Derailment—It is the belief of Oregon Short Line officials that the derailment of the Yellowstone special last Saturday night was due to malice on the part of some person. The way in which the switch was held open by a piece of pipe leads to this conclusion. At the point where the derailment occurred, near Willard, the track is protected by electric block signals. If the circuit is kept closed, these signals will show the line to be clear. The pipe, being a good conductor of power, was placed between the switch points and the signal showed clear.

MONEY ADVANCED BY BANK TO PAY FOR MEALS OF THE BOYS OF LOCAL BATTERY

Through the courtesy of the Utah National Bank arrangements have been made to advance money to the boys of Battery B on which to eat during their stay in the city. It was announced last Sunday that the men would be expected to pay for their own meals while here and that the government would reimburse them in full within a few days. The funds have not been forthcoming and many of the boys have had real difficulty in paying for their meals.

Captain J. Ray Ward went to the bank and stated the circumstances. The officials gladly advanced the money to the captain so that the difficulty is now overcome.

Captain Ward stated that it would cost in the neighborhood of \$1,000 to feed the men during the week they are here, allowing each man but 75 cents per day. He was very grateful to the bank officials for this signal courtesy.

"That and other things that have come under my observation certainly shows that the people of Ogden are behind us in the work we are about to take up," he said. "Several little things have been done for the boys."

Kindnesses have been extended to the battery and to individuals of the battery which make plain how Ogden people regard the patriotism of the boys who are with us. The donation of the "housewives" by the ladies of the American Reserve Militants is but one token. The Firemen's association sent us a check this morning for the battery fund, that shows that they are behind us.

Dance Tonight. "The way the people are responding in buying tickets for the military ball tonight is another evidence that what we do will receive the support of the city. Although I cannot tell you the exact number of tickets sold, I will say that everywhere the committee goes, there is a generous response. Some have bought four and five and but few have refused to take one. It is the only social event given to honor the men and all seem eager to take advantage of the opportunity. The dance promises to be the most largely attended event of the year."

The proceeds of the ball will go into the battery fund, to purchase delicacies for the men and other things that are not furnished by the government.
