

ED OF FIRE DRILLS TOLD

Number of Commerce Says Fire Combating Information Vital

At least 15,000 persons lost their lives in the United States last year as a result of fires, according to an estimate received today by President G. G. Taylor of the Ogden chamber of commerce. Considerably more than that number were seriously injured in the same cause.

When we are told that most of those killed and injured were women and children, that they were sacrificed because of carelessness and that the toll is increasing each year, said Taylor, "we realize that some definite steps should be taken to avert destruction."

From a humane standpoint, therefore, if for no other, it is the duty of every sane person to exercise particular care to prevent fires. Furthermore, it is the duty to know what to do when he discovers that a fire has started. Many lives and much property would be saved annually if every person who first saw the fire had known how to call quickly for proper assistance. By all realize that the few minutes after the fire starts is the most important time in which to act.

Today fire alarm boxes are placed in convenient locations. These boxes of little value unless the person using them is acquainted with their location and the proper method of sounding an alarm. Although most alarm boxes are easy to use, many persons have no idea how this should be done.

Everyone should make it his business to learn the location of the nearest alarm box and how to use it. He should further see that others of his family are acquainted with these facts. It is advisable furthermore to get this information to all school children so that they fully understand to do their part in establishing an orderly emergency.

Manufacturers and other business organizations will find it to their advantage to see that every employe has

ESSAY PRIZES FOR STUDENTS

Awards to Be Made to Both Senior and Junior Highs

Two prize essay contests on the subject of "What the Constitution of the United States Means to Me" have been announced by Dr. C. N. Jensen, state superintendent of public instruction, open to all students of the junior and high schools of the state.

Superintendent H. A. Fowler of the Weber county schools announced this morning that the principals of the various schools would be notified of the offer. It is understood that a number of students will enter from Weber county due to the success attending the same sort of a contest held last year in Weber county under the auspices of the Kiwanis club.

In each school district in the state there will be a cash prize of \$2.50 offered for the best essay from the junior high school students and a similar prize for the best essay from the senior high schools. The superintendents will arrange for judging essays. After the best has been selected the same should be forwarded to the state superintendent, who will appoint a committee to select the first, second and third best essays from each group of students.

The best essay submitted by the junior high school will receive a state cash prize of \$25. A similar prize will be given for the best essay from the senior high schools. The second best essay from each group will receive a cash prize of \$15 and the third best essay will receive a cash prize of \$10.

Junior high school students are classified as students in the seventh, eighth and ninth grades whether or not a district junior high school has been established. By senior high school, all tenth, eleventh and twelfth grade students are included.

this knowledge. It is impossible to determine who will be called upon to sound the next alarm. All should be prepared.

"A further important consideration relative to the saving of lives is the proper method of emptying a burning building of its occupants. Where a large number of persons are assembled in one building, such as a school, a public institution or a factory, it is advisable that fire drills be held. Arrangements should be made to conduct such drills at irregular intervals in order that the occupants will obtain the habit of answering the alarm whenever it is sounded. The frequency of these tests will depend upon the type of building and the number of persons occupying it.

"Experience has shown that employes and school children become interested in fire drills. They are anxious to do their part in establishing a time record for emptying their building or department. The drill will acquaint everyone of the proper exit to be used and will also assure an orderly clearance in the case of an actual fire.

"The present week, which is being observed as Fire Prevention week, presents an excellent opportunity for teaching the use of the fire alarm box and for initiating fire drills, as is now being done in Ogden under the direction of Fire Chief G. A. Graves."

Analysis of a sample of wine obtained by deputy sheriffs from the farmhouse of K. Sato, Japanese, of Sunch Creek, showed that the liquid contained 5.47 per cent alcohol, and charges of having liquor in his possession will be filed against Sato this afternoon. Sato was arrested Tuesday after 1050 gallons of mash was found on his farm and destroyed. In his house, the officers said they also found 40 gallons of grape wine.

Sato is now at liberty on a bail of \$300. He was arrested upon the same offense last spring, and his team and wagon were confiscated.

THEATRES

Excellent Show Provided for Vaudeville Fans This Week

Remarkably large crowds were present Thursday at the opening of the Pantages vaudeville and feature picture program at the Orpheum theatre. Perhaps many were outside residents who had come to Ogden for Suburban day. At any rate, the show was generally regarded as excellent.

The headliner this week is Ferry Corvey, musical clown of the New York Hippodrome, who has more tricks than 10 men could think up in a month, not a one of which is expected on an unusual musical instrument. A pretty girl assistant serves as the foil for many of his feats.

The show got the crowd laughing from the first, except some extraordinary playing on the familiar mouth organ, but somehow the audience liked his bashful manner and odd speech and repeatedly called for an encore.

The third laughable offering of the bill is "Vocal Variety," by Ketch and Wilma. Ketch is said to be the only man known to sing in two voices at one time.

The artistic scenic offering, "Tailor Made," is presented by Lou and Jean Archer. Lou is the designer and Jean the mannequin, for his dress creations notable among which were those of the showgirl and the oriental. Some singing and dancing also serve to enliven the act.

Tom, Al and Avery Belmont. "The Boys With the Toys," have something rather different to divert the crowds. Full of action and color, their act was well liked and applauded.

Heaping over the measure of fun is the film comedy, "A Hickoryville Hick," with the brilliant Bobby Vernon taking the lead. In addition to all this, is the Selznick feature picture, "Love's Masquerade," starring Conway Tearle.

"Man - Woman - Marriage"

Wonder Picture at Orpheum Sunday

"Man, Woman, Marriage," the million milestone in motion pictures, will open a four-day run at the Orpheum, beginning Sunday at 5 p. m. This triumph is the picture that has been termed the "Drama Eternal," and is a triumph of mother right. The cost of this big production was tremendous.

Thousands of men and women, harem-back riders, Amazons, barbaric dancers, pagan beauties! Thousands of horses—with monkeys, lions, tigers, chimpanzees, and bears, besides. These are the mighty army which Allen Holms used in the magnetic sequence of drama, revelry, riot and sex-antagonism of "Man, Woman, Marriage," the stupendous First National attraction that marks a new milestone in film production in America.

Big Special Picture for Children at Alhambra Saturday at 12:30

Attend the big matinee Saturday. A special picture for you at 12:30, and you will see Mary Miles Minter in "A Virginia Courtship." A comedy and educational reel, Fox News, and the regular feature follows.

The biggest show on earth. Souvenirs for the children, and we will announce the weight and winners of the Hippo Prize at 1 o'clock.

Theodore Roberts Featured in "The Old Homestead" at Alhambra Sunday

Theodore Roberts has lost his mustache!

For many months he was permitted to retain the haircut adornment, appearing in Paramount pictures with his upper lip fringed.

But Uncle Joshua Whitcomb in "The Old Homestead," which comes to the Alhambra theatre next Sunday, wears no mustache. To present him with one, would be to defy tradition. "The Old Homestead," with Uncle Josh wearing a mustache would be like Uncle Tom with the title role played by a mulatto.

So it came Mr. Roberts' mustache. "Never mind," said Mr. Roberts, after shaving. "I am always willing to make sacrifices to art. And after all—I can soon grow another."

There are indeed two things in which Mr. Roberts excels; the use of a cigar to put over expression and the ability to grow whiskers for any part almost overnight.

Envelopes were invented in England by a bookseller of Brighton.

You Can Get Back Your Grip on Health

Hope for the millions of unfortunate men and women who are victims of stomach trouble is sounded by Mrs. Minnie Bente, 3027 Elbert St., Oakland, Cal. Mrs. Bente was a victim of stomach trouble in its worst form but was completely restored to health by taking Tanlac. She says:

"For years I suffered from stomach trouble, and when I began taking Tanlac I was on the verge of a nervous breakdown. Tanlac changed things around for me completely and now my stomach and nerves are in fine shape and I am well and strong again."

Indigested food ferments in the stomach and soon the entire system is filled with poisons. Tanlac was designed to restore the stomach to a healthy condition and build up the whole body. Millions everywhere have acclaimed its wonderful power. Get a bottle today.

Tanlac is sold by all good druggists.—Advertisement.

GAS IN THE STOMACH IS DANGEROUS

Gas and wind in the stomach accompanied by that full, bloated feeling after eating are almost certain evidence of the presence of excessive hydrochloric acid in the stomach, creating so-called "acid indigestion."

Acid stomachs are dangerous because too much acid irritates the delicate lining of the stomach, often leading to gastritis accompanied by serious stomach ulcers. Food ferments and sours, creating the distressing gas which distends the stomach and hampers the normal functions of the vital internal organs, often affecting the heart.

It is the worst of folly to neglect such a serious condition or to treat with ordinary digestive aids which have no neutralizing effect on the stomach acids. Instead get from any druggist a few ounces of Bismarck Magnesia and take a teaspoonful in a quarter glass of water right after eating. This will drive the gas, wind and blast right out of the body, sweeten the stomach, neutralize the excess acid and prevent its formation and there is no sourness or pain. Bismarck Magnesia (in powder or tablet form—never liquid or milk) is harmless to the stomach, inexpensive to take and the best form of magnesia for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion.—Advertisement.

WEST OGDEN TO CELEBRATE

Fruit Bust and Dance to Be Held Saturday Evening

West Ogdren tomorrow will celebrate the completion of the paving. There will be an open air carnival dance and free fruit bust.

George R. Vaughn and A. M. Vander Vies, head of the West Ogdren committee, which is arranging for the celebration, scheduled to begin at 8 o'clock and to continue until 11.

The Taylor-Child Construction company, which constructed the paving, is providing an orchestra for the occasion.

West Ogdren invites all its friends to assemble there tomorrow night to help celebrate.

Fair weather tonight and Saturday is promised for Ogden in the daily bulletin of the United States weather bureau. Little change is expected in temperatures.

Yesterday's maximum temperature was 80 degrees with a minimum last night of 42 degrees.

Whatever You Do Don't Neglect Your Eyes, Says Dr. Lewis, Who Tells How to Strengthen Eyesight

NOTE: Another prominent Physician to whom the above article was submitted, said: "Bon-Opto is a very remarkable remedy. Its constituent ingredients are well known to eminent eye specialists and widely prescribed by them."

Are you a victim of eye strain or other eye weaknesses? If so, you will be glad to know that according to Dr. Lewis there is real hope for you. He says neglect causes more eye troubles and poor sight than any other one thing. Many whose eyes were failing say they had their eyes restored through the principle of Bon-Opto.

One man says after trying it: "I was almost blind; could not see to read at all. Now I can read everything without glasses and my eyes do not water any more. At night they would pain dreadfully; now they feel fine all the time. It was like a miracle to me."

A lady who used it says: "The atmosphere seemed hazy with or without glasses, but after using this prescription for fifteen days everything seems clear. I can even read fine print without glasses."

Eye troubles of many descriptions may be wonderfully benefited by following the simple rules: Go to any active drug store and get a bottle of Bon-Opto tablets. Drop one Bon-Opto tablet in a tumbler of a glass of water and allow to dissolve. With this liquid bathe the eyes two or four times daily and exercise them daily as directed.

You should notice your eyes clear up perceptibly right from the start and inflammation quickly disappears. If your eyes are bothering you, even a little, take steps to save them now before it is too late. Many hopelessly blind might have been saved if they had cared for their eyes in time.

The manufacturers guarantee it to strengthen eyesight 50 per cent in one week's time in many instances of round the money. It can be obtained from any good druggist, and is one of the very few preparations I feel should be kept on hand for regular use in almost every family. It is sold by all druggists.—Advertisement.
