

Practical Economy

Baking powders made from alum or phosphate may be bought for a trifle less than Royal Baking Powder, which is made from cream of tartar, derived from grapes.

Alum powders are not only cheap, but they differ greatly in leavening power.

If a cheap baking powder is used for a fine cake and the cake turns out a failure there is a waste of costly materials worth more than a whole can of the cheap baking powder.

Royal Baking Powder produces the finest food, and its use therefore, results in an actual saving.

MIDWEST SULPHUR TO BE PROMOTED

It is predicted that investors in Ogden will soon be seeking information about the sources, uses and prices of flour sulphur. J. A. Hogle & Company have taken the initial step toward making this a central trading point for sulphur securities by securing the marketing here of 100,000 shares of the Midwest Sulphur Co. of Cody, Wyoming. The stock will soon be listed on the local exchange.

is putting out its treasury stock to increase its equipment. This is very simple, consisting of boilers in which the sulphur mined from the side of a quarry is heated under steam pressure and drained off securing a product 99 per cent pure and suitable for bleaching paper, cloth, sugar and for other manufacturing purposes as well as for the general drug trade.

The supply at the Midwest is said to be almost inexhaustible. Nine year's supply is proven and the greater part of the deposit lies back in the hill.

Mr. Hogle states that the subscription stock will be sold at its par value of 20 cents a share. It is expected to earn a handsome return on a much higher valuation. The total capitalization of the company is 300,000 shares of which 25,000 shares will remain in the treasury.

FROSTS RUIN CROPS.

Durango, Colo., May 17.—Killing frosts of the past three nights have ruined the fruit crop this year in the San Juan basin of Southwestern Colorado, according to reports here. Reports of damage to early varieties of fruit also come from Montezuma valley, and from Farmington and Aztec, New Mexico.

TAFT TO PRESIDE AT CONFERENCE

Lake Mohonk International Arbitration Advocates Open Twenty-second Annual Meeting.

Mohonk Lake, N. Y., May 17.—The Lake Mohonk conference in international arbitration opened today with a discussion of possible international courts and the theory of conciliation and arbitration. This was outlined by Daniel Smiley, who with his brother, the late Alfred Smiley, founded the conference and had entertained its members here for twenty-two successive years.

James Brown Scott, secretary of the Carnegie Endowment for International Peace, presided pending the arrival of William H. Taft who will be the permanent presiding officer.

Edwin M. Borchard, law librarian of congress, advocated formation of an international court to settle pecuniary claims between the citizens of different countries. The present system of adjusting these disputes, he said, was a prolific source of international friction, since it depended upon politics and the physical strength of the nations involved.

Other speakers were Dr. Lyman Abbott of New York and John C. Rose, United States district judge of Maryland.

The \$100 prize offered by Chester Dewitt Pugsley, a New York lawyer, for the best essay written by an undergraduate male college student upon international arbitration was presented today to George R. Fairbank, Jr., an Annapolis naval academy second-year man.

DAY IN CONGRESS

Washington, May 17.—Day in congress. Senate—Took up army reorganization conference report. Senator Owen's corrupt practices bill was favorably reported from the elections committee.

Rivers and harbors appropriation bill debated.
House—Flood control bill under consideration.

BANDITS RAID STOCK RANCH

Three Mexicans Take Away Stock and Saddles Belonging to Mercedes Rancher.

Mercedes, Tex., May 17.—Three Mexican bandits raided the stock farm of John P. Sewell, south of Mercedes, last night, taking, it was reported several head of stock and a number of saddles. Mexican cowboys on guard at the farm said the men came from South of the Rio Grande. Military authorities are looking for the raiders.

Military telephone lines between here and Donna have been cut several times since Sunday.

PERSONAL NOTES OF FOREST SERVICE

C. N. Woods has gone to Mackay, Idaho, to make field review of the land classification of the Lemhi forest.

C. G. Smith left for Austin, Nev., to inspect the timber sales and old cuttings on the Toiyabe forest. Although sales on this forest are for small amounts, being mainly for mine timbers, posts, and wood for fuel and mining operations, they are so numerous as to be of importance locally and to the forest. The chief business of some of the Indiana is the cutting of wood and its delivery at towns and mining camps.

James M. Fetherolf has returned from the tree planting camp on Darby Creek, on the Pallsade forest. This is one of the three large projects of planting in the intermountain district this spring, and is undertaken to hasten the reforestation of an area burned over in August and September, 1910. A total of 110,000 plants are to be set, mainly lodgepole pine, Douglas fir, and Engelmann spruce, with some Norway spruce and western white pine. The work is somewhat delayed by the lingering snow, but the planting is following the receding snowbank so closely that the trees are planted under conditions which should be favorable for their growth. The mattock method is followed, which is not as rapid as the furrow method, which under more favorable conditions was possible this spring on the Pocatello division of the Cache.

M. B. Baldenburg goes to Panguitch to make an office inspection of the Sevier forest, and of the Fillmore at Richfield, en route home.

W. B. Rice has returned from Nevada, where he initiated the forest homestead survey work for the season. On the Toiyabe party, of which F. C. Haman and Dupue Falck were the other members, lost all their extra clothes, bedding, and other equipment by fire. A pile of ashes only remained of their camp upon their return from the day's work.

Mrs. S. G. Totten made a week end visit with Mr. and Mrs. J. W. Stokes, at Provo.

J. W. Kroger, forest clerk, has transferred from the Nevada forest, Ely, to the Routt forest, Steamboat Springs, Colo.

Stanley D. Reed and William L. Farmer, forest rangers on the Nevada have resigned, and William S. Barton, of Circleville, Utah, and George E. Moore of Moab, Utah, have taken their places.

John C. Rook, who has been engaged the past nine months in marking timber for cutting and the ties cut for the Standard Timber company's sale southeast of Evanston on the Wasatch forest, has been transferred to Richfield, Utah to be forest examiner on the Fillmore.

John E. Ingram, for six years attached to the Wyoming forest, with headquarters at Afton, has been transferred to the position of forest examiner on the Pallsade, at St. Anthony, Ida.

Hubert C. Williams is in charge of the Idaho forest, McCall, Ida., relieving Supervisor Graff, who has gone for a detail in the Washington office.

"Graft," 13th and 14th episodes at the Lyceum tomorrow.

AMUSEMENTS

TONIGHT.
Orpheum—Theodore Lorch and company in "The Commercial Traveler," at 8:15.

Alhambra—Clara Kimball Young in "The Feast of Life," 2 to 11.

THE MYSTERY DEEPENS.
You have heard of the woman who was shot between the kitchen and the woodshed. But the Erie Dispatch recently went that story one better like this:

"The woman's body was found with two bullet wounds in the bathtub."

--straw hat season is here--

are you ready? well we are ready for you with a line of the new blocks and braids in styles for the most extreme or conservative taste.

slightly lower crowns and wider brims prevail.

we've just your particular hat in the right height and shape to give you hat distinction.

better start the season right.—the hats are here—it's time to wear them.—summer weather requires cool headwear and a straw hat is what you need.

there is class and distinction to these straw hats.—get yours now.

split straws, sennits, bankoks, leghorns, panamas, etc.

\$1.50 to \$10.00

straw hats for the little men, too.

PROGRAM FOR BIG CONVENTION

Republican National Committee Gives Out Official Details for First Two Days.

Chicago, May 17.—Details of the official program for the first two days of the Republican National convention which will open here June 7 were announced today by officials of the Republican national committee as follows:

Wednesday, June 7, 11 a. m.—Convention called to order by Chairman Charles D. Hilles of the Republican national committee.

Reading of the official call for the convention by Secretary James B. Reynolds.

Chairman Hilles presents as temporary chairman Senator Warren G. Harding of Ohio, who will deliver his keynote address.

Selection of the other temporary officers of the convention.

Naming of committee on credentials, resolutions, permanent organization and rules and order of business.

Thursday, June 8, 11 a. m.—Report of committee on credentials.

Adoption of the permanent roll of the convention.

Report of the committee on permanent organization.

Report of the committee on rules and order of business.

After the preliminaries or organization have been disposed of, which work usually occupies the first two sessions the convention will nominate a candidate for president and vice-president and adopt the party platform and adjourn. Arrangements will be made to hold night sessions if necessary.

Chief of Police Healey has decided to stop traffic on the streets surrounding the Coliseum while the convention is in session. All the streets will be newly paved with noiseless material for the occasion.

SALT LAKE FOUND DEAD AT POCATELLO.

Pocatello, Idaho, May 16.—Thomas Carr, a Salt Lake junk dealer, was electrocuted at a late hour last night on a high voltage electric pole about ten miles west of this city on the Fort Hall Indian reservation.

The man's body was found at the foot of the pole by Sheriff Cooper and the county attorney. It was badly burned.

The man was identified by a letter

which was found on his person from his wife in Salt Lake.

It is thought that the accident happened about 9:30 o'clock last night, as at that hour every light in Pocatello winked out for a space of probably thirty seconds. This is believed to have been caused by the man's body breaking the circuit, as the pole at the foot of which the body was found was on the main feed wire for the city's light and power.

The one point that cannot be explained is that the man was equipped with a full lineman's outfit. If he was in the employ of the electric company no one at this point knows it. The body now lies in the morgue, awaiting instructions from Salt Lake.

BIG PARADE IN BALTIMORE CITY

Baltimore, Md., May 17.—A big "preparedness" parade in which employees in virtually every industry in Baltimore will march with the march formed organizations will take place here today.

A number of financiers have signified their intention of going on foot with their clerks. "Rookies" from the Chevy Chase women's training camp also will be in line.

Texas Civilians Enroll.

San Antonio, Tex., May 17.—Clinton G. Brown, mayor of San Antonio, enrolled today for the civilians training camp here June 12 to July 8. Mayor H. D. Lindsley of Dallas, and Mayor E. T. Tye of Fort Worth, also have enrolled.

POLICE GUARDING EXPRESS DEPOTS

Chicago, May 17.—Railroad stations and the depots of eight express companies, whose seven hundred wagon drivers are on strike, were guarded today by police to prevent another outbreak of violence.

One man was probably fatally injured yesterday and several arrests were made. When the drivers picketed the street surrounding the depots and express stations and attempted to stop all express deliveries.

SQUASH.

To two cups of mashed dry winter squash add one cup of milk, two well beaten eggs, one teaspoonful of salt, a little pepper and one heaping teaspoonful of baking powder. Beat well and drop by spoonfuls into hot butter or cooking oil and fry. Try this inexpensive but delicious dish. This will serve at least four persons.

NEW AUTOMATIC DEADLY WEAPON

Fighting at Ojo Azules Was Done With Army Forty-five Caliber Pistol.

SHOOTS ACCURATELY

Experiences in Battle Thrilling Enough to Fill Book—Apache Says "Him Dam Fine Fight."

Field Headquarters, May 8, by army motor train to Columbus, N. M., May 17.—The high mortality of Mexican bandits in the Ojo Azules fight last Friday when Major Robert L. Howze's command killed fifty-five Villistas, was credited by officers here today in part to the effectiveness of the new army automatic forty-five calibre pistol.

Most of the fighting was done with pistols by the Americans who ran down the bandits at close range.

Bullet Blow Can Stagger Horse.

The blow from the big forty-five lead bullet is said to be nearly sufficient in itself to stagger a horse.

Accuracy is the strong point of this pistol. In former types of army pistols, the men found that each weapon was a trifle off from absolute accuracy on account of gas in the chamber, so that in shooting at a bullseye, it was necessary to aim a little to the right or left, according to the bias of the particular gun.

The new pistols shoot point blank at more than a hundred yards.

Apache's Brief Report.

The briefest report of the fight was that brought back to the advanced base by Sergeant Chicken, the oldest of the twenty Apache Indian scouts. No one with this expedition seems to know Sergeant Chicken's age which is estimated variously at from 70 to 90. He was in the van during the pistol battle, where his experiences were said to be thrilling enough to fill a book. When urged to tell what he knew, Sergeant Chicken said:

"Him damn fine fight."

Further details he refused to disclose.

SAFELY WOUNDED.

"We have such good news from the front! Dear Charles is safely wounded at last!"—Rogue.
