EMMA LUCY GATES IS IN NEW YORK

Emma Lucy Gates, Utah's prima donna, accompanied by her mother, Mrs. Susa Young Gates, arrived in New York yesterday on the Aquitania, the greatest of the Cunard line and the greatest ship flying the English flag, which docked at 9:30 o'clock after completing her maiden voyage without mishap.

Other residents of Salt Lake who arrived on the Aquitania's maiden voyage are Mr. and Mrs. H. G. Whitney and daughter, who have toured England and Germany.

Emma Lucy Gates, who is connected with the Royal Opera company at Cassel, Germany, has been engaged to sing at ten concerts in western cities. She will return to Cassel to fill an engagement for two years with the Royal Opera company.

REHEARSAL OF CHOIR FOR BIG EVENT ON JUNE 10

The St. Joseph's church choir held an excellent rehearsal last night for the recital to be given in connection with the formal opening of the splendid Kimball pipe organ which has just been installed in the choir loft of the church. The rehearsal was directed by Mrs. Maurice Kennedy and the big organ was pressed into service, with Sam F. Whitaker, organist of the Ogden tabernacle, at the console.

Mr. Whitaker has been assisting Mr. Edwards of the Kimball company to install the organ and will spend several hours a day, during the next three days, in tuning its many pipes, so that their beautiful tones will be unmarred on the day of the recital.

Miss May Conroy who has, in connection with Mrs. Kennedy, arranged the program, announced last night that Mr. Whitaker would contribute several solo numbers to both the afternoon and evening programs and would also act as accompanist for the choir. The local organist's work at the Ogden tabernacle and at the American theater has caused much favorable comment among the music lovers of the two cities and his appearance as a soloist, in connection with that of Allen W. Bogen, the Chicago organist, the committee believes will add much to the merit of the program.

The revised program, with Mr. Whitaker's numbers inserted, is as follows:

SALT LAKE'S FIGHT ON U. P. BRINGS A PROTEST

Salt Lake, June 6.—The action of the Salt Lake Commercial club traffic bureau in addressing a communication to Governor William Spry requesting that the state take action to prevent the distribution of \$80,000,000 surplus among the holders of the common stock of the Union Pacific railroad has resulted in a telegram of protest being sent to President W. F. Jensen of the Salt Lake Commercial club by E. E. Calvin, vice president and general manager of the Oregon Short Line railroad, and D. C. Jackling.

The telegram protests against the action of the traffic bureau and makes inquiry as to whether or not the traffic bureau represents the club. Mr. Jensen received the wire at Twin Falls, Idaho, where he was with the Salt Lake hoosters who are on a big trade excursion. He immediately wired that the Commercial club was in no way connected with the traffic bureau. Mr. Jackling, it was understood here yesterday, had resigned from the Commercial club.

The letter sent to President Jensen reads: "You have undoubtedly seen in the public press of June 3 and 4 articles concerning an attack made by the traffic bureau of the Salt Lake Commercial club and purporting to represent the sentiments of that club upon one of the principal transportation industries of this state. We are advised unofficially that this action did not have the approval of the board of governors of the Commercial club and it was taken in the name of the club and is generally accepted by the public at large as the action of the club. This action has aroused vigorous resentment here and elsewhere on the part of those representing large industries and substantial property interests in this state. We would thank you to say in reply whether or not the action of the traffic bureau represents the disposition of yourselves and the Commercial club of Salt Lake City and whether or not you and the club indorse such action. (Signed) S. E. CALVIN and D. C. JACKLING."

To this message President Jensen replied: "The Salt Lake Commercial club is in no way connected with the traffic bureau. Said institution is financed and governed entirely separate and apart from the club."

"I am impressed with the fact that the Oregon Short Line is spending money for the building of new railroads in Idaho and should have our hearty endorsement. (Signed) W. F. JENSEN, President."

SLAUGHTER HOUSES FOUND INSANITARY

Salt Lake, June 6.—In the interests of sanitation and public health the county health authorities have closed down several slaughter houses in the county outside the city. They will be kept closed until the premises have been cleaned up and the regulations governing such places rigidly observed.

In a tour of inspection about the county yesterday Dr. C. C. Snyder, county physician, and Joseph Weller, sanitary inspector, found deplorable conditions in some parts of the county with reference to the slaughtering of meat animals. Photographs were taken of several abattoirs and will be used as evidence in case it becomes necessary to prosecute the owners of the offending establishments.

One slaughter house west of Midvale was found to be operating under particularly flammant conditions. The slaughtering pen was a mere shack, without drainage and without water for the washing of the meat. No efforts were being made to dispose of the refuse in sanitary manner and in consequence the entire neighborhood was found to be a vast breeding place for flies and disease.

It is announced that an ordinance specifically pertaining to slaughter

Kosciusko—"The Greatest of the Poles"

NEVER in the history of mankind has there lived a more ardent lover of Personal and National Liberty. He fought with intrepid valor under our own Washington for American Liberty. He devoted his life to regain the ancient freedom of his beloved Poland. Kosciusko hated any legislative attempt which invaded the Natural Rights of Man. If he were alive to-day, every son of Poland knows that he would revolt at any LAW which declared: "Thou shalt NOT eat this—thou shalt NOT drink that." Kosciusko knew that the light wines of his native land and the barley brews of Germany were good for mankind when used in moderation. He drank them himself to the end of his honored days, and who will DARE say that they in any way injured this mighty personality. For 57 years Anheuser-Busch have honestly brewed honest beers. Their great brand—BUDWEISER—is sold throughout the world and has helped the cause of true Temperance. Seven thousand, five hundred men are daily required to keep pace with the natural demand of Americans for BUDWEISER. Its sales exceed any other beer by millions of bottles. houses in the county is being drawn by the county attorney at the instigation of the health authorities. This will force all slaughter houses to take out permits from the county and to subscribe to regulations named by the county authorities.

Not only will a number of disease and fly-breeding places be eliminated, but cleaner and better meat will be turned out from the abattoirs under the new measure.

WALKER WITHDRAWS FROM KEITH-O'BRIEN'S. Salt Lake, June 6.—H. W. Walker, for nearly eleven years associated with the Keith-O'Brien company, yesterday withdrew from active executive connection with that large institution.

Mr. Walker's resignation from the presidency and the board of directors in no way affects his large interest in the Keith-O'Brien company. He merely withdraws from active direction of the business. Mr. Walker's holdings in the institution will be represented by his brother-in-law, A. C. Ellis, of the law firm of Dickson, Ellis & Schuler. At a recent executive meeting Mr. Ellis was elected a member of the board of directors.

Henry N. Byrne will be the active head of the Keith-O'Brien company, having assumed his duties yesterday as managing director. Mr. Byrne will fit into his new work naturally, as he comes from a family long identified in the middle west with the dry goods business.

LARGE PHOSPHATE BED DISCOVERED NEAR LOGAN. Cache valley mining men are considerably elated over a recent discovery of a large body of commercial phosphate in the hills a few miles east of Logan. It extends from Green canyon three miles east of Hyde Park south for about a dozen miles to Blacksmith Fork canyon. George Gardner, an instructor in the English department of the Brigham Young college of Logan, was in Salt Lake yesterday. When asked relative to the reported find he said that it was made about six months ago by the Daines brothers of Logan, L. J. Daines, instructor of botany at the B. Y. C., and Frank Daines, instructor of history at the Agricultural college. They and their friends have located a number of claims.

It is said that Prof. William Peterson of the Agricultural college has reported the find to the United States geological survey at Washington, and the expectation is that the ground containing the deposit may be withdrawn at once from entry. In the meantime locations are being made.

As near as Mr. Gardner could learn the phosphate belt outcrops from Green canyon south for about three miles. The width is about 30 feet. It then apparently dips under Logan canyon and outcrops again in Blacksmith Fork canyon about eight miles further south. The strike is north-south with a 45-degree pitch easterly into the hills. It is said that average samples have assayed up to 70 per

cent tricalcium phosphate, or about 12 per cent phosphoric acid. A rock which carries 50 to 60 per cent phosphate is considered an excellent quality for commercial fertilizing purposes. Lying alongside of the vein of phosphate is a layer of talcy clay. In fact the deposit itself is much softer than the surrounding limestone through which it outcrops. It may be easily worked by tunnel or shaft.

Over the hills north and east near Montpelier is a large deposit probably a parallel vein with the Cache valley bed of phosphate. In that vicinity deposits of this fertilizing substance have been a paying commercial proposition for some time. It is the expectation that the new deposit may be worked up to a paying proposition.

ELDREDGE TO LECTURE. Provo, June 5.—Ben R. Eldredge will lecture in the Commercial club rooms Tuesday night on "Dairy Stock Food." A musical program will be rendered by Professor J. H. Boshard's music students, under his direction.
