

GOOD RETURNS ON MY INVESTMENT

Madison, Wis., Jan. 1, 1913.

This is to certify that I have been a great sufferer from Rheumatism since 1894. Contracted the disease while working with a snow plow on the railroad. For several years I have been obliged to use crutches a great part of the time. Having used three boxes of the

Meritol

RHEUMATISM POWDERS

I have thrown away the crutches and am now almost fully recovered. It certainly has done wonders for me and I heartily recommend it.

Signed, M. D. Reynolds.

MAGNET'S USED IN CARMAN CASE

Freeport, N. Y., July 10.—The whole aspect of the astounding mystery in which the murder of Mrs. Lulu Bailey is still cloaked was changed today when it was discovered that the detectives hired by District Attorney Lewis Smith had caused the examination of Mrs. Florence Carman before Justice of the Peace Norton to be postponed from next Monday until July 21. It was the cause of a new and startling theory advanced by his detectives that the district attorney moved that the hearing be postponed.

Counsel for Mrs. Carman made serious objection to the postponement, but agreed when assured that the grand jury would not take up the case of the accused woman until after her examination before the justice.

The new theory—the theory on which the state depends to bring Mrs. Carman to trial—involves another woman. The detectives are not telling the name of the second woman, but they have come to the conclusion that if Mrs. Carman killed Mrs. Bailey she did not shoot through the window; that she fired the shot while standing in the door leading from the pantry into the office of her husband—Dr. Edwin Carman—and that the window was broken by a woman who was Mrs. Carman's accomplice.

No Shot Through Window.

This new theory has so convinced the authorities that they have virtually abandoned the idea that the shot was fired through the window. They are working on the theory that Mrs. Carman was accumulating through the wires of the dictograph evidence on which she might secure a divorce from Dr. Carman. The officials declare that Mrs. Carman was dominated absolutely by the woman upon whom they look as her accomplice or close friend. All this on the supposition that Mrs. Carman is guilty. The detectives declare that if Mrs. Carman is not the woman who fired the fatal shot, the other woman they are watching is the murderer.

The new plan of activity adopted by the detectives includes a series of absolute facts which cannot well be controverted, inasmuch as the most reliable witnesses produced at the inquest supplied them.

To begin with the detectives argue it would be an impossibility for any woman or man to have broken the window, thrust in a hand, pulled aside the curtain and fired the fatal shot without having alarmed either

\$100 Reward, \$100

The readers of this paper will be pleased to learn that there is one dread disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CHENEY & CO., Toledo, O. Sold by all Druggists. 75c.

Take Hall's Family Pills for constipation.

Dr. Carman or Mrs. Bailey so that they would have dodged out of range.

Suspect an Accomplice.

Therefore they figure that the hand—the woman, to be exact—who broke that window did not fire the shot. The new theory is that Mrs. Bailey was sitting on the couch and that Dr. Carman was nearby or that Carman was seated and that Mrs. Bailey was near him. Whatever they talked about was transmitted over the dictograph wires to the madly jealous woman upstairs.

The detectives believe that Celia Coleman, the negro cook, saw someone come into the kitchen and enter the pantry, from which there is a door leading to the doctor's office. That person, they declare, held a revolver, and Celia, with all the fear of her race for anything of a sanguinary nature, fled. Then the window was broken. Just who broke that window, broke it with the sole purpose of attracting the attention of Dr. Carman and Mrs. Bailey to that spot. Thus attracted, the backs of both Mrs. Bailey and Dr. Carman were toward the pantry door.

Detectives Use Magnet.

The person at the window saw Mrs. Bailey and Dr. Carman near or at the couch. When the pane was broken the two fled. They naturally fled toward the operating chair which was of range of vision from the window. Someone opened the pantry door on the east side of the room. Then while Mrs. Bailey and Dr. Carman were watching the window, or while Dr. Carman was urging Mrs. Bailey to hasten out of the office and into the waiting room, the person in the pantry door fired—directly and without obstacle—toward the frightened pair. Whether the shot was intended for Dr. Carman or for Mrs. Bailey is not determined—maybe never will be—but the police declare that if Mrs. Carman did fire that shot, she fired it from inside of the house from the pantry door and not through the window.

But the detectives declare that the dictograph was purchased for no other reason than to glean evidence to be used in a divorce trial.

The district attorney was informed here tonight that during Dr. Carman's absence from home today detectives discovered which Mrs. Carman installed in the house that she might overhear conversations between her husband and his patients.

PIONEER ENGINEER IS CALLED BY DEATH

Salt Lake, July 11.—George C. Woodruff, 60 years old, died at his home, 634 South Third West street, yesterday morning. Mr. Woodruff has lived in Utah for the past thirty years, the greater part of the time being employed as a locomotive engineer.

During the summer of 1895, when The Tribune was running a "special" to Ogden each morning during the carnival week, Mr. Woodruff was employed as fireman for the Oregon Short Line and with G. A. McLean as engineer, the run was made one morning in 42 minutes.

Mr. Woodruff was a native of Plover, Mich., and came to Utah in 1887, entering the employ of the Union Pacific Railway company. In 1889 he married Miss Anna Brown of this city, and is survived by her and one son, Fred H. Woodruff. For twenty-five years he was a member of the

Brotherhood of Locomotive Engineers and Firemen.

REV. WHITE LOSES.

New York, July 10.—Supreme Court Justice Weeks today denied a motion for a certificate of reasonable doubt for the Rev. Bouck White, Socialist writer, and Harvard graduate, who was sentenced to serve six months in the penitentiary for creating a disturbance at the Calvary Baptist church. The Rockefeller attend the church and White went there to discuss the Colorado strike with the pastor.

BREACH OF PROMISE.

St. Paul, Minn., July 10.—William Rufus Edwards, the millionaire lumberman of this city, by decision of the supreme court today must pay Ada M. Cox \$17,425 for breach of promise to marry.

The case has been before the court for two years. Edwards is under indictment in the federal court at Chicago on a charge of violation of the Mann white slave act in transporting Miss Cox from Illinois into Minnesota.

STATE OUTING

Knights of Columbus

State outing at Lagoon Thursday, July 16. Field events, dancing, contests, baseball game. Watch for later announcements.—(Advertisement).

CLOSING OF ORACLE THEATER ANNOUNCED

Local Manager Skinner of the Alhambra Theatrical company announced last night that the Oracle theater would be permanently closed on Sunday, July 12. This move will be made by the company owing to the fact that its five-year lease on the building will expire on August 1, and will be the first of a number of changes to be made by the company in connection with the building and opening of their new theater on Hudson avenue.

With the closing of the Oracle, the programs at the Isis and Globe will be changed three times a week and the Isis will be open from 12 o'clock noon until 11 p. m. The Globe will observe these hours every Saturday, but on other days, the hours will be from 2:15 until 5 p. m. and from 7:15 to 11 p. m. The Isis orchestra will also be enlarged through the change.

RASPBERRY CROP BEING GATHERED

Pleasant Grove, July 10.—This week witnessed the height of the raspberry season here, probably the greatest raspberry week in the state. Next week the rush will begin to subside. Every available boy and girl for miles around has been pressed into service, and in many instances the good housewife has spent the week among the cans to save the crop from going to waste.

The berries are being leaving this city at the rate of from two to three carloads a day, some in carload lots, some by express, some by parcel post, and many by peddlers in wagon load lots. The principal part are going over the Salt Lake route but several cars were hauled to American Fork and shipped over the Denver & Rio Grande.

COAL RATE HEARING NOW ON IN BOISE

Boise, Idaho, July 10.—The probe in the freight rate charges made by the Union Pacific and Oregon Short Line for coal hauled from the Wyoming mines to southern, eastern and western Idaho points, was continued before Examiner Pugh of the interstate commerce commission here today. The public utilities commission of

UTAH ELKS' SPECIAL LEAVES FOR DENVER

Price, July 10.—The Utah Elks special train for Denver left over the Denver & Rio Grande railway yesterday afternoon on schedule time, with Parley P. Christensen chairman of the committee, in charge of over 150 Elks from Ogden, Park City and Salt Lake. It was the finest train that ever left the Salt Lake terminal and consisted of all steel Pullmans, a buffet, library car, diner, observation and a tango car fully equipped for dancing. Banners in the Elks colors of purple and white covered the cars and a siren whistle was installed in the club car, which pierced the air with its shrill blasts. At Provo the train was met by the Eureka and Provo lodges, and here the famous Provo band came aboard to accompany the Elks on the entire trip.

THROWN FROM HORSE AND FATALLY HURT

Salt Lake, July 11.—Clarence H. Nielson, 9 years of age son of Mr. and Mrs. Joseph S. Nielson of Hunter, Utah, was fatally injured yesterday morning when thrown from a horse and dragged for a quarter of a mile. He died yesterday afternoon in the county hospital. The boy and a playmate were on the horse together. The animal became unmanageable after it had balked when Clarence tried to guide it into a lane. Both boys were thrown. The one fell clear, but Clarence was caught by a coil of the halter rope and dragged to his death.

WILL URGE REPEAL

H. W. Deighton of Park City district deputy of the grand exalted ruler, is one of the prominent Elks aboard the train. In making his official report to the grand lodge he will urge a repeal of the present law restricting the installation of lodges to cities of 10,000 population. This was formerly limited to cities of 5000 but at Rochester a year ago the law was changed to its present form and it is said this has limited the growth of the order in the west.

Mr. Deighton also demanded the adoption of the Salt Lake resolution concerning reference to the national anthem. This was first suggested by Governor Spry at the flag day exercises of the Salt Lake lodge in June, and it is probable that the grand lodge of Elks will adopt a resolution deprecating the playing of the "Star Spangled Banner" in public places in medleys with ragtime music.

WELL-KNOWN SHOSHONE WOMAN DEAD

Pocatello, Idaho, July 10.—Word was received here last evening by friends of the death by heart failure of Mrs. Minnie Campbell of Shoshone. Mrs. Campbell formerly had charge of the W. C. Ferguson hotel on North Main street and had many friends in this city. She was only 23 years of age and was married last December. Her husband is in business in Shoshone.

DECISION AGAINST CHRISTIAN SCIENCE

New York, July 10.—Commercialized use of Christian Science teaching was held by the appellate division of the supreme court today to be illegal.

The conviction by a lower court of Willis Vernon Cole for practicing medicine without a license when he accepted fees for Christian Science treatment was sustained. The higher court, in its opinion, answered in the negative its premise: "Is the commercialized use of a prayer for the avowed purpose of treating all persons seeking cure for all kinds of bodily ills the practice of the religious tenets of a church?"

Cole, formerly a sculptor and a poet, testified at his trial that his practice brought him an annual income of \$6000; that he had never studied medicine; that he never solicited fees, but accepted those offered him.

Clifford P. Smith of the committee on publication of the Christian Science church issued a statement later declaring that the practice of Christian Science differed from the practice of medicine and that it could not "be made a part of the practice of medicine."

It was announced that in all probability the case will be appealed. The appeal probably will be based upon a dissenting opinion rendered by Justice Dowling, saying that if Cole indulged simply in silent prayer with his patients there was nothing unlawful in the act, as by so doing Cole might honestly believe he was "assisting the cure of the alleged maladies by placing his patients in the proper spiritual attitude" toward their maker.

SMITH IS FAVORITE OVER FRENCH BOXER

London, July 10.—"Gunboat" Smith of America, and Georges Carpentier of France, although both little known in England, are expected to draw a \$70,000 house when they meet in the ring at the Olympia here next Thursday night. The men are to clash in battle for the white heavy-weight championship title and a \$25,000 purse, and Smith is the favorite in the betting. The advance sale now exceeds \$45,000, against a total of \$21,000 for Welsh and Ritchie.

Smith now weighs 181 pounds and will most likely enter the ring a pound or two heavier. The critics here are enthusiastic over the American's condition. Smith has had plenty of sparring partners, but most of them have quit after their first session. Most of the training work has fallen to the lot of the negro, Bob Armstrong, who keeps Smith busy for several rounds each day.

Without boasting, Smith is confident of a victory over the Frenchman, whose triumph over Bombardier Wells has made him quite unpopular here. Smith is now taking things easy, certain that he is in the best of condition and will so continue until the battle.

UTAH BILL PASSED.

Washington, July 10.—The senate has passed the bill granting to the state of Utah sixty-eight acres of land within the Fish Lake national forest for use as a fish hatchery.

BOISE FIRE CAUSES LOSS OF \$75,000

Boise, Idaho, July 10.—Fire tonight destroyed the building and stock of Mitchell, Lewis & Staver, wholesale and retail farm implement dealers, a branch of a Portland firm by that name. The origin of the fire is unknown. The loss on the stock is estimated at \$50,000. The building was valued at \$25,000. Both were well covered by insurance. The building occupied by the Carlson Lusk Plumbing company was also badly damaged.

HOLD FAMILY REUNION.

Provo, July 10.—About 150 members of the Williams family gathered at Geneva yesterday in a family reunion. An interesting program of speeches, reminiscences, music, songs and readings was rendered. Boating, bathing and other sports were

this state filed the complaint with the interstate commission.

J. W. Jones of the immigration commissioners' department testified to the rapid development of southern Idaho, the field occupied by the Short Line. President John Blomquist of the commission testified to the general grade condition of the Short Line in that territory. Traffic Manager Reeves of the Short Line testified as to the method of establishing rates.

Comparisons were presented to the examiner to show that rates charged by common carriers in southern Idaho for coal from the Wyoming mines is from two to almost four times as much as the rates charged for the same length of haul to points in other states, or two and one-half times greater than the rate for the same distance that of Montana, more than twice that charged Oregon and nearly four times greater than the rates of northern Idaho consumers.

Traffic Manager Reeves explained that beginning with Kemmerer the road had made rates leading up to \$3.50 a ton, which was fixed by the interstate commerce commission in the decision of 1910, and that coming west the maximum is reached at the first station west of Shoshone and all stations are charged that rate from there on.

PAINFULLY BURNED.

Price, July 10.—F. E. Dole, proprietor of the Price steam laundry, formerly a resident of Salt Lake, was severely but not dangerously, burned last night when furnishings of his apartment caught fire from gasoline explosion. Mrs. Dole and daughter escaped without injury.

Mrs. L. Lowenstein, formerly of Salt Lake, who was burned in a similar manner Tuesday, is recovering.

ITALIANS BOUND OVER.

Pocatello, July 10.—Preliminary hearing at Soda Springs today in the case of Manuel Moroni and Frank Cuneo, charged with the murder of Dominick Sparano, resulted today in the two accused men being ordered held for trial before the district court. Cuneo is said to have admitted knowledge of the crime and to have attempted to fix it upon Moroni. Sparano is believed to have been murdered for his money. The body of the Italian was found partially buried near a section house, discovery being made because of the odor of decomposition.
