LOWER OUTPUT
IN UTAH COPPERQuarterly Report Shows an
Increased Net Cost of
Production

SALT LAKE, Nov. 20.—The fifth quarterly report of the Utah Copper company, covering the third quarter of the year 1920, was received at Salt Lake today. The report shows a reduced production and an increased net cost of production.

The report signed by C. M. MacNeil, president, and J. C. Jackling, managing director, in part follows:

THIRD QUARTER 1920.

July	8,744,898
August	8,482,979
September	7,222,865
Totals	24,450,742

Average monthly production 8,150,247.

SECOND QUARTER 1920.

April	9,115,227
May	9,829,781
June	9,544,113
Totals	28,489,121

Average monthly production 9,496,374.

In addition to the above there was produced a total of 52,577 pounds of copper contained in precipitate shipped from the mine, and 531,206 pounds in precipitate from the leaching plant. The net production of marketable copper derived from this gross output for the quarter after allowing for smelter deductions, was 24,102,181 pounds, as compared with a net production of 27,193,114 pounds for the quarter ended June 30, and of 26,057,867 pounds net for the first quarter of the current year.

During the period there were treated at the Arthur plant 1,497,990 dry tons, being 65,390 tons more than for the preceding quarter. The average grade of the ore was 1.07 per cent copper and the average recovery was 78.37 per cent, as compared with 1.2130 per cent copper and 82.30 per cent respectively for the second quarter. The decrease in production and the lower percentage of recovery were because of the lower copper content in the headings. The low headings were due to the large quantity of very low grade ore necessarily shipped from the intermediate and upper steam shovel levels.

The average cost per pound of net copper, produced including plant depreciation and all fixed and general charges, but excluding federal taxes, and without credit for gold and silver or miscellaneous income, was 17.126 cents, as compared with 15.627 cents for the previous quarter, calculated in the same way. The value of the gold and silver in the concentrates totaled \$178,882.21, and the miscellaneous income, including Bingham & Garfield Railway company dividend, amounted to \$402,167.25. These items combined are equal to 2.414 cents per net pound of copper produced, which being deducted from the operating cost above stated results in a net cost of 14.712 cents per pound.

SAVE CROPS BY DRIVE
TO KILL OFF RODENTS

SANDPOINT, Ida., Nov. 20.—Savings of \$27,000 of crops are estimated to have resulted from the 1920 campaign for destruction of rodents in Bonner county.

A compilation of results of the farm bureau campaign shows that 464 ounces of strychnine were distributed to 442 farmers, and that 167 of these farmers reported crops saved to a value of \$17,832.50. These farmers reported that they poisoned a total of 15,475 acres, an average of 83 acres per farm. The average cost per farm was \$4.47 and the average saving per farm was \$107.

The university extension division, cooperating with the biological survey, distributed poison on 6020 acres of public land in the county, which, with the estimated 20,000 acres treated by the farmers, made a total of 26,220 acres for the county. The 167 farmers reported indicated that \$142 worth of crops was saved for each acre poisoned, and application of this proportion to the 26,220 acre total for the county gives the estimated total saving of \$375,000.

DETAIL COST OF
SUGAR MAKINGIdaho Farm Bureau Hears
Report on Handling of
Beets

BOISE, Ida., Nov. 20.—Voluminous statistics on the cost of growing sugar beets and the cost of manufacturing sugar are contained in a report of the last meeting of the sugar beet project committee of the Idaho state farm bureau which has been issued here by H. Musser, assistant director of extension, who acted as secretary of the committee for its meeting, held in Pocatello.

This report says that a committee, consisting of J. E. Jensen, Resburg, chairman; Arthur Manwaring, Bingham county; Melvin Luke, Jefferson county and two others, to be appointed from the southwestern part of the state, was chosen to investigate the matter of percentage of extraction from sugar beets, and also the particular percentages extracted by the respective companies. It is understood that this committee will make a further study of costs of beet production and of the manufacture of sugar. C. C. Taylor, farm management demonstrator of the university extension division will assist this committee as an advisor.

COST PER ACRE

According to figures submitted by C. J. Call, of Jefferson county, it costs \$132.44, plus a 10 per cent profit of \$13.24 making a total of \$145.68, to grow an acre of beets.

Several tables were presented by Mr. Call, as having been worked out at August and October meetings of Utah and Idaho beet growers.

A table showing "price per ton of beets figured on 80 per cent extraction and 50-50 division" showed a proposed beet price, ranging from \$6.72, on 14 per cent beets, with sugar selling at \$25.00, to \$21.76 a ton for 17 per cent beets, with sugar selling at \$16.

Another table showed prices ranging from \$8.88 to \$19.29 (with sugar at \$15).

RANGE OF PRICES

Another proposed schedule as submitted by the Utah-Idaho committee showed a range from \$6.38 to \$20.67 per ton of beets, depending on a range of 50 to 116 in the price of sugar, a range of 14 to 17 per cent in sugar content and a range in average test of beet sugar ratio, 1.044 to 1.292. This schedule is based on a 50-50 division of 76 per cent of all sugar in the beets, as shown by the analysis of co-sets.

Announcement of the Utah-Idaho Sugar company's expense per ton of beets for non-stiffen factories, year ending February 28, 1920, showed a cost of \$18.615 per ton.

H. A. Bennett, of the Amalgamated Sugar company, submitted a table of costs of beet production ranging from \$7.75 to \$16.55 per acre, according to the yield, the cost per ton ranging from \$9.56, at eight tons per acre, to \$6.06, at 20 tons per acre.

INCREASE FARM VALUE
BY REMOVING STUMPS

SANDPOINT, Ida., Nov. 20.—An increased valuation of \$82,000 in Bonner county farm land as a result of cooperative purchase and use of stumping powder is reported by County Agricultural Agent Edgar L. Ludwick.

Five carloads of stumping powder, amounting to 45 tons, were distributed by the farm bureau this year, the net saving on powder cost as a result of the cooperative purchase being \$4599. Eighty-five farmers reported 342 acres of land cleared and put into crops. The average amount of powder used was 225 pounds per farm. From these statistics, it is estimated that 1660 acres were cleared in the county this year. The value of cutover land is said to average about \$20 per acre, while cleared land is worth \$70. As the assessed valuation of cutover land is \$7.27 per acre and that of cultivated land is \$25.75, it is estimated that the county is receiving \$145 additional in taxes as a result of the use of the powder.

MABEY REFUSES
TO BE RUSHEDGovernor Elect to Take Time
In Distributing State
Jobs

SALT LAKE, Nov. 20.—Governor-elect Charles H. Mabey is refusing to allow himself being "rushed" by those who are of the opinion that the spoils of the Republican victory belong to the "faithful." In a statement issued yesterday Mr. Mabey said:

"There will absolutely be no appointments made for at least a month I expect to leave in a few days for Springfield, Ill., where I will spend some time studying the Illinois state form of government. From there I am going to Harrisburg, Pa., to attend the governors' conference, which is scheduled for December 1, 2 and 3. However, the applications as they come in are being classified and filed away, together with what recommendations and endorsements accompany them."

Following is a partial list of those who have made application for some of the political plums which will be handed out on January 1.

For assistant attorney general, D. B. Richards, Charles R. Bradford, Irwin Clawson, E. V. Higgins and George B. Hancock. It is also understood that Lawrence A. Miner of Nephi is an applicant for the assistant attorney generalship.

For industrial commissioner: Walter P. Monson, Edwin T. Woolley and J. F. Greenland.

For state land board: W. C. Al-hertson and George H. Crow.

For state board of equalization: E. S. Kimball.

For state penitentiary physician: Dr. George Weiler and Dr. M. M. Neilson.

For state fish and game commissioner: Heber C. Hicks of Provo, P. E. Scheffert and Mont Fisher of Salt Lake. It is understood that Charles Skougard of Richfield is also out for the position.

For state crops and pests commissioner: Ira D. Roper.

For state bank commissioner, Chas. S. Tingey and Robert J. Waington.

For superintendent of state capital: Samuel Spry and F. H. Rudy.

For state road engineer: Harry S. Joseph.

For chief of reclamation work: Charles F. Brown.

For minor positions in the state such as clerks and assistants, there have been filed scores of applications. These, of course, will be passed upon after the main appointments have been made.

CONFISCATED AUTO TO
BE SOLD BY MARSHAL

SALT LAKE, Nov. 20.—Libel of information was filed yesterday by Isaac Blair Evans, United States district attorney against the automobile used by Fred Brown, Dan Fleming, and J. C. Campbell in the transportation of spurious Canadian whiskey at the time of their arrest by the police, October 26. He asks that the machine be sold at public auction by United States Marshal Aquila Nebeker and that the twenty-two bottles of whiskey found in the machine be destroyed.

Fleming and Campbell pleaded guilty to a charge of violating the prohibition law when arraigned before Judge Tillman D. Johnson of the United States district court last Saturday and were fined \$400. Brown pleaded not guilty and is in the county jail awaiting trial.

MAN WANTED IN IDAHO
CAUGHT IN CALIFORNIA

POCATELLO, Ida., Nov. 20.—Following a chase that extended from Pocatello to nearly eleven cities and towns on the west coast, James D. Hanson was arrested last night at San Francisco.

His arrest was on a charge of having obtained money under false pretenses. Requisition papers are being made out and sheriff George Mabey will depart within a day or so to bring the prisoner back.

Hanson is alleged to have cashed a check for \$150 on a Mailed bank. It was later discovered that he had no account with the bank upon which the check was drawn.

PENSIONS GRANTED

WASHINGTON, Nov. 20.—Pensions of \$30 a month have been granted Lavina Masoner of Rupert and Mary Burk of Nampa, Idaho.

MAN FOUND GUILTY
THEN GIVEN PAROLE

TWIN FALLS, Ida., Nov. 20.—McKinley Tipton, charged with grand larceny, pleaded guilty before Judge W. A. Babcock yesterday. He was sentenced to one year in the state prison. Immediately after the passing of the sentence, Tipton was paroled during good behavior.

ALLEGED MURDERER'S
BOAST FAILS TO STAND

KEMMERER, Wyo., Nov. 20.—Joe O'Brien, alleged slayer of two men, one at Gary, Ind., the other at Chestnut, Pa., is said to have boasted that he would never be taken alive. He was not, however, followed by Sheriff D. C. Oakley having arrested O'Brien yesterday at his cabin in the Cumberland mine camp. O'Brien made no resistance whatever.

WARM WEATHER LOOSENS
BEETS FROZEN IN SOIL

RIGBY, Ida., Nov. 20.—Farmers whose beets were held in the ground by reason of last week's heavy frost have been digging their crop from the soil, since warmer weather of the last three or four days has made the digging of beets possible. Checks for farmers, covering beets delivered in October, have been received.

ROTARIANS INDORE SUBWAYS

POCATELLO, Idaho, Nov. 20.—The Rotary club yesterday endorsed the plans of the county commissioners for the construction of three subways under the railway tracks, one north of Pocatello and two near McCammon, and requested that these be constructed next summer, if possible. Theodore Turner, W. H. Witty and E. H. Clarke were appointed as a committee to investigate the feasibility of another bridge over the Snake river at a point west of Gibson.

CHURCH CONVENTION

SAN FRANCISCO, Nov. 16.—Ten thousand Seventh Day Adventists are expected here for the world conference of that church to be held May 11 to 31. Clergymen and laymen from all parts of the United States and Canada and from many countries in Europe are to attend.

IDAHO FALLS WANTS
LOOP LINE SERVICE

Business men of this city are making an effort to secure passenger motor service on the loop line, embracing Lons, Armon, Ririe, Dodale, Lewisville and Menan, back to this city.

DEER HUNTERS FINED

POCATELLO, Idaho, Nov. 20.—Four men were arrested in the hills near Copeland, Idaho yesterday, charged with hunting deer with hounds. Deputy game warden made the arrests and the men were arraigned before Judge Henderson at Bonners Ferry.

When Grant entered the federal army at the beginning of the Civil war, he was unable to buy his own uniform.

CUBA WEARS OUT
AMERICAN MONEY

HAVANA, Nov. 1.—(Correspondence of the Associated Press.)—Americans in Cuba have joined Cuban bankers and business men in making fresh complaint of the worn-out money in circulation here. Except silver, the only currency in use is American. It has been changing hands so that it is tattered almost beyond the point of recognition, and health experts have declared that much of it is a public menace.

Bills that once were green now are brown and yellow. The edges are frayed and the best, small bills obtainable even from banks are so frightfully filthy that if found in the states would be quickly called in and destroyed.

While the money in Havana is disreputable, it is fine compared with much in general circulation in the provinces. Physicians have protested on the ground that it spreads skin diseases, and they have advised patients to demand silver, even if a truck, is needed to cart it around.

The story is told here of a traveling man from Georgia, who on a recent trip to the island, brought 1000 new one-dollar bills, which he sold to the natives at 22 each. Many natives, however, refused to accept them on the ground that they were counterfeit. In some shops in Havana new American money is looked on with suspicion and not infrequently large new bills are taken first to a bank to find if they are genuine.

HOLLAND GUARDS RIGHTS

TOKIO, Oct. 19.—(Correspondence of the Associated Press.)—Holland will ask for a special conference to protect her interests in the Yap cables according to a statement issued here by the Netherlands Press Agency. The communiqué contends that Holland has never given Germany the right to give to any foreign power, the Dutch interests.

OGDEN'S
LEADING
DENTISTS

NEW METHOD DENTISTRY

During the last decade dentistry has advanced by leaps and bounds.

Progressive dentists and other scientists are fast making dentistry an exact science.

New methods have been perfected which enable a dentist to do permanent work painlessly.

By the use of new methods, bridge-work and plates are made to fit perfectly, feel comfortable and look natural.

By means of the new method anaesthesia all kinds of professional dental services are rendered absolutely without pain.

Our special time for painless extracting of teeth is from 10 a. m. to 12 noon.
