TEUTONIC FORCES CHECK RUMANIAN ADVANCE IN LOWER TRANSYLVANIA

Territory North Being Evacuated—Russian Assaults on East Line Fail—Serbians Repulse Bulgars on Macedonian Front—German Forces Reoccupy Trenches on Somme Front—Report Greece Had Cast Lot With Allies Not Borne Out.

London, Sept. 2.—The Rumanian advance in lower Transylvania has been checked by the Teutonic forces, an official statement from Vienna reports. This announcement relates the repulse of the Rumanians near the Iron Gates of the Danube in the vicinity of Orsova.

ment says, an attack by Italian infantry south of Salcano and west of Bokovicsza was driven back. Italians Make Gain. Rome, Sept. 2 (via London, 1:45 p. m.)—Violent artillery fighting occurred yesterday on the Trentino front, the war office announced today. An Austrian attack in the Sogano valley was repulsed.

Farther north the Austrian evacuation of Transylvanian territory is being carried out without series fighting. Vienna announces the abandonment of Hermannstadt, one of the most important towns of Transylvania.

"The fighting yesterday consisted principally of artillery actions, which were especially violent on the Trentino front," the statement says. "In the Sogano valley the enemy launched an attack against our positions on Monte Clvarone, but was driven off promptly."

The Bulgarians renewed their attacks last night along the western end of the Macedonian front. The French war office asserts they were repulsed by the Serbians.

"Hostile aircraft dropped bombs on Rolle pass, at the head of the Clismon valley. No damage was done."

The report that King Constantine had abdicated and that Greece would join the allies at once has not been borne out. The newly formed Greek committee of national defense has proclaimed a provisional government of Macedonia.

The Germans attacked the French on the Somme front last night and re-occupied trenches south of Estres, taken recently by the French. A small British gain near Delville wood is announced in London.

Official Statement. "Last night, as the result of a minor operation," says the British official statement, reporting the military operations on the Somme front in France, "we drove the enemy from a portion of a small area intersected with trenches northwest of Delville wood, which he had recaptured on Thursday."

"On the other parts of the line there were no important infantry encounters. During the last twelve hours hostile artillery generally developed greater activity and some infantry action, but intermittent bombardments have been carried out by the enemy, who used a large proportion of gas shells."

Admit Reoccupation. Paris, Sept. 2 (noon).—After repeated violent attacks last night, the Germans re-occupied part of the trenches taken by the French on the Somme front, south of Estres. In the Champagne, the announcement says, Russian troops put to flight a German contingent northwest of Auberville after a spirited engagement.

The statement says: "On the Somme front the Germans made violent attacks on a portion of the trenches taken by the French on August 31, south of Estres. They succeeded in re-occupying some parts of these positions, at the cost of appreciable losses."

In the Champagne, German reconnoitering parties west of Auberville and south of Tahure were dispersed by hand grenades. A Russian patrol put to flight a party of the enemy northwest of Auberville after lively fighting.

"The record is clear and consistent throughout and stands distinct and definite for anyone to judge who wishes to know the truth about it."

On the right bank of the Meuse the night was disturbed owing to the nervousness of the enemy, who violently bombarded our positions in the neighborhood of Thiaumont work and for no reason whatever set up curtains of fire."

Immediately afterward he said: "I am the candidate of a party, but I am above all things else than American citizen. I neither seek the favor nor fear the displeasure of that small alien element amongst us which puts loyalty to any foreign power before loyalty to the United States."

Rumanians Repulsed. Berlin, Sept. 2 (by wireless to Sayville).—Austro-Hungarian troops on the Rumanian front again repulsed the Rumanians near Orsova and Hercules-Puerloe on Aug. 31, says the official statement issued by the Austro-Hungarian army headquarters under date of Sept. 1.

Regarding his Mexican policy the president reiterated that the people of Mexico were struggling "blindly" it may be—and as yet ineffectually—to free themselves from alien interests "some of them Americans pressing for things they could never have got in their own country," and that he would do everything in his power to prevent anyone standing in their way.

The statement adds that the Transylvanian towns of Nagy-Szeben (Hermannstadt) and Zepel-Szent-Gyorgy, north of Kronstadt, already had been evacuated by the Austro-Hungarians on Wednesday.

"It is a hard doctrine," said he, "only for those who wish to get something for themselves out of Mexico." At another point the president said: "Mistakes I have no doubt made in this perplexing business but not in purpose or object." He declared at another point:

"General Boehm-Ermopoll frustrated a Russian advance near Brepelniki. The enemy entered isolated places of our lines, but was repulsed by a counter attack of German troops. The Russians lost two officers and 407 men, who were taken prisoners southwest of Kazovka a hostile advance failed."

"I am more interested in the fortunes of oppressed men and pitiful women and children than in any property rights whatever."

In the Italian theater, the statement says, an attack by Italian infantry south of Salcano and west of Bokovicsza was driven back.

At the outset of his references to the legislative achievements of his party the president enumerated the laws placed on the statute books relating to business including tariff revision, anti-trust laws, revision of the banking and currency system, rural credits, rehabilitation of the merchant

marine and the creation of the federal trade commission.

"What other party has understood the task so well or executed it so intelligently and energetically?" he asked. "What other party has attempted it at all? The Republican leaders apparently know of no means of assisting business but protection. How to stimulate it and put it upon a new footing of energy and enterprise they have not suggested."

At the conclusion of his review of the party record, the president declared: "The extraordinary recital must sound like a platform, a list of sanguine promises; but it is not. It is a record of promises made four years ago and now actually redeemed in constructive legislation." Then, later he said: "We have in four years come very near to carrying out the platform of the Progressive party as well as our own; for we are also progressives."

The president's address was some 5,000 words long, one of the most lengthy he has delivered on any occasion since taking office.

THERE'S REAL ART IN AQUAPLANING; THE GREEK GARB GIVES IT COLOR

Aquaplaning is an exhilarating pastime but be sure you can keep a nice balance before you try it. Miss Helen Moeller's Greek dancers are willing to take a chance and the antique garb they wear makes it lots more interesting. Perhaps the Greek dancers of 300 B. C. would have aquaplaned as well if they'd had more motor boats.
