FIERCE FIGHTING IN BOILING SUN

British and French Attack Foe
On All Sides in Conflict of
Indescribable Ferocity.

GERMANS SWARMING

Fearful Carnage by British
Gun Fire Among Masses—
Wounded Moan for
Water.

With the British Army in the Field,
July 30, via London, July 31, 4:45 a.
m.—French and British soldiers made
today's attack in sweltering mid-sum-

mer heat. The first real hot wave
of the season struck northern France
last night and this morning and last
night British and French infantry co-
operated in an action north of the
Somme in front of Guillemont and
Maurepas.

For the last few days the one word
on everybody's tongue has been vis-
sibility which has come into universal
use since Admiral Jellicoe's first fleet
dispatch. Formerly artillerymen spoke
of good and bad light. Persistent
had light or low visibility, which did
not permit the gunners to register
their targets, had delayed any im-
portant action. Yesterday the light
became better as the heat grew tropic
and offensive operations were re-
newed.

Germans Increase Force.

Every day the Germans have been
increasing the number of guns and
men in the Guillemont sector, which
is among the last portions of high
ground they hold. By prisoners tak-
en, ten German battalions, or 10,000
men, have been identified on a front
of 2000 yards where the Germans are
still in their old second line fortifica-
tions with maze trenches and deep

dug outs built long ago and strength-
ened since the offensive began. The
Germans appeared to regard this sec-
tor of critical importance since the
British broke the second line on the
adjoining front for a length of two
miles on July 14.

Part of the British attack struck
from the bloody Trones wood and the
other part of the flank while the
Germans tried to man machine guns
as usual after a British bombard-
ment. The Germans resisted the
British bitterly, fighting under the
broiling sun as if every inch of
ground was precious.

British Take Station.

The British got possession of the
railroad station which they had reach-
ed in a previous attack and this time,
according to last reports, are still
holding it. Some of the attackers got
into Guillemont and reached the
church where the Germans, swarming
in dugouts, outnumbered the ad-
vance forces which fight against
their foe on all sides. It was one
of those hand-to-hand and hide and
seek conflicts in the village ruins
of indescribable ferocity. The Brit-
ish had to retire from the edge of

Guillemont, but made good a consid-
erable advance southward on the flank
of the town where, through the night
fighting, they continued to maintain
their gain.

Perspiration made white water
courses in the dust on the men's
faces and their eyes looked out of
masks so thick that their faces seem-
ed to be covered with some kind of
armor. Motor trucks passed like
phantoms in the thick clouds on the
roads. Gunners, stripped to their
skin, kept on serving their guns at
top speed. Breathing became hard in
the mixture of dust and shell smoke.

Fearful Carnage Among Germans.

Soldiers who reached Guillemont
speak of the fearful carnage among
the Germans from the British gun
fire, owing to the masses of Germans
concentrated under the British bom-
bardment before the British infan-
try attacks. They said they could
hear moans of the Germans wounded
or water above the bombing and rifle
and machine gun fire. With the news
of the shooting of Captain Fryatt
fresh in their minds, the British went
into the charge in a fury, swearing
they would avenge his death.

COLONEL SLOCUM IS EXONERATED

Inspector-General's Depart-
ment Clears Command of
Thirteenth Cavalry of All
Blame in Columbus
Raid.

Washington, July 31.—Extracts
from the final report of the inspec-
tor-general's department on the Villa
raid at Columbus, N. M., made public
today by the war department show
that Colonel Herbert J. Slocum of the
Thirteenth cavalry has been exonerated
from all blame for the surprise at-
tack upon his headquarters and the
town.

It was this raid that brought rela-
tions brought the United States and
the de facto government of Mexico to
a crisis and led to the dispatch of
General Pershing's punitive expedi-
tion into Mexico.

The inspector-general's report is
based upon voluminous testimony
heard from officers and men of the
Thirteenth, civilians of Columbus and
any other persons who could be found
with information on the subject. Parts
of the testimony were given out
with the substance of the inspector-
general's findings.

Unless there are unexpected devel-
opments the report probably will
close the closing of the Columbus in-
cident so far as the army is concerned.

PORTUGUESE NAVY ATTACK GERMANS

Energetic Defense Being Put
Up in German East Africa
on Rovuma River.

Lisbon, July 31, via Paris, 10:45
a. m.—Portuguese naval forces have
been operating in East Africa though
not on a large scale, says the Seculo.

A dispatch received by the news-
paper from Lourenco, Marquez, says:
"A Portuguese flotilla made a recon-
naissance on the left bank of the
Rovuma (a river separating German
East Africa from Portuguese East
Africa) on the 20th. Tugs conduct-
ing a force were fired on by the Ger-
mans with machine guns, two Portu-
guese being killed and five wounded."
Eight days later the Portuguese
again attacked the Germans who were
strongly entrenched on the right
bank but they had to retire owing to
the state of the river after suffering
considerable loss, including a captain.
The Germans in this theatre are put-
ting up an energetic defense."

DAKOTA REGIMENT LEAVES.

Redfield, S. D., July 31.—The Fourth
regiment, South Dakota National
Guard, will be en route to the Mexi-
can border by tonight, orders having
been received for the regiment to join
forces with the North Dakota and
Minnesota troops in the Mercedes val-
ley near San Benito, Texas. A total
of 397 men and officers comprise the
South Dakota unit.

NEW RAID ON ENGLISH COAST

British Aeroplane Attacks
Zeppelin But Accident to
Pilot Prevents Further
Pursuit.

London, July 31.—1:15 p. m.—The
second raid within a week of the
east coast of England by a Zeppelin
airship, was made this morning. An
official announcement of the raid
says the airship was engaged by a
British aeroplane.

The official statement is as fol-
lows:
"At 5:15 o'clock this morning one
of our aeroplanes pursued and at-
tacked a Zeppelin 30 miles off the
east coast. The pilot had fired two
trays of ammunition into the Zepe-
lin when he was temporarily inca-
pacitated by a portion of his machine
gun flying off and stunning him.
The Zeppelin was nowhere to be seen
when the pilot regained conscious-
ness. He was therefore forced to re-
turn to his station."

UNCLE SAM OFFERS SAFETY FOR CHILDREN

The United States government is expending \$3,000,000 annually for the inspection
of meats—but you can only secure this protection for your children, protection
against diseased meats, if you order and secure "U. S. Inspected Meats." Diseased
meats are being sold on the markets every day, they are among the meats that have
not been inspected. The safety of your family is absolutely assured if you buy
"U. S. Inspected Meats," asking your butcher to show you the U. S. Inspection
stamp.

U.S. INSPECTED MEATS

These meats are absolutely sound and wholesome, they have been found free from
disease after thorough examination by United States government employes. Meats
that are not wholesome have been eliminated by the government inspectors, only
those that are absolutely disease free are passed and permission given by the in-
spectors for sale.

Assure your family this protection, offered by Uncle Sam, by demanding that your
butcher deliver only U. S. Inspected Meats—have him show you the U. S. Inspection
stamp. Then you can set aside all fears of eating meat that is not wholesome.
