Wheat singled in the second and Mowrey sacrificed. Cuthaw beat out a bunt and when he stole second, Burns threw wild to catch Wheat napping off third, the latter scoring. Olson sent Cuthaw home with a double.

The fielding on both sides was spectacular, both Niehoff and Olson making brilliant plays. Wheat caught nine flies in left field. Score: Philadelphia000 000 000—0

HANS WAGNER MAKING GOOD HIS BOAST, HITS
Chicago, May 8.—Chicago and Pittsburg divided a double-header today.

In the first Williams' home run in the eighth inning brought McConnell the honors over Cooper of Pittsburg in a pitchers' battle, but in the second, in which errors and bases on balls were numerous, the Pirates, led by Wagner, drove two Cub twirlers from the slab and helped Mamanux to a 6 to 4 victory, despite his wildness.

MAY BE NO MORE SUNDAY GAMES

Apprehension Among Portland Baseball Magnates Over Proposed Sunday Closing Law.

Portland, Ore., May 8.—Considerable apprehension exists among local and out-of-town baseball magnates over the proposed Sunday closing law and they see in its passage not only the end of baseball in the smaller cities of the state, but the doom of Pacific Coast league baseball in Portland. If the law passes, they assert, no games can be played on Sunday in the state were an admission fee is charged. This will prevent the bringing in of outside teams and as a result the national pastime will get a setback, they contend, as in the smaller towns it is impossible to find time to play during the summer except on Sunday.

Those who are arguing for what they term the existence of baseball also assert that it will mean the end of all recreations and amusements for which a fee is charged.

Judge W. W. McCredie of the Portland baseball club said today: "It seems to me that the proposed law is intended to do away with Sunday amusements, pleasures and recreations. It takes away all the little comforts the public enjoys. If the law was intended for the benefit of humanity, and it was necessary for the good of humanity that everyone should rest one day in seven, everyone should have the option of selecting his day of rest.

"The moment they designate Sunday as the day of rest, then it becomes religious legislation and not otherwise, notwithstanding the construction put upon the law as to police regulation. "I have always been opposed to Sunday forenoon ball for the reason that no obstacle should be placed in the inclination of anyone to attend church, but that doesn't mean that a man should be prevented from taking the healthy recreation that his very creation demands. It will be noticed that the strongest church devote their attention to the salvation of souls and not to the enactment of religious blue laws.

"This proposed law shuts out baseball over the entire state, as well as all other pleasure resorts where there are any charges. Every lover of baseball should vote against this law. If the advocates of the law do not intend to stop baseball they should exempt it from the bill, just as they should exempt every other phase of business that is incidental to the health, recreation and comfort of the public.

Elliott's Men Sure of Taking Games From Salt Lakers in Series This Week.

San Francisco opens at Portland. Vernon and Los Angeles clash.
Salt Lake, May 9.—Now comes the final series of games on the road for the Utes for a while. Starting today the Braves will be industriously engaged in climbing the Oaks. At the same time the San Francisco champs will try to outguess the weather man at Portland by slipping in a couple of games, while the home town twins will disport at Los Angeles.

Responding to a wire last night Manager Howard (Rowdy) Elliott of the Oaks answered promptly in this characteristic manner: "Sure we will take the series from the Utes. We want to and we're going to.

"Will work Prough in the first game, and he looks right. Will be no changes in batting order or line-up of regular defense."

Information from another reliable source is that Rowdy yesterday released Pitcher Chabek, and that he expects to add two new hurriers before the week is over.

GOTHAM COMMISSION DETERMINED TO STOP ONE-SIDED CONTESTS.
Albany, N. Y., May 8.—Action taken today by the state athletic commission in providing for "examination of fighters other than the regular physical examination" means, according to Commissioner John Franey that an "end is to be put to the one-sided battles which have been injuring the game in New York City, especially between heavyweights."

"It is about time something was done to end sending back-numbers into the ring as punching bags for clever boxers," the commissioner said.

SALTAIR LINE IS TO BE ELECTRIFIED

Salt Lake, May 9.—H. A. Strauss consulting engineer, Harris Trust building, Chicago, is the engineer who has been retained by the Salt Lake & Los Angeles railroad company to undertake the designing of the complete electrification of the Saltair line and the extension of this line to Garfield.

This was the statement made by General Manager Joseph Nelson of the Saltair Beach company yesterday in response to an inquiry.

The bonds providing for the electrification of the Saltair line and the extension to Garfield have been underwritten by C. F. Childs & Co. of Chicago.

The Saltair line will be the second steam line in Utah to be electrified under the direction of Mr. Strauss, the first having been the Salt Lake & Ogden railway.

It is understood that plans are go-

ing ahead looking to an early inauguration of active construction work on the main line and the Garfield extension.

The electrification of the main line will not be completed, however, in time to handle this season's business, as the major portion of the work necessary to the electrification of the road will be done at the close of the coming summer season.
