Yesterday two old school friends from Vernal visited him. They said that his mother had not yet been told of her son's predicament, but that it could not be held from her long as everybody in his home town was discussing it. They made no comments, only stating that they knew Johnson in Vernal and went to school at the Agricultural college when he did. For the game tomorrow the local club will be strengthened by Fagan, considered by observers to be the best amateur first baseman in the state. "Shorty" Williams, "Louie" Falck and Scott of the Utmades. SEVERE PUNISHMENT FOR ISSUING A CHECK

A "good time," so-called, is to cost George Knowles, who claims to be a life insurance agent of Butte, Mont., \$150 or 150 days in jail, according to an order of Municipal Judge George S. Barker, made in court this morning. Knowles issued a worthless check on the Columbus State Bank of Columbus, Mont., and passed it at the Marion hotel several days ago. The check was for \$10 and the hotel management is out that amount. The defendant pleaded guilty to the crime charged against him, that of securing money by fraudulent means and his only defense was that he came to Ogden for a "good time," ran out of money and, while in an irresponsible condition through drink, wrote the check and cashed it.

County Attorney Joseph E. Evans recommended the maximum sentence in the case, declaring that such offenses are being much too frequently committed of late.

A Miller and John E. Smith, alleged drunkards, each forfeited \$5 bail. Sid Dudgeon pleaded guilty to drunkenness and was sentenced to serve five days in jail.

PLOWING UP OF CANAL CAUSES SUIT TO BE BROUGHT

The plowing up of an irrigation ditch, which has existed for more than fifty years, has precipitated a law suit by Rueben J. Middleton and Rachael M. Middleton, executors of the will of the late C. W. Middleton, against Effie M. Campbell and William J. Stevens. The complaint states that C. W. Middleton, for fifty years prior to his death two years ago, owned a tract of arid land, adjoining the property of Mrs. Campbell, and that along the eastern end of the latter's land ran an irrigation ditch through which water from the Weber river flowed into Mr. Middleton's property, thus enabling agricultural products to be produced; but without that water, which could not be secured from any other source, the ground was unproductive and barren.

Since the canal lay across one side of the defendant's property and has been plowed up, the Middleton property refuses to yield anything, for the first time in half a century. The plaintiff requests the court to demand a restoration of the canal, without which their land is worthless.

PART OF NAVAL BILL HELD UP

Washington, July 15.—Provision in the naval appropriation bill authorizing the president to take over private ship building, engineering and ordnance plants in time of war or when war is imminent, was eliminated in the senate today on a point of order by Senator Borah. The proposal was held by the vice president to be a matter for special legislation.

The senate's first action today on taking up the building program of the naval bill was to amend the bill to authorize ten aviation stations at Atlantic and Pacific coast and Gulf points as a part of the life saving establishment of the coast guard service. Officers and enlisted men of the coast guard would be detailed to aviation duty at these stations. The amendment provides for establishment of a school of instruction in aeronautics.

PRISONER PLEADS AS HIS OWN ATTORNEY IN COURT

An unusually dramatic scene was enacted in the municipal court-room this morning when "Alias" William Stivers defended himself and companion, Emmett Mathias, of a charge of vagrancy. The principal effort of Stivers, as a self-taught attorney, was directed toward the keeping of Mathias out of jail, but despite his introduction of testimony, cross-examination and pleading, a conviction was obtained by the prosecutor, Assistant City Attorney John G. Littlefield. The defendants were sentenced to serve 30 days each in the city jail, an order for the release of Mathias before the completion of the sentence being entered however, providing an investigation as to the nature of his association with Stivers should not require his being held in custody.

Stivers, who is 32 years old, and Mathias, who claims to be only 18, were taken into custody by Sheriff Reading of Davis county and Detectives Soule and Syphers of the Ogden police department, Monday afternoon in Ogden, on a charge of vagrancy. The older man known to the officers as a former "crook" and their suspicion was that he had an ulterior motive in keeping the boy, who is effeminate in appearance.

At the trial this morning, Stivers admitted that at times he followed thievery as a profession and declared he changed his name whenever he deemed it advisable. He frankly refused to tell his true name and declared that a check found on Mathias and purported by the officers to have been written by the boy, was written by him. He secured \$20 on this check, he said, the instrument being drawn in favor of J. W. Tulley and signed William Tulley. Both names, he declared, were fictitious, supposedly those of himself and father. He changed his father's name, he said, as often as his own.

According to the testimony of the two men, they had been companions for about three months, living mainly in Salt Lake City, without any particular employment. Mathias had been receiving money from his parents, they said, and Stivers declared that the youth was sickly and had not in any way been associated with him in any crime he had committed.

Estimates of the number of bandits reported moving north toward the Big Bend vary from a few hundred to over a thousand. The latter estimate is generally believed excessive.

REALIGNMENT OF ITALY BREAKS AN AGREEMENT

Rome, July 15, via Paris, 4:15 p. m.—The agreement that has been in effect between Italy and Germany providing for the mutual respect by the two nations for the rights of each other's subjects has been denounced by Italy owing to the hostile attitude by Germany, according to the Giornale d'Italia today. No convention now exists between the two nations, the newspaper declares.

Payments to Italians Stopped. Rome, July 15, 11:15 a. m.—The Berlin Bankers' association, according to the Stefani News Agency, has circled all banks in Germany, instructing them henceforth by request of the Imperial Foreign Office that Italians as subjects of a belligerent state, in other words, that payment to Italians in Germany are to be stopped.

The German office has officially informed the Italian government through the Swiss government that payment of workmen's pensions due Italian workmen has been suspended. The attitude of Germany toward Italian subjects in Germany and Belgium subjects is causing much resentment here.
