

MILK TO BE TESTED FOR THE TYPHOID BACTERIA

Milk has come in for investigation by the health department of the city in connection with the typhoid epidemic. The water supplied to the city has been receiving a share of blame, but following the meeting of the board of health yesterday, samples of milk sold in the city were collected to be tested for typhoid bacteria.

JUDGE STARTS ON A WILD CAREER WITH A GUN

The call of the ducks was too much for Judge W. H. Reeder today, so he adjourned court to slaughter a few of the wild fowl. The unfortunate who have been arrested will be held until tomorrow morning.

George Capers, a cook, 45 years of age was arrested on a warrant charging disturbance of the peace last night by Patrolman John Russell. The complaint was signed by Phillip H. Ford. Bail to the amount of \$20 was fixed.

Special Officer William Reast arrested Harris Marriott for riding on the sidewalk with a bicycle last night. Bob Pain, arrested by Patrolman Jerry Kellher and Detective Robert Chambers is also behind the bars. The prisoner is charged with committing a nuisance.

REGISTRATION NOW HIGHER IN THE CITY SCHOOLS

Accurate comparison of the city school registrations of last season and this season will not be possible until the six weeks' report is made out, but from figures at present in the office of the board of education, the evidence is that the registration this year is much larger than in the

Notice the very smart lines of this suit; the only way to get such style, with good quality fine tailoring and a sure fit is to ask us for Hart Schaffner & Marx clothes; now ready. \$18 and upward See the \$25 values

WRIGHTS' CLOTHING STORE

This store is the home of Hart Schaffner & Marx clothes.

corresponding month last year. The average attendance at the Ogden high school last year was 462. According to the report made two weeks ago, the registration in the high school was 507 and since that report was made there have been added to the register 45 additional names, giving an increase over last year of nearly 100 students.

HOT SPRING TAPPED BY MYSTERIOUS PIPE LINE

Manager P. D. Kline of the Ogden Rapid Transit company states that the concrete conduit, conveying the water from the springs to the pools and other baths in the Hot Springs sanitarium, has been completed and that the water supply has been increased to a large flow. The pools are now supplied with water having a temperature about 129 degrees.

In the main spring, while workmen were cleaning it out for the new conduit, a subterranean flow was discovered running to the south of the sanitarium, the flow being larger than has been taken to the pools. The newly found stream was in a tile pipe which was apparently in a good state of preservation. Just who placed the pipe in the ground to tap the spring is perplexing the minds of the owners.

Aside from the free dances that will be given at the Hot Springs Thursday nights, Mr. Kline says there will be free band concerts from the balcony of the hotel. Ogden musicians will be employed hereafter. The plunges, both inside and out, are in better condition now than they have ever been and the supply of water is ample for all purposes.

TOMATO CROP WILL BE HARVESTED THIS WEEK

President Isaac Pierce of the Utah Canning company states that by the end of next week practically the entire tomato crop will be gathered and canned. He says that the crop has been unequalled years both in quality and quantity.

Next week Utah Canning company will take hold of the hominy making branch of its business, after which pork and beans will be put up. The company has just received a car load of Illinois yellow corn for hominy.

President Isaac Pierce of the Utah Canning company states that by the end of next week practically the entire tomato crop will be gathered and canned. He says that the crop has been unequalled years both in quality and quantity.

MOVING PICTURES TO BE FINISHED IN THIS CITY

A laboratory for the developing of motion picture film is being fitted up above the Isis theater and the 1000 feet of pictures taken of the recent Fashion Show will be developed there. Should the pictures prove good, it is the intention of the management to purchase a complete finishing outfit for motion picture film and a new industry will be started in Ogden.

Three wooden tanks, each four feet deep, four feet long, but only eight inches wide have been constructed. Into these tanks are frames upon which 240 feet of film can be wound. The tanks will be filled with 50 gallons of developing liquid and the frames with the film wound upon them will be lowered into the tanks to be developed exactly as an ordinary negative of a camera is developed. The wet film will be dried upon a four-foot windlass.

Science has found a way to deprive the onion of its odor, but the smell of wash day is likely to remain with us for some time.—Dorchester Democrat and Chronicle.

BRONCHO BILLY HAS GUN ONLY IN FILMS

One of the most famous actors in the movies is G. M. Anderson, better known as "Broncho Billy." In the films he is a "rootin', tootin', shootin' son-of-a-gun from Arizona," but in real life he is a perfect gentleman and doesn't carry a gun. He never really killed anybody. "Everywhere I go the kids know me," says Broncho Billy.

SOCIAL SEASON OF HIGH SCHOOL IS AT HAND

The social season will begin at the high school next Friday evening, when the first ball of the season will be given under the direction of the Classicum staff. Invitations have been sent to members of the Alumni association and friends of the school. Attractive decorations will prevail and good music has been secured.

FOOTBALL TEAM IS TO BE SELECTED AFTER FRIDAY

The football season will be formally opened in Ogden, Friday, when the husky squad from the high school will meet a selected team from the city school alumni association. Greenwood park will be the gridiron where the game will be held and the time will be about 3:30 p. m.

To the players now training under Coach "Lon" Romney, assisted by J. C. Glasscock of the science department, Friday's game means much because the coach will probably pick from the individual prowess displayed. Up to the present time he has made no selections. The boys have been working hard every evening and there are a number trying out for each position. In the game on Friday, Coach Romney will give every aspirant an opportunity to demonstrate his ability against the old stars of the O. H. S.

The various players now trying out for positions are the following: Ends—Fuller, Jennings, Glasmann, Hibbs, Kay and Parr. Halfbacks—Tackett, Sprague, Tribe and Adams. Fullbacks—Whitmore and Jones. Centers—L. Mattson and S. Mattson. Guards—Cooney, Lake, Price and Warner. Tackles—Hastings, Adams, Sunberg and Menges. Quarters—Farr, (captain) and Boyle.

NOMINATIONS SENT TO THE SENATE

Washington, Oct. 1.—The president sent to the senate today the following nominations: Chief of engineers, with rank of brigadier general, Colonel Dan C. Kingman, corps of engineers. Chief inspector of locomotive boilers, Interstate commerce commission, Frank McManamy of Oregon. Postmaster: Thomas J. Ball, Mitchell, S. D.

BORAX SMITH TO SELL HOLDINGS IN ARCTIC ICE

Syndicate of English Capitalists to Take Over His Entire Stock.

San Francisco, Oct. 1.—The Chronicle says today that negotiations virtually have been completed for the sale of F. M. Smith's entire holdings of borax stock to a syndicate of English capitalists headed by R. C. Baker, one of the directors of the Borax Consolidated company of London. As a result of the sale, it is claimed, Smith will be enabled to meet obligations resting upon his enforced withdrawal from the control of the United States Properties company and other financial enterprises.

NO DAMAGE FOR KICK OF HORSE

Denver, Colo., Oct. 1.—The contention that a country bred horse, taken to the city, naturally would shy and plunge at street cars and automobiles, was upheld by the United States court of appeals here today. The decision was in the case of John Nooney of St. Louis against the Pacific Express company for damages resulting from the kick of a horse owned by the defendant. The circuit reversed the instructed verdict for the defendant given by the United States district court for the eastern district of Missouri. The court rejects the old English common law that a horse cannot gain a reputation as a kicker until it has kicked once. Nooney stopped the first kick.

FOREIGNERS ARE TO BE PROTECTED

Washington, Oct. 1.—The state department was advised today that the commander of the Carranzistas at Piedras Negras had given assurances that foreigners and their property will be afforded every protection so long as he is in command. Other reports received at the state department indicated that the Carranzistas will not attempt to destroy the international bridges.

The report of consul Blocker confirms the officials in their original belief that there is no danger of an international clash at Piedras Negras, but that the only cause for apprehension lies in the presence of a large number of armed men, not only civilians, but fleeing constitutionalist soldiers in Eagle Pass, on the American side of the Rio Grande.

Consul Blocker reports that he had crossed the river with Major Colwell, commanding the United States troops at Eagle Pass, and two American citizens and had conferred with Gabriel Coleseada, commander of the constitutionalist garrison at Piedras Negras. Coleseada assured him that no attempt would be made by his troops even if they were obliged to surrender the two to the federals, to destroy private property, though the government buildings might be dynamited. He also guaranteed the safety of the two international bridges that span the river at Eagle Pass, and finally asserted that the most ample measures would be taken to protect the lives and persons of all the foreign residents at Piedras Negras.

CLOSING KANSAS APPEAL CASE

Anti-Trust Statute Subjected to Critical Analysis by Judge Philips.

Denver, Colo., Oct. 1.—The Kansas Natural Gas company case was taken under advisement by the United States circuit court of appeals shortly before noon today. The closing argument was made by former Federal Judge John F. Philips of Kansas City, representing the receivers appointed for the Kansas Natural Gas company by United States District Judge John C. Pollock. These receivers appealed from an order of United States District Judge John A. Marshall of Utah, requiring them to turn over the property of the company to receivers appointed by the district court of Montgomery county, Kansas.

In his argument, Judge Philips, subjected the Kansas anti-trust statute to a critical analysis, contending that it only prohibited monopoly brought about by the combination of "two or more persons." From this he reasoned that the monopoly alleged to have been secured by the Kansas Natural Gas company, being brought about by purchase, not by voluntary combination, was not illegal under the terms of the statute. Hence, according to the argument, the district court of Montgomery county could not legally appoint receivers.

SIX SCHOONERS IN ARCTIC ICE

Cutter Service Powerless to Render Assistance—Plenty of Provisions Abroad.

Washington, Oct. 1.—The United States revenue cutter service is powerless to render assistance to six schooners imprisoned in Arctic ice off Point Barrow, Alaska, because it is impossible for any vessel to make the trip at this season of the year. The Nome Chamber of Commerce, which appealed for assistance for the imprisoned schooners, will be so informed today by Capt. E. P. Berthoff, commandant of the revenue cutter service.

LIVELY FIGHT WITH MILITANTS

Secretary and Treasurer of Union Are Re-arrested at Their Headquarters.

London, Oct. 1.—A lively scrimmage between the police and the militant suffragettes occurred today when Miss Harriet Roberts Kerr and Mrs. Beatrice Saunders, secretary and treasurer of the Women's Social and Political Union, were re-arrested at their headquarters, under the provisions of the "cat and mouse" act.

Mrs. Saunders is under sentence of 15 months imprisonment and Miss Kerr twelve months for conspiracy. They were liberated in June after a "hunger strike." The two women had resumed their duties this morning for the first time since the raid on their offices last April. When the police arrived to arrest them, the office staff assaulted the policemen. Four of the young women clerks were arrested for interfering with the police. One policeman's coat was torn to shreds.

In discussing the report as printed, John S. Drum, president of the Savings Union Bank and Trust company and a member of the board of trustees handling the Smith fortune, said this morning: "There has been some talk with Mr. Baker, but he has not indicated what he intends to do, if anything. Whatever decision he makes finally, Mr. Smith's commanding position in the borax industry will remain unaffected."

TO CAUSE SURPLUS Washington, Oct. 1.—The new parcel post regulations are working so well in New York City that the mails are practically as heavy as during the usual Christmas season. A large number of parcels is being received for delivery in the first and second zones under the reduced postage rates. Advertising matter constitutes a large part of the increased weight of mails, but the bulk of it apparently relates to the parcel post or mail order business of department stores and merchants.

That the parcel post will more than pay its own way is beyond question, according to officials of the postoffice department. While Postmaster General Burleson will not predict a surplus for the fiscal year which ended June 30, other officials of the department insist that there is no possible doubt on that point. They go further and declare that a surplus of approximately \$10,000,000 is a certainty, due largely to the establishment of the parcel post.

Postmaster General Burleson takes the conservative position that he wants to show a surplus that cannot be explained away by any kind of figuring. He said he had in contemplation two further changes in the parcel post system that would make an annual surplus a certainty. The exact nature of these changes he would not indicate.

For a six months period between January 1 and June 30, 1912, the revenues from fourth class matter approximated \$14,000,000. For the fiscal year ended June 30, 1912, the receipts were approximately \$12,500,000 or nearly \$1,500,000 less than for the first six months of the parcel post system.

The railroads received no compensation for carrying parcel post matter between January 1 and June 30, but they were paid the usual compensation for carrying the regular weight of fourth class matter.

THE WORLD'S MARKET NEWS

WALL STREET New York, Oct. 1.—Although movements of stocks during the morning were uncertain, with several reactions after the opening rise, the market gradually grew steadier, on a level which showed general gains for the leaders. Large offerings of

Special Sale of Lace Curtains, Scrims, Voiles, Silks, Madras, Portieres, Couch Covers—Big savings just before the winter season.

37 1/2 Marquisette . . . 25c All Drapery Nets, both plain and fancy, at 1-3 less in price. 45c Voiles . . . . . 30c 35c Voiles . . . . . 25c 17 1/2c Dotted Swiss . . 10c Couch Covers reduced 1-4 to 1-2 in price. 75c Drapery Silk . . . 25c

BOYLE FURNITURE CO. Low Prices—Easy Terms.

steel made less impression on the market than yesterday, and the belief that the shorts were in danger of over extending their holdings, caused more confident buying. Steel was forced under yesterday's low point but subsequently moved up with the other leaders. London bought stocks here, showing a preference for Union Pacific and Steel. The strong showing made in the fortnightly copper report from Europe helped copper stocks. Passing of the quarterly settlement period without serious difficulty abroad and the easier tendency of money rates here was a decided help to sentiment.

In spite of the improvement in tone, however, buying was not aggressive and trading grew dull as the noon hour approached. Bonds were irregular. Chicago Market. Chicago, Oct. 1.—Wheat declined today, affected by Liverpool reports of increased offers of Russian and Canadian cargoes at lower prices. There were also favorable crop advices from Argentine. Official figures put the Russian export surplus 46,000,000 bushels higher than last year. The opening was 1-4 to 1-2c lower with a subsequent additional decline.

Clear weather made the corn market weak. The fact that receipts here were larger than expected counted also against the bulls. At the outset prices were unchanged to 7-8c lower. A further sag ensued. Oats, like other grain, lacked support. The market declined from the start and seemed to have no power to rally. Support from packers held provisions barely steady. Weakness at the yards from the chief interest tending to ease the market. The heavy spring wheat crop movement with promise of larger receipts southwest emphasized bearish feeling but the market later reacted to a material extent. The close was steady at 3-8c lower.

Unlimited offers of cheap Argentine corn at New York kept prices depressed until the last hour when the market turned upward with wheat. Cash. Wheat—No. 2 red, 93 1-4@94c; No. 3 red, 90@92c; No. 2 hard, 85 3-4@86 1-4c; No. 2 hard, 85 1-4@84c; No. 2 northern, 86@87c; No. 3 northern, 85c; No. 2 spring, 86 1-2@85 1-4c; durum, 81@86c. Corn—No. 2, 71@72c; No. 2 white, 72 1-4c; No. 3, 70@71 1-8c; No. 3 white, 71 1-4@72c; No. 2 yellow, 71 1-2@71 1-4@71-1-2c; No. 3 yellow, 71 1-2@3-4c. Oats—No. 2 white, 42c; No. 2, 41c; No. 3 white, 40 1-2@41 1-2c; standard, 41 1-2@42c. Close was steady at 3-8 to 7-8c net decline.
