon followed the entertainment.

The Legion meetings will be held regularly throughout the winter on the first and third Tuesdays of each month.

PAVING TO BRIGHAM NEARLY COMPLETED

BRIGHAM CITY, Sept. 24.—The last of the state highway between Utah Hot Springs and Brigham City is being completed and the paving will be finished within two weeks, according to word from the Phelps Construction company.

At present there is but a little more than a mile of hard surfaced road to be laid between Eighth South street and Brigham City. The work is being rushed at the rate of 500 to 600 feet per day. A new road is being completed at the Utah Hot Springs to avoid the railroad tracks.

SENATOR SMOOT TO BE HONORED AT SALT LAKE

SALT LAKE, Sept. 24.—Senator Reed Smoot will be the guest of honor tonight at a reception at the Hotel Utah to be given under the auspices of the Woman's Republican club. Guests will be received between the hours of 7:30 and 8:30 on the mezzanine floor and later informal addresses will be given by Senator Smoot and Mrs. Frank Dodson of Des Moines, Iowa.

During the evening a musical program will be given.

LARGE REGISTRATION AT STATE UNIVERSITY

SALT LAKE, Sept. 24.—Enrollment at the University of Utah, which opened yesterday, is larger than the record of the first day of last season. Eight hundred and sixty students registered yesterday, Dr. J. A. Whitson reported. The medical, commerce and finance courses are popular this year, the enrollment being nearly double.

WORLD'S EARLIEST WHEAT

WINNIPEG, Man., Sept. 23.—A L. Sawle of the Northern Trading company, who has returned from a trip to the top of the map, brings back a story of wheat at Fort Simpson that headed out thirty days after seeding. It was sown June 7 and by the middle of July was in head. This is believed to be the farthest north that wheat is grown in Canada. The crop that Mr. Sawle tells about is on the Dominion government experimental farm where tests of northern soil production have been going on for several years. Fort Simpson is situated on the Mackenzie river near the mouth of the Liard river. In a little short of latitude 62.

The BIG Hardware Store

UNIVERSITY OPENS MISSOULA, Mont., Sept. 23.—The state University of Montana will open for its twenty-sixth annual session here September 28, with the largest enrollment in the history of the institution. With a present registration of 1,296 students, the university now has enrolled almost as many students as it had a year ago, despite the fact that much of its membership included members of the students' army training corps, which is now out of existence. Ten years ago, according to university records, the registration was 230.

AWAY WITH TREASON AUORA, Ind.—A bolt of lightning got away with treason when it destroyed an American flag. It struck the flagstaff over Woodman's hall and tore the big American flag to shreds.

Women of Middle Age

Owing to modern methods of living not one woman in a thousand approaches this perfectly natural change in her life without experiencing a train of very annoying and sometimes painful symptoms. Those dreadful hot flashes, smothering spells, fainting spells, nervous troubles and irregularities are symptoms that should have prompt attention. These two letters prove what a successful remedy Lydia E. Pinkham's Vegetable Compound is for women at this time of life.

These Two Women Helped During Change of Life.

Taunton, Mass.—"I could not eat or sleep for six months, had fainting spells and could not walk without help for three months, caused by female trouble. My cousin, who was a doctor, told me to take Lydia E. Pinkham's Vegetable Compound and it helped me greatly. Then during the Change of Life I used the same remedy. I am seventy years old now and am able to do my own housework and walk one mile to church every Sunday morning and evening. I am recommending the Vegetable Compound to my friends having the same troubles as I had. Your remedy is the best on earth. I cannot find words to express my gratitude for it."—Mrs. SUSAN C. STAPLES, 157 B School St., Taunton, Mass.

Philadelphia, Pa.—"I want to let you know what good Lydia E. Pinkham's Vegetable Compound has done me. I had organic troubles and am going through the Change of Life. I was taken with a pain in my side and a bad headache. I could not lie down, could not eat or sleep. I suffered something terrible and the doctor's medicine did me no good at all—my pains got worse instead of better. I began taking the Vegetable Compound and felt a change from the first. Now I feel fine and advise any one going through the Change of Life to try it, for it cured me after I had given up all hopes of getting better. I will tell any one who writes to me the good it has done me."—Mrs. MARGARET DANZ, 743 N. 25th St., Philadelphia, Pa.
