IF TOO FAT GET FRESH AIR

How You May Reduce a Pound Daily and Improve Health Amazingly.

Lack of fresh air, it is said, weakens the oxygen-carrying power of the blood, the liver becomes sluggish, fat accumulates, the heart action becomes weak, work is an effort and the beauty of the figure is destroyed.

Don't wait until your health is ruined through carrying around a burden of unsightly and unhealthy fat. Spend some time daily in the open air; breathe deeply, and get from any druggist a box of oil of korein capsules; take one after each meal and one before retiring at night, also following the other simple directions that come with the box.

Wash yourself every few days and keep up the treatment until you are down to normal. Oil of korein is absolutely harmless, is pleasant to take, helps the digestion, and even a few days' treatment is likely to show a noticeable reduction in weight. This system has succeeded when other remedies, etc., have failed. It is the delight of those who wish to improve their figure and acquire younger appearance.—Adv.
