

SUGAR CARDS GO INTO EFFECT IN OGDEN ON MONDAY AND ALL MUST HAVE THEM TO GET SUGAR

The sugar cards put out by the food administration have arrived in Utah and the program will go into effect Monday. Beginning Monday morning, the housewife who wishes to go to a grocery store and purchase a large quantity of sugar will be required to fill out a card. The card provides for the purchase of 100 pounds of sugar for canning purposes, and, if more than that amount is desired, a special permit must be procured, although the government desires that as much canning and preserving as possible be carried on, and the canning of fruit in quantity that will require more than 100 pounds of sugar is encouraged.

SEASON OF 1918 No family can purchase more than 100 pounds of sugar, during the season, for canning and preserving without a special permit from the state food administrator. Sugar Certificate for Domestic Canning and Preserving. I hereby declare to the United States food administration that I have purchased from (Name of Dealer) (Address of Dealer) an amount of \_\_\_\_\_ pounds of sugar for my use in preserving and canning purposes only. I agree that I will not purchase sugar for the above purpose from any other dealer. I hereby promise, in consideration of the above, to endeavor to limit the use of sugar for all other purposes in my household to three pounds or less per person per month for the duration of the war, and I further promise that should the above allotment be more than any canning requirements I will hold the excess subject to the order of the food administration.

JUGS OF WINE GROW ON THE TREES OF OGDEN

William Blanchard was given a suspended sentence of thirty days by Judge George S. Barker in the municipal court this morning, when it was learned that the liquor that made Blanchard drunk was found suspended in a tree. Blanchard faced the court this morning on a charge of being drunk yesterday afternoon. He was arrested about 3 o'clock in the afternoon on Washington avenue, near Twenty-fifth street, and locked up in the city jail. Sergeant J. H. Kelliker and Detective Grant Spry went to his home and found a gallon jar partly filled with port wine. They also found a sister-in-law of Blanchard at the place, who told them that her little boy and a neighbor boy had found the jug of wine in a tree in a vacant lot between Grant and Lincoln avenues and between Twenty-ninth and Thirtieth streets.

OGDEN CONSERVATION COMMITTEE HAS GOOD WEEK

Wheatless recipes were the topic considered yesterday at the lesson given at Weber academy when the conservation committee met. Printed recipes were given out and a keen interest was expressed by the women, who learned how to save the pocket-book as well as wheat flour. The work given has been just what the women have wanted since the use of substitutes has been the most vital subject before the housewives. America, as a country, is blessed with the patriotic privilege of using these substitutes without any wheat flour, as was shown yesterday. Did you know that there were no ovens in the homes in France and that everyone must eat bakery bread which is made of the wheat flour mixed with these substitute at the mill? Hence, they do not have the opportunity to make the various combinations as do Americans. Worse still, they could not buy fuel, if they had kitchens for baking. And you know the bakeries could not make a durable raised loaf to carry to the front from bakeries behind the lines from anything but wheat flour. Here is a Soldier's Letter. Roy E. Carver, of the medical department, 119 Field Artillery, writes in an interesting way of food conditions and the country in France. He says, in part: "The people here buy food only when they have a food card. If they have no food card, they can't buy. Soldiers are not allowed to buy any food in a city. They have to buy what extra they want in camp where there is an extra place provided for that purpose. Then they can buy only 8 pence worth at a time. Here is one place where money will not talk. "Take my tip and tell the people not to waste food. They don't see why now, but if they were placed as these foreign countries are, they would realize it then. You see the people are allowed only a Soldier's Letter, that the soldiers can have more. We get good beautiful stuff to eat here. I like the war bread better than I do white bread. It is something like brown bread and sure is nourishing." Poor Belgium. The people of Belgium are living on a relief ration. Over 3,000,000 of them stand daily in bread and soup lines in a line four hours before the relief kitchen. They have stood in these long soup lines every day for 3 1/2 years. But they do not complain. They only ask that the soup and bread be there every day. They depend upon America. These are just a few of the reasons why we must send wheat. But you should have tasted the good bread made with the substitutes and most of them 50-50 too. As one woman said "I wouldn't miss these lessons for a good deal." Here are some of the recipes used by Miss Ladwig, the first day. Potato Bread. Medium sized leaves: Bake six medium sized potatoes. Potatoes can be boiled, drained and mashed over heat. When luke warm add 1c wheat flour—work into potato and then 1/2 cake compressed yeast dissolved in 2 cups of warm water. Let stand 2 hours or until light and very soft. Then add 1 teaspoon salt and remaining flour about 4 cups. More may be needed. This should be kneaded until it will not stick to the board and is blistered. Let rest 1/2 hour and put into pans—double bulk and bake 1 1/2 hours in medium oven. This recipe uses no liquid because of the large amount of potato. Long kneading and good active yeast will make this an excellent bread. Corn Flour Bread. 1 teaspoon salt 1 teaspoon fat 1/2 cup syrup 1/2 pint live yeast or 1/2 yeast cake 2 cups rice flour 3 cups wheat flour. Make batter of yeast, salt, fat, etc. Beat well—add rice flour and wheat flour. Knead 20 minutes, let rise until treble bulk, mould into shape, put into pan until light—but not too light, else it will fall in oven. This must be more stiff than the ordinary wheat loaf and bake longer—also 1 1/2 hours. Rolled Oats Bread. Scald 1c rolled oats or use cooked oatmeal. When luke warm add 1 tea-

BIOLOGICAL SURVEY EXPERT PLANS CAMPAIGN

B. B. Richards, of the United States biological survey, is at the headquarters of the forestry office today conferring with officials concerning the plans to check the ravages of rodents that destroy crops on range feeding grounds. Mr. Richards has spent considerable time in Wyoming and other states to the east on this work and states that an effective plan for the extermination of such pests has been worked out by his department, but there is not enough money appropriated to carry it to the desired extent. Mr. Richards states that in Wyoming the greatest pests on the government feeding ranges are the prairie dog and the pocket gopher, both of which animals have proved to be very destructive. The work in Wyoming has covered about 4,000,000 acres, but that is only a small part of the ground that ought to be covered in order to make the work effective.

WORLD'S MARKETS

NEW YORK, June 8.—A few substantial advances, mainly in specialties and other speculative issues, accompanied the sluggish opening of today's stock market. Important stocks in the railway and industrial sections recorded only nominal changes though mostly upward on the usual week-end covering movement. General Motors advanced four points in the first half hour with 1 to 1-1/2 for Studebaker, Baldwin Locomotive, Industrial Alcohol, Sumatra Tobacco and Hide and Leather preferred. Liberty bonds were steady. Pools directed today's dull and superficial stock market, confining their activities largely to motors, tobaccos and a few of the speculative issues at gross advances of 1-1/2 to 5 points. Seasoned industrials were moderately strong and rails hardened after early apathy. Profit taking caused reactions of 1 to 2 points among specialties in the later part of the session. The closing was strong. Sales approximately 200,000 shares. Liberty bonds recorded decided improvement, 3 1/2-2's selling at 99.66 to 99.72, first 4's at 94.80 to 95; second 4's at 94.40 to 95, and 4 1/4's at 96.62 to 97.70.

CHICAGO QUOTATIONS

CHICAGO, June 8.—Corn moved upward in prior today largely as a result of buying in anticipation of small receipts and of increased cash demand later. Opinions prevailed that wheat would be given preference in the movement of grain from producing sections. The readiness with which offerings were absorbed made sellers cautious. Opening prices, which ranged from the same as yesterday's finish to 1-2c lower, with July 1.35 7-8 to 1.37 1-8, were followed by a material advance all around. Dealers in oats appeared to regard the bearish character of the government crop report as having been fully discounted in advance. Export inquiry was again in evidence. After opening 3-8c off to a like advance, the market scored a substantial gain, which provisions hardened owing to the strength of corn. Trade was light. Subsequently profit-taking and week-end adjustment of trades more than wiped out the gains in corn. Prices closed unsettled at the same as yesterday's finish to 1-2c lower with July 1.35 7-8 to 1.37 and August 1.38. Later a sag in provisions took place because of a sag in hogs.

UTAH STOCKS

Quotations Furnished Over the Private Wire of J. A. Hogle & Co., 2409 Hudson Avenue. The closing sales for June 8, 1918: American Con. Copper, 500 at 7 1/2-4c. Alta Tunnel & Trans., 1500 at 9 1/4-4c. CALL IS MADE FOR SHIPYARDS

W. H. Beckett, Sr., federal employment examiner in charge of the local federal employment bureau, states that the government is still calling for more machinists and moulders for the Bremerton, Wash., navy yards for shipbuilding. He says that more men are also wanted as general helpers under the call direct from Washington, D. C., which came through the local secretary of the civil service commission at the postoffice. The men for the contingent of general helpers must have a common school education and be able to take a physical examination.

TED JOHNSON WINS A MARATHON RACE

DENVER, Colo., June 8.—Ted Johnson of Salt Lake City, three times winner, today again won the annual championship Rock Mountain News marathon race from Littleton, Colo., to Denver. The distance is 10 2-5 miles made in one hour, six minutes and twenty-one seconds.

SCHOOL OPENS AT WEBER COLLEGE

With Eli Holton in charge, a calculating machine school has been opened at Weber normal college, and classes are being trained from 8 a. m. to noon each day. Students are being prepared for general business and government work.

BISHOP GLASS AT SACRED HEART

Pontifical high mass and feast of the sacred heart was celebrated yesterday at the Sacred Heart academy chapel, as a part of the commencement ceremonies for the graduating classes of the academy. The mass was celebrated by the Right Rev. Joseph S. Glass, C. M. D., bishop of the Salt Lake diocese. The ceremony was attended by Monsignor P. M. Cushman, V. G., Ogdens; the Rev. Father J. De Groot, C. S. C., South Bend, Ind.; Rev. Dr. Maloney, S. N.; the Rev. Father Joseph Sullivan, S. N.; the Rev. Father John Dunn, of Salt Lake, and the Rev. Father John Lagan of Ogdens. The sister's choir sang the mass, at the conclusion of which Bishop Glass delivered his address and during which he congratulated the sisters on their work. The bishop spoke feelingly of the present world crisis and told the students that the day should be one of thanksgiving. As the procession moved out of the chapel, the students sang a hymn for the preservation and victory of the soldiers of the allies.

VIEWING ECLIPSE AT GREEN RIVER

Mrs. Ralph Griffin, accompanied by her small son, Forest, departed this morning for Green River, Wyo., to witness the eclipse of the sun this afternoon. Mrs. Griffin went to Green River to avail herself of the instruments that have been established there for official observations.

SPEEDING CAUSES LECTURE BY JUDGE
