## "OLD TIGER" CLEMENCEAU BRINGS TO TRIAL FORMER FRENCH OFFICIALS FOR BETRAYAL OF REPUBLIC

Left—Ex-Premier Caillaux (above) and ex-Minister of the Interior Malvy. Center—"Old Tiger" Clemenceau. Right—General Sarrail (above) and Bolo Pasha.

"Old Tiger" Clemenceau, premier of France, has indicated his determination to bring to a reckoning the former officials of the republic who, it is charged, betrayed France and were responsible for the ruin of Rumania. Ex-Premier Caillaux is about to be tried for his life before a military tribunal on charges of treasonable intercourse with Germany in Switzerland. Louis J. Malvy, Caillaux's minister of the interior, resigned because of attacks charging him with treason. Leon Daudet, owner and editor of the Action Francaise, fearlessly exposed Malvy and Bolo Pasha, who is held as a spy in Paris. General Sarrail has been recalled from Salonica, probably to be tried for his life and at least to face court martial. He is charged with failing to obey orders for a drive on the Germans, Austrians and Bulgars which might have saved Rumania.

## RANGE PROBLEM TO BE DISCUSSED

Utilization of Same Ranges for Both Sheep and Cattle Proposed.

DOUGLAS, Wyo., Jan. 11.—Utilization of the same range for both sheep and cattle was advocated before the Wyoming Wool Growers' association in annual convention here today by John H. Hatton, assistant district forester, of Denver, Colo. Mr. Hatton declared he not only believed such dual utilization of range possible but "what appears to be our largest remaining possibility of turning out a maximum national forest product in beef, mutton, wool, pelts and hides."

"I am well aware that to mention this subject to the average cattleman and to many sheepmen is flaunting the red rag," he said, "but I am personally convinced we are not going to get the highest use of our mountain pastures until we get clearer vision on this subject. With the control we have I believe it is possible and the time is not far distant when we will see more and more of this kind of range use."

The forest service began its preparations of war utilization of the forests four days after war was declared, Mr. Hatton said. He urged the "open" or "bedding out" system of herding sheep as having been proved to produce lambs weighing 4 1/2 to 7 1/2 pounds more in a three or three and a half months' grazing season. This also improved the carrying capacity of the ranges from 10 to 50 per cent, he asserted.

Experiments in pastures and corrals for lambing have shown a profitable increase in the lamb crop, he declared, as well as labor economies and a reduction of losses from predatory animals.

Proper salting of the ranges, to keep cattle well distributed, eradication of poisonous weeds and grazing certain lands infested with poisonous plants with sheep also were advocated by the forester as measures tending to increase production on a given area.

"During the season of 1917," he said, "230,000 emergency sheep and 130,000 emergency cattle were provided for on the national forests of the west. The increase on Colorado, South Dakota, Nebraska and some Wyoming forests, he said, was 8 per cent on cattle and 7 1/2 per cent on sheep, approximately. Increases nearly double this amount were hoped for this year, he said. These increases were made possible by opening ranges previously considered inaccessible, through application of knowledge proved in experiments and through better co-operation of stockmen.

## ROCKEFELLER'S TAX TO BE INCREASED

NEW YORK, Jan. 11.—An increase in the personal property tax of John D. Rockefeller, who now pays on an assessment of \$5,000,000, is suggested by Mayor Hylan in a letter to the president of the tax board, made public today.

The mayor stated that real estate was bearing an undue share of the burden of taxation in the city, and he also suggested that the city might follow the government scheme of "taxing excessive wealth that comes from excessive incomes."

**HAD THE GRIP THREE WEEKS.** With January comes grippe. Lingering colds seem to settle in the system, causing one to ache all over, feel feverish and chilly, tired, heavy and drooping. Mrs. Lizzie Tyles, Henderson, Ky., writes: "My daughter had grippe for three weeks. I had the doctor and bought medicine and none of it did any good. I gave her Foley's Honey and Tar and now she is all right. I have told all my friends about it." Insist on the genuine Foley's Honey and Tar.—A. R. McIntyre Drug Co.—Advertisement.

## PURCHASING OPTION ON WOOL IMPORTS

WASHINGTON, Jan. 11.—All wool to be imported into the United States is made subject to a government temporary purchasing option under regulations issued by the war trade board and effective Monday. The order provides also that the government shall be authorized to purchase at any time after the expiration of the option any quantity of wool left unsold by the importer. Compliance of importers to the terms of the regulations will be required before imported wool will be released to them.

Prices for each consignment are to be determined by a committee appointed jointly by the government and the wool trade, using as a basis the price, less 5 per cent, established last July 30, by the valuation committee of the Boston Wool Trade association.

## SAVE OILCLOTH

When table oilcloth outlives its usefulness, let it soak in boiling water in the boiler on wash day to loosen the oil coating. One may have to do this several times before it loosens. Then take a scrubbing brush and scrub off loose particles; rub a little on the wash board. Result will be a nice piece of cotton cloth.

## Looking for enemy fliers.

This is possibly the most ingenious device of the many that have been devised to remove the menace of attacks by enemy aircraft. The British official photo shows a novel adaptation of the light machine gun to anti-aircraft work. A wheel is fixed to a pole and the gun attached to the rim of the wheel so that it points almost straight up and can be speedily swung to any position to keep the speeding plane in range.

In a statement today, General Lukhvitzy said he hoped to be able to recruit many more Russians and that there were many numerous members of the original two brigades who were still in France and were desirous of joining the legion "showing that all Russians should not be confounded with those who are serving the interests of Germany." A number of Russian women have asked that a woman's battalion of death be formed to fight on the French front, but the general said this wish could not be realized.
