ED. FURGESON

SANFORD BINGHAM CALLED BY DEATH

With members of his family gathered around his bedside, Sanford Bingham, one of Weber county's most prominent citizens and staunchest pioneers, died at his home in Riverside last night at 9:35 o'clock from general debility. The end came peacefully after several weeks illness. Mr. Bingham has been in poor health since receiving a stroke of paralysis about four years ago, but his condition became critical only a few days ago.

Coming to Utah in 1847 with one of the earliest bands of pioneers who crossed the trackless plains, Mr. Bingham after settling in Weber county has been foremost in the upbuilding of the county and state.

The deceased is survived by 270 descendants. He was preceded in death by his first wife and five children. Surviving him are the second wife, 7 daughters, 13 sons, 150 grandchildren, 98 great-grandchildren and 2 great-great-grandchildren.

Embracing the Mormon faith back in Vermont, he joined the dauntless immigrant band which was made up of a few converts, and started for the land of the setting sun which was reached after untold hardships and suffering, long since graphically written in song and story, and portrayed by the artist's brush.

Mr. Bingham was a native of Vermont, being born in the city of Concord, May 3, 1821. His parents were among the first to join the Mormon church, declaring their allegiance to that faith in 1833. They moved west in 1836, settling in Ohio and later

BREAKING OUT ALL OVER BODY

Itched Dreadfully. When Scratched It Would Bleed and Become Very Sore. Could Scarcely Sleep as the Itching was Worse at Night. Dreaded Putting Hands in Water.

Used Cuticura Soap and Ointment 3 Weeks. Trouble all Disappeared.

"Some time ago I had a breaking out all over my body. It first started itching and itched dreadfully. When I scratched it, it would bleed and become very sore. I tried all sorts of remedies, but I could not get any relief. I could scarcely sleep as the itching was worse at night. My hands were so sore I decided putting them in water and after I would wash dishes or do laundry work they were always sore. This went on for about six months. Then I used Cuticura Soap and Cuticura Ointment, and in two or three weeks the trouble all disappeared. I always found that my hands were worse (with a dry scale on them) after using any other soap but the Cuticura Soap produced such a soothing feeling on my skin that it was a pleasure to use it. I also know what wonders the Cuticura Remedies have done for a friend of mine, so I would recommend them to any one. Mrs. Delaware Barrett, 611 King St., Wilmington, Del., Nov. 15, 1909."

Cuticura Remedies sold throughout the world. Fuller Drug & Chem. Corp., Sole Props., Boston. 42-page book on Skin Diseases.

immigrating to Iowa. In 1847 they crossed the plains with the second company of immigrants, settling in Salt Lake City, where they remained for three years before moving to Weber county, which has since been the family residence.

The deceased has been most active in church work, holding almost every office within the gift of the church. He was ordained High Priest in 1868 and made president of the Riverdale district of the Weber Ward. In 1877, when the wards were organized, he was set apart as bishop of the Riverdale ward, holding that office until January 20, 1902, at which time he was released owing to his age and infirmities, and made a patriarch in the Weber stake, an honor which few members of the church attain.

As president and bishop his work in the Riverdale ward extended over a period of more than 33 years and he was one of the foremost men in the work of building up his ward and bringing to its present satisfactory condition, for which work he was justly entitled to much praise.

TO CURE A COLD IN ONE DAY

Take LAXATIVE BROMO Quinine Tablets. Druggists refund money if it fails to cure. E. W. GROVE'S signature is on each box. 25c.

AGED COBBLER IS TAKEN TO PROVO

J. L. Robinson, whose mind gave way under the burden of more than four-score years, was adjudged insane yesterday by a medical board consisting of Drs. E. M. Conroy and Walter Whalen and committed to the insane hospital at Provo. He was taken to that institution by Deputy Sheriffs De Vise and Toomey.

Robinson was a cobbler who had resided on Ninth street for many years past. He is now 81 years of age. His mental condition has been growing worse for several months past until last Saturday night in response to a request from his relatives and friends, Sheriff Wilson brought the aged man to the county jail.

During his brief stay at the jail he gave the attendants much trouble, the aged man becoming quite violent at times. There is small chance of the patient recovering his normal frame of mind.

UNFINISHED HOME DAMAGED BY FIRE

Although not yet completed, the beautiful new home of Dr. A. S. Condon, at 2731 Monroe avenue, was damaged to the extent of \$500 by fire last evening, the cause of which is believed to have been due to a defective grate, in which the carpenter had left a fire.

It was only the prompt and efficient work of the firemen which saved the building from total destruction, the fire having gained great headway before it was discovered by people residing in the vicinity of the untenanted house. The alarm was turned in at 7:45, and Chief A. B. Canfield, with his auto chemical and the members of No. 2 department, responded.

The fireplace from which the blaze originated is located in the corner of a ground floor room. Completely enclosed vacant spaces on each side of the grate and chimney served as a fuel, up which the flames swept through the second floor and into the attic.

Consequently, the attic was a roaring furnace when the firemen arrived. Several streams of water, together with chemicals, were turned into the attic and the flames were subdued.

TODAY IS THE DAY

Order **Hunt's Perfect Baking Powder** and Flavoring Extracts.

COUNCIL HOLDS SHORT SESSION

At the council meeting last evening an ordinance amending an ordinance, respecting the license to be charged hackmen and automobile drivers hauling people and freight for hire, was referred back to the license committee. The ordinance, as read to the council, was not satisfactory, and it was thought that some adjustments respecting the use of automobiles for public hire could be made by the license committee that would be acceptable to all parties concerned.

The ordinance reducing the license of second-hand dealers from \$100 to \$50 per year, passed its third and final reading and will become a law January 1, 1911.

TRAINMEN FIND MUTILATED BODY

Trainmen arriving in Ogden last night over the Rio Grande railroad report the gruesome find of a dead man with his skull horribly crushed and both hands cut off at the wrists lying along side the tracks about six miles out from Salt Lake.

A postcard addressed to E. Murphy, East Sixth and Court streets Des Moines, Ia., and a railway ticket from Des Moines to Los Angeles were found in his pockets and are the only clue to his identity.

How the stranger happened to be run over by a train, as his body indicated that he was killed in that manner, is a mystery. The possession of a railroad ticket, precludes the possibility of his having been killed while attempting to beat his way over the road. His body was taken to Salt Lake where an inquest will probably be held. The authorities of the capital city have sent telegrams to Des Moines in an effort to locate the dead man's relatives.

WHO SAID MEAT WAS HIGH?

NOW that the cool weather is here, families can buy their meat supplies in larger quantities. We wonder if most people realize the cost of handling meat in small quantities. Modern service to the consumer is very expensive. This account in part for the high cost. The service costs as much as the meat.

If you want to save something on meats that really is a saving, buy in larger quantities. Note these prices: Round of beef, about 50 lbs., @ .81c; Leg of lamb, about 25 lbs., @ .81c; Whole pork loins, about 25 lbs., @ .17c; Whole pork shoulders to lbs., @ .14c. These are not cut prices, but is for good U. S. Inspected beef. We can furnish cheaper meat at cheaper price. One generally pays for what one gets. BUT BE SURE YOU GET WHAT YOU PAY FOR. TURKEYS, GEESSE, DUCKS and CHICKENS at the RIGHT PRICE.

EX-CONVICT AGAIN IN TOILS OF LAW

George Williams, recently released from the state penitentiary was arrested at Five Points by Officer Rackham yesterday afternoon on the charge of stealing an overcoat belonging to John White. The overcoat, which had been left in a saloon, was donned by Williams and he was disappearing through a side door when discovered.

After a brief chase the man was caught and held in custody until the arrival of the officer. Williams' pal also believed to be an ex-convict escaped by running across a field. While coming into the city on the street car Williams made three attempts to escape.

TOMMY RYAN REFUSES TO SECOND BAT NELSON.
SYRACUSE, N. Y., Nov. 21.—"I am in great shape," wired Battling Nelson to Tommy Ryan today in asking the retired middleweight champion to be his chief second against Owen Moran in San Francisco next Saturday.

CHOIR WILL SING IRRIGATION ODE

Movement Started to Send Musical Organization to Big Land Show.

Salt Lake Nov. 22.—Plans are already under way for the government's display of dry farm and irrigated land products at the American Land and Irrigation exposition, which will be held in Madison Square Garden, New York City, November 3 to 13, next year.

Gilbert McClurg who managed the national irrigation congress meeting in Ogden a few years ago, writes that he is in correspondence with F. J. Kiesel of Ogden, now in Baden Baden, Germany. A. E. Heywood, president of the Weber club in Ogden, Governor William Spry and John Henry Smith, who are members of the executive committee of the exposition relative to taking the Tabernacle choir either of Salt Lake or Ogden to the exposition.

Mr. McClurg explains in his letter that not only would this move be of wonderful benefit to Utah from the standpoint of an advertisement, but that concert engagements could be easily arranged which would more than defray the expense of the trip.

In the event either of the choirs is taken to the exposition, it will be for the primary purpose of rendering the National Irrigation ode at each day's session. This ode was written by Professor J. J. McClellan and has been sung by the Ogden choir at several of the annual congresses and also by the Salt Lake choir. The exposition offers so definite contributions toward defraying the expenses of the trip.

The matter of arranging for space for the Utah exhibit will be taken up by the board of governors of the Commercial club at its next meeting and arrangements will be made for conferences with other organizations in the states which are interested in the project.

Mr. McClurg states in his letter that on a recent visit to Washington, he was told by Secretary of Agriculture Wilson and Secretary of the Interior Ballinger that the government is contemplating an extensive exhibit of dry farm and irrigation land products which will be separate from the exhibit sent by the state.

LAD IS SHOT BY PLAYMATE

Bullet From Rifle in Hands of Alfred Martin Strikes Herbert Lofthouse.

Salt Lake, Nov. 22.—Herbert William Lofthouse, 5 years old, son of Herbert Lofthouse, employed as a furnace man at the Oregon Short Line depot, 507 North Thirteenth West street, was accidentally shot by a playmate, Alfred Martin, 14 years old, a messenger employed by the Postal Telegraph company, about 2 o'clock Monday afternoon.

The bullet from a .22 calibre rifle belonging to another playmate, Paul Bernie, 11 years old, entered the

left side of the boy's chest, just below the arm, plowed its way through the abdomen and lodged in the fleshy part of the leg. The missile was removed at the German-American hospital a short time after the accident by Dr. J. H. Robinson. Young Lofthouse was in a critical condition at the hospital most of Monday night, but early this (Tuesday) morning was reported to be resting easy and slightly improved.

Tells of Shooting.
The accident occurred at the home of young Bernie, 501 North Thirteenth West street, while a crowd of children was playing in an old woodshed. Martin, who had the rifle in his hands when it was discharged, gives the following account of the shooting:

"We were all playing in the woodshed. I wanted to try the little gun, so I put a cartridge in it and started outdoors to shoot. I had taken about one step when the rifle went off. I guess I had pulled the trigger by mistake. Some of the little boys were crowding around me at the time. They wanted to have the cartridge after the gun had been fired. Herbert must have been going out of the door in front of me or a little to the side.

"When I saw what had happened I picked the little boy up in my arms and carried him to his home and put him in his mother's arms."

Taken to Police Station.
The Martin boy and young Bernie were taken to the police station by Motorcycle Policeman Dan Grundvig and were severely questioned as to the shooting by Captain of Detectives Riley M. Beckstead. The boys convinced the officers that the shooting was purely accidental and were not held.

"Why, I just can't go to jail," exclaimed the boy. "Mother and sister couldn't get along without me."

Bernie, who owns the rifle, confessed to having shot a playmate accidentally at Park City five years ago, just before his family moved to Salt Lake city. He said his mother died when he was a baby and since his mother died he had done about

LOOKING FOR NEW ROAD.

Salt Lake, Nov. 22.—J. M. Galley of Milford, division foreman of the San Pedro railroad, spent Monday in the city, a guest of the Cullen, where his family had been stopping for the last ten days. Mr. Galley says that great hopes are entertained that a new railroad will shortly be started, to run from Milford to Beaver via Minersville, south of Parowan, on the Cedar City, and thence south to St. George, from which point, the road, it is said, will be continued to Kingman, Arizona, on the Santa Fe line.

"How much meat there is in this story I am unable to say," said Mr. Galley, "except that preliminary surveys are being made along a portion of the route above described. This road, if it ever is built, will tap the largest iron deposits on this continent and the richest and most extensive coal veins in the west."

GIRLS RIDE WITH THE ENGLISH AVIATOR

Philadelphia, Nov. 22.—Miss Eleanor Sears of Boston and Miss Violet Ridgway, well known in society here, in New York, were passengers with Claude Grahame-White in his Farman biplane in flights yesterday at the meeting of the Aero Club of Pennsylvania.

Clifford Harmon, the amateur flyer, also made his first flights here. Mr. Harmon took up Samuel King, the veteran balloonist, for a short flight. Grahame-White made a trip to League Island in his biplane and defeated an automobile driven by Harvey Ringler in a four-mile race, covering the distance in seven minutes and 46 seconds.

YOUNG MOTHERS

The greatest crisis in a woman's life is when first she becomes a mother. All the physical strength of her nature is demanded at such times, and it is necessary that her system be thoroughly prepared for the event, in order that her health be preserved for future years. Mother's Friend is a medicine for external use, composed of oils and tendons for the unusual strain, aids in expanding the skin and flesh fibres, and strengthens all the membranes and tissues. Mother's Friend lessens the pain

MOTHER'S FRIEND

BRADFIELD REGULATOR CO., Atlanta, Ga.

PERFECTION

SMOKELESS OIL HEATER

Absolutely smokeless and odorless

Is often a necessity. It is safe, smokeless and odorless. Apply a match, and it gives heat quickly. With four quarts of oil it burns nine hours. Has automatic-locking flame spreader, which prevents the wick from being turned high enough to smoke, and is easy to remove and drop back so that the wick can be cleaned in an instant.

It has a cool handle and a damper top. In an indicator always shows the amount of oil in the font. The filter-cap it is put in a cork in a bottle, and is attached to the font by a chain.

The burner body or gallery cannot become wedged, because of a new device in construction, and consequently, it can always be easily unscrewed in an instant for reworking.

The Perfection Oil Heater is finished in Japan or nickel. It is strong, durable, well made, built for service, yet light and ornamental.

Dealers Everywhere. If not of your own city, write for descriptive circular to the nearest agency of the

Continental Oil Company

(Incorporated)
