

## LOVE STORY OF OLD MAN

Spaniard Searching For  
a Woman Who Be-  
came a Nun

Los Angeles, Cal., Dec. 29.—Juan Gacias, who says he once served on the body guard of King Alfonso XII of Spain, was in the county jail yesterday for a crime made by his own hands and told of years of searching through the American-Latin republics for the lady of his heart from whom he was separated forty years ago.

Gacias, 65 years old, in the tattered garb of a hermit and with feet clad in rude sandals, arrived in Long Beach during the morning. Even here, where a Spanish patrol is spoken, Gacias had trouble finding any one who could understand him, because his Castilian Spanish was so pure. His general appearance led to his being arrested on the charge of vagrancy. After having been sentenced to serve thirty days in the chain gang here he told his story through an interpreter.

He says that, because of his attentions to a woman of the Spanish court, he was exiled. Later he returned, only to be cast into jail, where he remained until the breaking out of the Spanish-American war. He was then permitted to show his fealty to his country by enlisting as a soldier in Cuba. Upon his return from exile he heard that Teresa Peralta, the woman who had enchanted his affections, had been forced to take the veil, and had become a nun in America.

At the conclusion of the war, Gacias says, he decided to seek her and he visited nearly all the convents in South and Central America and the monasteries in Mexico. He was disappointed in finding her, and believes she is a Mother Teresa, said to be connected with one of the missions north of here.

## BEATEN BY FIVE MEN

Deputy Sheriff Held a  
Prisoner For Four-  
teen Hours

Sedalia, Mo., Dec. 29.—Charles E. Herndon, deputy sheriff of Saline county, escaped from a rooming house here last night where he had been held a prisoner for fourteen hours by five men who had beaten and robbed him of a draft for \$1,000. His skull was fractured and his condition is dangerous.

Herndon, who came to Sedalia to buy cattle, was attacked by the men and carried to the room. He escaped when his captors left him unguarded for a few minutes. The police have been unable to find the men.

## SYSTEM PROPOSED FOR SEISMOGRAPH STATION.

Washington, Dec. 29.—A plan for a comprehensive system of earthquake observations at weather stations through installation of seismographs at ten to twenty stations has been urged on congress by Chief Willis L. Moore, of the weather bureau. There is already such an instrument at the bureau office at Washington, and from another source, backed by scientific bodies, a movement has sprung up for the creation of a seismographic bureau, at a cost of about \$200,000, together with a proposal for a seismographic laboratory at the Smithsonian institute.

Professor Moore has advised the house committee on agriculture that it congress will authorize him to place these instruments in San Francisco and other of his stations, the government need for seismographic data can be met by the weather bureau observers, with almost no expense, as against the inauguration of an elaborate seismographic bureau at great expense. He says it would not cost the weather stations men and observers being already under employ. Professor Moore contends that every constructing engineer wants to know from what direction quake waves come, so that he can make his buildings earthquake proof.

## MAN REFUSES TO PAY THE ALIMONY.

San Francisco, Dec. 29.—William Stark, a saloonkeeper, has spent nearly a year in jail rather than pay alimony. He was committed January 29, 1910, for failure to pay his divorced wife \$100.

"I will not here before I pay alimony," Stark declared yesterday to a committee of the grand jury that visited the jail.

## BLED TO DEATH.

Lynn, Mass., Dec. 29.—William H. Troon, president of the Lynn board of trade, is dead at his home here, although his wife gave her blood in an effort to save him. He suffered from a series of nasal hemorrhages which weakened his system to such an extent that the transfusion was advised. It failed to prolong his life, however.

## HEAVY LAND-TAKINGS: SALT LAKERS AT LAKE.

Theodore, Dec. 28.—Civil Engineer R. E. Caldwell of the firm of Cald-

well & Richards has returned to his home in Salt Lake City after a week's surveying of a tract of 10,500 acres bought at the recent government land sale by a group of twenty Salt Lake citizens. The land lies between Cottonwood and Antelope creeks, respectively four and eight miles east of Theodora, and was located and purchased through Representative Rock M. Pope, whose home is in this town. It is directly south of the far-famed Blue Bench, only the Duchesne river with its valley, here about two miles wide, intervening. Two-thirds of the tract is good agricultural land, but was never filled upon by homesteaders because of the great cost of irrigation as compared with nearly all of the other benches in the former Utah Indian reservation. Several hundred acres, in scattered fractions, lie below the Gray mountain (Indian) and the Lott ditch, which is now building. Engineer Caldwell's survey, just completed, was merely to establish the boundaries and ascertain the approximate number of irrigable acres. It is understood that he will shortly return and locate the most feasible route for a canal to irrigate the entire tract.

## SEC. KNOX IS WARLIKE

He Is in Favor of a  
Bloodless War  
With Japan

Washington, Dec. 29.—Secretary of State Knox was in a warlike mood today. Following a visit to the White House, he declared he was in favor of taking Japan on first for three fast rounds of the bloodiest kind of fighting. The secretary had had a long talk with the President. He seemed hardly prepared for the onslaught of the reporters as he reached the executive office door.

"Do you favor a war with Japan?" he was asked.

"I do favor it," he replied, "provided, however, that there are no soldiers on either side except newspaper reporters."

"Have you any particular favorites in the profession you would like to put in the front rank?" some one asked.

"No," said the secretary. "I am not playing favorites. Put them all in the front rank. Leave them all there."

"Why did the state department suppress the report of an attack on Vice Consul Williamson by two Japanese and a Chinaman in Manchuria," asked a particularly brave young man.

"All I know about that," answered the secretary, "is what I read in the papers this month."

## LACKED COURAGE TO KILL HIMSELF

New York, Dec. 29.—Dominic Brandt, a laborer, decided last night that he wished to live no longer. So he took a seven-shot .22 calibre revolver from his pocket and pointed it at his head and pulled the trigger. But as he fired he changed his mind and ducked. The bullet passed over his head.

Still resolved to die, he fired again, but the bullet missed his head. He was stronger yet and he ducked again. The bullet furrowed his scalp.

Surprised to find himself still alive, he aimed the next bullet at his head, and a third time ducked involuntarily. When Policeman Meade found him, he was looking at the revolver with a puzzled air.

"What's the matter with you, anyway?" asked Meade.

"I was crazed in the head," answered Brandt.

At Bellevue hospital it will require a period of observation to determine if his diagnosis is correct.

## HUNTING FOR THE OWNER OF AUTO

New York, Dec. 29.—The police are today searching for the owner of a heavy automobile which last night ran wild with a chauffeur down Fifth avenue and in three blocks, upset a wagon, pushed a touring car to the sidewalk, broke an electric pole, injured pedestrians, narrowly missed several other automobiles and ended by trying to climb the wall around Central park.

What started the machine and what became of the chauffeur are a mystery. The police ran the truck to a station house, where it is held for its owner.

## MEMORIAL OF THE IROQUOIS FIRE.

Chicago, Dec. 29.—The new emergency hospital building erected by the Iroquois Memorial association at 87 Market street, in memory of the 600 persons who lost their lives in the Iroquois theater fire, December 30, 1903, will be presented to the city of Chicago tomorrow, which is the seventh anniversary of that disaster.

The building is said to be the finest and most complete of fireproof construction, four stories and basement, and containing twenty rooms.

## DENSITY OF POPULATION

Rhode Island Is at the  
Head of the List and  
Nevada at Bottom

Washington, Dec. 29.—Rhode Island has 503.5 persons to the square mile, thus, according to census figures, leading the list of states in the matter of density of population. Nevada, with only seven-tenths of a person to the mile, finds a place at the lower end of the table giving these facts.

Second in the density list, Massachusetts supports 418.8 persons to the square mile; New Jersey, 337.7; Connecticut, 331.3 and New York, 191.2. The other states possessing more than 100 to the mile are: Pennsylvania, 171; Maryland, 129.3; Ohio, 117; Delaware, 105, and Illinois, 100.7.

Wyoming, boasting 1.1 persons to the mile, more than doubles Nevada, while Arizona with 1.8 stands third from the bottom.

Montana, New Mexico, Idaho, Utah, Oregon, South Dakota, Colorado and North Dakota all have fewer persons than ten to the mile.

Of the states of large population, Washington takes the lead in the growth of density, having advanced from 7.8 to 17.1 per square mile in the last ten years, thus taking a place between Kansas with 10.5 and Nebraska with 15.5. Washington exceeds her neighbor Oregon with seven persons to the mile, by more than ten and even surpasses California with 18.2.

Idaho increased from 1.9 to 3.9 and Oklahoma from 1.4 to 2.9. The figures for other states are: Indiana, 75.3; Kentucky, 37.0; Michigan, 48.9; Missouri, 47.9; New Hampshire, 47.7; North Carolina, 45.3; Georgia, 44.4; Wisconsin, 42.2; Alabama, 41.7; Iowa, 40; Vermont, 39; Mississippi, 38.8; Louisiana, 36.5; Arkansas, 39; Minnesota, 25.7; Maine, 24.8; Texas, 14.8 and Florida, 12.7.

## CALLING FOR MORE MEN

Reinforcements Neces-  
sary to Save a Mex-  
ican Town

El Paso, Texas, Dec. 29.—It became known here last night that Jose P. Martinez of Casas Grandes, had sent a message to Governor Terrell stating that Guerrero, commander of the northern insurgents, had demanded the surrender of the town and urging that reinforcements be sent at the earliest possible moment. Reports that the town had fallen last night cannot be verified on account of the wires being cut.

## REVOLUTION IS ON IN HONDURAS

New Orleans, Dec. 29.—Reports here late last night say that a revolution has broken out in Honduras and that fighting is going on along the Honduras-Nicaragua border, twenty miles below Cape Gracias, Nicaragua.

The forces are being led, according to the wireless reports, by General Leo Christinas, who was to have met 1,000 men, many of them Americans, on the Nicaragua border, with forty days' provisions. It is known that the Davila government moved \$5,000 in silver from Puerto Cortes to Ceiba, and the latter city is believed to be the objective point of the advancing revolutionists.

The reports indicate that the greater part of the fighting is about twenty miles from Cape Gracias, Nicaragua, but on the Honduras side.

It is understood that the planned attack is for Christmas to force his way inland, while General Bonilla attacks Ceiba from the Puerto Cortes side, leaving the Hornet, which is said to be heavily armed now, at Puerto Cortes, while that port is held under her guns.

## W. F. WENTWORTH DEAD.

In 1867 he organized the old "White Stockings" baseball team and just before the Chicago fire Mr. Wentworth produced at the Crosby opera house the first grand opera ever given in this city.

## CHILDREN OF SCHOOLS PROTECTED FROM FIRE.

New York, Dec. 29.—According to the report of the superintendent of school buildings, the pupils of the 612 schools in New York city are better protected against fire than the school children of any other city in the world.

In view of testimony recently given

by fire insurance men to the effect that New York constantly faces the danger of a disastrous conflagration, a report concerning the present protection afforded for the schools was asked. The report of experts is that everything has been done to live up to the strict regulations which were drawn up by the board of education following the fire in a Collingwood, Ohio, school three years ago, in which many children lost their lives. Since that time every school house has been remodeled and the pupils have been put through fire drills regularly.

## ANNAPOLIS FIRE.

Annapolis, Md., Dec. 29.—Fire, supposedly of incendiary origin, broke out at 1:30 o'clock this morning in a vacant building formerly occupied by a plumbing firm. The flames were communicated to an adjoining building occupied by the Howard Plumbing company, and thence to the grocery of W. H. Moore & Co. in rooms above were the quarters of the Y. M. C. A. All the buildings were frame and burned rapidly. The loss is estimated at about \$25,000.

## KIDNAPER IDENTIFIED

Six-Year-Old Boy Points  
Out the Man Who  
Took Him

New York, Dec. 29.—Giacomo Crimi, a 27-year-old Italian, is in a cell at police headquarters awaiting further examination on a kidnapping charge. He was one of seventeen prisoners taken by men under command of Lieut. Vachris of the Italian squad in a raid last night, on an Elizabeth street grocery, where the detectives were informed they might be able to round up some other kidnapers.

Within a short time after the raid, six-year-old Giuseppe Di Stefano picked Crimi out of the line of prisoners as the man who kidnaped him from the home of his parents on Elizabeth street.

The child, who was returned to his home in a carriage a week after his capture, could not identify any of the other prisoners. Giacomo Crimi's brother, Giuseppe, whom the police desired to question further in pursuing their investigations today, was also detained.

## STRANGE CASE OF A YOUNG BOY

DOUGLAS, Ariz., Dec. 29.—A puzzle to the court of justice and the immigration officials here is the case of a boy about 17 years old arrested on a charge of stealing money from a locker of the Copper Queen smelter.

The defendant is supposed to be Corrado Molino, cannot read or write, and is a deaf mute. He is apparently an Indian-Mexican from Honduras and knows only the most primitive signs indicating the need of food and sleep. All efforts have failed to make him understand the charge against him.

Judge Rice, before whom he appeared, entered a plea of not guilty and then, for lack of any law governing the case, discharged the prisoner who was then turned over to the immigration authorities here. Now these officers cannot prove the prisoner is an alien, so he is on their hands awaiting instructions from Washington.

## CLOSING OF MANY NEW YORK BANKS

New York, Dec. 29.—Following the closing of the Northern Bank of New York and its nine branches on Tuesday, the state banking department today assumed temporary charge of the Washington Savings bank, pending investigation into its condition.

A construction gang, working from Pearson north, is reported to have been turned back and the telegraph wires cut.

## WHITE GIRL A PRISONER

Held by Japanese in  
a House in Seattle,  
Washington

Seattle, Wash., Dec. 29.—May Harris, an 18-year-old white girl, who was rescued from Japanese captors Christmas day, was committed to the state hospital for the insane at St. Elmo by a lunacy commission in the superior court yesterday.

The girl had disappeared several months ago and had been held a prisoner in a hotel in the Japanese quarter. On Christmas morning she managed to reach a telephone and implored the police to come to her rescue. The police searched the building three times and at last broke down the door of a small back room, where they found her in a helpless condition.

The girl told the examining physician yesterday that she had been given drugs and "sake" by the Japanese and had been beaten when she became rebellious.

## WORLD'S MARKETS

HARRIMAN AND OTHER  
STOCKS ARE STRONGER

New York, Dec. 29.—The feature of the opening of the stock market was the strength of Canadian Pacific and Southern Railway, pfd., which gained 1 3/4 and 1 1/4 respectively. In the active list gains of substantial fractions to a point were the rule. Some heaviness was shown in United States Steel at the opening, but that stock recovered its loss.

Sentiment became more cheerful when the market failed to make its usual downward dip following the opening and there was a well distributed demand for stocks which was reflected in higher prices all around.

The broad and comprehensive advance in the market was well maintained throughout the morning session on a small volume of business, the movement being mainly restricted to the movement of short coverings. The coals, Hariman and other issues in the same class were well taken at rising prices.

Bonds were irregular.

Provo, Dec. 28.—Sheriff Judd of Utah county has received word from the St. Louis officers that Richard L. Henry, who was arrested in St. Louis a few days ago for robbing mail bags

and who afterwards confessed to robbing the Springfield postoffice October 19, is on his way to Utah in charge of a postoffice inspector, to be taken here for the Springfield postoffice robbery, and his companion, Frank Wallace, has been taken to Texas to be tried there for a similar offense. A strange feature of the case is that no one here, or at Springfield, knew of the postoffice being robbed, or if any one did know of the robbery they have kept the matter quiet. The local officers, however, say they know of the railroad depots at Spanish Fork and Springfield being burglarized about September 19 of this year and think probably Henry and Wallace may have done that.

Progress is unusually slow from the fact that every bit of the slag must be removed from the tunnel in which he has been pinned under a mass of the slag for nearly 18 hours, but it able to talk with his rescuers.

Six is the total of the death list in yesterday's explosion when the acetylene discharge of nearly 4,000 pounds of powder buried a score of workmen engaged in burrowing into the huge pile of slag to secure material for railroad ballast. Four bodies still remain in the dump.
