

KID HARRISON. Local boxer, who is anxious for a bout with Kid Ross of Salt Lake.

Kid Harrison, the Ogden pugilist, was born in Mexico and migrated with his parents to Kansas City in 1904. His name first became known to the pugilistic world when he fought a six-round preliminary in Salt Lake City at the time Jerry McCarthy and Otto Sealoff met, in August of 1904. He fought another successful battle the same year on the night Barney Mullan and Rufe Turner, both of California, met in this city at the Grand opera house.

After this event Harrison went to Butte and tried out with Orillio Herrera. The latter was Harrison's trainer at Butte. Harrison was next seen in public in a scheduled six-round boxing match with Kid Howard, which was declared a draw in the fifth round. In a series of mills Harrison defeated Danny Lewis, Frank Peacore and Joe Mudro in three rounds each; Jack Richards in one round, and then, going to Spokane, Wash., the "Kid" knocked out Mike Jannette in two rounds; fought a ten-round draw with Chris Messon, and his bout with Kid Scaller resulted

the same as that with Messon. One of his best fights was with Louis Long, whom Harrison knocked out in fourteen rounds. Eddie Sandry met a similar fate in eight rounds, and many more fights resulted in victories for Harrison. Among these bouts was a go with Montana Kid, who was defeated in six rounds. In Oakland Harrison fought Lew Powell, and the decision was a draw after six rounds. Sam Nelson also came to Harrison to win supremacy and fought two draws with the "Kid," after which Harrison was declared the winner in a ten-round battle.

Harrison's fight with Lew Powell, in February of 1908, was one of the best mills ever pulled off in Oakland, the decision being a draw after six rounds. At Redding, Cal., on June 4, 1910, Harrison won a 20-round fight from Jim Knickle in the final round. Knickle fought Terry Kellar to a draw at Oakland.

Harrison's next fight will probably be with Kid Ross of Salt Lake City, and as soon as Fight Promoter Shumway sets the date and place the mill will be arranged. The fight will take place at the 133-pound limit.

OGDEN POLICE ARREST SUSPECTS

As a result of the letter issued by Governor William Spry and the appointment of 50 special deputy sheriffs to assist the police of Salt Lake in driving criminals from that city, the Ogden police have prepared to cope with a possible influx of the Salt Lake undesirables.

If the action of the Salt Lake county commissioners and the other authorities results in the banishment of any criminals from that city, the law-breakers will find Ogden anything but a haven of refuge.

The local police have been instructed to keep all suspicious characters on the move, and those who cannot give a satisfactory account of themselves are locked up in the city jail until their case can be investigated. Many have been held on a vagrancy charge, while others have been released with explicit instructions to leave Ogden.

As an evidence of the fact that the police are taking no chances on a visitation from Salt Lake's criminals, Detectives Pender and Sullivan last night arrested George Davis, a suspicious character who was afterwards found to be an ex-convict. A vagrancy charge was placed against Davis, and after he has served sentence on this charge he will be invited to leave Ogden for good.

Cheapest accident insurance—Dr. Thomas' Electric Oil. Stops the pain and heals the wound. All druggists sell it.

HIGH SCHOOL TO MEET "U" TEAM

The members of the Ogden High School football squad and their admirers anticipate another victory next Friday afternoon when the O. H. S. will oppose the freshmen of the University on the local gridiron. Although the locals have not opposed the freshmen this season they are confident that a victory will be the result of next Friday's meeting. Their confidence is well based in view of the several decisive victories and only one defeat this season.

The one defeat sustained by the local lads was at Logan, two weeks ago, when they went down by a score of 18 to 3. In this game the Ogden team, which averages 149 pounds, went against a squad averaging more than 180 pounds. In spite of these odds they would have made a better showing but for decisions which the local boys do not consider entirely on the square.

There will be no changes in the lineup of the team that will oppose the University Freshmen next Friday. So far as known at present the lineup will be as follows: W. Smith center, H. Anderson right guard, I. Cheekets right tackle, Allen right end, C. Smith left guard, C. Sample left tackle, M. Whitmeyer right half back, M. Boyle full back, Fred Stone left half back and D. Moran quarterback.

The boys are looking forward with great joy to the scheduled game with the Salt Lake High on October 29 and every effort will be made to prevent a postponement or calling off of the game. The Ogden boys feel certain that they will be able to defeat the down-state squad and will receive the unqualified support of all high school football teams in this section in their efforts.

KNIGHTS-TEMPLAR TO GO TO SALT LAKE

A large number of the members of Ogden Commandery, Knights Templar, are making preparations to attend the big meeting in Salt Lake City on Thursday, at which time a grand commandery for the state of Utah will be instituted. Prominent Masons from Colorado, Wyoming and Idaho will take part in the ceremonies.

The program of the day includes a grand parade and the Ogden commandery will participate in this. The local Knights Templar will take no other part in the official program.

PEERY RESIGNS; TANNER APPOINTED

Governor Spry has appointed Nathan A. Tanner of Ogden to succeed Harold J. Peery of Ogden as a member of the board of trustees of the State Industrial school. Mr. Peery resigned on account of the press of business. Mr. Tanner is a member of the clothing firm of Watson & Tanner of Ogden.

LETTER LIST.

List of letters remaining in the post-office at Ogden, Utah, Oct. 18, which if not called for in two weeks, will be sent to the Dead Letter office:

FEW DEVELOPMENTS IN THE MURDER CASE

Salt Lake, Oct. 19.—There were few developments in the Karrick murder case Tuesday. Sheriff Joseph C. Sharp and District Attorney F. C. Loofbourou visited the Karrick home Tuesday morning and made a survey of the ground to check up on the story of the crime told by Julius Salzman. From the investigation, Sheriff Sharp and Attorney Loofbourou found numerous discrepancies in Salzman's story, and they declare that the suspected murderer has tangled himself in a net by his story.

Although the officers worked with Salzman again Tuesday, he would make no further confession, and he still maintains that he did not fire the fatal shot which ended young Karrick's life.

No complaint charging Salzman with the murder of Thomas Karrick has yet been issued, and the time of his arraignment therefore, is not yet known. The complaint may be issued today. It is not definitely known in what court the alleged murderer will be arraigned, but it will probably be in the criminal division of the city court.

The officers declare that from statements made by Salzman they are convinced that he had no accomplice in the crime, and they point to circumstances connected with the robbery and murder of the boy which almost conclusively prove that Salzman was the only man to enter the Karrick home.

CHICAGO QUARTERBACK INJURED

Chicago, Oct. 19.—Eberle Wilson, quarterback and punting star of the University of Chicago football team, broke his collarbone in a scrimmage yesterday and will be a member of the hospital corps for at least three

weeks, while his appearance in any of the remaining games is doubtful. His injury is the first and most serious of the Chicago season.

WICKERSHAM TO RECOMMEND LEGISLATION FOR ALASKA

Seattle, Oct. 19.—James Wickersham, delegate to congress from Alaska, arrived in Seattle yesterday on his way to Washington and declared that he will urge the passage of legislation for the development of the northern territory. The legislative policy to be urged by Delegate Wickersham contains the following: An active legislature for Alaska that shall be enabled to make laws governing domestic affairs.

Opening of the resources of Alaska so that the individual and not the corporation shall benefit. He asserted his belief that the Interstate Commerce Commission erred in not assuming jurisdiction over Alaska transportation companies.

Operators on the American side of the line," he said, "are discriminated against. They are at the mercy of the transportation companies since the Interstate Commerce commission refused to assume jurisdiction."

BOAT RACING AGAINST ICE

Dawson, Y. T., Oct. 19.—The steamer La France, the last river boat of the year to sail from Dawson for White Horse, got away last night, crowded with hundreds of passengers. All freight for way points was refused as the boat has a race against ice. Pelly and Stewart rivers are thick with ice, and large floes are running past Dawson. The first mail stage from Dawson to White Horse this season started yesterday.

TACOMA IS TO DEMAND A RECOUNT

Tacoma, Wash., Oct. 19.—Vice-President T. E. Ripley and former President William Jones of the chamber of commerce, and one other prominent businessman to be named today, will leave for Washington tonight to see President Taft, Secretary Nagle and Census Director Durand and demand a recount of the city's population.

SAMOAN VOLCANO STILL IN ERUPTION

Victoria, B. C., October, October 19.—The volcanic eruption of Mount Savali, on Upolu, Samoa, continues with unabated intensity, according to advices received by the steamship Makura. Large streams of lava, flowing from the crater have swept down upon the farm lands and many estates have been destroyed. No loss of life has been reported.

RECALL OF MAYOR.

Seattle, Wash., Oct. 19.—Nearly 5,000 signatures of voters, more than half of the required number of 8,000, have been secured for petitions asking for the recall of Mayor Hiram C. Gill, according to a statement issued last night at the headquarters of the Public Welfare league.

CAP STREETER LOSES HIS LAKE "DEESTRICT"

Chicago, Oct. 19.—The "deestric" of Lake Michigan, United States of Am-

erica," generally known as Streeterville is no more. "Cap" George Wellington Streeter, king of the "deestric" was vanquished yesterday and the "deestric" was knocked down under the hammer for the insignificant sum of \$10,000.

Despite the "Cap's" protests that the "deestric" could not be disposed of without a clear deed from him, it was auctioned off by a deputy sheriff. Attorney W. G. Anderson, who was instrumental in freeing Streeter from the penitentiary for the killing of John S. Kirk, a watchman employed to guard some property in the "deestric," was the buyer.

The "deestric" or that part of it in which Streeter is alleged to be interested, was sold to satisfy a judgment of \$10,000 obtained against him by Attorney Anderson for securing his release from the penitentiary. When Attorney Anderson was working for the pardon of Streeter, the latter is said to have promised him a fee of \$10,000 if he succeeded. Later, however, Streeter is said to have refused to consider Anderson's demands for \$10,000. The case was in the courts for some time and was brought to a climax when the superior court ordered a sheriff's sale.

If Streeter later is found to be not legally entitled to any interest in the "deestric," the sale will be declared void.

AMERICAN FOR LADIES IN PROHIBITION LEAGUE

American Fork, Oct. 19.—What promises to be a big factor in the cause of temperance and state-wide prohibition in this part of the state was started here last night, when a large number of prominent women of this city met in the city hall and organized under the name of the American Fork Ladies' Prohibition league. The meeting was well attended and a great deal of enthusiasm was exhibited in the cause. Miss Frances Rasmussen was chosen president; Mrs. Osmun Justesen, first vice president; Miss Ida Chipman, second vice president; Miss Josie Greenwood, secretary, and Mrs. W. J. Holden, treasurer. A committee was appointed to make a canvass of the town and solicit members. The move is considered to be one of much importance in the cause of state-wide prohibition and temperance. It is expected that the enrollment will be large and that nearly every lady in the city will become a member. The ladies in the movement, which consists of ladies belonging to both political parties, are very much encouraged with the work thus far and feel that a good work can be done in this line through such an organization. In the near future they expect to have lectures on the subject of prohibition and temperance.

The Famous Rayo Does Not Strain the Eyes. Don't use a small, concentrated light over one shoulder. It puts an unequal strain on your eyes. Use a diffused, soft, mellow light that cannot flicker, that equalizes the work of the eyes, such as the Rayo Lamp gives, and avoid eye strain. The Rayo is designed to give the best light, and it does. It has a strong, durable shade-holder that is held firm and true. A new burner gives added strength. Made of solid brass and finished in nickel. Easy to keep polished. The Rayo is low priced, but no other lamp gives a better light at any price. Once a Rayo User, Always One. Dealers Everywhere. If not at yours, write for descriptive circular to the nearest agency of the Continental Oil Company (Incorporated)

AN ADVERTISEMENT BY D. DECKER. When coal is sealed up tight in an oven, the heat of the oven or the retort commences to melt and soften the coal and the gases it contains are forced out of it, leaving the fixed carbon, resembling a hard spongy mass. After the gas and tar has been extracted from the coal by the heat in the oven, the door is opened and the hard spongy carbon or coke is withdrawn in a red-hot state. Water is poured over the coke until it is cooled, leaving what is commonly called gas house coke. This coke contains about 15,000 thermal or heat units per pound. Anthracite coal has 15,600, while soft coal, such as we use in Ogden contains about 15,000 thermal or heat units per pound of coal. Coke we are selling at \$4.50 per ton contains 95 per cent of the heat in bituminous coal, but is cheaper and cleaner. It does not choke up the stove pipe with soot and is much cleaner to handle. Don't try to burn the large lumps; break it up so it will lay closer in the furnace, then regulate the draft and you have a lasting fire of any heat that you may desire. \$4.50 per ton in the yard and any drayman will deliver it for \$1.00 per ton. All rights reserved. UTAH LIGHT & RY. CO. D. DECKER, Local Manager.
