SMYTH PURCHASES DARTMOOR RAMS

D. A. Smyth, representing the Intermountain Land & Livestock company, at the sale of the sheep purchased forty head of selected Dartmoor rams which were recently imported from England. The sheep were bought of John Rawlings, the sheep man of Canada.

This sale means more to the Utah breeders than any other statement would indicate. The sheep are a pedigreed lot, being able to trace their lineage back some three hundred years in one family.

Included in the lot of sheep figuring in the sale are the sheep from the original ram of the Royal Sheep Show in England, which animal was imported for show purposes to America in August, 1909, the first Dartmoor ever brought across the seas.

The Dartmoor is a distinctive English variety, and is a very popular breed in that country. The bunch that were sold yesterday were raised and bred by John R. T. Kingwell, North Lead, South Devon, England, in the famous Dartmoor hills.

In February when they were but ten months old, the sheep in this flock were sheared for the first time, and yielded an average of twelve and a half pounds, after being dipped, with the staple of wool thirteen and a half inches long. The Intermountain Land and Live Stock company is an Ogden corporation with a capital of \$100,000, and the officers are W. C. Hunter, president and general manager; D. A. Smyth, vice president; Frank Smyth, secretary.

The introduction of this breed of rams on the Utah range will tend to build up and strengthen the local sheep, and is expected to bring about wonderful benefits in the way of more and better wool and harder, healthier sheep.

The price paid for this bunch of fancy sheep is not made public, but it is known that the former owners asked a high figure during the week, and would not allow them to be put in the auction sale.

The International Land and Live Stock company is to be congratulated on their enterprise in securing this lot of imported sheep, and their purpose of inter-breeding them with Utah sheep is being praised by every sheep man in the city.

ADVENT OF THE JEWISH NEW YEAR

The advent of the Jewish New Year, 5671 in the Hebrew calendar, will be celebrated at sunset this evening and tomorrow by special services in all the temples of the reformed Jews and the synagogues of the orthodox throughout the world.

The festival is known as Rosh-ha-Sho-Nah, the beginning of the civil year.

With the single exception of Yom Kippur, or the Day of Atonement which follows quickly upon it, the festival is more generally observed than any of the other feasts in the Hebrew calendar.

During the celebration of the Rosh-ha-Sho-Nah, no work or business is done by the observing Jew. Penitence, charity and prayer are the essential features of the celebration.

The services at the temples and synagogues are solemn and impressive and generally well attended.

CAN YOU SAVE TWENTY CENTS A DAY?

The Ogden Music Company is conducting the first sale in its history and intends to make it the greatest piano sale ever held in the City of Ogden. 20 cents a day for a piano.

OGDEN MUSIC COMPANY IS OGDEN'S REAL MUSIC HOUSE—A HOME COMPANY.

Buy At Home and Build Up Our City.

In announcing this great sale of high-grade pianos we wish to take the public, the purchasing public, into our confidence. The interest in our business heretofore held by outside parties has now passed into the hands of Ogden people exclusively, and we intend to discontinue some of the lines which we have carried up to this time. We regret that we find it necessary to release these agencies as the pianos are well known in this territory and have been sold here for years. In justice to ourselves and certain factories we must drop a number of these lines at this time, and to facilitate matters it was finally decided to close out every one of these instruments at once, and do it in a hurry, even if we had to sell them at cost. Simply try to realize the amount we have invested in them in order not to hamper the factories in placing the agencies elsewhere.

In purchasing a piano your greatest protection is the reputation of the piano and the responsibility of the dealer. We let you judge from the following names whether you are protected by reputation of makers: Steiny & Sons, Chickering Bros., Sohmer, Kimball, Vose & Sons, Estey, McPhail, Hobart M. Cable and other well-known makes. Let our past dealings with the people of Ogden speak as to our reputation and responsibility.

INVITES TOURISTS TO POINT OUT ERRORS

President Cannon Speaks at Tabernacle on "Four of Mormonism."

Salt Lake, Oct. 3.—As yesterday was the first Sunday of the month, the regular service in the Tabernacle was dispensed with, fast meetings being held in the various wards. However, special services were held in the Tabernacle at 2 o'clock for tourists and visitors. About two-thirds of the seats on the lower floor of the big auditorium were occupied and close attention was paid to the excellent musical program and to a brief address by President Hugh J. Cannon, of Liberty state.

Prof. J. J. McClellan presided at the big organ. The first number was a selection from Beethoven, arranged for the organ by Battiste. Prayer was offered by Elder Charles H. Wilkerson, which Andante, by Widor, was rendered by Prof. McClellan. Communion, by Battiste, was the next number, followed by an old melody, arranged by Prof. McClellan.

Hugh J. Cannon, president of the Latter-day Saints, was the speaker. He declared that Mormonism, so-called, or the gospel of Christ, was the biggest thing in the world.

Truth in Mormonism.

"We believe," said the speaker, in part, "that about 92 years ago, the Father and Son manifested themselves to Joseph Smith, the prophet, and after that other heavenly beings appeared to him and the plan of salvation was restored to earth. Mormonism today presents sufficient truth to demand the attention of every man and woman of the world. Those who do the will of the Father: those who live honest, upright and virtuous lives, shall know the truth. We want the truth and we invite all men to show up where we are in error, according to the teachings of Christ." He said President Cannon said that among the strongest men in the church were men who had studied the sciences, who had traveled over the world, and that they understood the scientific truths taught by the church. He said the unanimity of the testimony given by the missionaries who went out to preach the gospel was worthy of consideration.

"We are criticized," said he, "because we stand together; but is it not marvelous that we gather from all parts of the world and are willing to follow the leadership of one man or a set of men? It is because this gospel is not man-made but is of God, and these men are chosen of God. This work is too important for us to desert in preaching the gospel simply because we are criticized."

The services closed with a selection on the organ of the Pilgrims' Chorus.

ROBINSON WINS WITH HOME RUN

Star Negro Second Baseman Puts One Over Center Field Fence in Eureka Game.

Eureka, Oct. 2.—Notwithstanding the extremely cold weather, which made baseball almost impossible, about 1000 fans gathered at the baseball park here today to witness the opening game in the series between Eureka and the Occidentals.

The colored boys won out by a score of 14 to 10, their hits being more timely than those made by the home team. The hitting of both teams was brilliant at times, while at other times it was very ragged.

The Occidentals practically won the game in the second inning, when a home run, a three-bagger and two singles, coupled with several errors, gave them eight runs. The home run, which was made by Robinson, is the first that has ever been made on the local grounds, which have been in use for the past six years. The husky second baseman met the ball squarely and drove it over the center field fence. Had this long been performed by a local player in a close and interesting game it would have netted him a small fortune in tips from the crowd, which always greet a brilliant play at Eureka. Robinson got nothing in the coin line for his swat.

Hensser started to pitch for Eureka,

BURGLAR ROBS HOME AND ESCAPES

Saturday night the home of Leonard Schenfele, 286 Twenty-third street was burglarized and \$10 in gold stolen. Mr. Schenfele is a shoe-maker and his money was kept in a small purse. The money was stolen on purpose, and when a friend, B. R. Battice, noticed a stranger loitering about in the rear of the house, he gave chase. The burglar was a sprinter, however, and got away after a run of more than a block.

Battice declares he can identify the man if he is captured, and is waiting over in Ogden for that purpose. The police department has been furnished with a description and every officer in the city is on the lookout.

MONTEREY, Mexico, Oct. 2.—Latest news from the coal mine at Pahu, where an explosion occurred Friday night, indicates that the loss of life will probably be 72 miners, mostly Mexicans and Japanese.

Because of the presence of poisonous gases only two bodies have thus far been recovered.

Explosion Loses Mine.

The explosion blew down all of the timbers in the stope from the sixth lift to the surface. It blew out the mouth of the stope, lifting 20 feet of surface and closing the mine.

The fan house was also blown down but the fan and engine were not injured. Entrance was made to the mine through the central opening, but all the ventilating currents and air brattices being destroyed, it was impossible to penetrate the mine far enough to reach any of the miners.

First Rescue Party Overcome.

The first rescue party was overcome and a second party going to relieve it was also overcome by after-damp, but numbers were brought to the surface and recovered in a few hours. The work of restoring the air currents is proceeding as rapidly as possible. There is a slim possibility of the men being recovered alive, as it will be 48 hours more before all the bodies can be reached. The neighboring mines have sent all their superintendents with picked men and all have aided faithfully in the rescue.

Dynamite Caused Explosion.

The rescue helmets of which the company has a full supply could not be used, being too large to pass through the only available apparatus. This mine was the largest producer of the Coshiba Coal company and has been shipping about 18,000 tons of coal per month for years.

The cause of the explosion has not yet been determined, but is thought to have been caused by miners smuggling in some common dynamite instead of using the safety powder furnished by the company.

Zick 5.5 place, 1-2 show. Rose 1-2 place, 1-2 show. Byron 2-2 show. Tube 5.5 place, 1-2 show. Burning 1-2 place, 1-2 show. Aurora 1-2 place, 1-2 show. Crutina 1-2 place, 1-2 show.

Winner bid up from \$20 to \$30 by J. Frater. Retained.

Zick Abrams showed decided improvement over his last two starts. He went to the front and showed dazzling speed, although he was fast coming back to Tube Rose at the finish. Tube Rose the runner up all the journey, was hard ridden, but could not make the lead. Burning never far away from leaders, easily the next best. Bush showed nothing.

7339 SECOND RACE—Five furlongs. Selling. Three-year-olds and up.

COLD AND RAIN ARE AIDING SICK DUCKS

With Continued Favorable Weather Shooting Season Will Soon Open.

Salt Lake, Oct. 3.—The rain of Saturday night and the succeeding cold weather came as providential succor to thousands of disease-stricken ducks along the Jordan river. At the mouth of the Jordan river where the disease was particularly prevalent the conditions were more improved Sunday.

The rain had washed out the roosting grounds and improved the feed. There was running water in the canals and streams and the ducks seemed to have a new lease of life.

Some members of the New State Gun club visited the lodge on Sunday and were overjoyed at the improved conditions. They ventured the assertion that with continued "duck weather" the disease would practically be wiped out in a few weeks and then the shooting season would open then. Physicians have given their opinion that cold weather and rain would do much to eradicate the disease with which the ducks are afflicted.
