## Twelve Million for Financing D. & R. G.

SALT LAKE, Dec. 7.—Plans for re-organization of the Denver & Rio Grande railroad and the contemplated providing of \$12,000,000 for financing the road, were announced yesterday by A. R. Baldwin, vice president of the Western Pacific and receiver for the Denver & Rio Grande. This evidence was presented at an interstate commerce commission hearing conducted by Justice Greenwood, president of the public utilities commission of Utah. The money, Mr. Baldwin said, would be spent over a period of two or three years, according to present plans. Mr. Baldwin was testifying at a hearing on the application of the Utah Terminal Railroad company for permission to build a branch line 5.67 miles long, connecting some of the coal mines in Spring canyon, with the county with the Utah Railway lines. The federal commission asked the public utilities commission of Utah to conduct the hearing.

## Forestry Men Will Address Cattlemen

SALT LAKE, Dec. 7.—R. H. Rutledge, district forester, R. E. Gery, in charge of the office of lands, C. B. Morse, in charge of forest management, and C. H. Aronson, assistant chief of operation of the Ogden fourth district forest service office will be in attendance at the Utah Cattle and Horse Growers' association today. Discussion of grazing fees within the national forest will be given special consideration, according to Thomas Robinson, secretary of the state association. Western cattlemen, he intimates, will strongly resist reported intentions of vesting congressmen to raise the fees. Scores of delegates representing western stockmen will be in attendance at the meeting.

## COMPILING REPORT ON IRRIGATION CONGRESS

LOGAN, Dec. 7.—A comprehensive report of the proceedings of the Utah Irrigation and Drainage congress, covering the last three years, is being compiled by Prof. O. W. Aronson, secretary-treasurer of the congress. The report will embody papers on irrigation problems written by irrigation experts, a list of irrigation companies and drainage districts in Utah. The report will be published early in January, immediately preceding the annual meeting of the congress, to be held at Salt Lake January 13 and 14.

## LAND OFFICE RECEIPTS.

SALT LAKE, Dec. 7.—Receipts of the United States public land office for the present year amount to approximately \$300,000 for the first eleven months according to Heber C. Lee, Utah land receiver. The money paid in at the office for various months is as follows: January, \$117,255; February, \$19,573.56; March, \$13,144.75; April, \$30,679.02; May, \$45,959.32; June, \$26,005.25; July, \$37,500.26; August, \$3,346.98; September, \$12,401.50; October, \$18,626.02; November, \$7,415.63.

## FARMERS CLEAR UP BEET FIELDS

Fall plowing operations well under way in North Ogden District

(Special Correspondence). NORTH OGDEN, Dec. 7.—Taking advantage of the favorable weather of the past few days, farmers of North Ogden have cleared their fields of sugar beets and are now busy in plowing in preparation for next season. The mammoth pile of beets is now rapidly being reduced as the car shortage is relieved. A number of North Ogden young men and women have recently entered the Utah Agricultural college at Logan and are taking special courses. They are Kimball Montgomery, Henry Brown, Clair Brown, Donald Barrett, Percy Randall, Harvey Chandler, Curtis Campbell and Miss Olive Randall.

## STOCK SESSIONS GET UNDERWAY

Committees Named to Recommend Plans to Aid Cattle Industry

SALT LAKE, Dec. 7.—At the afternoon session of the convention of officers of the cattlemen's association of twelve western states yesterday, eight committees were named to recommend plans for alleviation of conditions facing western stock growers for stabilizing cattle markets and stimulating consumption of beef. Each committee will report during the sessions today. COAST MAN PRESIDES. Called to order by E. H. Bixby, president of the California Cattlemen's association, yesterday's session of the cattle association officials made rapid progress and it was concluded that a meeting of the association would be held in order by 2 o'clock. After outlining the conditions particularly affecting California cattle market, Mr. Bixby made a plea for cooperation between the different cattle associations of the western states. He pointed out that such an association is performing excellent service for the state it represents, but urged an organization of western cattle associations. In 1917 the well-organized organization made a definite program for the shipping and sale of stock; that shipments be made to different markets from one state to another; that it will not interfere with shipments from another state, in other words, not glut the markets.

## NEW ORCHARD PESTS DISCOVERED IN IDAHO

RHIL, Ida. Dec. 7.—Discovery of two new orchard pests has been reported by R. H. Smith, state entomologist. The new pests are the Indian peach aphid and the imported orchard mite. Both are serious pests. The first was imported in some manner from India, while the second has been introduced here from a European country. The Indian peach aphid when first observed in Twin Falls county was causing severe curling on peach leaves. On some of the trees the sound leaf was left by the first of July. It also was found around the Boise and Pocatello sections later, and has spread through all sections of southern Idaho to some extent. Besides causing serious curling of leaves, the aphid causes dwarfing and stunted growth, which drop off early in the summer, long before maturity. The pest also has been found in other northwestern states and was probably introduced from Asia through imported nursery stock. The mite is scarlet and about one-third the size of a pinhead. The leaves on which it feeds turn a sickly grayish green, the mite feeds on both upper and under surfaces. Later they fade to a yellow color. In many respects it does damage similar to that of the red spider, but does not spin a web. Efforts will be made during the next year to overcome these pests by proper spraying and other treatment of orchards affected.

## COMMITTEES ARE NAMED

The following committees were appointed yesterday, with instructions to report at today's meeting: Committee on market conditions: H. H. Boomer, J. H. Jacobson, Idaho; G. H. Russell, Oregon; J. J. Johnson, Wyoming; W. N. Hines, E. Parson, California; Wallis Huidekoper, Montana; J. A. Scourp, J. T. Tanner, N. H. Manderfield, N. M. Justin, Idaho; W. C. M. Myer, Wyoming. Committee on interstate trade in feeder cattle: William L. Johnson, Utah; W. N. McGill, Nevada; N. V. Wemple, California; William Handley, Oregon. Committee on states' cooperation: R. H. Thayer, Nevada; John Black, Charlie Lead, Utah. Committee on reestablishment of branch offices of United States bureau of market: W. Keen, Wyoming; W. L. Dishman, Oregon; J. A. Boney, Idaho. Committee on stimulation of beef consumption: J. J. Macfarlane, Utah; W. Jenkins, Wyoming; George Russell, Oregon; P. C. Peterson, Idaho. The federal bureau of markets will be consulted in the matters of the hope will be brought before the National Livestock association convention, and there was noticeable yesterday a sentiment for the reestablishment of this bureau. Among suggestions for financial aid was the possibility of the formation of a bank to be conducted entirely by stockraisers.

## LARGE STILL SEIZED CLOSE TO IDAHO FALLS

IDAHO FALLS, Dec. 7.—The seizure of a twenty-five gallon still, the largest ever found in Bonneville county, on a range near the town of Idaho Falls, resulted in the finding of not only the still but about twelve gallons of mash. Joe Crawford and Eugene Bennett, who were in the garage, were taken into custody. No liquor was found on the premises. The men were arraigned before United States Commissioner George W. Edinger yesterday. They both pleaded not guilty. The hearing was set for December 21 and their bonds were fixed at \$500.

## STATE MEDICAL BOARD TO CALL OFF ATTORNEYS

SALT LAKE, Dec. 7.—Forty-seven applicants successfully passed examinations of the state board of medical examiners during the present biennial session, according to the report submitted to Governor Bamberger yesterday. The report refers to prosecutions attempted against "med-breakers" who defiantly violate the statutes by practicing medicine without a license, and says that, after investigations made by an attorney, the board decided that it would continue to spend the money at the rate of \$50 a day to attorneys to find out that nothing further could be done. Dr. D. C. Budge signed the report as chairman and Dr. C. L. Olson as secretary.

## POSTOFFICE ESTABLISHED

WASHINGTON, Dec. 6.—A new postoffice, known as National, has been established in Carbon county, Utah, fifteen miles west of Helper, with Fred H. Jacobs as postmaster. Other postmasters appointed are: Annie L. Kittle, Arco, Wyo., vice Mary A. Lasher, resigned; Charles H. Brennan, Colesburg, Wyo., vice Annie E. Richardson, resigned; Katherine M. Dent, Dent, Idaho, vice Anna Durso, resigned.

## CUT THIS OUT IT IS WORTH MONEY

Cut out this slip, enclose with 5c and mail it to Foley & Co., 2813 Sheffield Ave., Chicago, Ill., writing your name and address clearly. You will receive in return a trial package containing Foley's Honey and Tar Compound for coughs, colds and croup; Foley Kidney Pills for pains in sides and back; rheumatism, headache, kidney and bladder ailments; and Foley Cathartic Tablets, a wholesome and thoroughly cleansing cathartic for constipation, biliousness, headaches, and sluggish bowels. Sold everywhere. Advertisement.

## FURTHER PLANS TO SAVE BUFFALO HERD

SALT LAKE, Dec. 7.—The herd of 165 buffalo on Antelope island may be saved from destruction. The campaign of the Salt Lake Commercial club to purchase the island has resulted in the signing of definite negotiations with the island owners. A meeting of those interested was held at the Commercial club for the purpose of determining if satisfactory arrangements could be made for the purchase of the island by the American Humane society. The meeting was presided over by William O. Stillman, president of the society, giving the figure which the officers of the Buffalo Island Livestock company had fixed on the animals. A reply is expected from Mr. Stillman within the next few days. Whether or not it will be possible to purchase the island, itself or to lease it for a long time in order that it may be used as a game sanctuary, will not be known for ten days or a week, according to E. H. Hays, president of the Commercial club. The island improvement company recently leased its land on Antelope island to the Buffalo Island Livestock company. The island were sold to the lessee. Because the animals ate much food which could be utilized for cattle the company planned to sell privileges to hunt and kill them.

## BAZAAR FOR BEEHIVE GIRLS SUCCESSFUL

BRIGHAM, Dec. 7.—The bazaar conducted for two days last week by the Y. W. C. A. of this city, for the purpose of financing a summer camp for Beehive girls next summer, proved successful. A number of donations were embodied in the bazaar but the principal sources of revenue were derived from the serving of a merchants' lunch at noon Saturday and a luncheon during the evening. Miss May Barger was chosen as queen of the event. The bazaar was concluded with carnival features.

## WILL FIGHT EXTRADITION

POCATELLO, Idaho, Dec. 6.—Jesse C. Powell, arrested last week on advice from Portland, Ore., charged with the larceny of an Oldsmobile car, will fight extradition. Powell and his attorney left for Boise today to meet Governor Davis. A deputy sheriff from Portland is representing the Oregon authorities.

## DOCTOR'S TRIAL STARTS

SALT LAKE, Dec. 7.—Trial of Dr. T. O. Duckworth, indicted by the last federal grand jury for the alleged unlawful administration of drugs as prohibited under the Harrison act, was begun yesterday before Judge Tiltman D. Johnson of the United States district court.

Musical directors, Marcellus Smith and William H. Manning.

Tickets on sale Thursday at Orpheum Theater. Admission 65c to \$1.75, including war tax.

## SURVEYS STATE MINE DEPOSITS

### State Geologist Makes Report On Non-Metal Properties Throughout Utah

SALT LAKE, Dec. 7.—Assessed valuation of nonmetalliferous mining deposits in Utah has more than doubled since 1917, according to a report made by Professor William Peterson, geologist for the state board of equalization and assessment. In 1917 the assessed value was \$11,012,926 and in 1920 it has climbed to \$22,686,748. The report was filed yesterday in the office of Governor Bamberger. TABLES VALUATIONS. Mr. Peterson thus tabulated the valuations resulting from the work accomplished by a survey made under his direction and a comparison of the assessments made in 1917: Coal lands: Carbon county—Assessed valuation in 1920, \$6,730,420; assessed valuation in 1917, \$1,200,623; assessed valuation in 1920, \$4,429,797. Every county—assessed valuation in 1917, \$1,200,623; assessed valuation in 1920, \$4,429,797. Assessed valuation in 1917, \$64,543; assessed valuation in 1920, \$23,491. Summit county—assessed valuation in 1917, \$28,291; assessed valuation in 1920, \$2,681,167. Iron county—assessed valuation in 1917, \$65,725; assessed valuation in 1920, \$2,829,201. Duchesne county—Assessed valuation in 1917, \$13,887; assessed valuation in 1920, \$61,982. Alphas county—Assessed valuation in 1917, \$172,925; assessed valuation in 1920, \$1,062,704. Granite deposits—Assessed valuation in 1917, \$163,008; assessed valuation in 1920, 274,477. Salt and potash deposits—Assessed valuation in 1917, none; assessed valuation in 1920, \$64,447. Cement deposits—Assessed valuation in 1917, none; assessed valuation in 1920, \$1,372,755. Phosphate deposits—Assessed valuation in 1917, \$1,000; assessed valuation in 1920, \$186,185. Lime quarries—Assessed valuation in 1917, none; assessed valuation in 1920, \$2,842. Sulphur deposits—Assessed valuation in 1917, none; assessed valuation in 1920, \$22,530. Total assessed valuation for 1917, \$11,012,926. Total assessed valuation for 1920, \$22,686,748. Professor Peterson's work goes into considerable detail in explaining the method by which the valuation of the nonmetalliferous mines of the state, under the amended tax laws of 1917, was made. "Computations," he says, in concluding this part of his report, "have been made of all the privately owned lands in the state, and the records, as completed by the survey, which have been filed with the state board as a part of this report, show the position of the coal seams in each legal subdivision, the thickness and relative position of each seam, the available tonnage and the assessed valuation of each legal subdivision. In addition to the above information, the survey has attempted, in a limited way, to collect data giving information which will aid in development of new properties. This data covers in a very general way possible railroad sites, tram sites, sites for townsite purposes and other available water supply of all the streams in the district." Similar information is on file with the state board, as a result of Professor Peterson's survey, for a large portion of the publicly owned coal lands in Carbon county. In other counties it was found impossible to complete such work during the past summer. In addition to the coal surveys and valuations, accounts of which have already appeared from time to time,

Professor Peterson's report tells of the valuations of other nonmetalliferous mines in Utah. Computations as to some of these deposits give an accurate estimate of their amount for the first time in print. Limestone quarries operated in Cache, Tooele and Utah counties are included in the valuation as given above on the basis of the amount of limestone each will probably produce. Concerning the potash deposits, the report calls attention to the fact that only a small amount of the deposits which are in the Tushar mountains in Piute county, has as yet been patented. He finds that 398 acres are held as patented lode claims, and computes that they carry 642,000 tons of material that might be considered valuable for taxation purposes. The figures given in the table include the total value of the patented ground and equipment as reported. Phosphate deposits were found in Rich county in patented lode claims to the extent of 1375 acres, along a synthetic field on which the commercial portion of the deposits here, left over from a former lease, is in a seam five and one-half feet in thickness. This is computed to a depth of 200 feet for tax purposes, and is found to contain 13,248,000 tons.

### EMERGENCY LANDING FIELDS TO BE CHOSEN

SALT LAKE, Dec. 7.—Establishment of a complete chain of emergency landing fields along the Pacific coast of Utah, from Salt Lake City to the Mexican border, will have been made, according to Vern Hinckley, assistant to Colonel John A. Jordan, division superintendent.

Mr. Hinckley, accompanied by Dean Wright, chief rigger of the Salt Lake landing field, who has charge of airplane wing construction here, left yesterday to establish an emergency field at Salsdoro. They will also pick out and mark suitable fields at Wendover, Utah, and Shafter, Nev., before returning to Salt Lake Thursday. After his return, Mr. Hinckley will go to Burmester to select a field. Pilot Grover C. Black also will make the trip. Emergency fields selected under present consideration are of natural character. They will be marked by a large letter "E" constructed of wood. One side of the letter will be painted white and the other black, in order that the greatest visibility may be attained in winter and in summer. In snowy weather the black face of the letter will be upward, in order to make the mark conspicuous against the winter background.

Fields for forced landings also have been made at Wells, Paltwick, Locks and Hazen, Nev., Truckee, Colfax, Auburn, Concord and Richmond, Cal. In addition air mail pilots may land their planes at Mather field, Sacramento, if forced to descend.

### SHORT LINE EMPLOYEE DIES

POCATELLO, Idaho, Dec. 6.—David James Reese, a young clerk of the Oregon Short Line, died yesterday at a local hospital of an abscess in his head, after being sick about ten days. Mr. Reese was a graduate of the old Academy of Idaho, now the Idaho Technical Institute, and was one of the leading athletes of that institution. He was 23 years of age and a member of the local lodge of Elks. He leaves a bride of two months.

### NEW LAW FIRM FORMED

POCATELLO, Idaho, Dec. 6.—A new law firm has been formed at Pocatello, composed of former Attorney General D. C. McDougall and his two sons, Isaac and Harry. Under the firm name of McDougall & McDougall, Isaac McDougall is the county attorney and Harry McDougall is the present holder of the county attorney's office. The firm was formed recently returned from the war, where he won distinguished honors as an aviator.

### POSTOFFICE BURGLARIZED

BOISE, Idaho, Dec. 6.—The Meridian postoffice was burglarized some time Sunday night or Monday morning and between \$200 and \$400, most in stamps, taken from the safe. The burglars gained entrance by forcing the back door, the lock being torn off. The safe was broken open, apparently with chisels and sledge-hammers, and completely rifled. The combination was not touched, but the hinges of the door were chiseled off.

## The Best Cough Syrup is Home-made.

Here's an easy way to save \$2, and yet have the best you ever tried.

You've probably heard of this well-known plan of making cough syrup at home. But have you ever used it? When you do, you will understand why thousands of families throughout the world feel that they could hardly keep house without it. It's simple and cheap, but the way it takes hold of a cough will quickly earn it a permanent place in your home.

Into a pint bottle, pour 2 1/2 ounces of best, then add 1/2 ounce of orange extract, syrup to fill up the pint. Or, if desired, use clarified molasses, honey, or corn syrup instead of sugar syrup. Either way, it tastes good, never spoils, and gives you a full pint of better cough remedy than you could buy ready-made for three times its cost.

It is really wonderful how quickly this home-made remedy conquers a cough—usually in 24 hours or less. It seems to penetrate through every air passage, loosens a dry, hoarse or tight cough, lifts the phlegm, breaks the membranes, and gives almost immediate relief. Splendid for throat tickle, hoarseness, croup, bronchitis and bronchial asthma.

Pinec is a highly concentrated compound of genuine orange extract, and has been used for generations for throat and chest ailments. To avoid disappointment ask your druggist for "Pinec" and get it in the directions, and don't accept anything else. Guaranteed to give absolute satisfaction or money refunded. The Pinec Co., Ft. Wayne, Ind.

## BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets are a Harmless Substitute

Dr. Edwards' Olive Tablets—the substitute for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. These little colored tablets are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel.

The pleasant little tablets do the work that calomel does, but have no bad after effects. They do not injure the teeth like strong liquids or calomel. They take the sting of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So do strong liquids. It is best to take calomel. Let Dr. Edwards' Olive Tablets take its place.

Headaches, "dullness" and that lazy feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets. They "feel" "light" and "heavy." They "clear" clouded brain "perk up" the spirits, 15c and 30c.—Advertisement.

## Knocks Out Chest Colds

Begy's Mustarine Goes Some—Often Chest Colds Go Over Night.

### COSTS ALMOST NOTHING

Ten minutes after you rub Begy's Mustarine on that sore, tightening chest you'll know that you've struck a quick result producer that is bound to conquer the inflammation.

Is it any wonder that thousands swear by it when an 8-cent box is equal to 50 of the best mustard plasters that your grandmother ever made?

And Begy's Mustarine, which comes in a yellow box and is made of real yellow mustard, cannot blister. Bear that in mind. But when you have any ache or pain or lumbago, neuralgia, neuritis, sore throat or any inflammation or congestion, be sure and rub it on freely. It's the Quickest Pain Killer on Earth.

A. R. McElrath Drug Co. can supply you.—Adv.

## DON'T SUFFER WITH NEURALGIA

Use Soothing Musterole

When those sharp pains go shooting through your head, when your skull seems as if it would split, just rub a little Musterole on your temples and neck. It drives out the inflammation, soothes away the pain, usually giving quick relief.

Musterole is a clean, white ointment, made with oil of mustard. Better than a mustard plaster and does not blister. Many doctors and nurses frankly recommend Musterole for sore throat, bronchitis, croup, stiff neck, asthma, neuralgia, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frosted feet—could of the chest (it often prevents pneumonia). It is always dependable.

35c and 60c jars; hospital size \$3.

## DON'T DESPAIR

If you are troubled with pains or aches; feel tired; have headache, indigestion, insomnia; painful passage of urine, you will find relief in

The world's standard remedy for kidney, liver, bladder and uric acid troubles and National Remedy of Holland since 1895. Three sizes, all druggists. Guaranteed. Look for the name Gold Medal on every box and accept no imitation.

## NEW HAIR after BALDNESS

IF YOU are losing hair, have thinning, or are bald, use the famous "Hair Reviver" which grows new hair all over your scalp. It is the only hair restorer that works. Get the "Hair Reviver" at any drug store, or send 10 cents for Free Book of "HAIR" to J. B. Britain, Inc., Station F, New York, N. Y.
