

Adjustment That Squares with Goodrich Performance

In practical usage on road and pavement, Goodrich Tires are to-day consistently delivering remarkable mileage, showing a strength and endurance which proves them the best tires the rubber industry has developed.

Knowing by actual performance what splendid service Goodrich Tires are giving, the B. F. Goodrich Rubber Company has taken a step frankly intended to induce every motorist to share the more mileage of its tires.

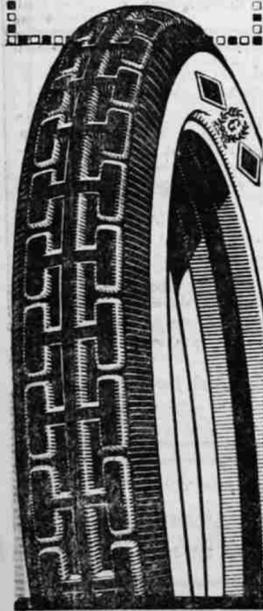

It has established this new adjustment mileage worthy of the proven durability of its tires—6,000 miles for Safety Treads—8,000 miles for Silver-town Cords, instead of the old adjustment of 3,500 for Safety Treads, and 5,000 for Silvertowns. The new adjustment holds good for all Goodrich Tires, including tires already purchased in the hands of user or dealer.

Go to a Goodrich dealer, and buy Goodrich Tires, sure that they will fulfill their mileage.

QUIET FOURTH BUT CROWDS GATHER AT RESORTS

Although Ogden witnessed an extremely quiet Fourth of July there were large crowds of people celebrating the day at all the pleasure resorts in the vicinity of the city.

A great crowd assembled at Lorin Farr park early yesterday morning and did not diminish during the day or evening until near midnight.

Many hundreds of citizens went out of the city by automobile and many more by the interurban trains, going to places of amusement or pleasure both north and south.

This is the second "dry" Fourth Ogden has experienced and the comments of the people who note the contrast of other days when men drank much liquor as a part of their celebration were to the effect that "prohibition is a wonderful thing."

BOOTBLACKS MAKE MUSIC AS THEY SHINE

One of the new and amusing stories of real life is told concerning a musical bootblack stand, by Paul Beemer, traveling representative of the Lion Coal company.

Mr. Beemer is well known in Ogden, which is his home town, as he was for many years the local passenger agent for the Union Pacific Railroad company.

The musical bootblack stand is in Omaha, Nebraska, and the stand is not only a bootblack stand where boots are blacked by black bootblacks, but there is a musical rhythm in the swish and brushes and cloths that keep the air filled with popular melodies.

Beemer on his travels happened into a shoe shining parlor in the packing house city and noted that the boss was a Greek, but the employes "cullid gentlemen."

This Greek business man, with a sense of commercialism that long ago had outgrown the banana stand, picked up a few tuneful bootblacks and installed them in this shining parlor.

As the customers came in the boys became accustomed to slapping out a tune with the brushes and cloths, each attempting to play a better tune than his brothers. And finally they had evolved a "shining" orchestra, for as the polish was laid on a tune was heard.

As the orchestra is drawing many customers and the Greek owner and director is happy. It is not expected that the orchestra will go into vaudeville and be known as the "Bootblacks' Orchestra" because there is a constant trickle of dimes brought to the till at the present stand.

Gladys Rich Is Enjoying Her Visit to Paris

Another fine letter has been received from Miss Gladys Rich, daughter of Dr. and Mrs. Ezra Rich, telling of her experiences in Paris. Miss Rich, who went to France as the Utah representative of the Federated Women's clubs, writes in Paris as follows: "Paris, France, March 2, 1919. "Dear Family: Well, I am still in Paris and beginning to worry for fear I shall have to stay here until summer, waiting to be assigned to a unit. Our conference ended Thursday and I was transferred from the canteen to the entertainment department and will go out on the road within the next week or so as accompanist in a group of five or six entertainers. In this way I shall be able to travel around considerably instead of being placed in one spot for so long at a time. Of course the life of the entertainer is generally a strenuous one, being on the continual move, but I don't think I will mind much and I am mighty anxious to see as much of the country as possible. The other girls have all been assigned to Biarritz, a big new leave area on the coast" of France, near Spain, where they have the Pyrennes for a background and the Bay of Biscay for a foreground. It is a wonderful

FIRE BREAKS OUT ON NATIONAL FOREST IN IDAHO

A report was received at the local office of the forest service this morning stating that a serious forest fire has developed on the Challis national forest in Idaho.

The extent of the fire was not made known. It was reported, however, that one of the ranger stations had been completely destroyed by the flames.

location and I would like to be going with him, but may get down there later on. The last two days we have been pretty busy, having interviews, making out an account and turning them in. However, we have managed with it all to do some sightseeing. Friday we went "seeing Paris" with about thirty doughboys in an open truck which the Y. M. C. A. furnishes with a competent guide, and we had a perfect circus. How in the world the boys can crab the "Y" I don't know, for they practically live off from it here in Paris. Of course we stood up all the way, hanging over the sides and the railings over the top. I never "toured" a city more efficiently before and it reminded me of the old times when we were all here together and you don't know how homesick I am to have you here with me again."

Garland Defeats Mountain Brand By Score 8 to 5

The "Mountain Brand" baseball team of the Ogden Packing & Provision company met defeat yesterday afternoon at the hands of the Garland nine by a score of 8 to 5. The teams have each won one victory and it is probable that another game will be played to decide which is the better team.

The batteries were as follows: Mountain Brand—Nelson, Scott and Painter. Garland—Lowell and Hunsacker.

Boat Filled With Bombs Found Tied To New York Dock

NEW YORK, July 5.—The police were notified today that a boat filled with supposed bombs was tied to a dock at 140th street and the North river. Inspector Egan, explosives expert of the fire department, and a detail of river police took possession of the craft.

When missing occurs in one cylinder at slow speed, while the firing is all right when the speed is raised, it is a good guess that the fault lies inside a spark gap in the plug of that cylinder.

Catarrahal Deafness cannot be Cured by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure Catarrahal Deafness, and that is by a constitutional remedy. HALL'S CATARRH MEDICINE acts through the Blood on the Mucous Surface of the System. Catarrahal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be removed and this tube restored to its normal condition, hearing may be destroyed forever. Many cases of Deafness are caused by Catarrh, which is an inflamed condition of the Mucous Surface. ONE HUNDRED DOLLARS for any case of Catarrahal Deafness that cannot be cured by HALL'S CATARRH MEDICINE. All Druggists & Co. Circulars free. F. J. Cheney & Co., Toledo, Ohio.
