## NEW YORK REPUBLICAN STATE CONVENTION NAMES ROOSEVELT

(Continued from Page One.)

shooter's political schemes were the bad ones. "And now those who cry 'Live le Roi' are good Republicans and those who are putting patriotism above all else and therefore will not join the cry, are bad Republicans.

Cox and Lorimer. "While under the table I touch Cox's feet, I cannot with Lorimer sit down and eat. Fellow citizens of New York, has the correspondence with Harriman passed over your minds? While the firm was Roosevelt and Harriman and not Roosevelt and Lincoln, the shooter an railroad man was engaged in a joint plan to get money in the firm, the senior members of the firm assumed Harriman that they were both practical men and had better keep the partnership under cover.

"Every generation gives opportunity to the patriotic and brave to keep our ship of state headed in the right direction and all of us, business men, farmers, laboring men, professional men and, yes, even the women of the country may now, if they will, join in the great fight begun in the convention to prevent a third term or something worse."

**Roosevelt Enjoyed It.** No one enjoyed Mr. Gruber's speech more than Mr. Roosevelt, who chuckled repeatedly. The delegates hissed Gruber's statement that it would be found that two-thirds of Roosevelt's strength in the convention came from federal office holders.

At one point the jeers and cat-calls became so great that Col. Roosevelt, leaping to his feet and waving his hands at the delegates, cried:

"I ask a full hearing for Col. Gruber."

The speaker continued, but hisses almost drowned his attacks on Col. Roosevelt.

**Speaks for Roosevelt.** Col. Gruber concluding, Comptroller Prendergast of New York was recognized to speak for Col. Roosevelt.

Mr. Prendergast congratulated Col. Roosevelt on Col. Gruber's speech. He said he knew of nothing better to show the line of cleavage between Col. Roosevelt's friends and other people in this convention. The speaker assailed the action of the state committee last night.

A roll call, on the chairmanship was ordered at 2:22.

Chairman Woodruff interrupted the roll call at 2:45, saying that at the rate the roll call was being made it would take an hour to complete. He suggested that the call be concluded in the regular way, but the delegates protested that each man cast his vote as an individual.

## BEGIN TRAINING FOR OGDEN BOUT

Gene McGovern, the clever little featherweight, who will meet Jimmy Reagan, who recently knocked out "Peanuts" Sinclair at Ogden, started training for the bout Monday. McGovern has secured training quarters at the fire headquarters in Salt Lake. He spent an hour on the road Monday and also began his gymnasium work and sparring with Eddie Johnson. He will also box with two other boys during his training.

Reagan also began his training Monday at the Sanitarium at the mouth of Ogden canyon.

Ben Smith, manager for McGovern, says his man is in the best of condition and a short period of training will put him at his prime. He will fight at 122 although he can go down to 116. Smith's brother, Rube Smith, the fighter, will be here for the fight and will be at McGovern's corner of the ring. Ben Smith is well known in ring circles, having at different times managed Ray Flynn, Frank Conley and Sam Langford.

The winner of the McGovern-Reagan bout will be matched for a fight with Abe Attel.

## SHOE MACHINE TRUST DEFEATED

Boston, Sept. 27.—Official announcement of the settlement of the fight against the United Shoe Machinery company and the United Shoe Machinery plant, president of the United Shoe Machinery company, which substituted the machines of the United company last spring by Wonder Worker machines, has been made here by Louis A. Coolidge, treasurer of the United company. Mr. Coolidge's announcement says:

The litigation between Thomas G. Plant and the United Shoe Machinery company has been settled. It is at all certain that any further statement than this will be made, and at the moment it would appear as if there would be none.

The United Shoe Machinery company was practically without a rival until two years ago, when Thomas G. Plant, with factories in Lynn, Haverhill and Roxbury, declared war against it, claiming that contracts under which it was alleged a manufacturer was permitted to use no machinery other than that of the United company, were illegal. Inventors were placed at work, with the result that last spring the Plant factories replaced the machines of the United company with those which the expert mechanics had produced.

The United company three months later began suit for breach of contract by the Plant company. In connection with the preliminary skirmishes in the courts, the statement was made in public interviews that the fight was based on the alleged illegality of the contracts and would be carried to the United States supreme court. It was understood that the moral support of practically every shoe manufacturer, whose contracts with the United company were said to call for a royalty of 2 2/3 cents on every pair of shoes, was with Mr. Plant and that the litigation was in his prospect.

The quotations of the United Shoe Machinery dropped nearly 20 points following the beginning of the suits. Rumors of a pending settlement became current last week.

## STATUE TO STONE WALL JACKSON

Charleston, W. Va., Sept. 27.—A bronze statue of General Thomas Jonathan (Stonewall) Jackson, will be unveiled today on the state capital grounds by the local Daughters of the Confederacy chapel here.

The statue represents Gen. Jackson with one hand on his sword and the other grasping his field glasses. It is the first statue to be erected in the West Virginia capital grounds. Brigadier General S. S. Greene will present the monument to the daughters. The oration of the day will be by General B. H. Young, commander of the department of Tennessee.

## THEY ARE ADVERTISING ROCHESTER, N. Y.

New York, Sept. 27.—Three Y. M. C. A. athletes from Rochester, N. Y., have just arrived in New York City on the first leg of a trans-continental walking tour, undertaken at the expense of the Rochester Chamber of Commerce. They will make their way in the latest fashion from New York to San Francisco, declaring the superiority of Rochester through the towns through which they pass.

## MASSACHUSETTS PRIMARIES.

Boston, Sept. 27.—It was not expected that the Democratic primaries held throughout the state today for the election of delegates to the states, congressional, county and legislative conventions would determine definite

ly the name of the party's candidate for governor, for only a few of the delegates to the Faneuil hall convention, October 6th, were pledged. It was expected, however, that the primaries would settle the congressional contest in the ninth, tenth and eleventh districts, where direct nominations prevailed. Interest, therefore, centered in these three districts, where the present representatives, John A. Kellher, Jos. O'Connell and Andrew J. Peters were opposed for re-election.

## GIRL IN DISTRESS NOT IDENTIFIED

New York, Sept. 27.—Waiting until her returning memory will enable her to tell who she is, or friends who read of her plight, a young woman of refinement and apparent wealth is detained today at Lincoln hospital. By all the outward signs, clothes, manner and conversation, the aphasia victim is a person well above the average social station, but so far she has not been able to give the slightest clue to her identity or even to remember whether she lives in New York. She wears several valuable gems.

Showing evidences of mental distress, the girl wandered into the Bronx branch of the Y. M. C. A. The police theory is that she came into the city on some suburban train and in confusion alighted at a Bronx station.

## BRICKLAYERS ARE OUT ON STRIKE

New York, Sept. 27.—Not a brick will be laid during the coming week on any of the important building operations under way in New York City.

A lock-out of 10,000 bricklayers for alleged violations of their agreement in ordering strikes against a member of a builders' association went into effect at daybreak today. The employers will not try to fill the places of the men for a week and during that time building operations will cease so far as bricklayers' work is concerned.

If at the end of that period the situation remains the same, bricklayers will be brought here from all parts of the country. The pay is an attractive inducement, as bricklayers are paid 70 cents an hour by the members of the Builders' association for ordinary work, with many opportunities for extra.

## MRS. MARY J. PITT DIES IN CALIFORNIA

Salt Lake, Sept. 27.—Mrs. Mary J. Pitt, a pioneer settler of Utah and mother of the former chief of police, the late Thomas D. Pitt, died Saturday of paralysis in San Francisco, at the home of her daughter, Mrs. Virginia Taggart. News of the death was received in Salt Lake Monday morning with the information that the body would arrive here early Wednesday, for burial in the Pitt family lot in Mount Olivet cemetery.

Mrs. Pitt was the widow of Thomas D. Pitt, Sr., a pioneer of the early '60s, who died in New York some forty-two years ago. Mrs. Pitt was born in Saco, Me., on August 24, 1828, and lived in Utah for nearly fifty years. After the death of her husband she made her home for many years at the Cullen hotel, leaving there last January to take up her residence with two daughters in San Francisco—Mrs. Taggart and Mrs. Kathleen Pitt Heywood, wife of Ben Heywood of the California city.

Three weeks ago Mrs. Pitt visited her sister, Mrs. George Lufkin of Logan, and also spent a few days at Brigham City. She planned to come to Salt Lake to visit her daughter-in-law, Mrs. Thomas D. Pitt, Jr., widow of the former chief of police, but her impending illness caused her to return to California.

Besides the two daughters in San Francisco, Mrs. Pitt is survived by a son of a former marriage, Frank Edgar, living in Los Angeles. Mrs. Pitt was a daughter of the late James Townsend, proprietor of the first hotel in Salt Lake, the Townsend house and also proprietor of the Warm Springs resort. Mr. Pitt crossed the plains in an ox train and was well known among the early pioneer residents.

Within fifteen months Mrs. Pitt was bereaved of her three sons through death, the last to be summoned being Thomas D. Pitt, who died here on December 20, last. The other sons were William Edgar, who died in British Columbia, and James T. Pitt, who died in Goldfield, Nev.

## TYPHOID CAUGHT AT KANSAS CITY, KAN.

Heber, Sept. 26.—The second death from typhoid fever contracted around Kansas City by the men going east with sheep from Heber this year, occurred last evening, when David Young, the twenty-year-old son of Mr. and Mrs. David Young, died after being sick for three weeks with the dreaded disease. Mr. Young went east with Edward Jones, who died Saturday, and both returned home sick with typhoid fever, and now death has claimed both of the young men within two days. The funeral of Mr. Young will be held at Heber, Wednesday afternoon.

## BIG MONEY FOR RANCH; 2100 ACRES, \$125,000

St. Anthony, Ida., Sept. 26.—One of the largest real estate deals which has taken place in Fremont county in years was that of the purchase of the Highland ranch at Squirrel by County Commissioner Orme. The purchase price was \$125,000, and the farm consists of 2100 acres, 600 acres of which are under cultivation. Mr. Orme will use the ranch for sheep and cattle raising.

## GRAIN ON THE UPPER SNAKE.

St. Anthony, Ida., Sept. 26.—Grain conditions in the great Upper Snake River valley are not up to expectations, according to the farmers, who have threshed their crops and report a great shortage in grain returns. The season has been exceptionally dry and dry farms have done better in some instances than was expected, but all crops raised on dry farms and irrigated lands show a marked decrease in the amount of grain harvested over last season.

## SOCIETY

CHURCH SOCIAL.

Mrs. J. T. Hurst, Mrs. W. A. McGaw, and Mrs. A. A. Wenger were the hostesses at a most enjoyable congregational church social on last Friday evening at the home of Mr. and Mrs. J. T. Hurst on Adams avenue. As different guests entered the door they were tagged with a large "black hand," an indication that the one so marked must do something toward the entertainment for the evening. A very enjoyable program was thus given, there was also a fortune telling booth well patronized by the young folks. Partners were found by means of cards on which were quotations after which a silent alphabetical conversation was carried on by means of writing, which caused much merriment. Substantial refreshments were served and a letter was read from Rev. Bratnard, the newly appointed minister, telling of his plans and hoping to be in Ogden early in October.

All present voted the affair a decided success.

Mrs. Wesley Brown and Mrs. William Douglas will entertain at the Virginia on Saturday.

## NEXT CONGRESS IS TO BE DEMOCRATIC

New York, Sept. 27.—Former Governor Myron T. Herrick, of Ohio, who is just back from a summer spent abroad, free from the perplexities of local and national politics, had some interesting comment to make on his arrival here regarding the recent Democratic landslide in Maine. He expressed the belief that the next congress is likely to be Democratic.

"As for the Maine election," said the former governor, "the Americans I met abroad all sized it up as a demonstration of the old rule that the party in power loses the congress elected next after the inauguration. I believe the only exceptions to the rule were during the administration of McKinley and Roosevelt."

"I've been away so long that I'm not in touch with affairs in Ohio, but the Republicans have nominated a good man, and Ohio, being nominally a Republican state, I can see no reason why we should not carry it this fall."

## STATES' RIGHTS VERSUS THE NEW NATIONALISM

Pueblo, Colo., Sept. 27.—The battle of states' rights versus the new nationalism in the matter of water distribution will be fought out on the floor of the National irrigation congress on Thursday afternoon.

The battle lines were drawn this morning when the Colorado delegation in caucus decided to present two resolutions.

First, to recommend the passage of a law authorizing the appropriation of \$1,000,000 annually from the funds of the reclamation service for the gauging of streams; and, second, to urge the rescinding of the order of the interior department regarding the distribution of waters of the Rio Grande in southern Colorado, New Mexico and western Texas.

The first resolution was endorsed by the margin of only a dozen votes and there was a divided opinion on the resolution regarding the Rio Grande project.

The "water pirate" was scored today by F. C. Goudy of Denver, who recommended that things on water rights be restricted the same as homesteads, and that these rights be absolutely revoked unless the holder, within a reasonable time, developed the same.
