APPROPRIATIONS FOR INTERIOR DEPARTMENT

WASHINGTON, Oct. 11.—If Secretary Ballinger's estimate of expenditures for the interior department hold good the appropriation for the department for the next fiscal year, including pensions, will fall about \$2,000,000 below the appropriation of \$175,000,000 for the present year.

THOUSANDS HEAR COL. ROOSEVELT

ST. LOUIS, Oct. 11.—Theodore Roosevelt denounced the Democratic party in New York as "an unholy alliance between Wall street and Tammany Hall" in a speech here tonight, and attacked the Democratic party in Missouri by calling it the party "that represents the special interests and special privileges."

Mr. Roosevelt also defended the present position of the Republican party in regard to the tariff. He did not discuss the Payne-Aldrich tariff law, saying that he wished the people to look forward and not backward.

It was Mr. Roosevelt's first speech in the present campaign. The great Coliseum was crowded to the doors with a throng which cheered him frequently. He began his speech by commending Governor Hadley as an "upright and fearless public servant."

Not only is this the doctrine of the Republican party, but I believe it is the doctrine of the overwhelming majority of the American people. I do not believe that any section of the American people at present seriously advocates free trade or a tariff for revenue only.

Now the question is, How to accomplish the purpose thus explicitly declared? It seems to me and I think that more and more I think that the people of this country, that the methods hitherto obtaining in making all tariffs for a great many years past, are ineffective in correctly and justly applying the protective principle as outlined above.

Therefore we feel that there should be a tariff commission composed of impartial experts amply equipped for obtaining, not merely from the statements of interested parties, but by such investigation as will satisfy them that the facts are accurate, information that will enable congress in each given case to establish the measure of protection necessary to carry out the principles above set forth.

Moreover, these investigations should form a program, each successive report being treated on its merits, so that each schedule can be revised by itself in accordance with the facts developed by this commission of impartial experts, and without any heed being paid to any other consideration than the justice of that particular case.

Finally, I feel that it should be the duty of some government body at any time to investigate conditions in any particular industry to see whether the workmen do actually get the benefit that the tariff is primarily created to give; that is, to see that the laborer gets the full share of the benefit of the protective tariff according to what I firmly believe to be the purpose of the American people.

By enacting into law such a policy as that above outlined we shall, on the one hand, do away with the danger of injury to American industries which would follow if they were left wholly without protection from foreign competition, and on the other hand, we make it sure that the laboring man gets the benefit of the tariff primarily enacted in his interest, do away with the favoritism and log rolling which under present conditions seem inevitable in the process of tariff making and make it certain that the amount of protection granted in each case is the amount actually necessary to cover the difference in cost of production here and abroad, and not so exclusive as to represent improper favoritism to any special group of men.

CHOR AND ORGAN RECORDS GOOD

SALT LAKE, Oct. 11.—Fifteen proofs of the tabernacle choir and organ records arrived this morning, from New York, making 13 in all received. The other six failed to turn out satisfactorily, and on proofs of them were sent. The latter included the "Inflammatus" and anthem "We Thank Thee O God for a Prophet" from the choir, the "Andantino" by Lecare, and the "Mignon" gavotte from the organ.

KNIGHTS MEET IN SALT LAKE

Salt Lake, Oct. 12.—This Wednesday the anniversary of the discovery of America by Christopher Columbus will be observed in Salt Lake by the conferring of the fourth degree in 129 Knights of Columbus. The Knights will attend mass meeting at St. Mary's cathedral in a body this morning at 9 o'clock. Rt. Rev. Laurence Scanlan, bishop of Salt Lake, will be the celebrant.

MINE VICTIMS ARE ALL DEAD

STARKVILLE, Colo., Oct. 11.—Eleven bodies of victims of Saturday night's explosion in the great Colorado Fuel and Iron company's mine here are lying tonight in the Starkville morgue. The bodies were all identified. All the men were picked up in the wreckage of the mine and were killed by force of the explosion and not suffocated later.

The company's guard line, impassable to all but relief crews and officials, is drawn well outside the mine entrance and comparatively little of the actual progress of the work is known.

The bodies brought out tonight were carried for a mile or more over all most impassable obstructions. Because of the difficulty in purifying the atmosphere it was said to be unlikely that any of the 41 men still thought to be in the mine will be reached tonight. A change of shifts was ordered at midnight.

STARKVILLE, Colo., Oct. 11.—Reporting damage to remote workings of the Colorado Fuel & Iron company's mine far west in extent than anticipated since Saturday night's explosion, a shift of rescuers, headed by State Mine Inspector John Jones and General Superintendent James Thompson, emerged tonight from the black hole.

The report brought disappointment for company officials and watchers, who had hoped that the J entry would be removed to the morgue before tonight. Tonight nine are still behind 1,000 feet of the new stope piled high with broken timber and thousands of tons of debris dislodged by the terrific blast.

All day a large force has been engaged in leveling a trail over the debris and pulling loosened rocks from the roof to clear a passageway over which volunteers can carry the recovered victims to the waiting death cars. Another rescue party led by J. T. Thomas and Dave Griffith has taken up the task of completing the trail and removing the bodies.

With this done the rescuers will push their way into the L entries in the old workings. The last of the eleven bodies found in J entry would be removed to the morgue before tonight. Late this afternoon the day shift bratticed off the J entries and changed the direction of the portable fan, which is now forcing air into the old workings.

It is freely admitted that all hope has been abandoned of finding life within the underground labyrinth. PIONEERS BEGIN TO REBUILD

BAUDETTE Minn., Oct. 11.—Unmindful of the toll of years lost in the great fires that have swept this section, the pioneers of the northwest are planning to begin anew their task of homebuilding. Spooner and Baudette will be rebuilt. The town of Salmon was saved but many persons are destitute. Nine bodies were taken out of the woods at Cedar Spur.

Impossible to Get Details. Clear river, 12 miles south, is burned. The roads are all blocked and it is impossible to get details. At Cedar Bend, 11 miles southwest, a serious fire rages but the roads in that direction are blocked. The town of Salmon was saved but many persons are destitute. Nine bodies were taken out of the woods at Cedar Spur.

ACCIDENTALS TO PLAY ON COAST

The Occidental baseball team has reconsidered its plan to disband. The negroes have made arrangements to go to California to play winter ball and Manager Black and several of the team will leave today to go to San Francisco. The team has a game in Bakersfield on Sunday. Later the players will go to Los Angeles, where they will either enter the winter league or play independent baseball.

Billy Lane left several days ago for Los Angeles. He left to go to Bakersfield for Sunday's game, however. Langford, Langley, Mooney, Burns and Hawkins left on Tuesday for the coast, and Manager Black and the other players will go today. Big Bill Pottus, the well known colored pugilist and baseball player, will join the Occidentals at Bakersfield.

JUDGE PARKER CRITICIZES T. R.

NEW YORK, Oct. 11.—Alton B. Parker gave out an interview at his home tonight on the state campaign and Roosevelt. He said in part: "I am informed by Mr. Roosevelt has been advised by his friends that in this state the tide has been so strongly against his new national platform, with himself as the steward of the public welfare in 1912, and thence on for the balance of his life, that he can only hope to save by announcing for himself, and his ticket by announcing that he will not be a candidate in 1912 and further that he has agreed to make such a statement within the next two or three days."

There can be no doubt of the fact of his candor in the mind of any man who has watched his course, carefully reading his speeches and noted his almost brutal treatment of President Taft. "From my knowledge of any experience with him, I have no hesitation in saying that while the assurances will be given by him that he will not be a candidate in 1912, his purpose is to deceive the people of this state in the hope that they will elect his ticket. That done, he will accept the result as a command by the people of the state that he be its candidate."

Then, with the political machine under his control, nothing can prevent him from securing the delegates from this state. "There is one sure way and only one to avoid Mexicanizing this country, and that is to defeat his ticket now."

HEARS COMPLAINTS AGAINST D. & R. G.

DENVER, Colo., Oct. 11.—The board of arbitration which will consider the demands of the Brotherhood of Locomotive Firemen and Engineemen for increased wages and improved working conditions against the Denver & Rio Grande railroad met here today and listened to the grievances of the men by Vice President Timothy Shea of the brotherhood.

The board is composed of Judge William M. Chambers of Washington, D. C., appointed by the interstate commerce commission; W. S. Martin, assistant general manager of the Denver & Rio Grande, and Judge W. E. Hynes, representing the engineemen. The engineemen demand an increase of pay for firemen and hostlers of from 10 to 12 per cent. The board adjourned until Wednesday, when the case of the railroad will be presented by J. C. Dalley, general superintendent of the Utah lines of the Rio Grande.

LOST HER HAIR

Woman Almost Baldheaded Grew Four Inches of Hair. Here is a piece of live news from Brownstown, Minn., that ought to interest skeptical men or women readers of the Standard who are losing their hair or have dandruff or itching scalp. Remember that BADCON'S PHARMACY sells Parisian Sage under a positive guarantee to stop falling hair and itching scalp and eradicate dandruff in two weeks.

Parisian Sage is a most refreshing and daily perfume hair dressing, free from Gase or stickiness. It makes dull, lifeless hair radiant and lustrous. "Parisian Sage is the best hair grower and beautifier and dandruff cures" I lost all my hair through typhoid fever; I was almost baldheaded and my scalp was as sore as could be. I tried everything, but in vain. Finally I tried Parisian Sage, and after using one bottle my hair started to grow, and has grown three or four inches inside of two months. I advise every lady who wants beautiful hair to use "Parisian Sage." Miss Meta M. Kruger, Brownstown, Minn., June 8, 1910. Parisian Sage is only 50 cents a large bottle at BADCON'S PHARMACY, and druggists everywhere. The girl with the Auburn hair is on every package.

PEVY LARCENY IS CHARGE NOW

SALT LAKE, Oct. 11.—The charge of grand larceny upon which Daniel Keith and Charles Hemminger, members of the Salt Lake fire department, were arrested yesterday, has been reduced to a charge of petty larceny and bail has been fixed in the sum of \$300 in each case. The firemen will probably be released from the city jail this afternoon. The time for the hearing of their cases has not been fixed.

It has developed that Keith and Hemminger took only a portion of the old bell in the clock tower on the police station and sold it to the junk dealer. Other large pieces of the bell are now, and have been for a long time, in a warehouse in the headquarters of the fire station.

Some years ago it was customary for the curfew signal to be pounded from the old bell with a sledge hammer operated by a sturdy policeman. The whacks at the old bell cracked it and later it was broken in chunks. Some of these chunks of brass were removed to the fire station by the firemen and were made over into bells for the different apparatus at the local foundry. Four bells have been made out of the original.

The death of a brother fireman could hardly have cast a deeper gloom over the men at headquarters station than has the arrest of Danny Keith, the chemical driver. Danny was looked upon as "one of the good boys" at the firehouse and by everyone who knew him. As for Danny himself, he is heartbroken. Tears streamed down his face this morning when friends called to see him in the city jail. Although he had been in jail but one night, Danny Keith looked this morning like a man who had tasted of the deepest dress of affliction. His face was white and worn and remorse stood out in his every feature. A visit to Danny this morning would prompt the caller to say: "I guess that boy has been punished enough already." Danny looked it, and he said he felt that way.

Not only are the firemen grieving at the arrest of their comrade, but the boy's aged mother has taken the matter greatly to heart, and is said to be under the care of physicians because of her son's trouble. "Probably no one feels the sting more than Danny himself, however, who says time and again: "I don't care so much about myself but it is so hard on the folks."

Charles Hemminger, who has been in the service of the fire department only since June, has nothing to say about the matter. He has not broken down under the mental strain attendant upon his arrest, but like Keith he shows that he is deeply grieved because of his action.

LISBON IS STILL UNDER MARTIAL LAW

LISBON, Oct. 11.—Although the city remains under martial law pending a reorganization of the administration, the soldiers have been gradually withdrawn from the streets. Hardly any were to be seen today. The people have resumed their occupations and tranquility prevails. Several churches were reopened this morning.

Hoisting Foreign Flags. Guards have been supplied to those establishments of the religious orders that are still occupied and are flying foreign flags to prevent possible attack. The papal nuncio, Mgr. Tonti, has hoisted the Austrian flag over his residence at Cintra, but he has no sign of any hostile demonstration today. Will Not Expel Dominican Fathers. The government has announced that the Irish Dominican fathers and nuns who have conducted a school here for many years will be exempted from the order of expulsion. This step doubtless is due to the desire of the Republicans to keep on good terms with Great Britain.

It is said that the foreign minister, Machado, has requested Great Britain to grant immediate recognition to the new regime ostensibly so that it will be in a position to communicate its full program to the British government. Only 100 Killed in Recent Fight. The casualty list from the recent fighting falls behind most moderate estimates. The official estimate gives the number killed between 100 and 150. Unofficial estimates place the number still lower. One of the plans attributed to the organizers of the revolution was to bring off the coup d'etat on Oct. 5, when King Manuel was visiting the premier in the northernmost province of the kingdom. Were to Seize King Manuel. It was arranged that the train bearing the king should continue on to the frontier and the soldiers there were to prevent the king from re-entering Portugal. In the meantime the ministers, who would have assembled in a body at the station in Lisbon to see the king off, were to be surrounded and arrested after the departure of the train. The republic was then to be proclaimed.

Government Takes Houses. The provisional government has taken possession of the houses of several religious bodies. No opposition to the seizures was offered. It has been decided to issue a decree enforcing compulsory military service.
