ARMY TO BE REORGANIZED

Entire New Arrangement of Military Units Is to Be Made.

WASHINGTON, Aug. 16.—The complete plan for reorganization of the army is disclosed in general orders made public today prescribing the formation of all tactical units from divisions to armies. The composition of each division on the European standard is prescribed and provision is made for organization of all additional troops into training battalions of 612 men to be used in any way found necessary.

Designation of divisions by number begins with the regular army division now in France, which has already been reorganized on the basis of 19,000 men and additional battalions of attached troops. That is the first division, United States army. Other regular divisions are numbered up to and including the twenty-fifth. This does not mean that twenty-five regular divisions are to be created immediately, but that the numbers from one to twenty-five, inclusive, have been reserved for the regulars.

National Guard Divisions

National guard divisions will be numbered from the twenty-sixth to the seventy-fifth, inclusive. National army divisions will number from seventy-six.

Today's order provides the organization of sixteen national army divisions, designated from the seventy-sixth to the ninety-first, inclusive, and succeeding divisions will be numbered in order after them.

All divisions provided for will be infantry divisions, composed of division headquarters detachment, one machine gun battalion of four companies, two infantry brigades of two regiments and a machine battalion of three companies each, one field art-

illery brigade of three regiments and a trench mortar battery each, one engineer regiment, one field signal battalion, one headquarters train and military police, one ammunition train, one engineer train without pontoon and searchlight sections, one supply train and one sanitary train of four field hospitals and four ambulance companies.

Each army corps will consist of an army corps headquarters force and three infantry divisions, supplemented by necessary attached troops to be designated as army corps troops. Each army will consist of an army headquarters, three or more army corps and such additional army troops as may be advisable.

The order directs that the national guard proceed to its training camps under its present divisional organization. It will be reorganized at the camps, however, on the new divisional basis, and the excess troops formed into training battalions with a brigadier general in command of the group of training battalions at each camp.

TOO MANY DRAFT EXEMPTION PLEAS

Lawyers Stationed in Nearly Every District to Appeal Cases of Men Passed.

NEW YORK, Aug. 16.—Members of the New York Bar association today joined forces with the federal authorities to prevent wholesale claims for exemption from the draft on the grounds of dependents. Lawyers were stationed in nearly every one of the 189 local exemption district headquarters in the city, with instructions to appeal every case in which a man is passed on the ground of dependents. A total of 75,710 have been examined up to today, of which 52,129 have qualified for military duty. Claims for exemption, however, show that only 16,919 are apparently accepted.

OUTLINING THE COAL SITUATION

Federal Fuel Control Leaves Much to Be Done by the States.

OPERATORS FAIL TO ACT

Government Rather Than State Regulation of Coal Favored by Many.

CHICAGO, Aug. 16.—Outlining the coal situation to 57 delegates from 13 coal producing states who met here today on invitation of the Illinois state council of defense, Samuel Insull, chairman of the council, declared that the federal plan of fuel control leaves much that must be done by the states. The roll showed no one present as representing the states of West Virginia, Pennsylvania and Tennessee. Meanwhile the plan of Governor Lowden to control the situation in Illinois, seemed dangerously close to disaster. Under threat to seize the mines the governor obtained agreements from railroad heads, mine operators and miners to abide by prices to be set by Chief Justice Carter of the state supreme court. The operators, however, have failed to appoint a committee to act with Justice Carter as was planned. They met last night and again this forenoon, but named no committee. Several of them, accompanied by labor leaders, left for Washington last night and sentiment was said to be that federal rather than state control would be best from their point.

Federal Control Favored.

At the conference a sentiment in favor of federal control of fuel prices developed, as opposed to the Illinois plan for state control. Governor Capper of Kansas and Will Hays of the Indiana delegation spoke for federal control.

That the federal trade commission expects to fix coal prices and that the president may appoint a man to enforce its mandates was the information contained in a telegram from the federal trade commission to Governor Lowden.

It was forwarded by Governor Lowden to Chairman Insull, who read it to the delegates as follows:

"In order to avoid conflict in the coal situation, we suggest a conference of your representatives as to coal prices with the federal trade commission and whomsoever it may desire, the president may direct to put into effect the provisions of the Lever law. The federal trade commission will be charged with price determination and in the interests of public service we suggest that that phase be complicated as little as possible. The commission desires in every way to cooperate with you. By order of the commission. "L. L. BRACKEN, "Secretary."

THIRTEEN MEN OPPOSED TO WAR

Thirteen men of the 2765 who registered for war service on June 5 in Ogden are conscientious objectors, war, according to their registration cards. This pertains only to that part of warfare where they might be called on to kill a fellow man. The government does not allow them immunity from such tasks as trench digging, foresting, hospital service or other auxiliary work. There are also six alien enemies living within Ogden City who cannot be conscripted.

Those opposed to warfare are the following:

Joseph L. Banville, James Capek, Christopher Columbus Cooke, Howard Hall, Benjamin F. Johnston, Joseph S. Johnston, George Lester Malan, Paul Caswell Moore, David Richardson, Edward Albert Rudiger, Bryce Swartzfager, Gerret Vander Vlies and Walter W. Wessler.

The alien enemies in Ogden are Otto Becker, Henry R. Bennick, Gustave Schachtel, Bruno Ewald Schmell, Max Oscar Schmidt and Adolph Schonwandt.

LONDON PARADE GREAT EVENT

Divides Honors With New Lens Battle and Pope's Peace Proposal.

LONDON, Aug. 16.—The parade of American soldiers in London divides with the new Lens battle and the pope's peace message the most prominent column in this morning's newspapers. The description of the march and incidents filling in some papers three columns. The picture papers display many scenes of marching Americans at various points of the route.

"Yesterday is a day to be marked with a white stone in England's and America's history," says the Morning Post.

Board Members Plead Not Guilty

NEW YORK, Aug. 16.—Tentative pleas of not guilty were entered today by Dr. Samuel J. R. Bernfeld and Louis I. Cherey, former members of exemption board No. 99, and Kalman Gruher, a dentist, indicted yesterday, charged with conspiracy to frustrate the operation of the draft law and demanding or accepting bribes.

COAL SITUATION BADLY MUDDLED

Representatives From State Defense Councils Meet With Justice Carter.

ALL STATE CASES

Fifty-eight Miners' Unions Ordered to Return All Men to Work.

CHICAGO, Aug. 16.—With Illinois' coal situation still critical and muddled, representatives of councils of defense from numerous middle west states met here today with Justice O. N. Carter, director for coal for Illinois, to discuss plans for co-operation in dealing with fuel conditions. Kentucky, Iowa, North Dakota, South Dakota, Indiana, Kansas, Missouri, Nebraska, Ohio, Wisconsin and Minnesota are among the states participating in the conference.

Besides these representatives the operators, retailers, railroads and unions each were given an opportunity to state their cases. Frank Farrington, president of the executive board of the miners' union, has sent telegrams to 58 miners' unions ordering all strikers to resume work immediately.

PLATINUM IN ALASKA GRAVEL

Agencies Aroused to Greatest Activity in Hope of Meet War Needs.

FOUR EXPERTS BUSY

Precious Metal Found in River Bed—World Shortage of Platinum.

WASHINGTON, Aug. 16.—Discovery of platinum in Alaska by Dr. Herschel C. Parker of New York and others has aroused government agencies to the greatest activity in the hope of finding sufficient quantities of the precious metal to meet the war needs of the allies.

Four government experts have been assigned to study the Alaskan situation and report if the discoveries may replenish the platinum supply cut off recently by the virtual cessation of activities in the Ural mountain mines, the source of the world's greatest supply. Intensive operations would follow a favorable report, for the true situation, it is declared, cannot be determined before next year, by which time the present short supply will be very nearly exhausted.

Professor Parker has reported finding platinum in quantity in the gravel of the Kahlitna river during gold placer drilling. Installation of a dredge followed and K. B. Mertie, a government geologist, was assigned to observe results. Alaskan gold miners also have reported platinum in the Ketchikan, Koyuk, Fairhaven and Chistochina districts.

Between ten and twelve ounces of platinum were discovered in Alaska last year and this small amount was sufficient to greatly stimulate further prospecting this year. Government experts will go further to say that the situation is "hopeful" but they intend to lend every effort to development while there is the slightest chance of results.

War Uses of Platinum

War uses of platinum include the making of sulphuric acids and the completion of contact points of the ignition system of airplanes, automobiles and telegraph and telegraph instruments. Substitutes have been found for it in making of sulphuric acids, but it is almost indispensable for other uses.

So acute is the world shortage that it has advanced from \$45 to \$105 an ounce since the beginning of the war. The condition has become so critical in this country that a survey of visible supply has been made, but the results have not been published.

Russian banks which made high loans on the output of the Ural mountain mines are understood to hold large quantities of platinum, but the chances of obtaining their supply are regarded as very uncertain. Seven hundred and fifty troy ounces constitute the largest annual production of platinum in the United States, but Russia before the opening of the war produced as much as 300,000 ounces in a year.

FRENCH EDITOR DIES IN PRISON

Strangulation by Thin Cord Causes Hemorrhage of the Lungs.

CHARGE OF SEDITION

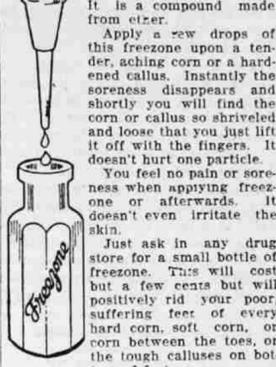

Member of Staff Found With Suspicious Check on Return From Switzerland.

PARIS, Aug. 16.—The death in a prison infirmary yesterday of Miguel Almeraya, editor of the Bonnet Rouge, which was attributed at first to hemorrhage of the lungs, was said today by the ministry of justice to have been occasioned by strangulation. The autopsy showed strangulation to have been brought about by the use of a thin cord such as a shoestring. He was under arrest on a charge of sedition. His apprehension was a sequel to that of another member of the Bonnet Rouge staff, upon whom a suspicious check for 150,000 francs was found on his arrival from Switzerland.

THREE POLICE ARE ARRESTED

St. Louis Officers Indicted for Murder and Complicity in Riots.

MORE MEN ARESTED

Total of 105 to Face Grand Jury—82 Whites and 23 Negroes.

BELLEVILLE, Ill., Aug. 16.—Three members of the East St. Louis police force have been indicted on charges of murder by the St. Claire county grand jury investigating the East St. Louis race riots of the early part of July. It became known here today. The men are Sergt. Cornelius ehan, Sergt. Harry O'Brien and H. L. Wilson, a plain clothes man. Nine white men who are at present in jail here also are declared to have been indicted. The remainder of the capiases for the arrest of persons accused of complicity in riots are in the hands of deputy sheriffs in East St. Louis and many arrests are expected today. Of the total of 105 indicted, 82 are whites and 23 negroes.

NEW COURSE IN MONTANA SCHOOL

Military Engineering Service to Train Men in Many Requirements.

MISSOULA, Mont., Aug. 16.—Centered in the school of forestry of the University of Montana this year is to be a new course known as "Military Service." The course, according to Chancellor Edward C. Elliott, is designed to meet the needs of young men who have not reached the minimum age of those subject to selective draft, and for those who have not been drafted under the first call.

While the course in military service cannot in one year train men fully for all the requirements of military engineering, it will equip those who pursue the outlined curriculum for different duties. In the engineering college of the university special training in that branch of the service also is to be given.

The course, in both the college of forestry and college of engineering, has been so arranged that in case those who take it are not called for military service, it will count as one full year toward the credits for the regular baccalaureate degree. Coordinate with the course is one for women in Red Cross training.

FRENCH SHIPPING LOSSES OF WEEK

PARIS, Wednesday, Aug. 15.—The weekly report of shipping losses gives one steamship of more than 1600 tons and three of smaller size as having been sunk in the week ended August 12, out of 1010 arrivals and 1028 clearances at French ports. Five French

COUNTY BOARD WILL HOLD DOWN THE TAX LEVY

MORE MEN FOR THE NATIONAL GUARDS

An investigation of the proposed tax levy of 1 mill by the city for "bath houses and electric light plants" will be made tomorrow at a meeting of the board of county commissioners and the board of city commissioners in the city hall. The levy affects the property owners of the city to the extent of about \$47,000, and inasmuch as the city has but one small bath house and no electric light plants, the county officials deem a fuller explanation of the levy necessary.

The sergeant in charge of the local army recruiting station has received instructions from Captain J. D. Watson, recruiting officer, to accept applicants for enlistment in the Utah National guard. Men will be given preference to enlist in their home companies, as far as there are vacancies.

Forty additional men are needed for field artillery of the regular army. All registered applicants must furnish a letter from the chairman of their examining board, stating they have not been notified to report for examination.

The War After the War

NEARER and nearer the war is coming to be a personal reality, whether it continues a year or stops tomorrow, it has developed demands on personal efficiency that put the "saver" ahead of the "waster."

Right now every person must comprehend the importance of preparing for the business contests of the future by making savings a regular duty. The opportunities in "the war after the war" will go to the prudent and the demands for progressive foresighted thinkers will be far above the average.

Each should take a warning from the fact that he has had to let opportunities go by in the past on account of unpreparedness, and prepare now for the advantages that will come after the war.

Begin today to regularly save something—no matter how little. Let the trainings of saving keep you prepared for future progress.
