GUATEMALA IS NOW DESTROYED

Eighty Thousand Rendered Homeless by Earthquake Shocks of Great Force.

SAN SALVADOR, Dec. 30.—Guatemala City, capital of the republic of that name, has been completely destroyed by an earthquake. Many persons were killed in the disaster, some in their homes and others in the street. The Colon theater, which was filled with people, collapsed. There were many casualties among the audience. Various hospitals and asylums and the prisons were badly damaged and many patients and prisoners were killed. The railroad depot, sugar mills, post-office, the American and British legations, United States consulate and all the churches in the city have been leveled. Deep fissures opened in the middle of the city. The inhabitants in panic have fled from the capital. More than 80,000 persons are homeless. The stock of provisions in the city is scant and aid is required promptly. The Salvadorean government has suspended the official New Year celebration and entered into mourning in sympathy with Guatemala.

BRIEF DISPATCH ANNOUNCES THE AWFUL DISASTER

WASHINGTON, Dec. 30.—The series of earthquakes began Christmas day and culminated last night in violent shocks which completed the work of destruction. Following is the brief dispatch which brought the news of the catastrophe. "Bad earthquake yesterday finished the work of others. Everything in ruins and beyond description as a result of last night's shock. One hundred and twenty-five thousand people are in the streets. Paris of the country are very cold and windy. Tents are needed badly. Quite a number killed yesterday by falling walls."

The machinery of the American Red Cross has been set in motion to relieve the earthquake sufferers. In response to an appeal for assistance from Alfred Clarke, chairman of the Red Cross chapter at Guatemala City, a preliminary appropriation of \$10,000 has been authorized for the purchase of relief supplies.

Materials for temporary shelters are being assembled, but mildness of the climate in the devastated region minimizes fears of suffering likely to be caused by exposure.

At a full port large quantities of flour, potatoes, crackers and other staple foodstuffs as well as disinfectants and stores of galvanized iron for temporary buildings already are being loaded to sail for Puerto Barrios, on the east coast of Guatemala.

Earthquakes have been prevalent in Guatemala since the day after Christmas, when shocks were general throughout the republic. With each recurrent shock the damage in Guatemala City, the capital of the republic, has grown more extensive. Last Thursday it was reported that from ten to forty persons had been killed in the disturbances of the previous night, while dispatches of Friday and Saturday indicated that 80 per cent of Guatemala City had been demolished and that thousands of persons were homeless.

Martial law had been declared and good order was said to be prevailing. Guatemala has been the scene of many disasters, the results of earthquakes. Since the settlement of the country in 1522 there has been more than fifty volcanic eruptions and in excess of 600 earthquakes. The original Guatemala City was destroyed in 1541 and 8000 of the inhabitants were killed by a deluge of water from a near-by volcano, which was rent by an earthquake. The second capital was destroyed by an earthquake in 1773. The houses of the present capital were built low in consequence of the liability to earthquakes.

Guatemala City has a population of nearly 100,000. It is situated on a plain at an elevation of 4850 feet above sea level. In the great square stood the old vice regal palace, the cathedral and archbishop's palace and government offices. The capital is the center of the trade of the entire republic.

DROPS DEAD BEFORE AUDIENCE IN TEXAS

HOUSTON, Texas, Dec. 29.—With a burning denunciation of Germany for its atrocities against Belgium and a plea for preparedness on his lips, Colonel Charles Bigelow of New Haven, Conn., known over the world as a traveler and lecturer, dropped dead before an audience of more than two thousand persons at the city auditorium here this afternoon. He had been talking for nearly an hour. Colonel Bigelow, 62 years old, returned from the battlefields and war-torn lands of Europe but a short time ago and his lecture here was to arouse the American people to the realization of the war.

His last words were: "Lord Roberts seven years ago urged England to prepare for war. They laughed at him and threatened to take his pension away from him for his utterances. England thought she was safe." The body, accompanied by Mrs. Bigelow, will be shipped to New Haven Monday for interment.

Dorothy Dix Talks NEW YEAR'S RESOLUTIONS

By DOROTHY DIX, The World's Highest Paid Woman Writer

Of course you individually do not need to turn over any new leaf at the beginning of the new year. You don't claim to be perfect. You may have a few little weaknesses—if you want to call personal characteristics weaknesses—but nothing that anyone could object to who isn't a groucher, a crank and overly critical, and heaven knows you're a million times too good for the people with whom you have to live! So there's really no reason for you to make any New Year's resolutions to live a better life the coming year but there are lots of people who could be benefited by wiping off the slate and taking a fresh start. Don't you wish, for instance, That your husband would resolve: To take as much interest in his home during the coming year as he does in his business.

To treat you with as much consideration and politeness as he does his best customer. To watch what his children are doing and thinking as closely as he does what his clerks are doing and thinking. Don't you wish that your husband would resolve not to take out on his family all the nerves, irritability and general cussedness that he is afraid and ashamed to show to the outside world? That he wouldn't say things to you that he wouldn't dare say to any woman who had an able-bodied brother, or to his cook or stenographer who could give notice and leave.

That he wouldn't take everything you do for him as a matter of course and without so much as a thank you; that he wouldn't row over the bills every month and act as if you had eaten every particle of the food that came into the house, and worn all the clothes, and monopolized all the light and heat, and occupied all the furniture. Don't you wish that your husband would help you to make a happy home by being cheerful in it and interested in it—by being human instead of just a check book, or a tyrant before whom the whole household trembled. That he would resolve to pay you three hundred and sixty-five compliments, each one of which would make a happy day for you. That he would resolve to get acquainted with his children and win their confidence so that he might give them the help and guidance that they need so sorely and that only a wise

time or wearing the latest fashion. That they would teach all of their children obedience, regard for the rights of others, the nobility of work, and how to speak the truth and fear God. Don't you wish that all men and women would resolve to make this coming year the best year of their lives? Twickenham, England, has now five horse butcheries, owing to the influx of Belgians to that district.
