Several friends of D. E. Reese, the talented tenor singer from Provo, were in the city last evening to attend the final production of the opera "Erminie" by the Ogden High School Opera company.

State Teachers' convention, Salt Lake, round trip via Oregon Short Line, \$1.10. Tickets on sale Dec. 27th, 28th, 29th and 30th, good returning Jan. 9th. Try new FORTY-FIVE MINUTE FLYERS, leaving Ogden 8:30 a. m. and 5:45 p. m.

George H. Stead, Tremonton, is a visitor in the city.

Call Allen, phones 22, for carriages for funerals and opera. Private calls a specialty. Also prompt delivery of baggage. 412 25th.

J. W. Blackwood, of Evanston, is in the city on business.

WANTED—Clean white rags at the Standard.

J. Mohler was among the Salt Lake visitors in Ogden yesterday.

Advertisers must have their copy for the Evening Standard the evening before the day on which the advertisement is to appear in order to insure publication.

Charles Schoenmaker and wife, of Echo, are visiting friends in this city.

Phillip Mackenzie, of Provo, was an Ogden visitor yesterday.

R. G. Stewart, Milford, spent Monday with Ogden friends.

Deputy Sheriff Pugmeyer of Pocatello, Idaho, arrived on a late train last night to accompany Harry Ross back to the Idaho city for trial on the charge of forgery.

L. H. Bocratt and a party of hunters returned last evening from a duck hunting trip to Blue Creek.

(Continued on Page Seven.)

POLICE ARREST ALLEGED FORGER

After a search which has been going on for the past several weeks the police succeeded yesterday afternoon in arresting Harvey Ross, an Italian who is wanted at Pocatello, Idaho, for the alleged crime of forging checks.

It was believed at the time Ross fled from Pocatello that he had come to this city and a warrant for his arrest was forwarded to the local authorities. The Italian remained in hiding and eluded the police until yesterday afternoon when he was arrested by Officers Peterson and Burke as he came out of a Twenty-fifth street rooming house.

He is now locked up at the city jail and will be held pending the arrival of the Pocatello sheriff.

MARRIAGE OF JAP AND WHITE GIRL

RENO, Nev., Dec. 26.—Frowned upon by a justice of the peace, who said that he was opposed to the marrying of Japanese to American women, Miss Lillian A. Frederick, 22 years old, formerly of St. Louis, and H. H. Tackawa, a Japanese laundryman of San Francisco, were married here by Rev. W. S. Kelly of the First Methodist church.

The marriage was witnessed by members of the pastor's family. Rev. Brewster Adams of the Baptist church who was visiting Rev. Kelly at the time, refused to be a witness to the ceremony.

The pair met their first obstacle yesterday when they appeared at the office of County Clerk Fogg and requested a marriage license. Fogg refused to issue one until Tackawa consulted Attorney C. E. Mack. The lawyer called upon Fogg and informed him that there was no law in Nevada which prohibited such a marriage. Fogg issued the license.

With the license the couple hurried to the court room of Justice of the Peace Davis. Here their plans for an immediate wedding were upset. Magistrate Davis, who admitted that he knew of no law that prohibited him marrying the couple, declined to perform the ceremony.

Miss Frederick, according to the statement she made last night, for several years lived in St. Louis. Two or three weeks ago she left St. Louis, where she had been conducting a hotel, and went to San Francisco. There she met Tackawa.

Both are apparently possessed of money. Miss Frederick was dressed attractively and wore large diamond rings. Tackawa was also dressed well and wore as many diamonds as the woman.

Was the Real Carnegie.

There's a watchman on duty in the War, State and Navy building in Washington, says the People's Magazine, who resembles very closely Andrew Carnegie, and every morning Sergeant Curtis of the White House police force, has something to say to the watchman about Carnegie and Carnegie's money. One morning, just before the President left Washington for his summer vacation, Curtis saw the watchman going on his way to his post across the street, and sang out: "You blasted bondholder! Why don't you come across with some of the money you are hoarding up? There are plenty of people who need it, and I am one of them." "What's that?" asked the watchman, turning to Curtis very suddenly. It was then that Curtis, much abashed, saw he had been talking to the real Carnegie.

POULTRY FANCIERS GOING TO LOGAN

A number of poultry fanciers of this city are making preparations to exhibit their birds at the Cache County poultry show to be held at Logan, Jan. 18 to 23. It will be the third annual show of the Cache County association and present indications are that it will be a greater show than ever.

The two former shows have been great successes. A large number of birds have been shown, by many of which have been pen winners at the various shows of the state. The quality of the birds as well as the quantity has made the show of great interest not only to Cache Valley, but to other parts of the state.

Entry blanks and the premium list will be out in a few days and can then be procured from Secretary Alma Olsen of the association. The premium list of last year was a large one containing over 100 pages, and the one this year can be expected to eclipse that of last year.

Doctors Endorse

Newbro's Herpicide.

When a doctor endorses a preparation means more than an ordinary testimonial. His opinion is always that of the professional man devoted to the welfare of the people.

Dr. J. J. Boyd, Covington, Tenn., says: "I feel it my duty to write this for the benefit of those suffering from dandruff. In the average case a few applications of Newbro's Herpicide will remove all dandruff. It is advisable to continue its use for several weeks."

The words of J. B. Thompson, M. D., No. 10 Burrhead Place, Cor. Hollis St., Boston, Mass., are not less enthusiastic: "I can only speak in praise of Newbro's Herpicide. It is all that is claimed and perhaps more. Herpicide not only cleanses the scalp but brightens the hair, gives it life and makes it soft."

Dr. T. A. Moore, Duncan, Ariz., writes of his experience: "My scalp was in places covered by patches of dry, scaly material and the itching was incessant. Since using Herpicide all these evils have disappeared and my hair is soft, smooth and growing. Hair has grown on spots before but thinly covered."

Newbro's Herpicide is the original remedy to kill the dandruff germ and stop falling hair. The terrible itching which goes with dandruff is allayed almost at once.

Herpicide is for sale at Drug Stores and one dollar size bottles are guaranteed. Applications may be obtained at the leading barber shops. Be sure you get genuine Herpicide. Send the in postage for sample and book to the Herpicide Co., Dept. R., Detroit, Mich. THE BADCON PHARMACY, 2421 Washington avenue, Special Agents.

SANTA CLAUS LOST RED-TOPPED SHOE

Some little girl in Ogden is probably bemoaning the fact that Santa Claus did not bring her the pair of red-topped shoes which she had been wishing for. The reason lies in the unfortunate circumstance that the kind old gentleman lost one of the shoes on Twenty-fifth street as he was on his way to the little girl's home.

The pretty high-topped boot is now at the police headquarters and if the little owner will call on the sheriff she is the rightful owner of the footwear it will be turned over to her.

There is also at the police station a bunch of keys which were found at the corner of Twenty-fifth street and Washington. The owner of these may also recover his property by following the action of the shoe owner.

OGDEN SOCIALISTS CELEBRATE XMAS

The members of Ogden branch of Socialist party held their Christmas entertainment in Steinway hall last evening. There were more than 200 members of the party and their friends in attendance. Presiding as chairman of the meeting, William M. Wesley conducted the affair in a most engaging manner.

There was an excellent program the various numbers of which were as follows:

Reading—"While Shepherds Watch" Wylma Thomas.

Instrumental and vocal duet, Misses Lillian and Lottie Kinsey.

Reading—"I am Three Years Old," Loren Kinsey.

Reading—"An Appeal to Santa," Irene Werden.

Dialect in song—"I Have A Dolly," Lorma Christensen and Selma Thomas.

Reading—"Mrs. A. Werden," A Talk on Socialism, A Werden.

Reading—"The Raggedy Man," Mrs. P. D. Scherer.

Goodnight song—"Five little girls."

After the program an artistic Christmas tree was relieved of its burden and more than 100 sacks of candy were given out to the children.

THEATRE

"ERMINIE"

The farewell performance of the opera "Erminie" by the Ogden High School Opera company was given at the Ogden theater last night. The large crowd in attendance was convinced of the popularity of this pleasing musical production and also showed the appreciation which is felt by the people of this city for the meritorious efforts of home performers.

Those who were present last evening witnessed the best performance of the excellent comic opera. It was the sixth time the opera has been

presented and every member of the company profited by each successive performance. As stated by a newspaper in one of the neighboring cities where the opera was presented, the members of the "Erminie" company have progressed beyond the plane of amateurs.

Miss Maud Teisap has shown especial development in the role of Erminie and she was accorded the capable support of the others in the prominent roles. Miss Frances Van Buskirk has been exceptionally pleasing at every performance. Her portrayal of Marie in the performance last evening could scarcely be improved upon.

It must be conceded that the opera "Erminie" has proved the most successful home talent production ever attempted in Ogden and it is hoped that the marked success attained by the members of the company will be an incentive to further efforts along the same line.

DANDRUFF AND ITCHING SCALP YIELD TO THIS TREATMENT

Why experiment trying to drive the dandruff germ from underneath the skin with greasy lotions or fancy hair-dressing when druggists everywhere and in Ogden the BADCON PHARMACY will guarantee ZEMO and ZEMO soap to entirely rid the scalp of the germ life that causes the trouble.

ZEMO and ZEMO SOAP can be obtained in any city or town in America, and are recognized the best and most economical treatment for all affections of the skin or scalp whether on infant or grown person. One shampoo with ZEMO SOAP and application of ZEMO will stop itching and cleanse the scalp of dandruff and scurf. Application of ZEMO and use of ZEMO soap will cure the most delicate case of eczema or skin disease.

We invite you to try ZEMO and ZEMO SOAP and if not entirely satisfied we will refund your money.

SIMS MUST EXPLAIN HIS "LAST DROP OF BLOOD" SPEECH

WASHINGTON, Dec. 26.—When Commander William S. Sims, U.S.N., commanding the battleship Minnesota, flashed of the third division of the Atlantic fleet, made his "last drop of blood" speech in the Guildhall, London, following a dinner and reception to the rank and file of the American fleet by the lord mayor and the sheriffs of London, it is reasonably certain that he had no idea after that a hornet's nest that little after dinner talk was going to stir up. Naval officers, who quickly noted the rather undiplomatic phrasing of the effort, were just beginning to feel encouraged that it would go down in history as an officially unnoticed when rumblings began to be heard in Washington. It has been officially announced that the secretary of the navy had cabled to Commander Sims for a verbatim copy of the "last drop of blood" speech, many complaints about it having been made to the department. At least some of the complaints it was understood, came out of Germany. "Shades of 'Hoch der Kaiser'!" I wonder what Sims will do now," said a naval officer when he read the Washington dispatch telling about the demand. "Had that speech been made by any officer below the rank of captain in the Atlantic fleet except Sims it's dollars to doughnuts that no attention would have been paid to it, but coming from Sims, who despite his rank and youth is one of the best known officers in the service made it different."

Called for Glory Divine. Among the customers in the drug store conducted by George Eppler, Twentieth and Berks streets, one day last week, was a little girl, who is known to her playmates in that vicinity as "Peggy." As she stood waiting for her turn, it could be noticed that she was repeating something under her breath. In her effort to remember what her mother had sent her to buy.

"Mother wants five cents' worth of glory divine."

"Of what?" said the young clerk who was standing there as if stunned by a hard blow of a baseball bat.

"Glory divine, glory divine," came the reply in a louder voice than when she had made the original request.

"You had better go home and have your mother write it down on paper, little girl," said the clerk, feeling that the girl was too sure to argue with him.

Soon she returned, and handing the note to the clerk, he read: "Five cents' worth of glory divine of time." Philadelphia Times.

AMERICAN ENGINE IN A MONOPLANE

MINEOLA, L. I., Dec. 26.—Frank Schumacher, a mechanic employed by Walter L. Fairchild, a consulting engineer, today made six short straight-away flights in Mr. Fairchild's airplane. It is said to be the first time that an American monoplane run by an American engine has been aloft.

MAIL THIEVES RETURN LETTERS

Although an effort is being made by the authorities to keep any developments secret in connection with the search now being made by United States secret service men for the mail box thieves, it has become known that a package of letters which were of no use to the robbers have been returned to the local postoffice.

This action, it is claimed, has marked the end of the mail box thieves' thorough their long list of crimes, for the men who visited this city a few nights ago were undoubtedly the same who have been traced through several states. This act of consideration of the part of the clever crooks is unique to say the least.

It is a well-known fact that the thieves cannot make use of postoffice money orders, checks or drafts. Their loot consists of money sent in letters and parcels. If they find anything of value they appropriate the same but what they cannot use is tied up in street mail boxes.

After breaking the locks and making away with the contents of mail boxes the thieves open every letter and parcel. If they find anything of value they appropriate the same but what they cannot use is tied up in street mail boxes.

A package of opened letters and parcels, undoubtedly examined by the crooks, it is said, have been found in a mail box in this city on the morning following the robbery. This package was addressed to the postmaster at Ogden.

It is known that the secret service men, who visited this city are still on the trail of the mail box thieves and are working in connection with the police of various cities. As to the developments of the chase no information has been made public.

SOLDIER GETS TOO MUCH XMAS JOY

Suffering from the effects of too much Christmas joy in liquid form, Bernard G. Dunning, an army officer stationed at Fort Douglas, Salt Lake City, was brought in by a policeman last night. Dunning was found asleep in a restaurant.

The man was not beyond the possibility of conversation and stated that he was the first sergeant of Company D, Fifteenth Infantry. He left Salt Lake City yesterday morning and came to Ogden to visit a soldier friend. After calling on the friend he decided to celebrate.

Dunning was kept at the police station until this morning, when he was placed aboard a Salt Lake train.

ARCH HOXSEY ESTABLISHES ALTITUDE RECORD

WASHINGTON, Dec. 26.—When Commander William S. Sims, U.S.N., commanding the battleship Minnesota, flashed of the third division of the Atlantic fleet, made his "last drop of blood" speech in the Guildhall, London, following a dinner and reception to the rank and file of the American fleet by the lord mayor and the sheriffs of London, it is reasonably certain that he had no idea after that a hornet's nest that little after dinner talk was going to stir up. Naval officers, who quickly noted the rather undiplomatic phrasing of the effort, were just beginning to feel encouraged that it would go down in history as an officially unnoticed when rumblings began to be heard in Washington. It has been officially announced that the secretary of the navy had cabled to Commander Sims for a verbatim copy of the "last drop of blood" speech, many complaints about it having been made to the department. At least some of the complaints it was understood, came out of Germany. "Shades of 'Hoch der Kaiser'!" I wonder what Sims will do now," said a naval officer when he read the Washington dispatch telling about the demand. "Had that speech been made by any officer below the rank of captain in the Atlantic fleet except Sims it's dollars to doughnuts that no attention would have been paid to it, but coming from Sims, who despite his rank and youth is one of the best known officers in the service made it different."

During a Strong Gale. Hoxsey accomplished his feat in a gale of forty miles an hour, that wrecked Hubert Latham's monoplane and kept more cautious aviators on the ground.

Hoxsey sailed into the sky at 1 o'clock. At 2:45 his barograph showed the record height over Venice, a sea shore resort, more than twenty miles from the field. Coming down he made a series of thrilling spiral glides while thousands of feet in mid-air. Before he came lightly to earth the crowd was on its feet cheering. He was lifted from his plane by fellow aviators, who paraded up and down before the grandstand bearing the intrepid flyer on their shoulders. The crowds insisted on making a hero of Hoxsey. They did not give him time to doff his furs but marched him back and forth before the grandstand.

Terrific Gale in Air. "Was it windy up there?" he was asked.

"It blew so hard," replied Hoxsey, "that my machine hardly moved and barely held its own. It was so blamed cold that more than once I thought my carburetor was about to freeze."

"I made the record because I determined to keep on going up until I passed Legagneux's record if the carburetor did not freeze."

The gale which Hoxsey and his brethren of the Wright camp, Parmelee and Brookings, braved successfully, wrecked Latham's beautiful Antoinette machine completely.

The Frenchman was among the first aviators who answered the starting gun at 1 o'clock. For two hours and fifteen minutes he fought the wind which blew directly off the ocean, six miles from the aviation field. His plane downward, buried into a fence under the brow of the hill and threw the aviator into a gully.

The Frenchman was unhurt but his machine was a tangled mass of wire and splintered wood. The engine, the only part left intact, and Latham declared that having enough parts for three extra machines he would build a new monoplane and be in the air again before the end of the meet.

Parmelee, driver of the "Baby Wright," also dared the wind and attained an altitude of 6,625 feet. He electrified the crowd by a series of whirling dips, and then Walter Brook-

ins, originator of the spiral glide, went up.

At this time the wind had attained a velocity of forty miles an hour but the Wright manœuvre through performances apparently with as much ease as on the calmest day. Telegraphic particulars of the barograph reading of Hoxsey's flight were sent to Clifford R. Harmon, president of these National Federation of Aero Clubs of America.

While the wreck of his Antoinette monoplane was being carried by a score of men back to his hangar to-night Latham talked of the fall which might easily have caused his death.

Latham Talks of Accident. "When I got ready to descend, I found the wind was too strong. There was nothing for me to do but fly until a full wind permit me. I had been waiting for a full wind for a full more than two hours when my fuel ran too low for the motor to act properly and when a gust struck me I lost control. The monoplane fell and I tumbled out of, of course, but was not hurt."

Samuel Perkins gave his first exhibition of his man-carrying kites. He suspended a stool on the cable of kites, and drawing himself up with a tackle observed the aeroplane maneuvers from a height of about 250 feet for two and a half hours.

New Orleans Aviation Meet.

New Orleans, Dec. 26.—Vilh Roland Garros high above the field trying for altitude and Molsant, Simon and Hamilton chasing each other about the race course at the city park aviation field, four aeroplanes were in the air at noon today.

A feature of the afternoon was a five-mile monoplane and auto race which was won by Molsant.

Garros reached the highest altitude of the day, 6,100 feet, while the fastest mile was made by Molsant, in one minute three and four-fifths seconds. Hamilton had engine trouble again today.

SHAVED DURING A SERMON

Old General McClellan Didn't Want to Hear It, So He Went to the Barber's.

"The last Democratic attorney general of the state of Maine, old General McClellan," the old resident said, "once lived here in Kansas City. He came west just after the Republicans had gained control of the state, which disgusted him with affairs in New England."

"The general was a religious man, but he preferred his own method of worship to that of any church."

"But in spite of his pet aversion his wife persuaded him to accompany her one Sunday morning to hear a preacher who at that time was noted in Kansas City for his vociferous oratory."

The McClellans had a pew close to the front of the church, and as the general strode down the aisle his long, snow white beard flowing far down on his chest, he made a most imposing figure. The preacher ascended the pulpit, read a verse from the Bible and uttered the first words of his sermon.

"But he had progressed only a little way when he paused in dismay. The old general, realizing that the part of the service which he most disliked—the preaching—had begun, picked up his hat, walked down the aisle with a stride as imposing as that with which he had entered, and left the church."

"After a pause the preacher continued with a rather frenzied address. He finished with an imposing, well-rounded sentence. The organist began to play, when—back into the church stalked General McClellan, but without his beard! He had made use of his time to have his face clean shaven, a change that he had been contemplating for some time."—Kansas City Times.

MOST ATTRACTIVE AFTER 30

Women Who Have Passed That Age Without Becoming Sour Are Liked by Men.

Some men have said—and many have echoed his sentiment—that the most attractive woman in the world is an unmarried, good-looking woman between 30 and 40—providing her spinsterhood has not soured her disposition. A woman at that age has usually acquired a certain poise, has kept her person exquisitely groomed and her wits sharpened. Care of the household has not deterred her from keeping up to date in plays and books and music, and even though she may be a bread winner, she is more likely to have found time to acquire some accomplishments which will make her sought after; occasionally she even has that rare one of being a good listener—and every man will agree with me that that, of all feminine accomplishments, is quite the most charming.

The man has never seen her with her hair coaxed into "natural waves" or pouring the coffee in a soiled dressing gown, but naturally sees only her best side. She, too, has another side—but what does it matter since only she herself knows it?

When a maid arrives at the age of twenty-five, from then until forty let her buckle on her strongest armor and take up her spear well sharpened for the fray. She will need them, for it is during that in-between period that she is most dangerously attractive to men, especially to married men.

—Philippa Lyman, in Smart Set.

Weighting the Mayor. A mayor, particularly an English mayor, is traditionally a man of weight and substance, but there is only one municipality that insists that his honor should be measured in pounds and ounces. Of the thousands of quaint and curious customs surviving in "the old country" this is, perhaps, one of the most odd.

The mayor of High Wycombe has to be weighed on November 9 of each year—inauguration day—and this custom has been observed for about six centuries. The mayor-elect walks at the head of a procession consisting of the councilors, the heads of the mace bearers. He is clad in cocked hat, stockings, blue coat and knee breeches. Upon reaching the town hall, the mayor is placed upon the scales by the head constable, and a record of his avoirdupois is solemnly made in a book kept for this purpose.

—Harper's Weekly.

TURKEY SUPPER FOR POLICEMEN

The members of the Ogden police department received a very substantial Christmas gift Sunday night in the form of a turkey supper. The dinner was given by W. J. Wolfinger, proprietor of the Mexican Chili parlor at 268 Twenty-fifth street. The feast at 268 Twenty-fifth street but all the other viands which go to make up a complete Christmas repast.

On account of their duties the officers were forced to dine in the same manner in which they work—in three different shifts. The food was gratefully toward Mr. Wolfinger for his expression of good will. The officers also extend their sincere thanks to all individuals and firms who remembered them so generously at Christmas time.

UNKNOWN NEGLECTS HORSE FOR 10 HOURS

A horse which had been left standing at the rear of Ballard's meat market between Grant and Hudson avenues on Twenty-fourth street since 11 o'clock yesterday morning, was taken in by the police last evening and at a late hour the owner had not put in an appearance to claim his property.

When found the horse had both front legs entangled in a barbed wire fence and it is remarkable that the animal was not seriously injured. In the buggy was found a jug of whiskey and a pint bottle of the same goods, indicating that the owner of the outfit was probably suffering from the influence of another supply of the same liquid.

A charge may be placed against the owner of the horse when he shows up to claim his property.

MONEY FOR THE UTAH PROJECTS

WASHINGTON, Dec. 26.—President Taft has approved the report of the special board of army engineers recommending the appropriation of the new \$20,000,000 fund, provided by congress among the following reclamation projects in the west:

Strawberry Valley in the List. Salt River, Arizona, \$495,000; Yuma, Ariz., and California, \$1,200,000; Grand Valley, Colo., \$1,000,000; Cimarron, Colo., \$1,500,000; Payette, Boise, Idaho, \$2,000,000; Milk river, Mont., \$1,000,000; North Platte, Wyo., and Neb., \$2,000,000; Truckee, Carson, Nev., \$1,193,000; Rio Grande, N. M., Texas and Mexico, \$1,500,000; Umatilla, Ore., \$325,000; Klamath, Ore., and Calif., \$600,000; Strawberry Valley, Utah, \$2,272,000; Sunnyside and Lileton, at Yakima, Wash., \$1,250,000 and \$665,000, respectively.

The \$20,000,000 is to be spent within the next five years and the interest on the loan is to be charged against the projects. The following projects, completed or near completion carry a recommendation of the board of engineers, the board of reclamation, and the general reclamation fund, are sufficient only for maintenance and operation.

Orland, Calif.; Carsbad, N. M.; Honda, N. M.; Garden City, Kan.; Kittitas, Wapata, and Benton Units of the Yakima, Washington project.

Missouri Pampling, N. D.; Balfour, S. D.; Shoshone, Wyo.; Mindoka, Idaho; Huntley, Mont.; Sun River, Mont.; Lower Yellowstone, Mont.; Okanagan, Wash.

President's Letter to Secretary. His letter to the secretary of the interior approving the report of the engineers, President Taft says in part:

"I hereby approve the report of the board of engineers in respect to the reclamation projects, to which they have made allotments from the \$20,000,000 fund; but this approval so far as the amounts of the allotments are concerned, is not final and absolute but is intended to be subject to change by adjustment and modification of the amounts as may be necessary for the intelligent and proper accomplishment of the work and to the advantage of the service."

To Call Upon Treasurer. "You are authorized to call upon the secretary of the treasury to issue the certificates of indebtedness needed to furnish the funds in accordance with the allotment recommended by the board and approved by me as the same shall be needed from time to time in pursuance of the terms of the act."

"The remainder of the report of the engineers, which was not responsive to the direction of the law but was drawn up in haste and for information, I hereby approve, and when congress reconvenes in January I shall submit a message to the two houses, transmitting the report and announcing my approval of the same and during the adoption of the enabling legislative measures recommended by the board."

Report of the Engineers. In its comprehensive report on the reclamation work in general, the engineers' board says in part:

"The engineering structures of the various projects are as a whole, well designed and well built. Some of them, as the Pathfinder dam, the Shoshone dam, the Roosevelt dam, and the Garrison tunnel, are monuments reflecting credit on both designer and builder."

"Modern irrigation being a relatively new art in this country, much freedom was allowed the local engineers in the design of minor structures. While this was a wise policy in the early stage of the work, it has resulted in some complicated and unnecessarily expensive structures. The present knowledge of the comparative merits of the different types, it is believed that standard designs of the simplest, satisfactory type should be adopted for all minor structures."

"The most uncertain feature of nearly all the projects is the water supply. This being under state control the status of the reclamation service bears
