"THE GREAT REDEEMER"

UNWANTED BABE CASES STUDIED

Should Have Legal Name of
Its Father, Says Hu-
mane Delegate

OMAHA, Neb., Oct. 25.—A square deal for the illegitimate children was the plea of Eugene Morgan of Columbus, Ohio, at the afternoon session of the opening day of the American Humane society convention here.

"It is the duty of the state and society to supply certain advantages that will in a way, compensate for what the child lacks by reason of such birth," he said.

Morgan advocates that such child be entitled to the legal name of its father and inherit the same as if born in lawful wedlock.

NO SOLUTION READY.

The proper manner for handling cases of improper guardianship where man and woman are living together is legally and can not marry, but are producing children, was discussed by R. C. Craven, substituting for Judge R. J. Wilkin of Brooklyn. All agreed that the morals of children and the community were endangered but no solution could be offered.

USE OF PUBLIC FUNDS.

Arguments for and against the society's receiving public funds were indulged in. Frank L. Baldwin of Youngstown, Ohio, objected on the grounds that it would place the organization under the control of politicians and would stunt its growth and initiative.

R. C. Craven of Boston, declared that it made an opening for graft.

"I consider that an affront," exclaimed E. B. Fange of Denver. "The Colorado state bureau of child and animal protection, which I represent is maintained by public funds. We do a large public service and are entitled to public aid," he said.

Ignores Warning and Is Killed by Train

Warned not to "stall" on ride on a westbound Pullman Pacific freight train near Echo, last Saturday afternoon, J. M. Beckman, 39, died after the train had been in charge of the train than to have to pick his body up in pieces, if an accident should result.

It wasn't more than ten minutes after the warning that the train was brought to a sudden halt. Beckman's body was found under one of the freight cars badly mangled. Beckman made an attempt to swing his body from one car to the other when the accident happened.

Beckman is single. His body has been shipped to his former home, 85 Fairview street, Detroit, Mich., by railroad officials following the wishes of his mother, Mrs. M. B. Beckman.

MISTOOK BUG POWDER FOR FLOUR; 6 GIRLS ILL

SPRINGFIELD, Ill., Oct. 26.—Six telephone girls mistook bug powder for flour in making gravy at the telephone office last night. They are all at home today serious ill. The attending physician said they would all recover.

PLENTY OF SUBS.

DANVILLE, Ky.—Centre college used fourteen substitutes in the game against Transylvania. The wonder eleven showed straight football in piling up a marathon score of 55 to 0.

REPLY MADE TO CHURCH ON JAPS

Californians Tell Why State
Wants to Exclude Ori-
ental Peoples

SACRAMENTO, Cal., Oct. 26.—The Japanese Exclusion league of California, through the chairman of its committee, state controller of California, J. S. Chambers, today issued a statement in answer to that made public October 25 by the federal council of Churches of Christ in America, which "deplored agitation and hasty action in the matter of Japanese immigration."

Mr. Chambers' statement said that the movement in California "far from being a vote-catching propaganda of politicians, appealing to race prejudice and mob feeling, is really based on incontrovertible and startling facts, supported by official state investigation, under the legislative direction and fully corroborated in hearings of the house committee on immigration held on the Pacific coast in July and August of this year."

THE STATEMENT.
"The Exclusion league is directed by prominent officials, selected for the purpose from such organizations as the American Legion, Native Sons and Daughters of the Golden West, State Federation of Women's clubs, State Federation of Labor and by prominent and professional men of state-wide reputation. Politicians have supported the movement because the demand is practically unanimous and its success beyond question. Following Senator Harding and Governor Cox, presidential candidates, could not afford to take the stand they have."

FACTS OF THE CASE.
"Certain aspects of the problem are practically of state concern and exclusively of state jurisdiction. In these matters California is scrupulously guarding treaty and vested rights of the Japanese but declining to accord rights to them not accorded to Americans in Japan and which, if continued here, would certainly create a race problem, with the friction and trouble which both countries wish to avoid."

"The problem, its larger aspects, is national and international and the league with direct national attention therefore cooperates with the federal government in working out the proper remedy. That remedy, while insuring full protection to American interests should be supplied, if possible, so as to avoid hurt to Japan's feelings."

RACE EXCLUSION.
"Certainly the way to secure mutual understanding and trouble with Japan is to encourage and permit the growth of this country of an unassailable alien community whose advantages in economic competition and whose great white race would in time force the whites out of the most favored localities and make race conflict inevitable."

"Hawaii is already lost to the whites. Unless we are quick to act it is in effect a principality of Japan. We shall have to govern it by federal commission. In California the Japanese have been given every advantage of the law. They are in the most favored localities and make race conflict inevitable."

RIGHT LITTON RITE.
"The Japanese birth rate in California is three times that of the whites, although the proportion of adult females among the Japanese is less than one-third that among the whites."

The statement of the Exclusion league concludes with the suggestion that claims and advice such as put forth by the federal council in this matter should not be given to the public "in absence of a knowledge of the facts."

Intelligent and unprejudiced investigators securing their knowledge at first hand will reach such conclusions as will be justified by the facts advanced before the house immigration committee and available when its report is made in December."

Ogden Has Chapter of University Alumni

SALT LAKE, Oct. 26.—Ogden now has a chapter of the alumni association of the University of Utah, according to Professor Levi Edgar Young, president of the organization.

"Two thousand graduates on the campus at the 1921 commencement" is the aim of the officers for this year.

The alumni association of the state institution was organized in 1886 "to promote a general interest in education and to perpetuate the friendship formed among graduates of the university," according to the original by-laws. A reunion is held on the campus each June commencement and this year special exercises will be observed at the unveiling of the statue of Dr. John R. Park.

In speaking of the meeting planned for this year, Professor Young said: "The gathering of so many alumni will be a real event in the history of the university and one in which all graduates of the institution should take pride."

Deaths and Funerals

JONES—Funeral services for George E. Jones will be held Wednesday at 2 o'clock at the Larkin and Son Funeral chapel. The body may be viewed at this chapel this afternoon and Wednesday morning until the time of the services. Interment will be in the Ogden City cemetery.

ROCKEFELLER—Funeral services for John Rockefeller were held Monday at 2 o'clock at the Larkin and Son Funeral chapel. Bishop Thomas B. Wheelwright officiated. A quartet, "Jesus, Lover of My Soul," was sung by Mrs. Pauline Waterfall and Mrs. May Hopson. Mrs. Mary Farley sang "Beautiful Isle" and Mrs. Pauline Waterfall sang, "Beautiful Zion, Home Above." The speakers were E. A. Larkin and Bishop Wheelwright. Interment was in the Ogden City cemetery.

HARRIGAN—Funeral services for Bridget Harrigan were held yesterday in St. Joseph's church with Rev. Father John Lagan in charge. Interment was in the Mountain View cemetery.

HARDING URGES HIGHER TARIFF

Would Protect Farm and In-
dustry From Cheap For-
eign Labor

MARION, O., Oct. 26.—Reiterating his belief in a protective tariff policy, Senator Harding declared in a telegram made public here today that as soon as the Republicans were returned to power they would inaugurate "a prompt return to the American system of protection for American industry."

The message in reply to one from Paul A. Ewert, of Joplin, Mo., related particularly to the zinc industry, but pointed out that along with the slump in zinc prices had come similar recessions in many other lines of production, including notably agricultural production. The senator's message said:

MARKETS UNPROTECTED.
"Under the Democratic tariff law of 1913, the country was already approaching industrial disaster when the world war began. The foreign demand was so great and prices were so unimportant that everything we could produce was promptly taken by the war-ravaged nations. So the disaster was postponed."

"But with the end of the war the foreign demand, not only for zinc, but for a great number of other products whose protection had been removed immediately fell off. With demand reduced and with foreign competition desperately seeking our unprotected markets, we have suddenly found ourselves at the beginning of a new era in which, unless the American policy of protection is resumed, we are bound to become more and more the dumping ground for the products of the world. Produced by cheaper labor, they must inevitably drive off from the market our own products, compel the suspension of production at home and bring idleness and suffering, not merely to thousands of workers in a particular industry but to the millions of workers in hundreds of industries."

DROP IN FARM PRICES.
"Along with this has come a singular disaster to American agriculture. The recent slump in prices of agricultural products has brought a great hardship to American agriculture. Vast crops were raised under conditions which made them extremely costly and now that the farmers have them in hand they find that prices have fallen so suddenly and rapidly that enormous losses are being sustained."

"When the Republican party is restored to control of the government after March 4, next, there will be a prompt return to the American system of protection for American industries. That policy has been to equalize the cost of production at home and abroad. As to zinc, it is my recollection that the Republican senators of the senate subcommittee on finance, Senators Watson and Curtis, voted to report favorably the tariff bill desired by the American zinc producers providing for a tariff of two cents per pound on the metallic contents of imported zinc ores. But the Democratic members voted against it. When I am president I shall certainly insist on the tariff, and if it is found to comply with the Republican formula of imposing sufficient tariff to measure the difference between cost of production at home and abroad, I shall certainly give my support to it."

LEGION WILL AID SICK AND MAIMED VETERANS OF WAR

INDIANAPOLIS, Ind., Oct. 26.—Plans for betterment of the condition of nearly 20,000 sick and maimed world war veterans who are still confined in more than 1200 government and private hospitals were discussed here Monday by F. W. Galbraith, Jr., newly elected national commander of the American Legion, with other officers elected at the Cleveland convention.

National, state and local hospitalization committees will be appointed to assist in improving the condition of the service men in hospitals, the national commander said. Details will be carried out by legionnaires and members of the women's auxiliary in all of the 5200 posts.

Each of the nine vice-commanders will be assigned to supervise the work in certain states.

Baseball Men Will Meet Here Tomorrow

Officers of the Ogden baseball club will hold their first meeting of the season tomorrow night at the Weber club at which time plans for the 1921 season will be outlined. Manager Frank Scott and President T. Thorstensen have called the meeting and stated that a committee of twelve men would be named at the meeting tomorrow evening to solicit funds for the 1921 baseball team.

At the meeting tomorrow evening two members of the club will also be named to attend the meeting of the Cache Valley and Wasatch league representatives at Brigham on November 16. This meeting will be the real turning point in the 1921 play, according to Manager Scott.

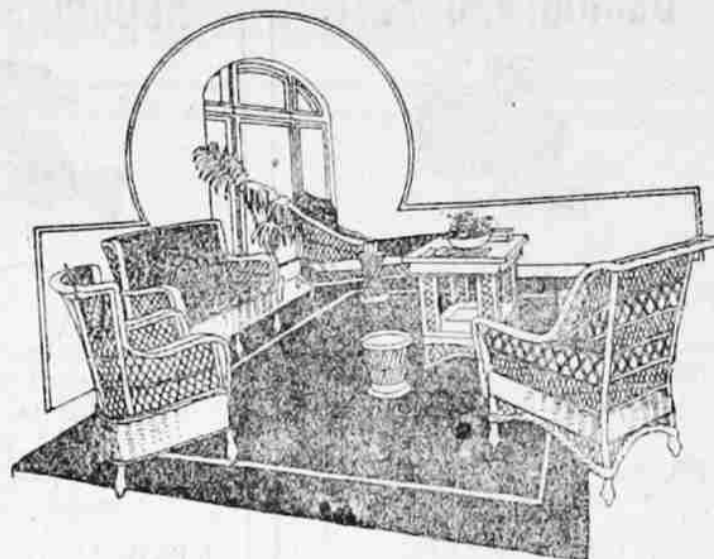

At the Brigham meeting the league officers for 1921 will be named, the by-laws and regulations drafted and other league business transacted.

In ancient days crows were employed as letter-carriers.

NUTRATED IRON

If you are not strong or feel the following test see how long you can walk without becoming tired. Next take two or three tablets of NUTRATED IRON three times per day for two weeks. Then test your strength again and see how much you have gained. Most people have made this test and have been amazed at their increased strength, endurance and energy. NUTRATED IRON is guaranteed to give satisfaction or your money refunded. All mail order druggists.

DALLAS GIVES PARTY TO 150,000 TEXAS CHILDREN

Mayor Wozencraft (left) and Dan Fisher (right) with some of the 150,000 children attended the Texas State Fair on Children's day.

By W. W. FERGUSON,
N. E. A. Staff Correspondent.

DALLAS, Tex., Oct. 25.—Imagine a family of 150,000 youngsters—even for one day. Well, Frank W. Wozencraft, youthful mayor of Dallas, and Dan G. Fisher, publicity director of the International lines in North Texas, played daddy to that many little folk at the recent Children's day at the Texas state fair.

Tiny tots came from all over the state. Trainsloads, truckloads and busloads poured in at the fair grounds. Wozencraft popped the idea to fair officials and Fisher sent tickets to schools, and homes everywhere in Texas.

Many children in nearby towns played hockey to get in on the big time. Six thousand tickets were sent to Fort Worth and 4000 of them were used. One boy wrote Fisher: "My teacher won't give me a holiday but I'm coming anyway. Send me a ticket." Fisher sent six tickets so the lad wouldn't get a ticket all alone.

Wozencraft and Fisher paraded the ground all day long, talking and playing with the little folk. It was a wonderful gathering and a thrilling sight—100 acres of ground just seething with youthful humanity.

SERBIA COMBATS TYPHUS ENEMY

NISH, Serbia, Sept. 20.—(Correspondence)—Sanitation and preventive medicine are the greatest needs of Serbia today. With the approach of cold weather, the country will be called upon to combat her old enemy, typhus. American and foreign relief organizations will aid the Serbian authorities in this work.

Human conservation is one of Serbia's great problems. War and disease have sadly depleted the population. Before the war the birthrate of Ser-
