**CHICKEN RAISING IS MOST ESSENTIAL**

The United States department of agriculture, by means of bulletins received by Postmaster W. W. Brownings, is entering into the "Poultry Raising Movement" with an earnestness that is calculated to put a flock of hens in every American home.

Every chick hatched is an egg taken from consumption and every chick lost is an egg and a quantity of feed used to no purpose. Every chick raised adds either eggs or meat to the nation's food supply. The greatest care should be taken with baby chicks to prevent loss.

These and similar suggestions are a part of the warnings and suggestions being distributed broadcast among young Americans in an effort to help conserve the meat supply and foods generally. Any of the bulletins may be obtained free on request to the U. S. department of agriculture at Washington.

Among the subjects discussed in the bulletins are the following: Important Poultry Diseases; Poultry House Construction; Natural and Artificial Incubation of Hen's Eggs; Natural and Artificial Brooding of Chickens; Community Egg Cycles; Simple Trap Nest for Poultry; Squab Raising; Duck Raising; Geese; Turkey Raising; Mites and Lice on Poultry; Standard Varieties of Chickens; Capons and Caponizing; the Guinea Fowl; Marketing Eggs by Parcel Post; Back Yard Poultry Keeping, and others.

**SHUPE BROTHERS ON TRIAL BEFORE A JURY**

The trial of the grand larceny case, against Boyd and Royal Shupe for the alleged theft of seven head of sheep valued at \$125, was started this morning in Judge A. E. Pratt's division of the district court. The defendants are represented by Attorney Wade M. Johnson and R. C. Gwilliam and S. P. Dobbs, district attorney, is representing the state.

It is charged that the two Shupes stole the sheep from a band owned by a Spanish Fork man and that they sold the animals to a meat packing company in Ogden valley. When the herd started to investigate, he is said to have found the hides at the slaughter house and inquiry was rewarded with the information that the sheep which formerly wore the hides had been sold the butcher by the Shupes. A complaint was worn to by the owner and the arrest of the young men followed.

This morning was consumed in getting a jury of eight men and in taking testimony of two witnesses.

**WORLD'S MARKETS**

**NEW YORK, Feb. 26.**—Special stocks, notably those comprising the war group, were one to two points higher at the opening of today's market, presumably in consequence of overnight advices from abroad. Shipping made little response, St. Paul issues displaying further heaviness. Much of the early trading over Liberty bonds were inactive but steady.

Dealings diminished perceptibly after the first advance with fractional reactions in leaders due in part to further pressure against St. Paul and General Motors. Later prices ranged higher than at the outset, marked strength being shown by Baldwin locomotive, Texas company, Industrial Alcohol, Sumatra Tobacco, Hide and Leather preferred, Beet Sugar and Pittsburgh Coal. Minor specialties and low priced equipments also improved. Liberty 3 1/2's sold at 97.94, first 4's at 97.29 and second 4's at 97.74 to 96.90.

**Big Cottonwood Consolidated Market's Feature, Sells 17,000 Shares of Stock on the Advance.**  
 Big Cottonwood Con. a well known Cottonwood property was the market's feature Tuesday, making an advance from 1 1/2 cents to 3 cents, and sold 17,000 shares of its stock on the way up. This issue has been assessed rather heavy the last year, but from the last reports from the mine things are in fine shape, and a big advance is looked for most any time in the near future.

Bay State and Earl Eagle, two issues that have not shown any life during the winter, seem to be on the verge of a rise, the former selling 2000 shares of its stock at 1 cent per share, while the latter brought 2 cents for the 5000 shares of its security that changed hands. Lehl Tintic remained very steady, selling 1000 shares of stock at the new high of 4 1/2 cents.

Mineral Flat and May Day were two more stocks to look good, the former transferred 5000 shares of stock at 3 1/2 cents, and although the latter did not make any sales it went up in price, and closed asking 3 cents a share.

New Quincy and Tintic Standard were two of the few issues to take the bear slant of the market, and New Quincy closed selling at 9 1/2 cents, while Tintic Standard brought only \$1.40 on the close.
