WELLS FARGO SECURES BUSINESS OF ALL ELECTRIC RAILWAYS IN THIS STATE

On July 1, Wells Fargo Company will take over all the express business now handled on the Bamberger and Orem electric lines, and with its rights now held on the Ogden, Logan & Idaho, will have a through service from Preston, Idaho, to Payson, Utah. Through this arrangement the company will serve 75 per cent of the state's population.

J. F. Baker, general superintendent of the Wells-Fargo company, with headquarters in Los Angeles, Cal.; G. F. Johnson, superintendent of the Colorado and Utah division, with headquarters at Denver, and C. R. Graham, general superintendent of the northwestern divisions, with headquarters

in San Francisco, were in Ogden today, and while here made the above announcement.

But for the securing of the business of the Orem line, the Wells-Fargo company would have been shut out of southern Utah territory on September 1, as its contract with the Denver & Rio Grande railroad is scheduled to expire on that date, with no prospect of renewal. The officials are, therefore, rejoicing as the express business of the electric roads is steadily increasing in volume.

In company of Fred McNutt, local representative of Wells-Fargo, the distinguished visitors called on a number of acquaintances in the business district today.

A half acre plot of ground was plowed and otherwise made ready this morning at the Utah State institution for the Deaf and Blind, for the planting of potatoes. The work of planting is to be done by a number of boys from each of the classes, who will be dressed in farm garb for the purpose.

Each class group was busy today removing the eyes from a half bushel of potatoes.

Each group, under the supervision of one of the instructors of the school, will take care of four or five rows of the potato plants until the close of the school year, and next fall will return and participate in the harvest.

The ground utilized for the prospective potato patch is located on Monroe avenue, southwest of primary hall, the new building at the state institution.

HUGH RENNIE PLANS TO SHOW GREAT PICTURES

Hugh Rennie, western representative of the Louis J. Selznick Pictures corporation, left for his Denver headquarters yesterday afternoon, after completing arrangements with Manager H. E. Skinner for the showing of a number of the big Selznick productions at the Alhambra theatre. Among these will be "The Law of Compensation," "The Argyle Case," "The Poppy" and "The Silent Master."

Before leaving for Colorado Mr. Rennie inspected the new studio of the Ogden Pictures corporation that now occupies the Alhambra theatre stage, and pronounced it one of the most completely equipped for making large productions in the country. He expressed this opinion in enthusiastic terms and in a similar way bespoke his belief that this section of the country affords wonderful opportunities for screening feature pictures.

Mr. Rennie is an old acquaintance of Manager Skinner.

SPRINKLES CATSUP ON WALLS OF EATING PLACE

Not satisfied with belaboring a Chinese restaurant keeper of the lower Twenty-fifth street district and another patron of his establishment with a bottle of catsup, George Soto, a diminutive Spaniard, sprinkled the restaurant walls with the contents of the bottle in an entirely inartistic fashion. He was caught in the latter act by Patrolman A. B. Jensen, who had been called to the place.

Today Soto was found guilty of disturbing the peace by Municipal Judge George S. Barker and sentenced to serve ten days in jail.

Sentences of the same length were ordered by the Judge in the case of William Elliott and George Lepper, mendicants, also arrested last night.

Henry Harris, colored, was found guilty of vagrancy and sentenced to serve fifteen days in jail. He was prowling around the home of N. O. Ogden and other nearby residents Monday night when arrested by Sergeant T. H. Blackburn.

Ten dollars were forfeited by O. R. Stuart, who was arrested Monday by Officer H. C. Johns on a charge of speeding in an automobile.

P. J. MORAN BID IS LOWEST ON THE PAVING

Mayor Heywood and his colleagues today evinced pleasure in obtaining a satisfactory bid on the Twenty-eighth street paving—district No. 125—which was contested by a majority of the property owners.

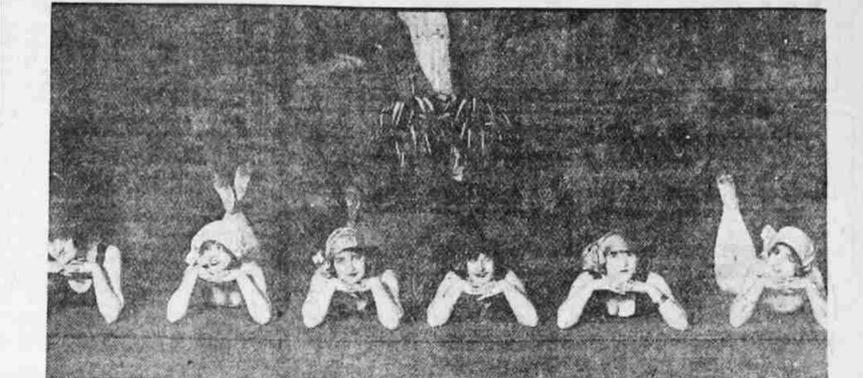

P. J. Moran will obtain the contract. His bid was nearly \$9000 less than the next lowest bid and \$11,000 less than that of the J. P. O'Neill Construction company.

Engineer Joseph M. Tracy said the cost of the paving, under the Moran bid, would be \$5.77 per front foot. The engineer's original estimate was \$6.50 to \$7.

The total cost of the paving will be in excess of \$121,000.

The commissioners said they hoped the protesting property owners would now see the wisdom of having the work done without further delay. The city has been good to these residents, they said, in improvement work; that the city built the storm sewer from Jefferson to Pacific avenues and paid

Great Pantages Show Opens Tomorrow

"The Berlo Diving Girls" is one of the three big headline acts on the new Pantages bill at the Orpheum, Thursday, Friday, Saturday. 10-20-30 Cents.

Frank Fogarty, "The Dublin Minstrel," who is featured on the big triple-headlined vaudeville bill, which opens at the Orpheum tomorrow afternoon, is perhaps the best known Irish humorist and story teller on the stage today. He is an artist to his finger tips, having a stage presence that is unsurpassed and a way of telling his stories that belongs to him alone.

Frank Fogarty is an Irishman through and through, and a self-made one at that. He started at the bottom and worked his way up the vaudeville ladder to the top rungs. He has written many poems, and is arranging to have them issued in book form very shortly. Just recently he has penned

a drama, assisted by Wally Young, the dramatic critic of the San Francisco Chronicle, entitled "The House of Kerrigan," and is preparing to have it staged by a well-known eastern manager early this fall.

The Berlo diving girls are the newest little stars to shine in the Pantages firmament. They are outstanding diving girls from the top of their golden heads to their tiny feet, and present an act that is nothing short of excellent, prefaced by a Hawaiian singing and dancing bit.

The Mystic Bird, presented by Master Paul, is a remarkable tiny canary bird, from the black forest of Ger-

many, who is able to mimic any bird call, having the propensities of a mocking bird.

Neil Mack and Vera Velmar present the act unique, featuring novelty singing and patter. Mr. Mack possesses an oddly striking high tenor voice, and Miss Velmar is a splendid musician, both as a pianist and violinist.

Grace Edmonds sings a number of patriotic songs that are refreshing and inspiring, and finishes with a series of Robert W. Service poems.

Dix and Dixie form one of the best opening acts on Pantages' time. They sing, dance and do slack wire juggling and balancing with equal facility.—Advertisement.

WORLD'S MARKETS

CHICAGO, MAY 2.—(NOW)Wheat—A sharp rally at one time, the wheat market today averaged lower, influenced by peace talk. Trade was light and mainly local.

The late bulge in wheat prices brought about a sharp advance in corn. Closing quotations were strong, 21-8c to 43-4c higher than yesterday's latest figures.

In the late trading great strength developed owing largely to word of postponement of a speech in which the German chancellor was expected to outline new peace terms. Reports that all British ships had been requisitioned by the British government counted likewise in favor of the bulls. May jumped up 17c to \$2.72, and July 13 1/2c to \$2.22. The close was unsettled at gains of 4 1/4c to 12c net, with May at \$2.69 1/2 and July \$2.20 1/4 to \$2.21.
