CONCERT MASTER OF BOSTON DISMISSED
Symphony Trustees Claim He Did Not Comply With Instructions of Conductor
BOSTON, March 6.—Frederic Fradkin, concert master of the Boston Symphony orchestra, was dismissed by the board of trustees late last night. In a letter to Fradkin, Frederic P. Cabot, president of the trustees, said the dismissal came because Fradkin had failed to keep his written agreement in that he did not comply with the instructions of the conductor in reference to his department and order at the public rehearsal this afternoon. Fradkin did not rise at the concert when Conductor Pierre Monteux motioned to the orchestra to stand in acknowledgment of applause after the playing of a symphony. A few persons in the audience hissed when Fradkin remained seated. In explaining his failure to rise, Mr. Fradkin said tonight that he considered the applause was meant for the conductor and not for himself. A controversy between members of the orchestra and the trustees concerning salary increases resulting in an announcement that many members of the orchestra had affiliated with the American Federation of Musicians, came to a head at a concert last night when Conductor Monteux is said to have refused Fradkin the use of his dressing room. A committee representing union members of the orchestra issued a statement upholding the concert master and expressing their appreciation for the work he had done in their behalf.

TRADING FAIRLY ACTIVE ON MINING EXCHANGE
New Quincy a Heavy Trader; Tintic Standard Changes Hands at \$5.80
The trading this morning on the Salt Lake Stock & Mining Exchange was a trifle more active than it was yesterday, with prices about steady. New Quincy was very heavily traded in and was practically the only stock on the board to sell off any. It opened at 24 cents and selling as low as 23 cents, closing with this price bid for it. Black Metals sold at 12 and 12 1/2 cents, Silver Shield continued to show strength on the opening, it changing hands as high as 56 cents but closed with only 54 cents bid and 55 cents asked. Tintic Standard sold at \$5.80. Selling changed hands from 14 to 15 cents and Eureka Lily brought 22 1/2 and 24 cents.
(Quotations furnished over private wire J. A. Hogle & Company, Eccles Building.)

WORLD'S MARKETS
NEW YORK, March 6.—Trading in stocks was very light, the stormy day opening of the session and causing serious interruption to communication. Initial reactions were due to buoyancy of oils, but these were overcome when motors and their substitutes strengthened. Features of that group included General Motors, Stutz and Keystone Tire at gains of 3 to 4 points. Metals, leathers and several obscure specialties also rose 1 to 4 points, but steel, equipments and rails recorded only nominal changes. The closing was strong. Sales approximated 225,000 shares. Foreign exchange was generally under yesterday's final quotations.

BACKWARD CHILDREN MAY BE CARED FOR BY THE STATE

A letter from State Public Health Inspector E. G. Gowans, indicating that the state is taking an active interest in the welfare of boys and girls of low mentality, has been received by Superintendent B. A. Fowler. The suggestions of the national committee for mental hygiene, which presumably will be adopted here, are as follows:
"Following are suggestions by the national committee for mental hygiene which are said to be valuable in promoting and preserving mental health:
"Give your child opportunity for a variety of wholesome activities and interests.
"Train your child to work hard in some regular occupation suited to his ability and talents, but to avoid fatigue by alternation of work and rest.
"Train your child to give attention to the present situation rather than to the future.
"Train your child to strict obedience in a few important matters and let him alone in regard to the unimportant things.
"Avoid conditions that tend to produce overstrain of precocity. The special business of a young child is to be a child—to grow and to play with other children.
"Protect your child from shocks. Do not frighten him yourself or let other people do so.
"Encourage frankness and directness.
"Give your child a variety of well-cooked wholesome food in ample quantity at regular intervals.
"Train your child to avoid drugs and stimulants of all kinds.
"Train your child to healthful habits of sleep in fresh air, giving opportunity for at least nine hours, and for more than that before the age of twelve.
"If your child shows any difficulty in adaptation—sleepless, emotional storms, fears, irritability, persistent delinquency—consult a competent physician at once.
"Take advice of a competent person concerning the peculiar, sensitive, or nervous child, in order to correct a possible unfavorable inheritance by proper education and environment.
"The best method of training is by example.
"One boy applied five times for a working permit last month," said Superintendent Fowler. "The boy worked at easy jobs until he had a few dollars then loafed, it was said, always saying he was dissatisfied. This is the kind we want to train in the foregoing manner," said the superintendent.
