NOTICE OF INTENTION. Notice is hereby given by the city council of Ogden City, Utah, of the intention of such council to make the following improvements, to-wit: To create Washington avenue from Thirty-fourth street to Thirty-sixth street; Ogden avenue from Thirty-fifth street to Thirty-sixth street; Adams avenue from Thirty-second street to Thirty-sixth street; Thirty-fifth street from Washington avenue to Adams avenue, and the north side of Thirty-sixth street from Washington avenue to Adams avenue, and to build in said districts concrete sidewalks in the manner following to-wit: To build on said streets, as above mentioned, concrete sidewalks four inches thick and six feet in width. The estimated cost of said improvements is \$10,000. The boundaries of the district to be benefited and affected by said improvements are lines drawn fifty feet outward from and parallel to the outer boundary lines of said streets for the whole length thereof on Washington avenue from Thirty-fourth to Thirty-sixth streets, on Ogden avenue from Thirty-fifth to Thirty-sixth streets, on Adams avenue from Thirty-second to Thirty-sixth streets, on Thirty-fifth street from Washington to Adams avenue. For the payment of the costs and expenses of making said improvements the city council intends to levy and collect special and local taxes upon the lots, blocks, parts of lots and blocks, lands and real estate lying and being within the boundaries of the said district to the extent of the benefits to said property by reason of said improvements. The city council will, on Monday, the fifth day of July, 1909, at 8 o'clock p. m., in the city council chamber, city hall, Ogden, Utah, hear objections in writing from any and all persons interested in said local and special assessment. Ordered by the city council June 7, 1909. E. P. BROWN, City Recorder. Per TILLIE HANCOCK, Deputy. (First publication, June 13, 1909.) (Last publication July 5, 1909.)

STOWS HIMSELF AWAY FOR LONG JOURNEY

Cleveland, June 19.--Believing that his life would be saved if he reached California, Thorston Noonan, a consular agent, twenty years of age, stowed himself away in an automobile that was being shipped to San Francisco from here yesterday, and prepared to make the long trip across the country. An inspector, from the automobile factory, found the young man in the machine, and thus the consular agent's plans were frustrated. Noonan was an employee of the factory from which the machines were being shipped, and when he heard that the cars were to be sent to San Francisco, he asked permission to accompany them, but his employers refused to grant his request, and he decided to go without their permission. Noonan had stored away enough food to last him for ten days in one of the machines, padded the floor of the car so that he might sleep in comfort, and a short time before the train was ready to start, he crawled into his bunk. Danish Stew. Take two good sized stalks of celery, cut up or dice, put into three pints of water and cook till celery is tender. Season with salt and pepper, add two tablespoons of flour made into a paste with cold water. Then take one pound and a half of chopped beef seasoned with salt and pepper and two tablespoons of bread or cracker crumbs, one-half of an average sized common onion, cut up fine, and one egg; mix together and form into balls and stew for ten to fifteen minutes with other ingredients until done. Saved by Spike Catching Shirt. Eleven-year-old William Schenker fell into the bay at the foot of Canal street, Stapleton, and was carried under the pier. As he was going under his shirt caught on a spike in a splice, and held his head above water until Henry Kirchner found and released him. Genealogical Trees. I make little account of genealogical trees. Mere family name made a man great. Thought and deed not pedigree, are the passports to enduring fame.--Gen. Skobeleff.

CHILDREN STRUCK BY LIGHTNING

Sparta, Ga., June 19.--While sixteen children, who were attending a Sunday school picnic at Martin Springs near here, were standing under a tree yesterday to escape a shower, a bolt of lightning struck the tree and every child was rendered unconscious. When aid came, the children were lying in a heap at the foot of the tree and all were apparently dead. There were two doctors in the picnic party, and on examination they found that not one of the children had been killed outright, though six of them were in such condition that their recovery is hardly possible. The other ten, meanwhile, rendered unconscious, are not considered in a dangerous condition. Examinations disclosed that on the bodies of nine of the children, the tree had been perfectly photographed by the electric bolt. The shoes had been torn from their feet and every piece of metal about them fused.

HEART MANIPULATION BRINGS BACK LIFE

New York, June 19.--Forty-five persons, who have died recently, form the basis of a most remarkable report on bringing the dead back to life, according to the Medical Record. Of the forty-five cases treated, under the new theory of manipulating the heart by the hand, seventeen patients were resuscitated, nine with complete recovery, the remaining eight dying after a short time. Forty of the cases treated are said to have been due to the anaesthetic administered. The reports say that, in each instance, immediately after death ensued, nor not more than five minutes after, the chest was opened and the heart was given a direct application of manual massage. "After the chest cavity has been opened, the hand is forced in and the heart is grasped and pushed toward the anterior thoracic walls," according to the Medical Record, "and the centricles are squeezed rhythmically at about the normal rate of heart beats. During all this time assistants should be busy with artificial respiration, saline and adrenalin infusions, tongue traction, intubation or tracheotomy and elevation of pelvis and legs."

CLOSING QUOTATIONS OF WORLD'S MARKETS

DEALING IN STOCKS ON A SMALL SCALE. New York, June 19.--There were no very marked changes shown by opening prices of stocks today, and the dealings were on a small scale. The gains outnumbered the declines and reached a substantial fraction in Southern Pacific, Wabash pfd., Union Southern Pacific and Hocking Valley Coal. The tone of the market became better, but only a few stocks were in sufficient demand to benefit more than a fraction, and the buying of these also ceased after a time. Aitchison, the Southern Railway stocks and International Paper gained 1, and Delaware & Hudson and Louisville & Nashville 1-4. The market closed heavy and dull. Prices drifted slightly to a lower level and then hardened again. American Sugar declined 2 5/8, Chicago pfd., Great Western pfd., "A," 4 1/8, Hocking Valley pfd. 1 1/2 and American Hide and Leather pfd., Pittsburg C. and St. L. and American Sugar Beet, 1. Laclede Gas, advanced 1/2. Erie was up in the market. Steel Foundries rose 1 and Chicago & Alton 1-4.

An Anti-Ant Building.

Reinforced concrete is the material which will be used almost exclusively in the construction of the new government buildings to be erected by the United States at San Juan, Porto Rico, for use as a postoffice, courthouse and custom house. Wood is to be practically excluded from the structure, the only place about the building where wood will be employed will be in the window sashes on one side of the edifice. The interior doors will be rattan. The reason why wood is being avoided by the government in this case is because there is a small ant indigenous to the island of Porto Rico which eats its way through wooden chairs, doors and desks and makes them spongy on the inside.--Cement Age.

Dining-Room Like a Rose Garden.

At a recent grand diplomatic dinner the decorations of the dining-room and the table were roses--a veritable shower of them! Bengal roses, Dijon roses, and the roses of France. They strewn the table; they hung in baskets; they wreathed the candelabra; they trailed from the dinner cart, and sprays of them marked the places of the guests. Including the name cards written in the letters of gold. The room was like a rose garden. In the dark half of the hostess, behind each ear, nestled a large pink rose. A pretty flush to her robe of white meteor crepe edged and hemmed with a Greek key design done in gold--From a Paris letter to Vogue.

Fortunate Indeed.

"When I am inspired," exclaimed the youthful poet, "I get fearfully agitated. My breath comes in quick, convulsive gasps. My hair stands on end. I pace up and down restlessly. A fever seizes me. My hands tremble, my eyes goggle. Throughout my frame runs a violent electrical quiver. I gesticulate madly, I--" "You listened, then, rapt." "How lucky," remarked a true friend, "that you are inspired so seldom!"

YOUR HAT May Be a Stylish One, But It Makes Trouble.

A man usually buys a hat that "fits the style," but the modern hat for men has lots to answer for. Epidemics are growing more numerous every day. Mice make excellent breeding places for the parasitic germs which sap the life from the roots of the hair. When your hair begins to fall out an sure sign that these countless germs are busy at work. There is but one way to overcome the trouble and kill the germs--that way is to apply Newbro's Herpicide to the scalp--it will kill the germs and health hair is sure to result. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich. Two sizes--50 cents and \$1.

Loved and Hated. Europe hates our rich art patrons and loves them. It loves them for the money they have made and are willing to spend on old masters and new masters, even when they are spurious. It hates the rich American when he beats a rich European in competition for some highly desired art treasure. Then Americans become mere men who triumph by brute strength of the longer purse, and worst than that, art consumers who raise art prices to unreasonable heights by their traditional desire to get what they want when they want it.
