MOTION PICTURES FOR THE SCHOOLS

By building a motion picture booth on the exterior of the building and projecting through the window, the extra charge for insurance on school buildings where it is desired to use motion pictures as a means of education, can be avoided, according to a letter received by Manager H. E. Skinner of the Alhambra theatre, from the Board of Fire Underwriters of the Pacific. The letter was in reply to an inquiry made by Mr. Skinner "As at present a number of local club women, wherein he suggested the exterior booth."

The letter follows: "Salt Lake City, April 22, 1916. "H. E. Skinner, Ogden, Utah. "Dear Sir: Answering your favor of the 14th inst. with reference to the operation of a moving picture machine in the Lewis school, which is located in your city."

"As at present arranged a charge will be required for the operation of the picture machine. Your suggestion that the booth be erected outside the building has already received our consideration and we advised the clerk of the school board that no charge will be made under those conditions providing the openings into the school room from the booth are protected by a standard automatic fire shutter constructed in accordance with the specifications outlined in the enclosed pamphlet."

CARS WITHOUT STATE NUMBER BRING \$5 FINES

That the state and city laws on the operation of motor vehicles are to be rigidly enforced was evidenced this morning in the municipal court, when \$5 fines were assessed against the George A. Lowe company, the Consumers' Wholesale Grocery company and the Matson Grocery company, the defendant companies being held liable for the operation of cars by their employees.

The drivers of the three auto-trucks were arrested by Patrolman Walter Moore, with others whose cases will be brought up in the municipal court later. The Consumers grocery truck was being operated with a number belonging to another party, the George A. Lowe vehicle was minus both numbers and the Matson car had only one number on it. H. E. Marrott was fined \$1 for operating a motorcycle without a number.

According to the police, the delay in securing license numbers from the office of the secretary of state is due largely to the incorrect filling out of the application blanks, especially with regard to motor numbers.

FIGHTING NOW ON IN EGYPT

London, April 24, 5:26 p. m.—Fighting has been resumed in Egypt, where several British successes have been reported recently. An official statement says two engagements occurred Saturday in the Quatta district. The British repulsed one attack at Duedlar, but a small force holding the village of Quatta was compelled to withdraw after a sharp fight.

The official report says: "Quatta village, which was held by a small force of yeomanry, was attacked simultaneously with Duedlar by a hostile column 3,000 strong with three field guns. After a severe engagement our troops withdrew from the village."

A somewhat cancelled clergyman, who was more celebrated for the length of his sermons than for their eloquence, once asked the late Father Healy what he thought of the one just preached. "Well, sir," replied the humorist, "I liked one passage exceedingly well."

"Indeed, Father Healy, and pardon me for asking which passage you refer to?"

"Well, my dear sir," replied the wit "the passage I refer to was that from the pulpit to the vestry room."

"It's constant wonder to me," said the student of human nature, "to see how quickly the minds of some men act. There are people who can decide in an instant what it would take other a long time to consider. I met a man the other evening who is that way."

"Was he a lawyer?"

"I don't know, but he had an intellectual grasp that was astounding. I met him in the hall just as he was reaching for an umbrella. 'Is that your umbrella?' he inquired. 'No,' replied I. 'In that case,' he answered, 'it's mine.'"
